Ethan Porter

#### **LOCATION**

505 West Leigh Street

#### **PURPOSE**

The applicant is requesting a conditional use permit for the Ronald McDonald House Charities to allow for a lodginghouse.

#### **RECOMMENDATION**

Staff finds that the proposal is permitted in the R-73 Residential Multifamily District by a conditional use permit.

Staff concludes that the proposed ordinance conditions substantially satisfy the safeguards established in the City Charter concerning the granting of Conditional Use Permits. Specifically, staff finds that the proposed use would not be detrimental to the general welfare of the community involved and would not create congestion in the streets in the area involved.

Therefore, staff recommends approval of the Conditional Use Permit request.

#### **FINDINGS OF FACT**

##### **Site Description**

The property is located in the Jackson Ward neighborhood on West Leigh Street between Brook Road and Catherine Street. It is currently a 70,570 square foot (1.6 acre) parcel of land.

##### **Proposed Use of the Property**

Lodginghouse.

##### **Master Plan**

The City's Richmond 300 Master Plan designates the subject area as Neighborhood Mixed-Use which is defined as existing or new highly walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses.

Development Style: These areas feature a variety of building types that are close to one another and create a unified street wall. The building size, density, and zoning districts for these areas

vary depending on historical densities and neighborhood characteristics. Future development should generally complement existing context. Setbacks, plazas, and parks create a sense of place and community gathering areas. New developments on larger parcels continue or introduce a gridded street pattern to increase connectivity within the neighborhood and to adjacent neighborhoods. In historic neighborhoods, small-scale commercial uses exist today or should be allowed to reestablish. In new neighborhoods, small scale commercial buildings should be introduced.

**Ground Floor:** Regardless of use, buildings should engage the street with features such as street-oriented façades with windows and door openings along street frontages. Appropriate setbacks, open space, front porches, elevated ground floors, and other features that provide a sense of privacy should be provided for residential uses.

**Mobility:** Pedestrian, bicycle, and transit access are prioritized and accommodated. Bike parking is provided. New driveways are prohibited on Priority and Principal Street frontages. Vehicular access to parcels should use alleys wherever possible. Parking areas should be located to the rear of street-facing buildings.

**Intensity:** Building heights are generally two to four stories. Buildings taller than four stories may be found along major streets. Parcels are generally between 1,500 and 5,000 sq. ft.

**Primary Uses:** Single-family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units), and open space.

**Secondary Uses:** Large multifamily buildings (10+units), retail/office/personal service, institutional, cultural, and government.

### **Zoning and Ordinance Conditions**

The current zoning for this property is R-73 Residential Multifamily District.
