**RE:** To authorize the special use of the property known as 2006 Carver Street for the purpose of two single-family attached dwellings, upon certain terms and conditions.

**ORD. OR RES. No.**

**PURPOSE:** To authorize the special use of the property known as 2006 Carver Street for the purpose of two single-family attached dwellings, upon certain terms and conditions.

**REASON:** The applicant, the Maggie L. Walker Community Land Trust, is proposing to construct two single-family attached dwellings on lots created from a proposed lot split. Such a use is not permitted in the underlying R-5 Single-Family Residential District. A Special Use Permit is therefore required.

**RECOMMENDATION:** In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its May 17, 2021 meeting.

**BACKGROUND:** The subject property consists of a vacant parcel 7,971 SF, or .18 acres in area, located on Carver Street between North 20<sup>th</sup> and 21<sup>st</sup> Streets. The property is a part of the Eastview neighborhood.

The City’s Richmond 300 Master Plan designates the subject property for Neighborhood Mixed Use which is viewed as “...highly-walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses.” These areas feature a variety of building types that are close to one another and create a unified street wall. The building size, density, and zoning districts for these areas vary depending on historical densities and neighborhood characteristics. Future development should generally complement existing context. Setbacks, plazas, and parks create a sense of place and community gathering areas. New developments on larger parcels continue or introduce a gridded street pattern to increase connectivity within the neighborhood and to adjacent neighborhoods. In historic neighborhoods, small-scale commercial uses exist today or should be allowed to reestablish. In new neighborhoods, small scale commercial buildings should be introduced. Regardless of use, buildings should

engage the street with features such as street oriented façades with windows and door openings along street frontages. Appropriate setbacks, open space, front porches, elevated ground floors, and other features that provide a sense of privacy should be provided for residential uses. Pedestrian, bicycle, and transit access are prioritized and accommodated. Bike parking is provided. New driveways are prohibited on Priority and Principal Street frontages. Vehicular access to parcels should use alleys wherever possible. Parking areas should be located to the rear of street-facing buildings. Intensity: Building heights are generally two to four stories. Buildings taller than four stories may be found along major streets (see Street Typologies Map). Parcels are generally between 1,500 and 5,000 sq. ft.

Primary Uses: Single-family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units), and open space.

Secondary Uses: Large multifamily buildings (10+units), retail/office/personal service, institutional, cultural, and government. (p. 56)

All surrounding properties are in the same R-5 District as the subject properties.
