Commissioners and Staff,

We write regarding Ordinance 2022-266, 4000 Government Road planned Special Use permit. This is a project we were able to discuss within the organization and elevated a few concerns and questions on the project in the Spring and were told final plans were pending and the SUP process had not yet been initiated. We then received notification from Planning staff on 9/15 that the SUP would be before the commission.

At this time we would request a 30 day continuance of the project in order to discuss those concerns again with the development team and identify solutions.

If that is not possible, the association would like to register non-support of the project as presented.

Thank You,

Church Hill Central Civic Association
