RE: Proposed easement at 2009 Ruffin Road for the construction, maintenance, and operation

of improvements and associated appurtenances for the generation, distribution and transmission of electricity in support of a City-administered construction project known

as the Thomas B. Smith Community Center.

ORD. OR RES No.	

PURPOSE: To provide for the granting by the City of Richmond to the person, firm or corporation to be ascertained in the manner prescribed by law of an easement upon, over, under, and across certain property located at 2009 Ruffin Road and known as the Thomas B. Smith Community Center for the construction, maintenance, and operation of improvements and associated appurtenances for the generation, distribution and transmission of electricity in accordance with a certain Right of Way Agreement.

BACKGROUND: Thomas B. Smith Community Center is located in the south side of the City at 2009 Ruffin Road (Parcel ID No. S0080601007) & 2015 Ruffin Road (Parcel ID No. S0080601006). Work is underway to renovate and revamp the Community Center. The \$20 million project, funded largely by the Federal American Rescue Plan Act, will bring new life to the community center and the adjacent playground and athletic courts.

The new 30,000 square foot building is designed to elevate the community, with a focus centered on sports and health. Featuring both indoor and outdoor basketball courts, an elevated indoor walking track, multipurpose sports field, outdoor splash pad and playground. The space is designed to be functional and attractive with additional amenities including a teaching kitchen, community board room, walking trail with native grass meadows, a community food forest and open space with tree planting contributing to the park-like setting. Recently through a grant fund, solar power has been added and will feature a roof mounted solar array system that will help in providing power to the building.

The new community center building requires the power provider to upgrade the existing power pole that will serve the new facility with 3 phase power. This upgrade will require the provider to remove the existing pole that will serve the new facility on Ruffin Road, install a new pole and bore underneath Ruffin Road to extend QTY (2) 6-inch conduits approximate 330 feet to a new transformer that will feed power to the new facility. To provide sufficient power to the new facility, the power provider is requesting a Right of Way Agreement to run their facilities to the new community center building.

Construction is expected to be completed Spring 2025.

COMMUNITY ENGAGEMENT: None applicable for the Right of Way request. However, this request is in support of on-going efforts and follows various Department of Parks, Recreation and Community Facilities (PRCF) presentations at public meetings that offered public comment. PRCF has a tremendous following and community support throughout the city in delivering quality services, programs and activities that encourages a healthy and sustainable lifestyle.

STRATEGIC INITATIVES AND OTHER GOVERNMENTAL: None

FISCAL IMPACT: None.
