(f) When the privileges granted by this ordinance terminate and the special use permit granted hereby becomes null and void, whether as a result of the Owner relinquishing this special use permit in a writing addressed to the Director of Planning and Development Review or otherwise, use of the Property shall be governed thereafter by the zoning regulations prescribed

for the district in which the Property is then situated.

§ 6. **Implementation.** The Commissioner of Buildings is authorized to issue a building permit substantially in accordance with the Plans for the Special Use subject to the terms and conditions set forth in this ordinance. If either the application for the building permit is not made within the time period stated in the previous sentence or the building permit terminates under any provision of the Virginia Statewide Building Code, this ordinance and the special use permit granted hereby shall terminate and become null and void.

§ 7. **Effective Date.** This ordinance shall be in force and effect upon adoption.

ORD. OR RES. No.

PURPOSE: The applicant is requesting a Special Use Permit to authorize two single-family detached dwellings which use, among other things, is not currently allowed by section 30-419.5, concerning lot area and width, of the Code of the City of Richmond (2020), as amended. A Special Use Permit is therefore required.

BACKGROUND: The property is in the Union Hill neighborhood and historic district situated on a block bounded by Carrington Street, Venable Street, Pink Street, and Russell Street. The two properties total 4,620 square sq. ft. (0.10 acre). The City’s Richmond 300 Master Plan designates a future land use for the subject property as Neighborhood Mixed-Use, which is defined as “Existing or new highly-walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses.”

“Intensity: Building heights are generally two to four stories. Buildings taller than four stories may be found along major streets (see Street Typologies Map). Parcels are generally between 1,500 and 5,000 sq. ft.

Primary Uses: Single-family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units), and open space.

Secondary Uses: Large multi-family buildings (10+units), retail/office/personal service, institutional, cultural, and government.” (p. 56)

The current zoning for the property is R-63 Multifamily Urban Residential District and is situated in the vicinity of the 25th/ Nine Mile Neighborhood Node which is made up of UB, UB-2, B-2, B-5, R-5, and R-6 districts. The 25th/Nine Mile Neighborhood Node includes a mix of uses including residential, institutional, office, and a concentration of commercial along N 25th Street. The node is intersected by Venable Street, N 25th Street, Fairmount Avenue, and Nine Mile Road, which are identified as major mixed-use streets.

COMMUNITY ENGAGEMENT: The Union Hill Civic Association was notified of the application; additional community notification will take place after introduction.

Introduction

The property owner is requesting a special use permit (the "SUP") for 1014 and 1016 Russell Street (the "Property"). The SUP would authorize the construction of two single-family detached dwellings. While the single-family dwelling use is permitted by the underlying R-63 Multifamily Residential District, some of the underlying feature requirements are not met, and therefore a SUP is required.

Existing Conditions

SITE DESCRIPTION AND EXISTING LAND USE

The Property is located on the western line of Russell Street between Carrington and Venable Streets and is currently vacant. The Property is referenced by the City Assessor as tax parcels E000-0470/016 and E000-0470/015. 1014 Russell Street is roughly 43' wide by 66' deep containing approximately 2,838 square feet of lot area while 1016 Russell is roughly 27' wide by 66' deep with 1,782 square feet of lot area. A short alley exists to the north of 1016 Russell while no alley access is provided for 1014 Russell.

The properties in the vicinity include a wide variety of housing types. The western line of the subject block is currently vacant while the eastern line consists of the Shiloh Baptist Church and an accessory parking lot. Dwellings in the area consist of a mix of new construction and historic dwellings and contain both attached and detached dwellings. To the north, along Carrington Street, are a range of uses including unimproved parcels, single-family dwellings, and a proposed mixed-

use development at Carrington and N 22nd Streets. Further to the east along Carrington Street, near its intersection with N 25th Street, are a mixture of residential and commercial uses.

EXISTING ZONING

The Property is zoned R-63 Multifamily Urban Residential. All adjacent properties are also zoned R-63. To the north, across Q Street the properties are zoned R-6 Single-Family Attached Residential and to the west along N 25th Street the properties are zoned UB Urban Business. The subject parcel and those located south of Carrington Street are located within the Union Hill City Old and Historic District.

TRANSPORTATION

The Property is located within a half mile of GRTC bus stops which serve the 5,7, and 12 bus routes providing access to Church Hill and connections to the GRTC bus system. To the east, N 29th Street is described as a "Bike-Walk Street" and provides north-south connection from Libby Hill Park to the Peter-Paul Neighborhood.

MASTER PLAN DESIGNATION

The proposed development is consistent with the Richmond 300 Master Plan ("the Master Plan"), which recommends "Neighborhood Mixed-Use" for the Property. This use is described as "Existing or new highly-walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses." The Master Plan also recommends a development style that "feature a variety of building types that are close to one another and create a unified street wall. The building size, density, and zoning districts for these areas vary depending on historical densities and neighborhood characteristics."

The Property also lies just outside the Neighborhood Node at 25th and Nine Mile for which the Master Plan recommends "Vacant residentially zoned parcels within proximity to the intersection of 25th and Nine Mile are developed into residential uses that are complementary to the existing residential neighborhood and increase the population of the area to help support future commercial uses in the area."

In addition to the Property-specific guidance offered by the Vision and Core Concepts chapter, there are a number of other goals elsewhere within the Master Plan that support this request, including:

- Page 109 (Equitable Transportation Chapter), Objective 6.1 to "Increase the number of residents and jobs at Nodes and along enhanced transit corridors in a land development pattern that prioritizes multi-modal transportation options."
 - b. Develop housing at all income levels in and near Nodes and along major corridors (see strategies Goal 14).

- Page 136 (Diverse Economy Chapter), Objective 11.1 to “Increase the areas of appropriately zoned land near various transportation modes and housing to retain, create, and attract employers.”
 - d. Encourage the development of a variety of quality housing types to house employees across the economic spectrum (see Goal 14).
- Page 152 (Inclusive Housing Chapter) (see map on p. 153), Objective 14.5 to “Encourage more housing types throughout the city and greater density along enhanced transit corridors and at Nodes (shown in Figure 38 [p.153]) by amending the Zoning Ordinance. “
- Page 159 (Thriving Environment Chapter) Objective 15.1 to “Reduce air pollution related to transportation.”
 - a. Increase the number of Richmonders living in a development pattern that encourages density and reduces dependency on single-occupancy vehicles (see Goal 1, Goal 8, Goal 14).
- Page 86 (High-Quality Places Chapter), Objective 1.4, to “maintain and improve primarily residential areas by increasing their linkages to...corridors...and maintaining high-quality design standards”
- Page 100 (High Quality Places Chapter), Objective 4.1, to “create and preserve high-quality, distinctive, and well-designed neighborhoods and nodes throughout the City,” as the request introduces thoughtfully designed new construction in a manner not otherwise assured by-right.

Proposal

PROJECT SUMMARY

The proposed development includes a lot line adjustment to create two equally sized 35' wide lots and the construction of a single-family detached dwelling on each of the parcels.

PURPOSE OF REQUEST

The SUP would permit the construction of two new, single-family detached dwellings fronting onto Russell Street. Both parcels would be 35 feet in width and 66 feet deep containing roughly 2,310 square feet of lot area. As a result, the R-63 District lot area requirements of 3,000 square feet would not be met for the new dwellings. All other aspects of the underlying zoning requirements will be met.

PROJECT DETAILS

The proposed dwelling at 1014 Russell Street would be 28' 8" in width, 46' in depth, and two stories in height and would include approximately 2,213 square feet of finished floor area. The dwelling would contain three bedrooms and two-and-one-half bathrooms. The proposed dwelling at 1016 Russell St would be 28' 8" in width, 48' 4' in depth, and two stories in height and would

include approximately 2,487 square feet of finished floor area. The proposed floor plans are modern and efficient, and designed to meet the needs of the market. The floor plans include master bedrooms with en-suite master bathroom and walk-in closet. As recommended by Objective 4.1 (b) and (h) in the High-Quality Places chapter of the Richmond 300 Plan, the dwelling's exterior is designed to be modern and distinctive in order to create visual interest. The building would be of frame construction and would be clad in cementitious lap siding. Off-street parking will be provided for each dwelling which will be accessed from the rear alley.

As the Property is located within the Union Hill City Old and Historic District, the proposed dwelling and accessory building are subject to review from the Commission of Architectural Review to ensure compatibility with the historic neighborhood. In exchange for the SUP, the intent of this request is to create a high-quality infill product in the neighborhood that is in-line with future land use guidance.

Findings of Fact

The following are factors indicted in Section 17.11 of the Charter and Section 114-1050.1 of the Zoning Ordinance relative to the approval of special use permits by City Council. The proposed special use permit will not:

- ***Be detrimental to the safety, health, morals and general welfare of the community involved.***

The proposed special use permit will not impact the safety, health, morals and general welfare of the nearby neighborhoods.

- ***Tend to create congestion in streets, roads, alleys and other public ways and places in the area involved.***

The proposed special use permit will not result in significant traffic impacts to nearby residential neighborhoods. The proposed residential use would be limited in size, type and scale to avoid any traffic or parking concerns.

- ***Create hazards from fire, panic or other dangers.***

The property will be developed in a manner consistent with the requirements of the building code and in accordance with the requirements of Fire and Emergency Services. The City's codes applicable to this development are designed to eliminate such hazards.

- ***Tend to overcrowding of land and cause an undue concentration of population.***

The proposed special use permit will not tend to over crowd the land or create an undue concentration of population.

- ***Adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements.***

The proposed special use permit would not adversely affect the above referenced City services. To the contrary, the proposal would provide positive fiscal (tax) benefits that would enhance the City's ability to provide these services to the proposed development.

- ***Interfere with adequate light and air.***

The light and air available to the subject and adjacent properties will not be affected.

Summary

In summary we are enthusiastically seeking approval for the construction of two new, single-family detached dwellings on the Property. The SUP represents an ideal, small-scale urban infill development for this location. In exchange for the SUP, the quality assurances conditioned therein would guarantee the construction of a quality home ownership opportunity consistent with Master Plan guidance. This would contribute to the overall vibrancy of the block through the provision of an appropriate urban form and use that is consistent with the development pattern and surrounding neighborhood.
