

Sherwood Park Civic Association Petition to Reduce Brookland Parkway Speed Limit to 25 mph

Brookland Parkway divides the historic, residential neighborhood of Sherwood Park. The parkway, designed by Frederick Law Olmstead (designer of Central Park), is a street with several curves, bike lanes and floating parking. Traffic routinely drives over the current posted speed limit of 35 mph on Brookland Parkway. This routine violation of the speed limit has resulted in several accidents and has made it unsafe to cross the street to the other side of the Sherwood Park community.

Council members Katherine Jordan and Anne Frances Lambert plan to introduce an ordinance to reduce the posted speed limit to 25 mph which is more in keeping with our residential neighborhood. While we understand that enforcement is not always possible, studies show that traffic typically drives just 10 mph over the posted speed limit which will greatly impact neighborhood safety for residents, children attending Veritas and the Waldorf schools, walkers, bikers and drivers.

Please sign this petition to support this ordinance. Your signature matters and will make a significant impact when the ordinance is proposed to City Council.
