**To:** City Planning Commission  
**From:** Department of Planning and Development Review  
**Date:** October 15, 2018

---

#### **PETITIONER**

City of Richmond  
900 East Broad Street  
Richmond, VA 23219

#### **LOCATION**

The study area, Monroe Ward, is bounded by Belvidere Street to the west, the Downtown Expressway to the south, Broad Street to the north, and Ninth Street to the east.

#### **PURPOSE**

To amend the official zoning map for the purpose of rezoning certain properties in Monroe Ward.

#### **SUMMARY & RECOMMENDATION**

This Resolution is one of a set of four, which together will revise the City's official zoning map for the purpose of rezoning certain properties in Monroe Ward, bounded by Belvidere Street to the west, Broad Street to the north, the Downtown Expressway to the south and Ninth Street to the east, in order to increase density and accommodate growth and development pressure while preserving the historic character of the neighborhood. Each Resolution represents one of four elements to this process, a combination of which will reach the desired outcome:

1. changing zoning classification of certain parcels from light-industrial or auto-oriented designations to those more in keeping with the historic building patterns and intent of the Pulse Plan;
2. adding Street-Oriented Commercial and Priority Streets in the area to the official zoning map;
3. creating a Plan of Development Overlay District for the area to ensure development meets the six design elements of the Pulse Plan; and
4. removing the inclined plane requirement from the B-4 (Central Business) District.

**Staff supports the resolution.**

---

## FINDINGS OF FACT

### **Background**

These amendments arise out of the recommendations of the adopted Pulse Corridor Plan, an analysis of the existing zoning ordinance and its application across the City, and an extensive public engagement process, both for the plan and for this area rezoning. There is significant building activity in the Central Business District which continues to move west into Monroe Ward and expansion of VCU's Monroe Park campus has stretched east of Belvidere into Monroe Ward. While Monroe Ward is home to an array of historic structures, there are also a significant number of surface parking lots, several of which take up entire blocks. This proactive rezoning process is in order to ensure that new development is in keeping with the principles of the Pulse Plan.

### **Master Plan**

The area for this rezoning is part of the Arts District Station Area in the Pulse Corridor Plan.

(Note: the Arts District Station Area also includes Jackson Ward, but the character of the neighborhoods are significantly distinct enough to proceed with each area separately. Furthermore, the R-6 designation in most of Jackson Ward is appropriate to the character and future land use of the neighborhood, and it is not a rezoning priority at this time.)

Rezoning Monroe Ward to districts that align with the future land use map is the first recommendation for this study area (84). The plan envisions a strong transit-oriented node at each station area along the corridor, and describes Monroe Ward's future land use as "high-intensity pedestrian- and transit-oriented development", with tall signature buildings, active commercial ground floors, few driveways cutting through sidewalks, and little to no setbacks for commercial building, adding that new buildings will add to the already "incredibly dynamic and diverse building stock, creating a truly eclectic urban neighborhood" (84). The plan recommends that new zoning does not allow surface parking lots as a principle permitted use.

### **Existing and Proposed Zoning**

Staff has completed an extremely thorough analysis and vetting of exactly the tools needed to accomplish the plan vision and spur development while preserving the historic character of the neighborhood.

As a result, there are four elements to this rezoning process:

1. Rezoning the area from either light industrial (M-1), auto-oriented commercial (B-3), or outdated residential/office (RO-3) to downtown mixed-use (B-4) and transit-oriented development (TOD-1);
2. adding Priority and Street-Oriented Commercial designations in the area to the official zoning map;

3. creating a Plan of Development Overlay District for the area to ensure that new development meets the six design elements of the Pulse Corridor Plan;
4. removing the inclined plane from the B-4 district.

This Resolution is specific to changing zoning district boundaries in Monroe Ward:

- rezoning parcels currently zoned RO-3 (Residential Office) to B-4 (Central Business);
- rezoning parcels currently zoned B-3 (General Business) and M-1 (Light Industrial) to TOD-1 (Transit-Oriented Development)
- rezoning parcels currently zoned B-3 (General Business) to B-4 (Central Business)
- and rezoning two parcels currently zoned B-5 (Central Business with a height limit of five stories) to B-4 (Central Business)

#### **Attached Summary Document**

In order to convey the ideas and reasoning behind this rezoning process clearly and thoroughly, staff created a summary document complete with explanatory text, maps of existing and proposed zoning, exact zoning changes, and explanation of each recommendation. Please see summary (attached) for further details.

#### **Public Engagement**

As the Pulse Corridor Plan was developed over the course of 2015-2017, City Staff held numerous public forums, set up online surveys, attended standing civic association meetings, and tracked public feedback.

In July of 2017, staff held two public open houses at the Main Library to discuss the Monroe Ward rezoning, and provided informational maps and comparisons of zoning districts. In addition, a letter was sent to each property owner of over 400 addresses which will be affected by the rezoning. Of the 400 property owners affected, PDR received only two letters expressing concern or opposition, and has subsequently engaged with both parties.

Because more than a year has elapsed between those meetings and now, staff will convene meetings again before presenting to City Council.
