RE: To authorize the special use of the properties known as 4236 Shirley Road and 4240 Shirley Road for the purpose of two single-family detached dwellings, with driveway access to the street exceeding nine feet in width, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: The subject properties are in the R-2 Single-Family Residential District and the zoning ordinance permits front yard driveways no wider than nine feet for properties not served by alleys. The properties are not served by an alley; however the proposed driveways will be 14 feet in width. Therefore, a Special Use Permit is requested.

BACKGROUND: The combined 1.8779-acre subject properties are located on the northern side of Shirley Road near its intersection with Custis Road to the west. The property is not serviced by an alley.

The City's Richmond 300 Master Plan designated a future land use for the subject property as Residential. This designation is defined as a "Neighborhood consisting primarily of single-family houses on large- or medium-sized lots more homogeneous in nature" (Richmond 300, p. 54). Intensity: Buildings are generally one to three stories. Lot sizes generally range up to 5,000 to 20,000+ sq. ft. Residential density of 2 to 10 housing units per acre. Primary Uses: Single-family houses, accessory dwelling units, and open space. Secondary Uses: Duplexes and small multi-family buildings (typically

3-10 units), institutional, and cultural. Secondary uses may be found along major streets.

COMMUNITY ENGAGEMENT: The Westhampton Citizens Association and the Stonewall Civic Association were notified of the application; additional community notification will take place after introduction.

STRATEGIC INITIATIVES AND OTHER GOVERNMENTAL: Richmond 300 Master Plan.

FISCAL IMPACT: \$300 application fee.

Special Use Permit Application - 4236 Shirley Road

Applicant: Cornerstone Homes

Contact: Joe Mullins

Email: JMullins@Cornerstonehomes.net

Phone: 804-484-3242 x211

Project Description:

Cornerstone Homes is currently constructing a residential home at 4236 Shirley Road. The initial design included a 12-foot-wide driveway for access from Shirley Road. However, the standard permit requirements stipulate a minimum driveway width of 9 feet.

Request for Variance:

Cornerstone Homes respectfully requests a special use permit to allow the construction of a 12-foot-wide driveway. This request is based on the following considerations:

- **Limited Space:** Due to the layout of the front yard, a 9-foot-wide driveway would pose significant challenges for safely entering and exiting the garage, particularly for larger vehicles.
- **Enhanced Functionality:** A 12-foot-wide driveway would provide additional space for new homeowners to maneuver their vehicles, improving overall convenience and safety.
- **Guest Parking:** The wider driveway would also offer additional parking space for guests, further enhancing the functionality of the property.

Environmental Considerations:

Cornerstone Homes is committed to minimizing the environmental impact of the project. As such, we have incorporated the following measures:

- **Drainage System:** The design includes the installation of drains that will channel water runoff into a Micro-Bioretention Basin located in the backyard. This system will effectively manage stormwater and protect local water quality.

Supporting Documents:

- Survey of the property
- Site plan

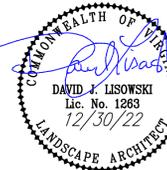

Conclusion:

Cornerstone Homes believes that the proposed 12-foot-wide driveway is essential for ensuring the safe and functional use of the property. We are confident that this design can be implemented while adhering to all environmental regulations. We appreciate your time and consideration and welcome the opportunity to discuss this request further.
