INTRODUCTION

Canterbury Development Group LLC, a Virginia limited liability company, is the contract purchaser of approximately 3.55 acres of land located in Richmond, Virginia at 3731 and 3731-A Grubbs Lane, owned by Byron S. Ballard; 4045 Walmsley Blvd, owned by Byron S. Ballard and Vickie L. Ballard and 4057 Walmsley Blvd owned by Byron S. Ballard and Vicki Laverne Ballard (all aforementioned land is collectively referred to herein as the “Property”) (all aforementioned persons and entities are collectively referred to herein as the “Applicant”).

The Applicant plans to develop up to seventy-two (72) attached townhouse style residences (one unit over one unit) for sale and/or rent (the “Townhomes”) as shown on the Revised SUP Plan Set entitled “Walmsley Boulevard Condos SUP Plan,” dated 9.23.2022, revision date May 19, 2023 and prepared by Timmons Group (the “Project”). The Applicant’s vision for the Property and the area will be known as “Walmsley Townhouses,” a small residential development that will provide both young families and retirees in the South Richmond community with much-needed, new, easy to maintain single-family homes.

The Property is located within the Cottrell Farms Neighborhood.

PROPOSED USE AND SPECIAL USE PERMIT REQUEST

The Property is zoned R-3 Residential (Single-Family) District.

The Applicant is seeking a Special Use Permit to allow construction of the Townhomes.

The Project will have two models that will be substantially similar to the floor plans entitled “Walmsley Townhomes Floor Plans” attached hereto (the “Floor Plans”). The Townhomes will be 900 square feet in floor area or greater. The exterior of each dwelling as shown on the attached “Elevations”, for illustration purposes only, will be sided with HardiePlank or a similar siding. Additionally, the interior road will be a private Right-of-Way with perpendicular parking and two access points to and from Grubb Lane.

EXISTING PROPERTY AND SURROUNDING AREA

The Property forms the northern margin of the Cottrell Farms neighborhood. Cottrell Farms is bound by Walmsley Road to the North, Falling Creek to the South, Hopkins Road to the East, and Iron Bridge Road to the West. While the neighborhood is mostly made up of single-family homes, it has a few restaurants and other retail uses throughout the area.

THE RICHMOND 300 PLAN

The Richmond 300 Plan designates the Property's future use as Residential, a category which calls for houses on medium-sized and large-sized lots that are setback from the street in a largely auto-dependent environment. The primary use for a Residential use category includes single-family houses, accessory dwelling units, and open space. Secondary uses include duplexes and small multi-family buildings (typically 3-10 units), institutional, and cultural. Additionally, buildings generally range from one to three stories.

PROPOSED USE

The development of the Project as described herein is compatible with the surrounding area and an appropriate use for the site. The Project will be an infill of development and serve as a natural addition to the many single family dwellings in the neighborhood. The Project's proposed townhouse style with one-over-one units is in line with the Richmond 300 plan for the area. This Project will provide dozens of new, high-quality houses at attainable market prices.

Utilities will be connected to the adjacent public water and sewer mains. Storm or surface water shall not be allowed to accumulate on the land. The developer of the Project, at its sole cost and expense, shall provide and maintain at all times adequate facilities for the drainage of storm or surface water from the Property so as not to adversely affect or damage any other property or public streets and the use thereof.

The Project is projected to generate approximately 500-600 vehicle trips per day, an amount that should be easily absorbed by the surrounding road network. Grubb Lane is a feeder street to Walmsley Boulevard, which is a median-separated four-lane road. The Project's entrances would be 150 & 575 feet from Grubb Lane's interchange with Walmsley Boulevard, which is 800 feet from Walmsley Boulevard's interchange with Hopkins Road, another four lane road. The Property's location means that morning and evening commutes should be spread evenly across the adjacent major roads. Additional traffic will be further alleviated by the private right of way and perpendicular parking spaces throughout the Property as well as the Property's proximity to GRTC transit options on Belt Boulevard.

SUITABILITY OF ZONING and FINDINGS OF FACT

The following are factors listed in Section 30-1050.1 of the Zoning Ordinance to be considered with the review of special use permit applications.

The proposed SUP will:

- *NOT be detrimental to the safety, health, morals, and general welfare of the community.*

The proposed development will provide the opportunity for needed housing stock, and provide the community with conveniently-located, attainable starter or retirement homes. These residences will enhance the community's safety, health, morals and general welfare.

- *NOT tend to create congestion in streets, roads, alleys, and other public ways and places in the area.*

The new residences should have a negligible impact on traffic in the area, as the private right of way with perpendicular parking and the conveniently-located GRTC transit routes will mitigate any additional burden.

- *NOT create hazards from fire, panic or other dangers.*

The Project will be constructed in accordance with applicable building and fire safety codes and energy conservation requirements.

- *NOT overcrowd land or cause an undue concentration of population.*
- *NOT adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements.*

The above-referenced City services will not be adversely affected by the proposed use of the Project. Utilities and infrastructure are in place and adequate for the proposed use. The proposed reuse of the Property will enhance the area without affecting existing public facilities. Additionally, the development is likely to attract residents of diverse backgrounds and age groups so as not to adversely impact area schools, parks, playgrounds, water supplies, sewage and storm water systems, transportation or other governmental service.

- *NOT interfere with adequate light and air.*

The Property is in a location with ample air, light and space components. The light and air available to the Property and adjacent properties will not change if the SUP is granted.

COMMUNITY SUPPORT FOR SPECIAL USE PERMIT

This Property is not within an area served by a City-listed neighborhood association or civic association. The Applicant has provided the application materials to Councilwoman Reva M. Trammell who supports the Project and the SUP request. The Applicant also presented the Project details at Councilwoman Trammell's Community Meeting on October 6, 2022, and collected eleven letters of support, which are attached to this application.

CONCLUSION

The proposed Project will increase revenue to the City of Richmond in the form of an expanded real estate tax base, new construction bringing jobs to the area, as well as more consumers to the area. The Project will be a highly visible symbol of revitalization in South Richmond contributing to the area's future transformation and thereby further the City's aspirations for this neighborhood.
