RE: Proposed easement on City-owned land located at 510 E 4th Street for the construction, maintenance, and operation of improvements and associated appurtenances for the generation, distribution and transmission of electricity including the relocation of electrical power poles in support of a private development project located at 925 E 4th Street.

ORD. OR RES No. _____

PURPOSE: To provide for the granting by the City of Richmond to the person, firm or corporation to be ascertained in the manner prescribed by law of an easement upon, over, under, and across certain property known as 510 E 4th Street for the construction, maintenance, and operation of improvements and associated appurtenances for the generation, distribution and transmission of electricity in accordance with a certain Right of Way Agreement.

BACKGROUND: 510 E 4th Street is city-owned land consisting of 9.4504± acres located in the southside of the City (Parcel ID No. S0000319001). This parcel is currently non-developable and used as a stormwater basin and within the M-2 heavy industrial zoning district. Work is underway to construction a new, privately owned building located at 925 E 4th Street which is requiring the relocation of various power poles and the installation of guy wires on city-owned property. The City's Department of Public Works has confirmed that due to the sites current use, such activity will not impact the use of the site.

The building requires the power provider to upgrade and relocate the existing power poles (2) from the property that will serve the new facility with 3 phase power. This upgrade will require the power provider to install 2 poles and guy wires within two separate 30' x 30' demarked areas. To provide sufficient power to the new facility, the power provider is requesting a Right of Way Agreement to run their facilities to the new building.

Construction is expected to be completed in 2025. The parcel is in Council District #6.
