ORDINANCE/RESOLUTION SUMMARY

The patron requests that legislation be drafted for Council's consideration requiring the installation of one speed table, within 90 days of Council's approval of the legislation, as follows:

- Seminary Avenue between Overbrook Road and Edgehill Road, specifically between 2604 and 2606 Seminary Avenue.

BACKGROUND

The patron requested traffic studies of the area with Paper No. 2021-201 (approved June 28, 2021). DPW/Traffic Engineering study found that speed tables are not warranted. However; area residents have continued to contact their Council Member to address speeding concerns. The patron and area residents hope that the installation of speed tables here will help prevent speeding in the area and any collisions that might occur on the roadway.

The patron's office was notified that the Edgehill Chamberlayne Court Edgehill Civic Association voted to support installation of the proposed speed table at its September 2022 meeting by its President.

The patron hopes that there is improved traffic safety as a result of the speed table installation and that this will protect pedestrians, cyclists, and auto-drivers.
