**\*\*Owner must sign at the bottom of this page\*\***

**Acknowledgement of Responsibility**

Compliance: If granted, you agree to comply with all conditions of the certificate of appropriateness (COA). Revisions to approved work require staff review and may require a new application and approval from the Commission of Architectural Review (CAR). Failure to comply with the conditions of the COA may result in project delays or legal action. The COA is valid for one (1) year and may be extended for an additional year, upon written request and payment of associated fee.

Requirements: A complete application includes all applicable information requested on checklists available on the CAR website to provide a complete and accurate description of existing and proposed conditions, as well as payments of the application fee. Applications proposing major new construction, including additions, should meet with staff to review the application and requirements prior to submitting. Owner contact information and signature is required. Late or incomplete applications will not be considered.

Zoning Requirements: Prior to Commission review, it is the responsibility of the applicant to determine if zoning approval is required. Application materials should be prepared in compliance with zoning.

Property Owner Signature: \_\_\_\_\_

City Hall, 900 East Broad Street  
Richmond, VA 23219

**RE: Commission of Architectural Review: 611 N 28<sup>th</sup> Street (E0000-434/025)**

Members of the Commission,

I represent the property owner in an application for review by the Commission of Architectural Review of the revision of the previously approved Certificate of Appropriateness (the “COA”) to construct an addition to the existing single-family detached dwelling and new accessory dwelling unit (the “ADU”) on the property known as 611 N 28<sup>th</sup> Street (the “Property”).

The Property is located on the east side of N 26<sup>th</sup> Street between E Leigh and E Clay Streets and lies in the Church Hill North Old and Historic District. Development in the neighborhood began in the early nineteenth-century and it is known for a variety of building styles and materials as well as a range of land uses.

Located mid-block between E Leigh and E Clay Streets, the Property is currently occupied with a two-story single-family detached dwelling constructed c.1880. At the January 2024 meeting of the CAR, a COA (COA-141042-2024) was approved to permit a rear addition to the dwelling and a new two-story garage behind the parcel.

The Property owner would now like to request a revision to the previous COA. The proposed revision would permit a 2’8” extension to the mudroom at the back of the dwelling which would allow for additional floor area and allow for the windows on the right elevation to be revised and be vertically aligned single windows. The ground level window in the basement would also be replaced with three windows to align with the other windows on the elevations and would be standard ½ windows to match the others on the elevation. Finally, the garage has been revised with two windows on the interior façade (as opposed to the originally approved three windows) to allow for the upper floor of the garage to be used as an ADU with a full bath

and kitchen. No changes are proposed to the existing dwelling, the alley-facing façade of the garage, or the originally proposed materials.

*Originally Approved Site Plan*

*Proposed Floor Plan Showing 2'8\"*

The proposed changes would be compatible with the previous approval and the historical fabric of the block as they recognize the siting, scale, form and massing of the contributing structures. The traditional urban single-family detached design of the dwelling is intended to be consistent with the historic character of the neighborhood and be in keeping with the requirements of the CAR guidelines.

*Originally Approved Right Elevation*

*Proposed Right Elevation Showing New Window Configuration*

We thank you for the care and assistance in reviewing our application. Should you have any questions after reviewing this request, please feel free to contact me at [will@bakerdevelopmentresources.com](mailto:will@bakerdevelopmentresources.com) or (864)377-9140.

Sincerely,

William Gillette, AICP
