### Pulse Corridor Plan Rezoning Phase III

To Whom it May concern:

I am writing in support of the phase III Pulse corridor rezoning plan. I believe there has been ample public input opportunity through out the rezoning process. The City has considered the feedback received and revised the plan a couple of times. This is a very thoughtful, forward looking plan that will continue to allow for smart growth in our great City.

Please reach out with any questions or concerns.

Regards,
