Subject: **Proposed Richmond 300 Plan**

I urge the City Council to veto the portion of the bill affecting private landowners along the James River from Willow Oaks to the Willey Bridge.

As a landowner since 1980, my assessment of land is much more (per your assessment) than twice the value of my home. Due to the granite outcroppings, the flooding (and zoning) and slope severity I was granted only a small footprint for building.

I do not want to lose this investment I have in peace, beauty and security due to a new law that would allow the City to purchase under developed land.

My full name is Dorothy R. Figg, my address is 4444 Hickory Rd., and I am retired. I represent no organizations or groups.
