Introduction

The applicant is requesting a special use permit (the "SUP") for the property known as 3316 Q Street (the "Property"). The SUP would authorize the division of the parcel and construction of two abutting two-family detached dwellings. While the two-family detached use is commonly found in the area (including on the abutting property at 3310 Q Street) it is not permitted by the underlying R-5 Single Family Residential zoning district, and therefore, the SUP is required.

Existing Conditions

SITE DESCRIPTION AND EXISTING LAND USE

The Property is located on the northern line of Q Street, mid-block, between N 33rd and N 34th Streets. It is referenced by the City Assessor with a tax parcel number of E000-0877/011 and is approximately 65 feet in width and 131 feet in depth containing roughly 8,564 square feet of lot area. The Property is currently occupied with a two story, single-family attached dwelling located on the eastern lot line which would be retained. Access is provided at the rear by means of an east-west alley.

The properties in the vicinity are primarily developed with single and two-family attached and detached dwellings though multi-family dwellings and mixed-use buildings can also be found nearby.

EXISTING ZONING

The Property and the surrounding properties to the north and east are zoned R-5 Single-Family Residential. The abutting parcel to the west and those north and south are zoned R-6 Single-Family

Attached which would permit the proposed two-family dwelling use. To the south, at the intersection of Oakwood Avenue and P Street are 8 parcels zoned as B-1 Neighborhood Business District.

MASTER PLAN DESIGNATION

The Richmond 300 Master Plan (the "Master Plan") suggests "Neighborhood Mixed-Use" for the Property. The Master Plan describes this land use designation as "existing or new highly-walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses." Recommended development styles are described as featuring "a variety of building types that are close to one another and create a unified street wall. The building size, density, and zoning districts for these areas vary depending on historical densities and neighborhood characteristics. Single-family, two-family, and small multi-family buildings are contemplated as the primary uses in these areas."

In addition to the Property-specific guidance offered by the Vision and Core Concepts chapter, there are a number of other goals elsewhere within the Master Plan that support this request.

- Page 109 (Equitable Transportation Chapter), Objective 6.1 to "Increase the number of residents and jobs at Nodes and along enhanced transit corridors in a land development pattern that prioritizes multi-modal transportation options."
 - b. Develop housing at all income levels in and near Nodes and along major corridors (see strategies Goal 14).
- Page 136 (Diverse Economy Chapter), Objective 11.1 to "Increase the areas of appropriately zoned land near various transportation modes and housing to retain, create, and attract employers."
 - d. Encourage the development of a variety of quality housing types to house employees across the economic spectrum (see Goal 14).
- Page 150 (Inclusive Housing Chapter), Objective 14.1 to "Increase city-wide awareness of the importance of integrating housing at all income levels into every residential neighborhood so every household has housing choice throughout the city."
- Page 152 (Inclusive Housing Chapter) (see map on p. 153), Objective 14.5 to "Encourage more housing types throughout the city and greater density along enhanced transit corridors and at Nodes (shown in Figure 38 [p.153]) by amending the Zoning Ordinance."
- Page 159 (Thriving Environment Chapter) Objective 15.1 to "Reduce air pollution related to transportation."
 - a. Increase the number of Richmonders living in a development pattern that encourages density and reduces dependency on single-occupancy vehicles (see Goal 1, Goal 8, Goal 14).
- Page 86 (High-Quality Places Chapter), Objective 1.4, to "maintain and improve primarily residential areas by increasing their linkages to...corridors...and maintaining high-quality design standards."
- Page 100 (High Quality Places Chapter), Objective 4.1, to "create and preserve high-quality, distinctive, and well-designed neighborhoods and nodes throughout the City," as the request introduces thoughtfully designed new construction in a manner not otherwise assured by-right.

Proposal

PURPOSE OF REQUEST

The SUP would permit the division of the Property into three total lots and the construction of two abutting two-family detached dwellings while the existing dwelling would be located on the third parcel. The two-family dwellings would be located on lots that would each be 22.48 feet in width and contain approximately 2,954 square feet of lot area while the existing dwelling would be located on a lot which would be 20.18 feet in width and contain roughly 2,652 square feet of lot area. While this configuration is consistent with the historic development pattern of the block and the existing parcels within the neighborhood, the existing single-family attached and proposed two-family detached dwellings are not permitted by the underlying zoning and therefore, a SUP is required.

PROJECT DETAILS/DESIGN

The two proposed two-family detached dwellings would be configured as flats and each would be approximately 19.25 feet in width, 68 feet in depth, and two stories in height. They would include approximately 1,200 square feet of finished floor area for each unit and would consist of two bedrooms and two bathrooms. The proposed floor plans are modern and efficient, and designed to meet the needs of the market including with open floor plans and large closets. Six-foot deep porches are also proposed for each dwelling to address the street and provide additional living area. One off-street parking space is proposed for each dwelling.

Findings of Fact

The following are factors indicated in Section 17.11 of the Charter and Section 30-1050.1 of the Zoning Ordinance relative to the approval of special use permits by City Council. The proposed special use permit will not:

- ***Be detrimental to the safety, health, morals and general welfare of the community involved.***

The proposed SUP for high-quality infill construction will not impact the safety, health, morals and general welfare of the nearby neighborhoods.

- ***Tend to create congestion in streets, roads, alleys and other public ways and places in the area involved.***

The proposed SUP will not result in significant traffic impacts to nearby residential neighborhoods. The negligible traffic generation and off-street parking space for the dwellings will create no congestion on streets, roads, alleys or any other public right of way.

- ***Create hazards from fire, panic or other dangers.***

The property will be developed in a manner consistent with the requirements of the building code and in accordance with the requirements of Fire and Emergency Services. The City's codes applicable to this development are designed to eliminate such hazards.

- ***Tend to overcrowding of land and cause an undue concentration of population.***

The proposed SUP will not tend to over crowd the land or create an undue concentration of population.

- ***Adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences, and improvements.***

The proposed SUP would not adversely affect the above referenced City services.

- ***Interfere with adequate light and air.***

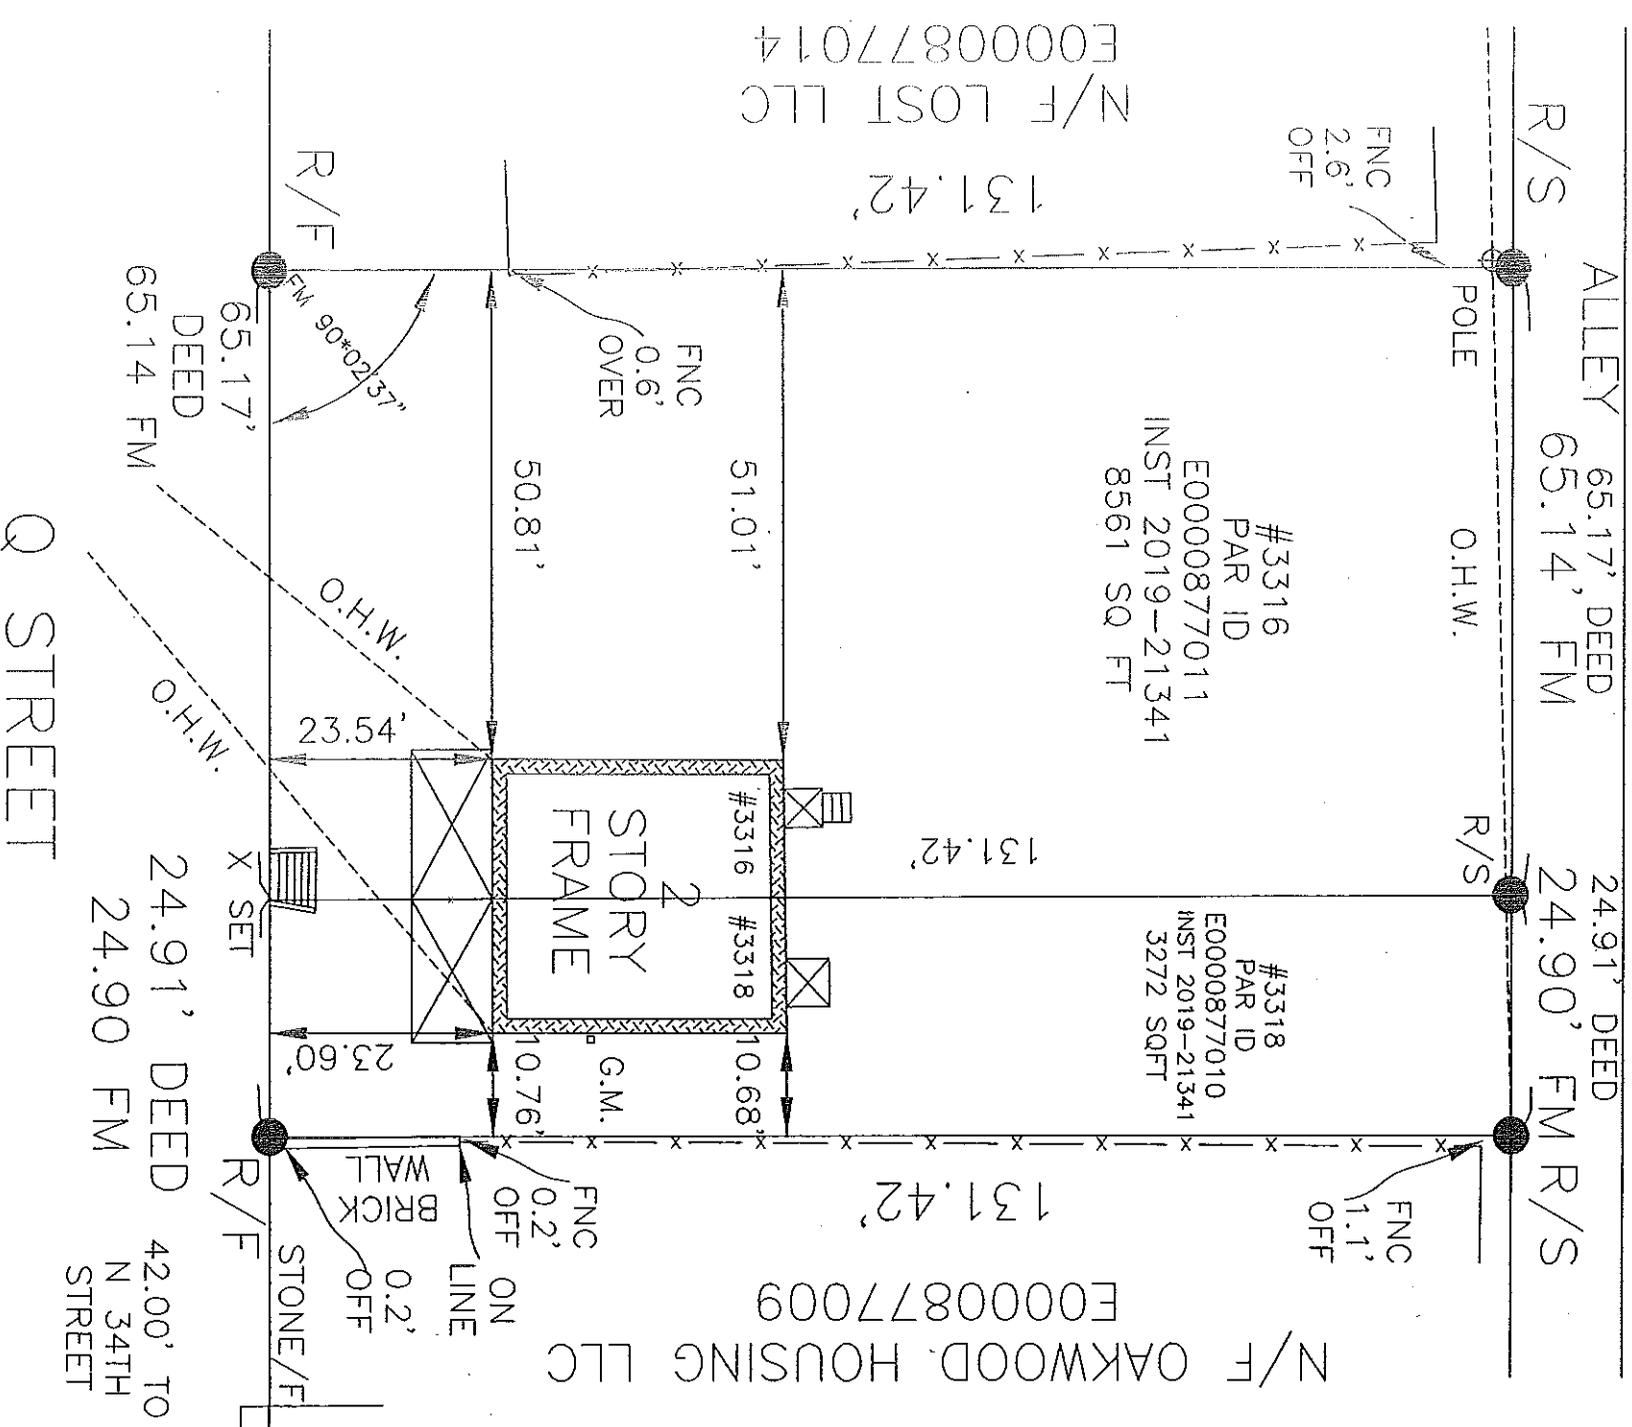

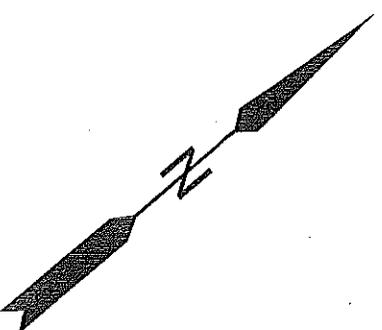

The light and air available to the subject and adjacent properties will not be affected. The proposed buildings are of compatible massing and spacing to the existing in the vicinity and normal side yard setbacks would be met. As a result, this request will not interfere with the provision of adequate light and air to the adjacent buildings.

Summary

In summary we are enthusiastically seeking approval for the construction of two two-family detached dwellings on the Property. The SUP represents an ideal, small-scale urban development for this location that would replace aging housing with new, modern dwellings which meet the needs of today's market. These dwellings provide updated housing opportunities for the neighborhood and are consistent with the goals of the Richmond 300 Master Plan. In exchange for the SUP, the quality assurances conditioned therein would guarantee the construction of three quality residences consistent with Master Plan guidance.
