---

To UDC:

Please request the following changes on the hull st project:

West of Hey St / Derwent Rd: These plans should be designed to allow Pocosham Greenway to cross Hull St here in the future whether midblock or at Hey St / Derwent Rd intersection

- o If mid block across – consider shortening the left turn lane to Derwent Rd so a proper midblock crossing could occur
  - o If at intersection place another pedestrian crossing on the west side of the intersection
- Every signalized intersection crossing Hull st should have a crosswalk and pedestrian signal
  - Place pedestrian crossing on Orcutt Lane across Hull St
  - Place pedestrian Crossing across Hull at Byrce St

Thanks,

John
