CP Larson,

If the vote on the Short Term Rental regulations comes at the meeting this Monday please support it in the current form esp that it require properties to be owner occupied. This will help maintain Neighborhoods, increase the amount of available housing to residents of Richmond. For those that disagree they are free to get properties to become zoned for Bed and Breakfasts or go ahead and open a hotel.

Aaron- Would it be possible for you to forward this onto the council clerk as well as the rest of the members of council.

Thank you,

Whit Clements
