RE: To authorize the special use of the property known as 1415 Bryan Street for the purpose of three two-family detached dwellings, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 1415 Bryan Street for the purpose of three two-family detached dwellings, upon certain terms and conditions, which will have the appearance of attached dwellings.

BACKGROUND: This vacant property is located on the eastern side of Bryan Street between Littlepage and Redd Streets, in the Howard’s Grove neighborhood. It is also in the R-6 Single-Family Attached zoning district. The property is 60 feet wide and 117 feet deep and contains 7,020 square feet. The proposed division into three lots would create parcels that do not meet the lot feature requirements of the underlying zoning district.

COMMUNITY ENGAGEMENT: The property is not located within an area represented by a civic association. Letters of notification shall be sent to nearby property owners, and a sign noting this

request shall be placed on the property once the ordinance is introduced to City Council.

STRATEGIC INITIATIVES AND OTHER GOVERNMENTAL: The City’s Richmond 300 Master Plan designates a future land use for the subject properties as Neighborhood Mixed-Use, which is defined as, “Existing or new highly walkable urban neighborhoods that are predominantly residential. The proposed two-family detached dwellings are primary uses in this designated area.

FISCAL IMPACT: The Department of Planning and Development Review does not anticipate any impact to the City’s budget for this or future fiscal years.

Introduction

The applicant is requesting a special use permit (the "SUP") for the property known as 1415 Bryan Street (the "Property"). The SUP would authorize the construction of three (3) abutting two-family detached dwellings. While the two-family use is permitted by the underlying R-6 Single Family Attached Residential zoning district, some of the underlying feature requirements cannot be met, and therefore, the SUP is required.

Existing Conditions

SITE DESCRIPTION AND EXISTING LAND USE

The Property, which was originally Lots 41 and 42 of the Howards Grove Subdivision, is located on the eastern line of Bryan Street between Littlepage and Redd Streets. It is referenced by the City Assessor with a tax parcel number of E000-0606/020 and also includes the alternate addresses of 1417 and 1419 Bryan Street. It is approximately 60 feet in width and 117 feet in depth containing roughly 7,020 square feet of lot area. The Property is currently vacant, and access is provided at the rear by means of a north-south alley.

The lot pattern in the vicinity varies but is generally composed of characteristically narrow urban lots. At 60 feet in width, the Property is wider than all but one other lot in the block. Of the 14 lots located in the block, 8 are currently vacant. The other properties are occupied with dwellings of a range of forms. Properties to the north and east generally contain single-family dwellings. To the west lie two large, multifamily dwellings, Oliver Crossing and Mosby Court. To the south, across

Littlepage Street is Mosby Middle School. Transit access is provided to the area by GRTC bus lines number 5 and 39.

EXISTING ZONING

The Property and properties to the north are zoned R-6 Single-Family Attached Residential. A considerable number of properties in the immediate vicinity do not conform to the R-6 feature requirements such as lot area, lot width, and setbacks and several Special Use Permits have been approved nearby. Within the subject block, the properties at 1400-1406 Bryan Street were recently rezoned to R-63 Multifamily Urban Residential to better accommodate the underlying Neighborhood Mixed-Use land use classification. To the east, across Spotsylvania Street lies a B-2 zoning district at the intersection of Mechanicsville Turnpike and Fairmount Avenue. To the south and west lies an R-53 Multifamily Residential district.

MASTER PLAN DESIGNATION

The Richmond 300 Master Plan (the "Master Plan") suggests "Neighborhood Mixed-Use" for the Property. This land use category is described as "existing or new highly-walkable urban neighborhoods that are predominantly residential." The Master Plan suggests this future land use designation allow for a variety of housing types that are consistent with the scale, density, and design of what exists in the vicinity. Two-family dwellings are a primary use in the Neighborhood Mixed-Use designation which also encourages that developments reinforce a gridded street pattern to increase connectivity.

In addition to the Property-specific guidance offered by the Vision and Core Concepts chapter, there are a number of other goals elsewhere within the Master Plan that support this request.

- Page 136 (Diverse Economy Chapter), Objective 11.1 to "Increase the areas of appropriately zoned land near various transportation modes and housing to retain, create, and attract employers."
 - d. Encourage the development of a variety of quality housing types to house employees across the economic spectrum (see Goal 14).
- Page 150 (Inclusive Housing Chapter), Objective 14.1 to "Increase city-wide awareness of the importance of integrating housing at all income levels into every residential neighborhood so every household has housing choice throughout the city."
- Page 152 (Inclusive Housing Chapter) (see map on p. 153), Objective 14.5 to "Encourage more housing types throughout the city and greater density along enhanced transit corridors and at Nodes (shown in Figure 38 [p.153]) by amending the Zoning Ordinance."
- Page 159 (Thriving Environment Chapter) Objective 15.1 to "Reduce air pollution related to transportation."
 - a. Increase the number of Richmonders living in a development pattern that encourages density and reduces dependency on single-occupancy vehicles (see Goal 1, Goal 8, Goal 14).
- Page 86 (High-Quality Places Chapter), Objective 1.4, to "maintain and improve primarily residential areas by increasing their linkages to...corridors...and maintaining high-quality design standards."
- Page 100 (High Quality Places Chapter), Objective 4.1, to "create and preserve high-quality, distinctive, and well-designed neighborhoods and nodes throughout the City," as

the request introduces thoughtfully designed new construction in a manner not otherwise assured by-right.

Proposal

PURPOSE OF REQUEST

The SUP would permit the division of the Property into three lots and the construction of three abutting two-family detached dwellings. The three new dwellings would be located on two outer lots that would each be 21 feet in width and contain approximately 2,465 square feet of lot area and an inner lot that would be roughly 18 feet in width containing approximately 2,113 square feet of lot area. While this configuration is consistent with the Neighborhood-Mixed Use land use classification, existing dwellings in the area, and the recently approved rezoning nearby, it does not meet some of the R-6 District feature requirements for two-family detached dwellings including lot width and area as well as the side yard requirements and therefore, a SUP is required. Two off-street parking spaces, accessible from the rear alley, would be provided for each dwelling.

PROJECT DETAILS/DESIGN

The proposed dwellings would be configured as abutting detached dwellings. They will have a separate foundation with a 1-2" air gap between the foundation and famed wall assemblies which will be concealed by trim along the façade and capped at the roof. The two exterior units will be approximately 17' 9" in width and 62 feet in depth while the interior unit would be roughly 17' 10" in width and 70 feet in depth. They would be two stories in height and configured as flats and have been designed to appear as single-family dwellings from the street with one entrance for each dwelling. Each exterior dwelling would include approximately 2,222 square feet of finished floor area and the interior dwelling would contain approximately 2,310 square feet of area. Each first-floor unit and the second floor of the interior dwelling would contain two bedrooms and two- and one-half baths along with a modern open kitchen and living area. In order to provide a variety of housing types, the second floor of the two exterior units would have three bedrooms and three bathrooms.

The dwellings would be of a traditional urban design that is consistent with the architectural character found in the older homes within the neighborhood. The proposed floor plans are modern and efficient, and designed to be meet the needs of the market including bedrooms with en-suite bathrooms and large closets. Full-width front porches are also proposed for each dwelling along with decks on both floors at the rear. Two off-street parking spaces for each dwelling accessible from the rear alley.

Findings of Fact

The following are factors indicated in Section 17.11 of the Charter and Section 30-1050.1 of the Zoning Ordinance relative to the approval of special use permits by City Council. The proposed special use permit will not:

- ***Be detrimental to the safety, health, morals and general welfare of the community involved.***

The proposed SUP for high-quality infill construction will not impact the safety, health, morals and general welfare of the nearby neighborhoods.

- ***Tend to create congestion in streets, roads, alleys and other public ways and places in the area involved.***

The proposed SUP will not result in significant traffic impacts to nearby residential neighborhoods. The negligible traffic generation and off-street parking space for the dwellings will create no congestion on streets, roads, alleys or any other public right of way.

- ***Create hazards from fire, panic or other dangers.***

The property will be developed in a manner consistent with the requirements of the building code and in accordance with the requirements of Fire and Emergency Services. The City's codes applicable to this development are designed to eliminate such hazards.

- ***Tend to overcrowding of land and cause an undue concentration of population.***

The proposed SUP will not tend to overcrowd the land or create an undue concentration of population.

- ***Adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences, and improvements.***

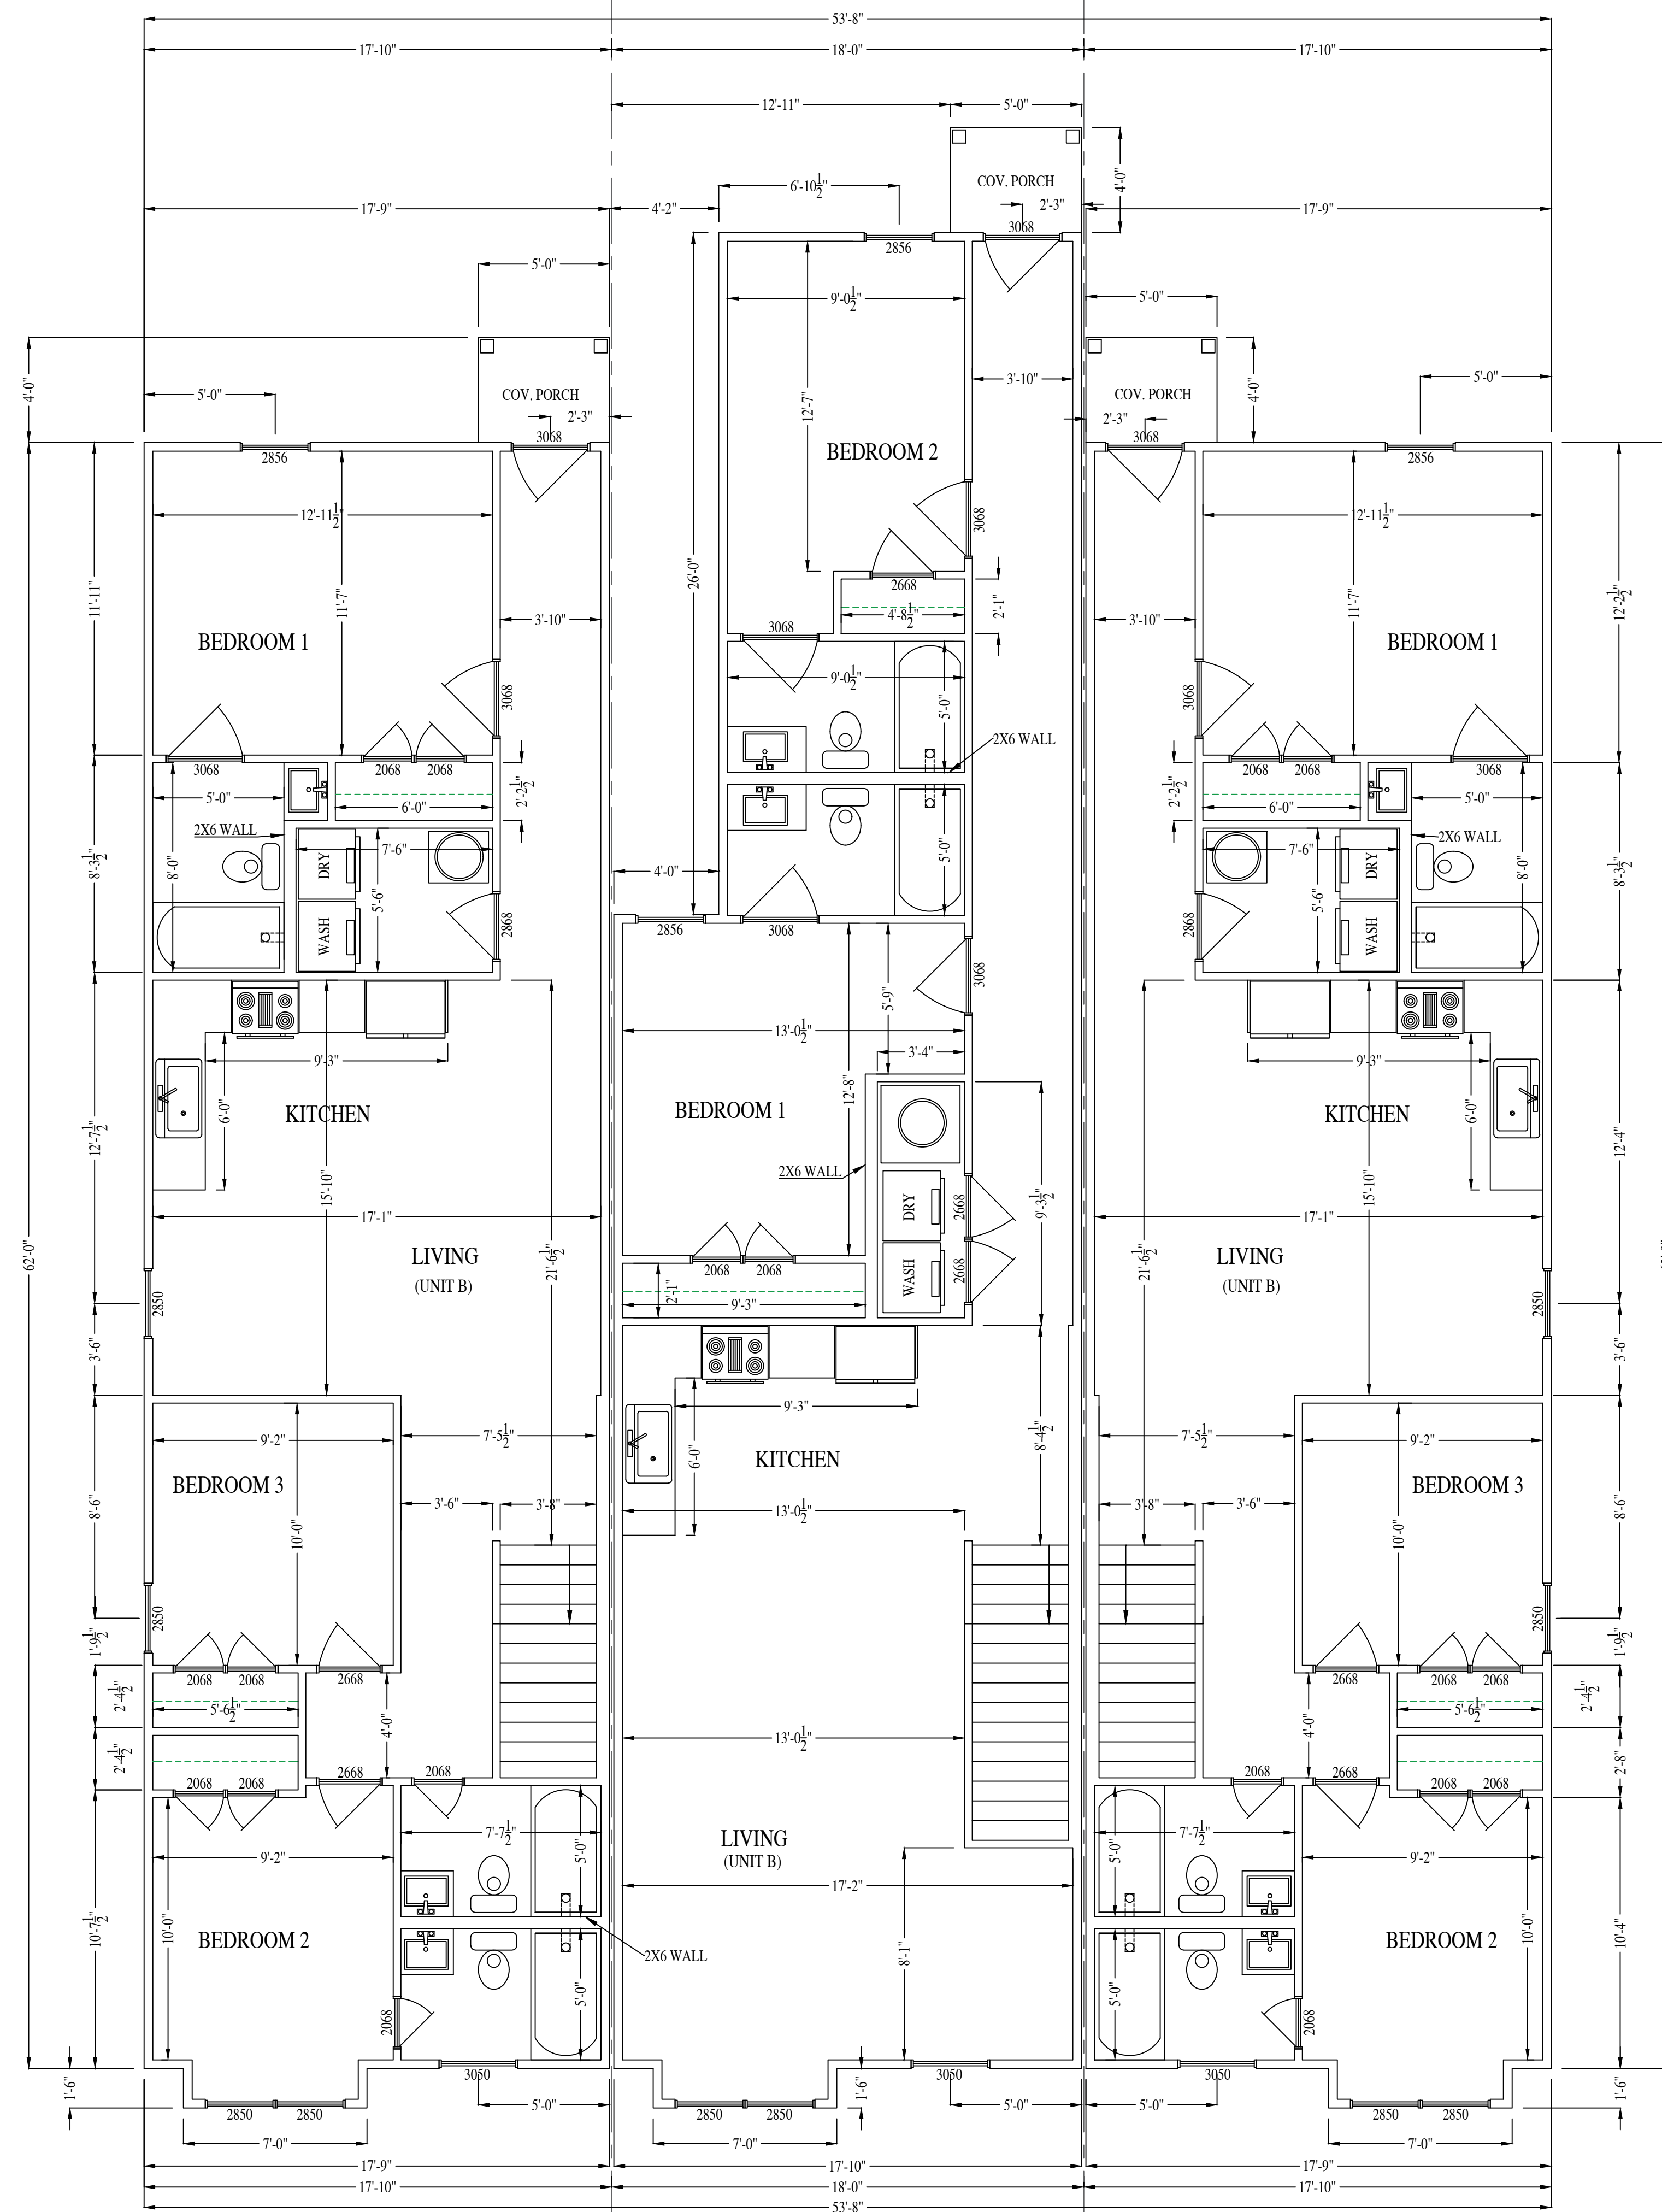

The proposed SUP would not adversely affect the above referenced City services.

- ***Interfere with adequate light and air.***

The light and air available to the subject and adjacent properties will not be affected. The proposed buildings are of compatible massing and spacing to the existing in the vicinity. As a result, this request will not interfere with the provision of adequate light and air to the adjacent buildings.

Summary

In summary we are enthusiastically seeking approval for the construction of three abutting two-family detached dwellings on the Property. The SUP represents an ideal, small-scale urban infill development for this location that is mindful of its surroundings. These dwellings provide new housing opportunities for the neighborhood which are consistent with the goals of the Richmond 300 Master Plan. In exchange for the SUP, the quality assurances conditioned therein would guarantee the construction of three quality residences containing a total of six units consistent with Master Plan guidance.
