## Introduction

The property owner is requesting a special use permit (the "SUP") for 2904 E Franklin Street (the "Property"). The SUP would authorize the division of the Property and the construction of a new single-family detached dwelling on the vacant western portion of the parcel. While the single-family use is permitted by the underlying R-6 Single-Family Attached Residential District, some of the underlying feature requirements cannot be met, and therefore a SUP is required.

## Existing Conditions

### SITE DESCRIPTION AND EXISTING LAND USE

The Property is located on the northern line of E Franklin Street between N 29<sup>th</sup> and N 30<sup>th</sup> Streets and is currently occupied with a single-family detached dwelling. The Property is referenced by the City Assessor as tax parcel E000-0578/008, is roughly 50' wide, and contains approximately 8,150 square feet of lot area. Due to the configuration of the existing lots nearby, no off-street access is provided for the Property.

The properties in the vicinity include a wide variety of housing types including single-family attached and detached dwellings, two-family dwellings, and multifamily dwellings. Dwellings in the area consist of a mix of new construction and historic dwellings generally ranging from two to

three stories and constructed of a range of materials. There is significant topography change to the north and east of the Property limiting construction and leading to a break in the street grid with both the N 30<sup>th</sup> and N 31<sup>st</sup> Street right of ways remaining incomplete north of E Franklin Street.

## **EXISTING ZONING**

The Property is zoned R-6 Single-Family Attached Residential. All adjacent properties are also zoned R-6. The subject parcel and those located south of Carrington Street are located within the St. John's Church City Old and Historic District.

## **TRANSPORTATION**

The Property is located within a half mile of GRTC bus stops which serve the high-frequency 'Pulse' BRT and 4A and 4B bus stops providing access throughout the City and connections to the GRTC bus system.

## **MASTER PLAN DESIGNATION**

The proposed development is consistent with the Richmond 300 Master Plan (the "Master Plan"), which recommends "Neighborhood Mixed-Use" for the Property. This use is described as "Existing or new highly-walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses." The Master Plan also recommends a development style that "feature a variety of building types that are close to one another and create a unified street wall. The building size, density, and zoning districts for these areas vary depending on historical densities and neighborhood characteristics."

In addition to the Property-specific guidance offered by the Vision and Core Concepts chapter, there are a number of other goals elsewhere within the Master Plan that support this request, including:

- Page 109 (Equitable Transportation Chapter), Objective 6.1 to "Increase the number of residents and jobs at Nodes and along enhanced transit corridors in a land development pattern that prioritizes multi-modal transportation options."
  - b. Develop housing at all income levels in and near Nodes and along major corridors (see strategies Goal 14).
- Page 136 (Diverse Economy Chapter), Objective 11.1 to "Increase the areas of appropriately zoned land near various transportation modes and housing to retain, create, and attract employers."
  - d. Encourage the development of a variety of quality housing types to house employees across the economic spectrum (see Goal 14).
- Page 152 (Inclusive Housing Chapter) (see map on p. 153), Objective 14.5 to "Encourage more housing types throughout the city and greater density along enhanced transit

corridors and at Nodes (shown in Figure 38 [p.153]) by amending the Zoning Ordinance. “

- Page 159 (Thriving Environment Chapter) Objective 15.1 to “Reduce air pollution related to transportation.”
  - a. Increase the number of Richmonders living in a development pattern that encourages density and reduces dependency on single-occupancy vehicles (see Goal 1, Goal 8, Goal 14).
- Page 86 (High-Quality Places Chapter), Objective 1.4, to “maintain and improve primarily residential areas by increasing their linkages to...corridors...and maintaining high-quality design standards”
- Page 100 (High Quality Places Chapter), Objective 4.1, to “create and preserve high-quality, distinctive, and well-designed neighborhoods and nodes throughout the City,” as the request introduces thoughtfully designed new construction in a manner not otherwise assured by-right.

## Proposal

### PROJECT SUMMARY

The proposed development includes the division of the parcel and the construction of a single-family detached dwelling on the vacant western parcel.

### PURPOSE OF REQUEST

The SUP would permit the construction of a new, single-family detached dwelling fronting onto E Franklin Street. The proposed lot split would result in two parcels; the western parcel, containing the new dwelling, would be 18.6' in width and contain roughly 3,032 square feet of lot area. While the eastern parcel, containing the existing dwelling, would be 31.4 feet in width and containing roughly 5,118 square feet of lot area. As a result, the R-6 District lot area and width requirements would not be met for the new parcels. All other aspects of the underlying zoning requirements will be met.

### PROJECT DETAILS

The proposed dwelling at 2904 E Franklin Street would be 15 feet in width, 50 feet in depth, and three stories in height and would include approximately 2,120 square feet of finished floor area. The dwelling would contain three bedrooms and two-and-one-half bathrooms. The proposed floor plans are modern and efficient, and designed to meet the needs of the market including a primary bedroom with en-suite bath and walk-in closet. The building would be of frame construction with a false mansard roof and would be clad in cementitious lap siding, similar to other dwelling which have recently been constructed nearby. A rear facing third floor terrace and full-width front porch would provide additional outdoor living area for the future occupant.

As the Property is located within the St. John's Church City Old and Historic District, the proposed dwelling is subject to review from the Commission of Architectural Review to ensure

compatibility with the historic neighborhood. In exchange for the SUP, the intent of this request is to create a high-quality infill product in the neighborhood that is in-line with future land use guidance.

## Findings of Fact

The following are factors indicted in Section 17.11 of the Charter and Section 114-1050.1 of the Zoning Ordinance relative to the approval of special use permits by City Council. The proposed special use permit will not:

- ***Be detrimental to the safety, health, morals and general welfare of the community involved.***

The proposed special use permit will not impact the safety, health, morals and general welfare of the nearby neighborhoods.

- ***Tend to create congestion in streets, roads, alleys and other public ways and places in the area involved.***

The proposed special use permit will not result in significant traffic impacts to nearby residential neighborhoods. The proposed residential use would be limited in size, type and scale to avoid any traffic or parking concerns.

- ***Create hazards from fire, panic or other dangers.***

The property will be developed in a manner consistent with the requirements of the building code and in accordance with the requirements of Fire and Emergency Services. The City's codes applicable to this development are designed to eliminate such hazards.

- ***Tend to overcrowding of land and cause an undue concentration of population.***

The proposed special use permit will not tend to over crowd the land or create an undue concentration of population.

- ***Adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements.***

The proposed special use permit would not adversely affect the above referenced City services. To the contrary, the proposal would provide positive fiscal (tax) benefits that would enhance the City's ability to provide these services to the proposed development.

- ***Interfere with adequate light and air.***

The light and air available to the subject and adjacent properties will not be affected.

## Summary

In summary we are enthusiastically seeking approval for the construction of a new, single-family detached dwelling on the Property. The SUP represents an ideal, small-scale urban infill development for this location. In exchange for the SUP, the quality assurances conditioned therein would guarantee the construction of a quality home ownership opportunity consistent with Master Plan guidance. This would contribute to the overall vibrancy of the block through the provision of an appropriate urban form and use that is consistent with the development pattern and surrounding neighborhood.
