Re: Special Use Permit Application at 8 S Crenshaw Ave

Dear Mr. Vonck,

Please accept this letter as the Applicant's Report for the Special Use Permit application at 8 S Crenshaw Ave. With this application, the property owner, Ambeale LLC, is petitioning the City Council for a SUP to authorize the property for commercial uses permitted in the UB Urban Business District.

Existing Site Conditions

The subject property is a 0.05-acre parcel located on the west side of Crenshaw Ave just north of Carytown in the West of the Boulevard National Historic District. This parcel is currently improved a main building containing 850 square feet and an accessory building with 362 square feet of floor area. The main building has been used for commercial purposes since its construction in 1930. Currently, the main building is used as an office for physical therapy. Prior to the current use, the property was used for various businesses including an adult bookstore, a restaurant, and a retail store. The accessory building pre-dates the main building and was originally used as a garage for the property.

Surrounding properties north, east and west along Crenshaw and Ellwood Avenues are primarily single-family homes in the R-6 district. Directly east across S Crenshaw Ave is the Tuckaway Child Development and Early Education Center. South of the property are commercial uses located in the UB Urban Business District and part of the Carytown commercial district.

Current Zoning

The property is located in an R-6 Residential district where commercial uses are not permitted. Because the commercial use of the main building has been continuous since its construction and prior to the implementation of the R-6 district in the area, the commercial uses of this building are considered nonconforming. However, this nonconforming right for commercial uses does not apply to the accessory building.

Proposal

Should this Special Use Permit request be granted, both the main and the accessory buildings on the property will be authorized for uses permitted in the UB Urban Business District. These uses include retail shops, restaurants, offices, personal services, and others. The commercial uses that would be permitted on the subject property are the same as those already permitted on the properties to the south in UB-zoned Carytown area.

Richmond 300 Master Plan

Richmond 300 designates the properties for Neighborhood Mixed-Use land use. These areas are existing or new highly-walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses. These areas also feature a variety of building types that are close to one another and create a unified street wall. The building size, density, and zoning districts for these areas vary depending on historical densities and neighborhood characteristics.

The Plan recommends Primary single-family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units), and open space as primary uses. Secondary uses include multi-family buildings (10+units), retail/office/personal service, institutional, cultural, and government.

City Charter Conditions

Allowing UB District permitted uses as proposed would formally authorize the subject property to be used for commercial purposes as it has since its construction in 1930. This SUP would additionally authorize commercial uses for the accessory building. These uses are the same as those already permitted on neighboring properties in the Carytown commercial district and will allow the property to provide useful services that are desirable to the residents of the nearby neighborhoods.

We trust that you will agree with us that this proposed Special Use Permit amendment meets the City Charter criteria for the granting of SUPs as the project will not

- (i) be detrimental to the safety, health, morals and general welfare of the community involved;
- (ii) tend to create congestion in streets, roads, alleys and other public ways and places in the area involved;
- (iii) create hazards from fire, panic or other dangers;
- (iv) tend to be overcrowding of land and cause an undue concentration of population;
- (v) adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements; or
- (vi) interfere with adequate light and air.

Thank you for your consideration of this Special Use Permit. Please feel free to contact me at lory@markhamplanning.com or (804) 248-2561 if you have any questions or require additional materials to process the application.

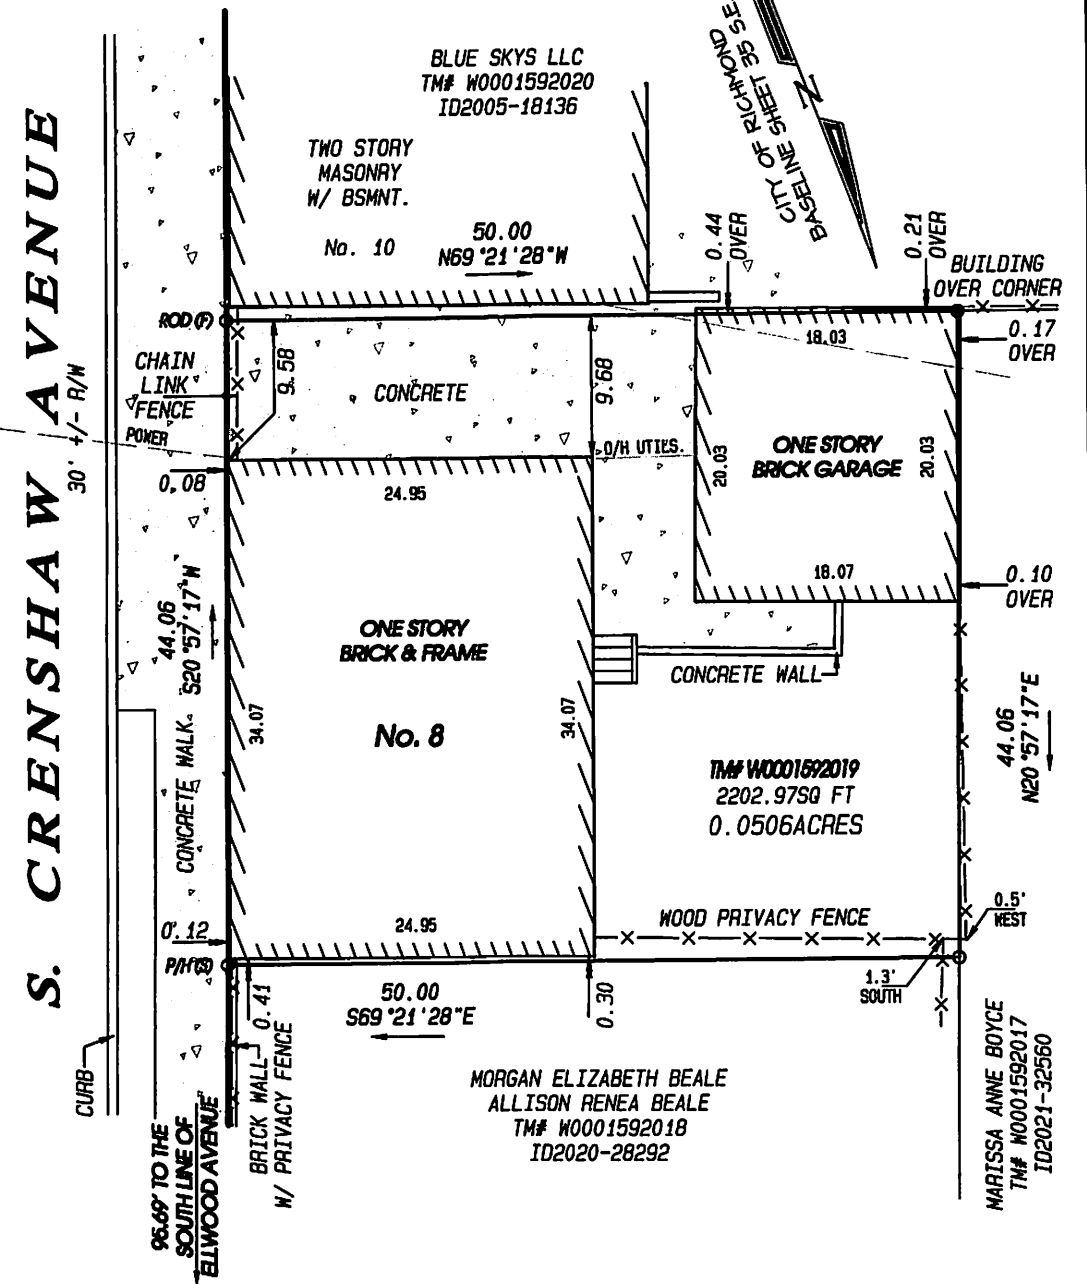

Very Truly Yours,
