RE: To authorize the Chief Administrative Officer, for and on behalf of the City of Richmond, to accept \$8,519.98 from the Virginia Opioid Abatement Authority for the purpose of funding the Recovery Academy cooperative project with Henrico and Chesterfield Counties to combat the opioid crisis.

ORD. OR RES. No. _____

PURPOSE: To authorize the Chief Administrative Officer, for and on behalf of the of the City of Richmond, to accept funds in the amount of \$8,519.98 from the Virginia Opioid Abatement Authority and to amend the Fiscal Year 2025-2026 General Fund Budget by creating a new line item in the Non-Departmental agency to be called the “Chesterfield County Recovery Academy” line item, and to appropriate the increase to the Fiscal Year 2025-2026 General Fund Budget by increasing estimated revenues and the amount appropriated to such new line item by \$8,519.98, all for the purpose of making a grant of matching funds to Chesterfield County to support the Recovery Academy initiative funded by the Virginia Opioid Abatement Authority. There will be one additional ordinance that will accompany this ordinance that authorizes the Chief Administrative Officer to execute an Operational Agreement for Cooperative Partnerships for Opioid Abatement

Authority Awards between the City of Richmond and Chesterfield County for the purpose of supporting the Chesterfield Recovery Academy in collaboration with Chesterfield County and Henrico County to combat the opioid crisis.

BACKGROUND: Virginia's Opioid Abatement Authority is an independent body, the purpose of which is to abate and remediate the opioid epidemic in the Commonwealth through financial support from the Fund, in the form of grants, donations, or other assistance, for efforts to treat, prevent, and reduce opioid use disorder and the misuse of opioids in the Commonwealth. The Virginia Opioid Abatement Authority (VOAA) has an annual application cycle that includes a competitive grant opportunity for proposals involving collaborations between two or more localities. During this cycle, Chesterfield County, in partnership with the City of Richmond and Henrico County, submitted a cooperative project proposal. On June 18, 2025, the City of Richmond was notified by the VOAA that the cooperative project proposed by Chesterfield County was approved with a locality match of \$8,519.98 from Richmond's individual distribution (at no fiscal impact to the City of Richmond). Chesterfield County will serve as the lead applicant and fiscal agent.

As part of the award conditions, the localities must have a written operational agreement by which the implementing organization agrees to comply with applicable grants terms, conditions, and assurances. There will be one additional ordinance that will accompany this ordinance that authorizes the Chief Administrative Officer to execute an Operational Agreement for Cooperative Partnerships for Opioid Abatement Authority Awards between the City of Richmond and Chesterfield County for the purpose of supporting the Chesterfield Recovery Academy in collaboration with Chesterfield County and Henrico County to combat the opioid crisis.

This ordinance authorizes the Chief Administrative Officer, for and on behalf of the City of Richmond, to accept funds in the amount of \$8,519.98 from the VOAA, to amend the Fiscal Year 2025-2026 General Fund Budget by creating a new line item in the Non-Departmental agency to be called the "Chesterfield County Recovery Academy" line item, and to appropriate the increase to the Fiscal Year 2025-2026 General Fund Budget by increasing estimated

revenues and the amount appropriate to such new line item by \$8,519.98, all for the purpose of making a grant of matching funds to Chesterfield County to support the Recovery Academy initiative funded by the Virginia Opioid Abatement Authority.

Chesterfield Recovery Academy (CRA) opened in Fall 2022 as Virginia's first recovery high school in response to the adolescent substance use and opioid overdose epidemic. CRA is a year-round program serving high school students from central Virginia who are recovering from substance use disorder. All high school students in the Virginia Department of Education's (VDOE) Region One are eligible for enrollment. This catchment area encompasses 15 school divisions, including the Counties of Charles City, Chesterfield, Dinwiddie, Goochland, Hanover, Henrico, New Kent, Powhatan, Prince George, Surry, and Sussex, as well as the Cities of Colonial Heights, Hopewell, Petersburg, and Richmond. The Chesterfield Recovery Academy Outreach and Transportation project will build on what has been learned during CRA's three years of operation to increase adolescent access to substance use treatment and interrupt the cycle of opioid and multi-substance use disorder in high school-aged students. It focuses on community outreach throughout the 15 jurisdictions served, including students, caregivers, schools, mental health professionals, community agencies, law enforcement, and recovery partners. This project aims to provide community opioid abatement education to localities, increase CRA enrollment and regional representation, and development. Since 2022, Chesterfield Recovery Academy has supported over 60 students in early recovery from opioid and multi-substance use disorder. Several of the students spoke at the White House for the 2023 National Recovery Month Celebration and celebrated 6 months of sobriety on the national stage. CRA students with years of prescription opioid misuse have maintained recovery and abstinence from opioids for the first time in their high school careers. With six graduating seniors in 2025, this model has transformed opportunities for students struggling with substance use and battling academic consequences.

COMMUNITY ENGAGEMENT: Opioid abatement and remediation strategies utilized by the City of Richmond have and continue to be informed by significant stakeholder engagement and developed with direct input and support from external agencies and subject matter experts. This project is the result of regional collaboration between the counties of Henrico and Chesterfield, and the City of Richmond.

STRATEGIC INITIATIVES AND OTHER GOVERNMENTAL: RES. 2022-R013 declaring opioid drug overdose deaths as a public health crisis in the City of Richmond; Richmond Opioid Task Force.

FISCAL IMPACT: There is no direct fiscal impact to the City. The funds used for this project are from the Virginia Opioid Abatement Authority. The City will receive \$8,519.98 from the Virginia Opioid Abatement Authority, which will be appropriated and passed through to Chesterfield County, serving as the fiscal agent, to fulfill the City's required match. The City's match is fully funded by the grant proceeds received from the Authority, consistent with the approach used by all participating localities.

Which of the following criteria does the project meet?

- ☒ A new effort for the agency.

Provide a brief narrative description of the proposed project.

Chesterfield Recovery Academy (CRA) opened in Fall 2022 as Virginia's first recovery high school in response to the adolescent substance use and opioid overdose epidemic. CRA is a year-round program serving high school students from central Virginia who are recovering from substance use disorder. All high school students in the Virginia Department of Education's (VDOE) Region One are eligible for enrollment. What is the strategy for long-term sustainability once OAA funds are reduced or no longer available?

In order to maintain sustainability, the outreach position will be merged with the current Peer Navigator position. This position is currently funded through our partnership with Recovery Corps. During the time of OAA funding the position will create networks of communication, establish contacts, and provide education about CRA to continue community partnerships and growth within the region. These networks and contacts can maintain lines of communication in order for outreach to continue. Transportation is a major component and advantage for students to attend school and receive the clinical support to address their substance use issues. Chesterfield County Public Schools continuously look for additional outside grant funding to subset costs. The school system will evaluate the contributions from the regional partners for budgeting a percentage of transportation costs. In addition, Chesterfield County Public Schools will advocate to the state legislature for increased funding to for anticipated increase in operational costs.

How was the need determined and how does that need relate to abatement?

The need for outreach has been in pertinent since the program began in 2022. As a new program, developing contacts and gathering resources for a 15-county partnership can be daunting. Each year, the goal is to increase education and contacts within the region at least 10%. It relates to abatement through establishing a clear line of communication for community members and organizations about the resources for adolescents battling substance use with an emphasis on opioid abuse or misuse.

Briefly describe the organization(s), including any sub-recipients or contractors (if known) that will be involved in this project. Attach any contracts and/or memoranda of understanding/agreement. If not fully executed, a draft or a narrative describing the scope of services may suffice.

Describe any specific group(s) of individuals this project is designed to reach, and how many individuals are expected to participate each year.

This project will reach adolescents in the age range of 13-19 and their families within the Superintendent's Region One area. The group will have a representation from varying ethnic groups, socio-economic, and gender. This population has limited resources to address their substance use issues and provide assistance to families to support their students in their recovery journeys. Anticipated participation is between 25-35 adolescent youth each year with the capacity to accommodate 50 students.

Does this project have components other than opioid-related abatement as defined?

☒ No, it is 100% related to opioid treatment. ☐ Yes, there are other substances involved.

Provide a budget narrative for the funding strategy of this project

The funding strategy for the project is designed to ensure effective program implementation by allocating resources to key operational areas. A total of \$285,000 will be dedicated to transportation, ensuring that students have reliable and safe access to the school. This funding will cover costs associated with fuel, maintenance, and any necessary staffing for transportation services, thereby eliminating potential barriers to attendance for students in recovery. Operational costs will be supported with \$23,500, which will be used to cover essential expenses such as instructional materials, administrative supplies, and travel necessary for daily outreach operations. Additionally, \$32,299 will fund a part-time outreach position responsible for student recruitment, community engagement, and partnership development. This role will be critical in raising awareness about the recovery school's mission, connecting with families, and fostering relationships with external organizations to support student success. These strategic allocations will ensure the sustainability and effectiveness of the program in meeting the needs of students in recovery.

The agreement should also designate the city or county selected as fiscal agent for the cooperative project. A **SAMPLE** agreement is available [here](#). This agreement is needed to apply.

- i. If any participating city and/or county elects to allocate a portion of its Direct Distributions and/or Individual Distributions from the OAA to this regional project, the Cooperative Partnership Agreement should clearly document the commitment separately for each fund and the amount.
- ii. If the project is selected for an award, the partnership will then need to complete an Operational Agreement (sample agreement and exhibit) that details how the partnership and the fiscal agent will implement and manage the project. This agreement is only needed if the project is awarded.

Dear Jennifer Renee Patterson

As Chairman of the Virginia Opioid Abatement Authority (OAA) I am pleased to inform you that Chesterfield County acting as fiscal agent on behalf of itself, Richmond City, Henrico County, has been awarded a Cooperative Partnership grant in the amount of \$306,719.00 to support its Chesterfield Recovery Academy Outreach and Transportation project.

Included in this award are Individual Distribution and/or Gold Standard Incentive awards pledged as a match to this project for the following localities: Chesterfield County : \$17,040.00, Henrico County : \$8,520.00, Richmond City : \$8,520.00. The OAA Board of Directors has invested considerable time and effort to ensure that Virginia allocates its share of the national opioid settlements in a manner that saves lives, restores families, and safeguards communities. This is a major challenge and will require a strengthening of partnerships between community-based organizations, local governments, state agencies, and many other stakeholders. Efforts such as Richmond City, Chesterfield County, Henrico County's Chesterfield Recovery Academy Outreach and Transportation have the potential to exemplify how we can work together to turn the tide of the opioid crisis in Virginia.

Details about the award being offered by the OAA are attached to this letter. We look forward to receiving your acceptance and to working together on this important mission.

Sincerely,

A handwritten signature in blue ink, appearing to read "Todd", is written over a horizontal line.

19. Performance and Obligation Periods

OAA awards to cities and counties shall have a performance period of two years (the current and following fiscal years). Recipients must submit yearly requests that amend the current year (if necessary) and apply for the next fiscal year's funding. Carryforward of funds from FY2023 to FY2024 and FY2024 to FY2025 will be automatic. In subsequent years, carryforward requests will need approval from the OAA or remaining balances will be repaid to the OAA. Reporting will be on a yearly basis, due September 1, of each year on forms prescribed by the OAA. Grant funds, including matching funds, may be expended and/or obligated during the grant award period of performance. Recipients may only charge to the award allowable costs incurred during this grant award period.

All other cases of carryforward requests will require approval from the Grants Committee.
- c. For Cooperative Partnership projects with final carryforward amounts that differ from the amount approved by the Grants Committee, the following will apply:
 - i. For carryforward amounts less than the Grants Committee approved amount, no changes will be made to the subsequent fiscal year award amounts.
 - ii. For carryforward amounts greater than the Grants Committee approved amount, the subsequent fiscal year Cooperative Partnership award will be reduced by a like amount, unless the fiscal agent can demonstrate that the funds will be used for an already approved expenditure that is not able to be realized in the fiscal year it was approved. Any carryforward greater than the Grants Committee approved amount requires Grants Committee approval.
