INTRODUCTION

One Parkwood, LLC, a Maryland limited liability company ("Applicant"), owns 2500, 2510, 2516, 2530, 2532, 2534, and 2536 N. Lombardy Street Richmond, VA 23220 (collectively, the "Property"). The Property is located on the Northside of Richmond.

In Ordinance No. 2023-266, dated September 11, 2023, the City of Richmond issued the Applicant a limited Special Use Permit ("SUP") to modify the TOD-1 incline plane height requirements for the new building on the Property. The Applicant continues to desire to replace the run-down, underutilized buildings on the Property with a Class-A, mixed-use building containing commercial and multifamily uses. Unfortunately, economic constraints did not allow for the Applicant to begin the permitting process for the Project within the required 730 calendar day deadline stated in the ordinance.

The Applicant is requesting an extension to increase the deadline in which the Applicant must file for the building permit. The Applicant is not seeking any other changes to the previously issued SUP.

This Project will continue provide the community with new residential dwellings, additional retail, and additional personal service options. This Project will also help contribute to the area's rejuvenation and start the evolution the City seeks in this corridor and further the City's aspirations for this neighborhood.

SPECIAL USE PERMIT REQUEST

The Applicant is requesting to amend the text in the SUP to increase the deadline in which the Applicant must file for the building permit from 730 calendar days to 1,825 calendar days following the effective date of the ordinance.

Simultaneously with the issuance of the SUP, the Property was rezoned to the Transit-Oriented Nodal District (TOD-1). The Applicant is not requesting any changes to the rezoning case.

CONCLUSION

The Applicant hopes that amending the SUP will provide for opportunities of economic change so the Applicant may begin the permitting process and further the City's aspirations for this corridor.

INTRODUCTION

One Parkwood, LLC, a Maryland limited liability company ("Parkwood"), controls 2500, 2510, 2516, 2530, 2532, 2534, and 2536 N. Lombardy Street Richmond, VA 23220 (all aforementioned property is collectively referred to herein as the "Property") (Parkwood and the other owner of the Property are collectively referred to herein as the "Applicant"). The Property is located on the Northside of Richmond.

The Applicant plans to replace the run-down, underutilized buildings on the Property with a Class-A, mixed-use building containing commercial and multifamily uses. The Applicant will also construct a parking lot behind the new building to service the new uses. A podium may also be constructed above a small portion of the parking lot to provide space for a pool and amenities for the residents. Landscaping will be provided between the parking lot and the alley as generally shown in the enclosed illustration entitled "Site Line Illustrations." The new building will be six stories, with the top story set back on all four sides (the "Project"). This new building will include commercial and amenity space on the first floor and multifamily units on the floors above the commercial use.

In response to Staff's comments at the Pre-Application Meeting, the Applicant extended the building frontage along the corner of Overbrook Road and Seminary Avenue to further screen the parking lot.

This Project will provide the community with additional retail and personal service options. This Project will also help contribute to the area's rejuvenation and start the evolution the City seeks in this corridor and further the City's aspirations for this neighborhood.

SPECIAL USE PERMIT REQUEST

The Property is located in the Urban Business District (UB-2). A request to rezone the Property to the Transit-Oriented Nodal District (TOD-1) is being submitted simultaneously. The Property is situated across an alley from property in a residential district.

The Applicant is requesting a limited Special Use Permit ("SUP") to correct the TOD-1 height requirements for the new building on the Property.

Pursuant to Section 30-457.9(1)(b) of the City of Richmond's zoning ordinance, a building in the TOD-1 zoning district is subject to an inclined plane height restriction when the building is situated across an alley from property in a residential district.

Specifically, the height of the building is limited so that no portion of the building penetrates an inclined plane originating from the third story of the property at the rear building wall. If built as envisioned, the new building would not comply with the inclined plane restriction found in Section 30-457.9(1)(b) of the City of Richmond's zoning ordinance. This ordinance

section provides that the inclined plane originates at the third story of the rear building wall. This inclined plane is illustrated in the ordinance as shown below.

The City of Richmond's intent was to limit the height of a building when it is immediately adjacent to a residential district, as illustrated above.

However, Richmond 300 contemplates a different building placement for this Property. Richmond 300 requires placing the parking area behind the building on this property. This shifts the building away from the residential district and accomplishes the goal of protecting the residential district from the height of the neighboring building.

When the building shifts away from the residential district, the origination of the inclined plane should not move with the building. This "movement" is illustrated in Section B-B below. Instead, the origination of the inclined plane should remain fixed at the third story height where the rear building wall may be closest to the residential district. This proper origination point is illustrated in Section A-A.

A property owner should not be punished with a moving inclined plane when the owner moves the building away from the residential district to achieve the Richmond 300 goal of obscuring parking. This limited SUP corrects the origination point for the inclined plane.

Staff requested that the Applicant modify the shape of the building so that the building screens a portion of the parking lot. This modification resulted in the creation of a minor encroachment into the inclined plane as shown in Section B-B. Accordingly, this Limited Special Use Permit also requests approval for a minor encroachment into the inclined plane.

Additionally, the height of the building will add an element of safety to the neighborhood. At the Edgehill Chamberlayne Court Civic Association meeting, neighbors expressed concern over the crime in the area, particularly in alleys and at an adjacent motel. The height of the Project and security measures, such as lighting and cameras, will expose once concealed spaces that were prime spots for crime. The views from balconies and high up residents will naturally enhance vigilance in the area, which will help discourage bad behavior.

EXISTING PROPERTY AND SURROUNDING AREA

The Property forms the eastern margin of the Edgehill Chamberlayne Court Neighborhood. The Edgehill Chamberlayne Court Neighborhood is bound by various roads, including: Chamberlayne Avenue, Brookland Parkway/W. Brookland Park Blvd., I-95/I-64, and Admiral Street/School Street. The neighborhood is made up of single-family residential homes, and commercial and institutional uses.

THE RICHMOND 300 PLAN

The Richmond 300 Plan designates the Property's future use as Corridor Mixed-Use. This future use category permits buildings 3-10 stories in height to allow a mixing of commercial and residential uses and a more urban environment with walkable streetscapes. Improving the aesthetics of the street scape is one of the objectives of this Project.

Within Corridor Mixed Use, the desired primary uses include retail, office, personal service, and multi-family residential uses. The Project envisions these uses and creates better commercial spaces for businesses in the area. The Applicant believes that the Project will inspire other redevelopment in the surrounding area.

PROPOSED USE

The proposed use of the Property, as described herein, will be a beneficial use for the site. This Project is in line with the Property's "Corridor Mixed-Use" future use designation in the Richmond 300 Plan. The Project's enhanced streetscape will create an aesthetic appeal that is better than current conditions.

Any traffic generated by the Project will be easily absorbed by the surrounding road network and the City's bus system. Additionally, the Property provides parking to service the residents and patrons of the retail and personal service businesses.

SUITABILITY OF SPECIAL USE PERMIT and FINDINGS OF FACT

The following are factors listed in Section 30-1050.1 of the City's zoning ordinance to be considered with the review of special use permit applications.

The proposed SUP will:

- *NOT be detrimental to the safety, health, morals, and general welfare of the community.*

The Project will provide additional living and business opportunities as well as inspire other redevelopment opportunities in the surrounding area.

- *NOT tend to create congestion in streets, roads, alleys, and other public ways and places in the area.*

The infrastructure and road systems in place have ample capacity to handle the proposed use. The existing parking lot circulation and City bus system are also adequate to support this Project.

- *NOT create hazards from fire, panic or other dangers.*

The Project is in compliance with applicable building and fire safety codes and energy conservation requirements.

- *NEITHER lead to the overcrowding of land nor cause an undue concentration of population.*

The Project will provide comfortable luxury housing to young professionals and empty nesters who work in the City and will not contribute to the overcrowding of land.

- *NOT adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements.*

The above-referenced City services will not be adversely affected by the proposed use of the Project. Utilities and infrastructure are in place and adequate for the proposed use. The proposed reuse of the Property will enhance the area without affecting existing public facilities.

- *NOT interfere with adequate light and air.*

The Property is in a location with ample air, light and space components. The light and air available to the Property and adjacent properties will not change if the SUP is granted.

COMMUNITY SUPPORT FOR REZONING

The Applicant presented the Project to neighbors who live on Seminary Avenue. The Applicant also presented the Project to the Edgehill Chamberlayne Court Civic Association. Enclosed is a list of topics discussed at both meetings.

At the suggestion of Councilmember Ann-Frances Lambert, the Applicant also reached out to the Chamberlayne Industrial Center Association and Chamberbrook.

CONCLUSION

The Applicant desires to begin the rejuvenation of the Property. If this rezoning request is granted, this Project will help contribute to the area's evolution and further the City's aspirations for this corridor.
