RE: Applicant's Report for Special Use Permit Amendment Application at 3131 Kensington Avenue

Dear Mr. Olinger,

Please accept this letter as the Applicant's Report for the Special Use Permit Amendment (SUP) application for the property at 3131 Kensington Avenue. With this application, BKM, LLC is petitioning the City Council for an amendment to the existing SUP (Ord. No. 2015-250-244) to remove the existing vacant lot from the regulations applied to the adjacent property under the original SUP.

Site

The property is located at the northeast corner of Kensington Avenue and Cleveland Street. The property has a land area of 11,979 square feet and is zoned in the R-6 (Single-Family Attached Residential) District. The property is also located in the West of the Boulevard Design Overlay District and any new construction visible from the street would be subject to the standards established for the district and the review of the Urban Design Committee. The property is currently unimproved.

Zoning and SUP Ordinance Conditions

The property is currently subject to a SUP that was originally adopted in 2001 for both the subject property and the adjacent historic school building. At the time, the properties were under common ownership. The original SUP authorized the conversion of the adjacent school building to up to 42 residential dwelling units with accessory parking. Since the adoption of the original SUP, the building was converted and the properties have been separated and are no longer under common ownership.

Proposal

We proposed to amend the existing SUP to only remove the vacant lot at 3131 Kensington Avenue from the regulations, which prohibit it from being developed. No changes are proposed for the existing residential building that was authorized by the original SUP and would continue to be regulated

by the proposed amendment. While there are no specific plans for development on the vacant lot at 3131 Kensington Avenue, removing it from the SUP would allow it to be developed in accordance with the underlying R-6 Zoning District. Given the lot size and these regulations, three single-family attached homes could be built on the vacant lot. Should any additional homes be proposed in the future, another SUP would be required to authorize the variance from the R-6 regulations.

Master Plan

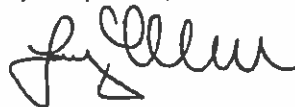

The City's Master Plan recommends Single-Family (Medium Density) land uses for the property. This land use is defined as primary uses including single- and two-family detached and attached dwellings at densities of 8 to 20 units per acre, and includes residential support uses such as schools, places of worship, and neighborhood parks. The underlying zoning of R-6 meets this land use recommendation found in the Master Plan.

City Charter Conditions

We trust that you will agree with us that this proposed SUP Amendment meets the City Charter criteria for the granting of SUPs as the project will not (i) be detrimental to the safety, health, morals and general welfare of the community involved; (ii) tend to create congestion in streets, roads, alleys and other public ways and places in the area involved; (iii) create hazards from fire, panic or other dangers; (iv) tend to overcrowding of land and cause an undue concentration of population; (v) adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements; or (vi) interfere with adequate light and air.

Thank you for your consideration of this application. Please feel free to contact me at lory@markhamplanning.com or (804) 248-2561 if you have any questions or require additional materials to process the application.

Very Truly Yours,

Lory Markham
