- Mr. Robert Smith, Arts Faculty
- Ms. Jill Nolt, AIA, Architect
- Mr. Drew Gould, P.E., Engineer

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name: _____

Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

We are dismayed that the height of the statue has been compromised. **We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza.** Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision of the Public Art Commission. As proud alums of Maggie L. Walker High School and our associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. **We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza.** Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

Ms. Andrea Levine, GRI, ABR, EcoBroker, Business Executive
Mr. Robert Smith, Arts Faculty
Ms. Jill Nolt, AIA, Architect
Mr. Drew Gould, P.E., Engineer

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name:

Sharon Cannon

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision of the Public Art Commission. As proud alums of Maggie L. Walker High School and our associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. **We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza.** Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name:

Keith Johnson, Jr.

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name: Dionna Ramsey

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and our associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. **We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza.** Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor. The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name: Robert E. Robinson

Ms. Jill Nolt, AIA, Architect
Mr. Drew Gould, P.E., Engineer

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and our associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. **We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza.** Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name: Barclay Rolinson

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision of the Public Art Commission. As proud alums of Maggie L. Walker High School and our associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. **We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza.** Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name: Amanda Robinson

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name: Janice A. Gardner

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name: Asia Carroll

Mr. Drew Gould, P.E., Engineer

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name: Sharlette Pinney

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name:  YELDA HOLMES-JOHNSON

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

Mr. Robert Smith, Arts Faculty
Ms. Jill Nolt, AIA, Architect
Mr. Drew Gould, P.E., Engineer

Dear Sirs/Mesdames:

This letter serves to express deep concern regarding the reduced height of the Maggie Walker statue, based on the recent decision on the Public Art Commission. As proud alums of Maggie L. Walker High School and their associates, we have been monitoring and supporting the efforts that have taken many years to highlight her legacy with an appropriate and significant statue in her honor.

At the onset, we have been earnest and vocal to expect that her statue at the corner of Broad, Adams and Brook Road will be a significant height to be seen from the street side as well as from the plaza with a lighted, 360 degree view so that she takes primacy of place in the plaza.

We are dismayed that the height of the statue has been compromised. We urge you to reconsider their decision and to reclaim the height of the statue in accordance with the scale of the plaza. Maggie L. Walker must stand tall as a beacon for Jackson Ward. To do otherwise will diminish and disappoint the expectations of those who have advocated tirelessly for such a tribute in her honor.

The Public Art Commission has claimed that bas reliefs can be placed around the statue as a compromise for the initial height of the statue; however, that tradeoff alone is not satisfactory. The bas reliefs have a significant opportunity to interpret her legacy and that of Jackson Ward, but the statue must also stand tall.

Please reclaim the height of the statue. Thank you.

Sincerely,

Name: Mary Lou C. Brent
