Dear Urban Design Committee,

I write today to vehemently express my disapproval for the construction of Fire Department Training Facilities on Hickory Hill Community Center grounds. This proposal will increase air and noise pollution in our community. This proposal will only continue the degradation of green space in and around the Hickory Hill Community and the Southside more broadly. In addition, this proposal will diminish an important and restorative resource for our children and families, and will only serve to further reduce opportunities to engage in physical activity in an attractive and relaxing environment. For these reasons, I urge you to vote NO on the

building of Fire Department Training Facilities on  
Hickory Hill Community Center grounds.

Thank you,

**Dawn C. Page**
