RE: To authorize the special use of the property known as 4002 Hermitage Road for the purpose of one single-family detached dwelling and a lodging unit within an accessory structure, upon certain terms and conditions.

PURPOSE: The applicant is requesting a Special Use Permit to authorize a single-family detached dwelling with an accessory structure containing a lodging unit within the R-1 Single Family Residential District. This special use permit will allow a lodging unit within an accessory structure, which is not currently permitted in the R-1 district and will waive the requirements regarding height and size limits for accessory structures, as detailed in Section 30-680.4 of the Code of the City of Richmond, as amended.

BACKGROUND: The property is in the Rosedale neighborhood, on the western side of Hermitage Road, near its intersection with Claremont Avenue. The property is a 49,500 square foot (1.1364 acre) parcel of land, improved with a single-family detached dwelling and accessory structure. The City's Richmond 300 Master Plan designates a future land use for the subject property as Residential, which is defined as a "neighborhood consisting primarily of single-family houses on large- or medium-sized lots more homogeneous in nature" (Richmond 300, p. 54).

Intensity: Buildings are generally one to three stories. Lot sizes generally range up to 5,000 to 20,000+ sq. ft. Residential density of 2 to 10 housing units per acre.

Primary Uses: Single-family houses, accessory dwelling units, and open space.

Secondary Uses: Duplexes and small multi-family buildings (typically 3-10 units), institutional, and cultural. Secondary uses may be found along major streets.

The current zoning for this property is R-1 Single-Family District. It is also located within the Hermitage Road City Old and Historic District. The surrounding area is generally residential. Linwood Holton Elementary School is located approximately one-tenth of a mile from the subject property.

COMMUNITY ENGAGEMENT: The Hermitage Road Historic District Association was notified of this request and submitted a letter of support. Additional community notification will take place after introduction.

Applicant's Report

The proposed use of the new detached garage is to be a 3-car garage on ground level and a playroom with some storage space on the 2nd floor. The over 1 acre lot has plenty of space for a garage, and since the homeowners have three young children and no conditioned storage space on the property, they would like to make use of the 2nd floor to meet those needs. The new garage building will meet all the existing zoning setbacks, and will be set back quite far from the street, starting near the back line of the main house.

The new garage is undergoing architectural review through the Commission of Architectural Review and will be architecturally compatible with the main residence and historic homes in the surrounding area. There are other large outbuildings on the large lots adjacent to the subject property, so this is not anything that will stand out as inconsistent. The garage doors face to the interior of the property and not to the street.
