RE: To authorize the special use of the property known as 2117 Fairfax Avenue for the purpose of two two-family detached dwellings and one single-family detached dwelling, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 2117 Fairfax Avenue for the purpose of two two-family detached dwellings and one single-family detached dwelling, upon certain terms and conditions.

REASON: The applicant is requesting subdivide the existing single lot, which is improved with a two-family dwelling, into three lots in order to construct one new two-family detached dwelling and one new single-family detached dwelling on the two new lots. The existing two-family dwelling is proposed to be retained. The proposed two-family dwelling is not a permitted use in the R-5 Single-Family Residential District. The three proposed lots do not meet the lot area and lot width requirements of the R-5 Single-Family Residential District. Off-street parking, yard, and height requirements would be met with the proposal.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its February 7, 2022 meeting.

BACKGROUND: The subject property consists a parcel containing a lot area of 14,157 square feet (0.325 acres) and is currently improved with one two-story two-family detached dwelling that has a floor area of approximately 2,400 square feet. The property is located in the Oak Grove neighborhood at the northeast corner of Fairfax Avenue and East 22nd Street.

The subject property is located within the R-5 Single-Family Residential District. The proposed new two-family dwelling is not a use permitted in the R-5 District, and each of the three proposed lots do not meet the lot area or lot width for single-family dwellings in the R-5 District.

Richmond 300 recommends a future land use of “Residential” for the property. The primary uses recommended for Residential are single-family homes, accessory dwelling units and open space. Secondary uses include duplexes and small multi-family buildings (3-10 units), institutional and cultural uses. These uses should typically be located on major streets. The development style for Residential is houses on medium or large sized lots with homes setback from the street. Future development should continue or introduce a gridded pattern of development and new buildings should be built to a scale and design that is consistent with existing buildings. Buildings are generally one to three stories, with lots generally ranging up to 5,000 SF to 20,000 SF. General density should be 2-10 units per acre.

The property is located one-tenth of a mile from a high frequency (every 15 minutes on weekdays and Saturdays) GRTC bus line.

The predominant land use in the vicinity is single-family dwellings, however there are two other two-family detached dwellings located within the block of the subject property.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.
