TITLE **Recodification of City Code**

This is a request for the drafting of an **Ordinance** ☒ **Resolution** ☐

SUGGESTED STANDING COMMITTEE

Governmental Operations and Planning Commission

ORDINANCE/RESOLUTION SUMMARY

To adopt a new Code of the City of Richmond, Virginia; to repeal the Code of the City of Richmond, Virginia, 2015; to prescribe the effect of such repeal; and to provide for the manner of amending the new City Code.

BACKGROUND

The City Code was last recodified by Ord. No. 2015-224-218, adopted November 9, 2015. Effective April 17, 2020, the City contracted with Municipal Code Corporation for recodification services. The recodification project has resulted in a 1,429-page document, identified as the Code of the City of Richmond, Virginia, 2020, to replace the 2015 City Code. This document is provided in Portable Document Format as an attachment to this Ordinance/Resolution Request. The proposed ordinance is necessary to adopt the new 2020 City Code in accordance with section 4.13 of the City Charter and section 15.2-1433 of the Code of Virginia.

The recodification resulted in a number of changes. The Code was reorganized to better utilize reserved section numbers. In some cases, section numbers were renumbered. Editorial conventions and citation formats for state laws were changed to make such conventions and formats uniform throughout the City Code. In addition, changes were made to bring the City Code into compliance with applicable laws, and terminology was updated to reflect contemporary names of organizations. A brief summary of those

changes that the Office of the City Attorney believes to have some substantive effect is attached to this Ordinance/Resolution Request.

The 2020 City Code is organized in generally the same way as earlier City Codes. However, instead of a separate fee appendix, the 2020 City Code has incorporated all fees established by the City Code that were previously set forth in Appendix A to the 2015 City Code into the corresponding provisions of the City Code. This change is expected to facilitate easier and swifter navigation of the new City Code by users searching for fees. The City Code, when published, will include a table of contents, copy of the City Charter, each chapter of the City Code, an index, and a set of comparative tables to facilitate historical research. For purposes of the recodification of the substantive portions of the City Code and to facilitate a timely review of the City Code by the Council, the Municipal Code Corporation has provided a copy of the City Charter and chapters of the City Code, and the table of contents and comparative tables will be incorporated with the final printing of the City Code. The print version will be divided into two volumes, as a single volume has proven to be unwieldy. An internet version of the City Code will be available on Municipal Code Corporation's website, to which the City's website will link. After adoption of the recodified City Code, the regular supplementation will reflect ordinances amending provisions of the 2015 City Code adopted since September 28, 2020.

PREFACE

This Code constitutes a recodification of the general and permanent ordinances of the City of Richmond, Virginia.

Source materials used in the preparation of the Code were the 2015 Code, as supplemented through Ord. No. 2020-030, adopted June 22, 2020, and ordinances adopted by the City Council. The source of each section is included in the history note appearing in parentheses at the end thereof. The absence of such a note indicates that the section is new and was adopted for the first time with the adoption of the Code. By use of the comparative tables appearing in the back of this Code, the reader can locate any section of the 2015 Code, as supplemented, and any ordinance included herein.

The chapters of the Code have been conveniently arranged in alphabetical order, and the various sections within each chapter have been catchlined to facilitate usage. Notes which tie related sections of the Code together and which refer to relevant state law have been included. A table listing the state law citations and setting forth their location within the Code is included at the back of this Code.

Chapter and Section Numbering System

The chapter and section numbering system used in this Code is the same system used in many state and local government codes. Each section number consists of two parts separated by a dash. The figure before the dash refers to the chapter number, and the figure after the dash refers to the position of the section within the chapter. Thus, the second section of chapter 1 is numbered 1-2, and the first section of chapter 6 is 6-1. Under this system, each section is identified with its chapter, and at the same time new sections can be inserted in their proper place by using the decimal system for amendments. For example, if new material consisting of one section that would logically come between sections 6-1 and 6-2 is desired to be added, such new section would be numbered 6-1.5. New articles and new divisions may be included in the same way or, in the case of articles, may be placed at the end of the chapter embracing the subject, and, in the case of divisions, may be placed at the end of the article embracing the subject. The next successive number shall be assigned to the new article or division. New chapters may be included by using one of the reserved chapter numbers. Care should be taken that the alphabetical arrangement of chapters is maintained when including new chapters.

Page Numbering System

The page numbering system used in this Code is a prefix system. The letters to the left of the colon are an abbreviation which represents a certain portion of the volume. The number to the right of the colon represents the number of the page in that portion. In the case of a chapter of the Code, the number to the left of the colon indicates the number of the chapter. In the case of an appendix to the Code, the letter immediately to the left of the colon

indicates the letter of the appendix. The following are typical parts of codes of ordinances, which may or may not appear in this Code at this time, and their corresponding prefixes:

Indexes

The indexes have been prepared with the greatest of care. Each particular item has been placed under several headings, some of which are couched in lay phraseology, others in legal terminology, and still others in language generally used by local government officials and employees. There are numerous cross references within the indexes themselves which stand as guideposts to direct the user to the particular item in which the user is interested.

Looseleaf Supplements

A special feature of this publication is the looseleaf system of binding and supplemental servicing of the publication. With this system, the publication will be kept up to date. Subsequent amendatory legislation will be properly edited, and the affected page or pages will be reprinted. These new pages will be distributed to holders of copies of the publication, with instructions for the manner of inserting the new pages and deleting the obsolete pages.

Keeping this publication up to date at all times will depend largely upon the holder of the publication. As revised pages are received, it will then become the responsibility of the holder to have the amendments inserted according to the attached instructions. It is strongly recommended by the publisher that all such amendments be inserted immediately upon receipt to avoid misplacing them and, in addition, that all deleted pages be saved and filed for historical reference purposes.

Acknowledgments

This publication was under the direct supervision of Roger D. Merriam, Senior Code Attorney, and Ramona Connors, Editor, of the Municipal Code Corporation, Tallahassee, Florida. Credit is gratefully given to the other members of the publisher's staff for their sincere interest and able assistance throughout the project.

The publisher is most grateful to Ms. Tabrica C. Rentz, Acting Deputy City Attorney, Ms. Susan McKenney, Assistant City Attorney, and Ms. Caitlin Weston, Assistant City Attorney, for their cooperation and assistance during the progress of the work on this publication. It is hoped that their efforts and those of the publisher have resulted in a Code of Ordinances which will make the active law of the City readily accessible to all citizens and which will be a valuable tool in the day-to-day administration of the City's affairs.

***Editor's note--**Printed in this part is the City Charter, being Chapter 116 of the 1948 Acts of the General Assembly, approved March 5, 1948. Obvious misspellings have been corrected without notation. For stylistic purposes, headings and catchlines have been made uniform and the same style of expression of numbers in text as appears in the Code of Ordinances has been used. All catchlines and capitalization in the charter conform to that found at http://law.lis.virginia.gov/charters/richmond. Additions for clarity are indicated by brackets.

(i) To provide for the control and management of the fiscal affairs of the city, and prescribe and require the adoption and keeping of such books, records, accounts and systems of accounting by the departments, boards, commissions, courts or other agencies of the city government provided for by this charter or otherwise by law as may be necessary to give full and true accounts of the affairs, resources and revenues of the city and the handling, use and disposal thereof.

The city may order such improvements to be made and the cost thereof apportioned in pursuance of an agreement between the city and the abutting landowners.

The city may contract as provided by law with a private party or parties to provide the financing, site selection, acquisition, construction, maintenance, and leasing, or any of them, for a jail, juvenile detention facility, or other correctional facility. Nothing herein shall be interpreted to preclude operation of correctional facilities by private parties.

(h) To control and regulate the use and management of all property of the city, real and personal.

Lee Bridge" by any vehicle or pedestrian.

(j) To authorize by ordinance, in accordance with the Constitution and laws of the Commonwealth, the use of the streets for the laying down of street railway tracks and the operation of street railways therein under such conditions and regulations as may be prescribed by such ordinance or by any future ordinance, or to acquire by agreement or condemnation any such street railway and maintain and operate the same.

(k) To acquire, construct, own, maintain and operate, within and without the city, places for the parking or

storage of vehicles by the public, which shall include but shall not be limited to parking lots, garages, buildings and other land, structures, equipment and facilities, when in the opinion of the council they are necessary to relieve congestion in the use of streets and to reduce hazards incident to such use; provide for their management and control by a department of the city government or by a board, commission or agency specially established by ordinance for the purpose; authorize or permit others to use, operate or maintain such places or any portions thereof, pursuant to lease or agreement, upon such terms and conditions as the council may determine by ordinance; and charge or authorize the charging of compensation for the parking or storage of vehicles or other services at or in such places.

(l) To acquire, construct, own, maintain and operate, within and without the city, airports and all the appurtenances thereof provide for their management and control by a department of the city government or by a board, commission or agency specially established by ordinance for the purpose; charge or authorize the charging of compensation for the use of any such airport or any of its appurtenances; lease any appurtenance of any such airport or any concession incidental thereto or, in the discretion of the council, lease any such airport and its appurtenances with the right to all concession thereon to, or enter into a contract for the management and operation of the same with, any person, firm or corporation on such terms and conditions as the council may determine by ordinance.

part thereof conveyed by the Chesapeake and Ohio Railway Company to the William R. Trigg Company, by deed dated June 1, 1901, in accordance with the provisions of the act of assembly approved February 15, 1901, and which dock is now owned by the city may be maintained and operated by the city for such other public purposes as authorized by the city council, but further provided if said dock shall be closed by the city to such public use and purpose and filled in, the city shall make provision for disposing of the water required by said dock and shall at its own cost and expense maintain the provision so made and the city shall have the right to use or dispose of the land upon which the said landing, wharf, dock or canal may be located, together with all lands or other rights appurtenant thereto, to the same extent as if the said landing, wharf, dock, canal or lands, or right thereto belonging, had never been charged with any public use or easement; improve and keep in good, safe and navigable condition the James River in the corporate limits and within 20 miles thereof, and may hold, lease, sell or otherwise dispose of all lands or interest therein acquired for the improvement of the James River and navigation and for the construction of canals or widening the river; and provide and operate such connections by ferries, bridges, or otherwise, as may be necessary for transportation between the section of land divided by such canals.

(p) To construct, own, maintain, operate and equip a visitors center and incidental parking, playgrounds and facilities.

§ 2.03.1. Powers relating to certain highways.

In addition to the powers granted by other sections of this charter, the city shall have power:

(a) To construct, maintain and operate limited or controlled access or express highways within the city and to fix and revise from time to time and charge and collect tolls for transit over such highways and compensation for other uses that may be made thereof.

(Acts 1958, Ch. 185, § 1)

§ 2.03.2. Use of municipal buildings or structures for private purposes.

In addition to the powers granted by other sections of this charter, the city shall have the power to permit any building or structure acquired or constructed for any municipal purpose, or any part thereof or any space therein, which is not needed for such purpose, to be used for private purposes upon such terms and conditions as shall be prescribed by the council until such building or structure or part thereof or space therein is needed for a municipal purpose, when in the opinion of the council it is deemed proper to do so.

(Acts 1964, Ch. 120, § 3)

§ 2.03.3. Powers relating to public transportation.

In addition to the powers granted by other sections of this charter, the city shall have the power to acquire, operate, lease, or otherwise provide for the operation of a public transportation system, including, by way of illustration but not limitation, the operation of passenger buses, both within and outside the City of Richmond, including providing for transportation for pupils attending public schools operated by the school board of the City of Richmond; provided, however, that the operation of any such system outside the City of Richmond shall only be with the consent of the governing body of the political subdivision in which such operation is to occur.

(Acts 1973, Ch. 348, § 2)

§ 2.03.4. Riverfront development agreements.

(a) The city shall have the power, in the area bounded by the James River, 2nd Street, the Downtown Expressway, and 21st Street, and also including Mayo's Island, to enter into binding development agreements with any persons owning legal or equitable interests in real property there.

(b) Such an agreement between a property owner and the city shall be for the purpose of stimulating and facilitating economic growth along the Richmond riverfront, shall not be inconsistent with the master plan, and shall not authorize any use or condition not permitted by the zoning ordinance and other ordinances in effect at the

time the agreement is made. It shall be authorized by ordinance. It shall be for a term not to exceed ten years and may be renewed by mutual agreement of the parties. It may provide for uses; the density or intensity of uses; the maximum height, size, setback and/or location of buildings; the number of parking spaces required; the measures required to control stormwater; and other land use matters. It may authorize the property owner to transfer to the city land, public improvements, money, or anything of value to further the purposes of the agreement or other public purposes set forth in the city's master plan, but not as a condition to obtaining any permitted use or zoning. A property owner may agree to accept land use controls that are more restrictive than the zoning applicable to the property, conditioned on the city making public improvements, including parking, which also benefit the property; provided, however, that any agreement of the city to make such improvements shall be subject to the availability and appropriation of funds.

(c) If a property owner who is a party to such an agreement and is not in breach of the agreement dedicates or is required to dedicate real property of substantial value to the city, makes or is required to make substantial cash payments to the city, or makes or is required to make substantial public improvements for the city, then during the term of that agreement neither any amendment to the zoning map for the subject property nor any amendment to the text of the zoning ordinance with respect to the zoning district applicable to the property which eliminates or materially restricts, reduces, or modifies: the density or intensity of uses; the maximum height, size, setback or location of a building; the number of parking spaces required; or the measures required to control stormwater shall be effective with respect to such property unless there has been mistake, fraud, or a change in circumstances substantially affecting the public health, safety or welfare.

(Acts 1992, Ch. 850, § 1)

§ 2.04. Power to make regulations for the preservation of the safety, health, peace, good order, comfort, convenience, morals and welfare of the city and its inhabitants.

In addition to the powers granted by other sections of this charter, the city shall have power to adopt ordinances, not in conflict with this charter or prohibited by the general laws of the Commonwealth, for the preservation of the safety, health, peace, good order, comfort, convenience, morals and welfare of its inhabitants, and among such powers, but not in limitation thereof, the city shall have power:

(a) To provide for the prevention of vice, immorality, vagrancy and drunkenness; prevention and quelling of riots; disturbances and disorderly assemblages; suppression of houses of ill fame and gambling places; prevention of lewd and disorderly conduct or exhibitions; and prevention of conduct in the streets dangerous to the public.

(b) To regulate the construction, maintenance and repair of buildings and other structures and the plumbing, electrical, heating, elevator, escalator, boiler, unfired pressure vessel, and air conditioning installations therein, for the purpose of preventing fire and other dangers to life and health.

(c) To provide for the protection of the city's property, real and personal, and prevention of the pollution of the city's water supply, and the regulation of use of parks, playgrounds, playfields, recreational facilities, landings, docks, wharves, canals, airports and other public property, whether located within or without the city. For the purpose of enforcing such regulations all city property wherever located shall be under the police jurisdiction of the city. Any member of the police force of the city or employee thereof appointed as a special policeman shall have power to make arrests for violation of any ordinance, rule or regulation adopted pursuant to this section and the district court, criminal division, shall have jurisdiction in all cases arising thereunder within the city and the district court of the county wherein the offense occurs shall have jurisdiction of all cases arising thereunder without the city.

(d) To grant or authorize the issuance of permits under such terms and conditions as the council may impose for the use of streets, alleys and other public places of the city by railroads, street railways, buses, taxicabs and other vehicles for hire; prescribe the location in, under or over, and grant permits for the use of, streets, alleys and other public places for the maintenance and operation of tracks, poles, wires, cables, pipes, conduits, bridges, subways, vaults, areas and cellars; require tracks, poles, wires, cables, pipes, conduits and bridges to be altered, removed or relocated either permanently or temporarily; charge and collect compensation for the privileges so granted; and prohibit such use of the streets, alleys and other public places of the city, and no such use shall be made of the streets, alleys, or other public places of

the city without the consent of the council.

(e) To prevent any obstruction of or encroachment over, under or in any street, alley, sidewalk or other public place; provide penalties for maintaining any such obstruction or encroachment; remove the same and charge the cost thereof to the owner or owners, occupant or occupants of the property so obstructing or encroaching, and collect the sum charged in any manner provided by law for the collection of taxes; require the owner or owners or the occupant or occupants of the property so obstructing or encroaching to remove the same; pending such removal charge the owner or owners of the property so obstructing or encroaching compensation for the use of such portion of the street, alley, sidewalk or other public place obstructed or encroached upon the equivalent of what would be the tax upon the land so occupied if it were owned by the owner or owners of the property so obstructing or encroaching, and, if such removal shall not be made within the time ordered, impose penalties for each and every day that such obstruction or encroachment is allowed to continue thereafter; authorize encroachments upon streets, alleys, sidewalks or other public places, subject to such terms and conditions as the council may prescribe, but such authorization shall not relieve the owner or owners, occupant or occupants of the property encroaching, of any liability for negligence on account of such encroachment; and recover possession of any street, alley, sidewalk or other public place or any other property of the city by suit or action in ejectment.

(f) To prescribe the route and grade of any railroad laid in the city, regulate the operation of locomotives and cars, and exclude such locomotives and cars from the city; provided, no contract between the city and the corporation operating such locomotives or cars is violated by such action.

(g) To regulate the operation of motor vehicles and exercise control over traffic in the streets of the city and provide penalties for the violation of such regulations; provided, that ordinances or administrative regulations adopted by virtue of this subsection shall not be inconsistent with the provisions of the Motor Vehicle Code of Virginia. All fines imposed for the violation of such ordinances and regulations shall be paid into the city treasury.

(h) To regulate, in the interest of public health, the production, preparation, distribution, sale and possession of milk, other beverages and foods for human consumption, and the places in which they are produced, prepared, distributed, sold, served or stored; regulate the construction, installation, maintenance and condition of all water and sewer pipes, connections, toilets, water closets and plumbing fixtures of all kinds; regulate the construction and use of septic tanks and dry closets, where sewers are not available, and the sanitation of swimming pools and lakes; provide for the removal of night soil, and charge and collect compensation for the removal thereof; compel the use of sewers, the connection of abutting premises therewith, and the installation in such premises of suitable sanitary facilities; regulate or prohibit connections to and use of sewers; provide for the quarantine of any person afflicted with a contagious or infectious disease, and for the removal of such person to a hospital or ward specially designated for contagious or infectious diseases; inspect and prescribe reasonable rules and regulations, in the interest of public health, with respect to private hospitals, sanatoria, convalescent homes, clinics and other private institutions, homes and facilities for the care of the sick, of children, the aged and the destitute; and make and enforce all regulations necessary to preserve and promote public health and sanitation and protect the inhabitants of the city from contagious, infectious or other diseases.

(i) To regulate cemeteries and burials therein, prescribe the records to be kept by the owners of such cemeteries, and prohibit all burials except in a public burying ground.

(j) To regulate or prohibit the exercise of any dangerous, offensive or unhealthful business, trade or employment, and the transportation of any offensive or dangerous substance.

A. At the time of the November general election in 2004, and every second year thereafter, there shall be held a general city election at which shall be elected by the qualified voters of the city one member of council from each of the nine election districts in the city, the voters residing in each such district to elect one member for said district for terms of two years from the first day of January following their election. However, beginning with the elections to be held in 2008, and subject to approval by referendum as called for by this act, council members shall be elected for a term of four years.

B. No primary election shall be held for the nomination of candidates for the office of councilman, and candidates shall be nominated only by petition.

C. Each council member elected in accordance with this section shall reside in the election district from which such member was elected throughout the member's term on the council.

(Acts 1971, Ch. 84, § 1; Acts 1977, Ch. 513, § 1; Acts 2004, Ch. 514, § 1; Acts 2004, Ch. 877, § 1; Acts 2004, Ch. 898, § 1; Acts 2020, Ch. 827)

Editor's note—Pursuant to Code of Virginia, § 24.2-222.1 and Ordinance No. 2001-208-202, adopted June 25, 2001, the City Council changed the election of council members to the first Tuesday in November beginning with November 2002 and every second year thereafter. In a referendum held on November 2, 2004 as required by Acts 2004, Ch. 514, § 2, the voters of the City approved the election of members of City Council to four-year terms beginning with the election to be held on November 4, 2008.

§ 3.01.1. Election of mayor.

On the first Tuesday after the first Monday in November 2004, and every four years thereafter, a general election shall be held to elect the mayor. All persons seeking to have their names appear on the ballot as candidates for mayor must comply with the provisions of Chapter 5 (§ 24.2-500 et seq.) of Title 24.2 of the Code of Virginia [Code of Virginia, § 24.2-500 et seq.] and must file with their declaration of candidacy a petition containing a minimum of 500 signatures of qualified voters of the city, to include at least 50 qualified voters from each of the nine election districts. However, these filing requirements shall only apply to the initial, general election and not to any runoff election that may subsequently become necessary.

In the general election, the person receiving the most votes in each of at least five of the nine city council districts shall be elected mayor. Should no one be elected, then the two persons receiving the highest total of votes city wide shall be considered nominated for a runoff election. The runoff election shall be held on the sixth Tuesday after the November general election between the two nominees. The date of any such runoff election shall, as soon as possible, be posted at the courthouse and published at least once in a newspaper of general circulation in the city. In any such runoff election, write-in votes shall not be counted, and the person receiving the most votes in each of at least five of the nine city council districts shall be elected mayor. In the event the two candidates in a runoff election shall each win an equal number of council districts, the candidate receiving the most votes city wide shall be elected mayor. An elected term shall run four years. Anyone eligible to serve on city council may serve as mayor, except no one may be elected mayor for three consecutive full terms, and no one may simultaneously hold the office of mayor and any other elected position.

The procedures and deadlines for voter registration, applying for an absentee ballot, and casting an absentee ballot for any runoff election shall be as provided in Chapters 4 (§ 24.2-400 et seq.), 4.1 (§ 24.2-451 et seq.), and 7 (§ 24.2-700 et seq.) of Title 24.2 of the Code of Virginia [Code of Virginia, §§ 24.2-400 et seq., 24.2-451 et seq. and 24.2-700 et seq.] for general elections.

(Acts 2004, Ch. 877, § 1; Acts 2004, Ch. 898, § 1; Acts 2019, Ch. 110, § 1; Acts 2019, Ch. 306, § 1)

§§ 3.02, 3.03. Reserved.

Editor's note—Acts 1998, Ch. 711 repealed §§ 3.02 and 3.03, which pertained to nomination of candidates for council and conduct of general municipal election, and which derived from Acts 1975, Ch. 112, § 1; Acts 1976, Ch. 633, § 1; and Acts 1977, Ch. 513, § 1.

§ 3.04. Vacancies in office of councilman or mayor.

A. Vacancies in the office of councilman, from whatever cause arising, shall be filled in accordance with general law applicable to interim appointments and special elections, provided that, any provision in the general law to the contrary notwithstanding, a special election may be called to fill any such vacancy if the vacancy occurs more than one year prior to the expiration of the full term of the office to be filled.

B. A vacancy in the office of mayor shall be filled by special election conducted according to the rules herein provided for the general election and held within 60 days, but no sooner than 30 days, from the date of the vacancy. Any runoff, should one be necessary, shall be held on the first Tuesday after the fifth day following the date that voting machines used in the special election may be unsealed pursuant to § 24.2-659 of the Code of Virginia [Code of Virginia, § 24.2-659] or the third Tuesday following the special election, whichever is later. However, if the date by which either the special election or possible runoff election for the office of mayor must be conducted should fall within 60 days prior to a primary election or general election, then the special or runoff election shall be held on the same day as the primary or general election, if allowed by general law, or, if not allowed by general law, then the special election shall be held on the first Tuesday after the fifth day following the date that voting machines used in the primary or general election may be unsealed pursuant to § 24.2-659 of the Code of Virginia [Code of Virginia, § 24.2-659]. Any runoff that may be necessary shall be held on the first Tuesday after the fifth day following the date that the voting machines used in the special election may be unsealed pursuant to § 24.2-659 of the Code of Virginia [Code of Virginia, § 24.2-659] or the third Tuesday following the special election, whichever is later. The president of the council shall serve as acting mayor until a successor is elected.

C. The procedures and deadlines for voter registration, applying for an absentee ballot, and casting an absentee ballot for any runoff election as may be necessary after a special election for mayor shall be as provided in Chapters 4 (§ 24.2-400 et seq.), 4.1 (§ 24.2-451 et seq.), and 7 (§ 24.2-700 et seq.) of Title 24.2 of the Code of Virginia [Code of Virginia, §§ 24.2-400 et seq., 24.2-451 et seq. and 24.2-700 et seq.) for general elections.

(Acts 1975, Ch. 112, § 1; Acts 1998, Ch. 711; Acts 2004, Ch. 877, § 1; Acts 2004, Ch. 898, § 1; Acts 2005, Ch. 844, § 1; Acts 2019, Ch. 110, § 1; Acts 2019, Ch. 306, § 1)

A. In addition to being subject to the procedure set forth in § 24.2-233 of the Code of Virginia [Code of Virginia, § 24.2-233], any member of the council may be removed by the council for malfeasance in office or neglect of duty or for a failure to comply with the residency requirement set forth in § 3.01. The member shall be entitled to notice and hearing. It shall be the duty of the council, at the request of the person sought to be removed, to subpoena witnesses whose testimony would be pertinent to the matter in hand. From the decision of the council an appeal shall lie to the Circuit Court of the City of Richmond, Division 1.

B. The mayor may be removed following the procedure set forth in § 24.2-233 of the Code of Virginia [Code of Virginia, § 24.2-233] applicable to constitutional officers; provided, however, that the petition must be signed by a number of registered voters in each council district equal to at least ten percent of the total number of votes cast in the last general election for mayor in each respective council district.

C. The mayor or any member of council who shall be convicted by a final judgment of any court from which no appeal has been taken or which has been affirmed by a court of last resort on a charge involving moral turpitude, or any felony, or any misdemeanor involving possession of marijuana or any controlled substances, shall forfeit his/her office.

§ 3.05. Election of other city officers.

All other city officers required by the laws of the Commonwealth to be elected by the qualified voters of the city shall be nominated and elected at the time, for the terms and in the manner prescribed by the general laws of the Commonwealth. Vacancies in elective offices referred to in this section shall be filled in accordance with general law. The officers so elected or appointed shall qualify in the mode prescribed by law and shall continue in office until their successors are elected and qualified.

§ 3.06.1. Submission of proposition to voters.

The council shall have authority to order, by resolution directed to the Circuit Court of the City of Richmond, the submission to the qualified voters of the city for an advisory referendum thereon, any proposed ordinance or amendment to the city charter. Upon the receipt of such resolution, the Circuit Court of the City of Richmond shall order an election to be held in accordance with the applicable provisions of Article 5 (§ 24.2-681 et seq.) of Chapter 6 of Title 24.2 of the Code of Virginia [Code of Virginia, § 24.2-681 et seq.]. Following certification of the election results by the Electoral Board to the Circuit Court, the Court shall enter an order proclaiming the results of the election, and a duly certified copy of the order shall be transmitted to the council, which may take such further action as it may deem advisable and in the best interests of the city.

If a petition requesting the submission of an amendment to this charter, set forth in such petition, signed by qualified voters equal in number to ten percent or more of the largest number of votes cast in any general or primary election held in the city during the five years immediately preceding, is filed with the clerk of the Circuit Court of the City of Richmond, he/she shall forthwith certify that fact to the court. The process and requirements for voter petitions established under state law shall be applicable to voter petitions provided for under this section, except to the extent of any conflict with requirements set forth in this charter. Upon the certification of such petition, the Circuit Court of the City of Richmond shall determine that the proposed charter amendment pertains only to the structure or administration of the city government. When such determination has been made, the court shall order an election to be held in accordance with the applicable provisions of Article 5 (§ 24.2-681 et seq.) of Chapter 6 of Title 24.2 of the Code of Virginia [Code of Virginia, § 24.2-681 et seq.], in which such proposed amendment shall be submitted to the qualified voters of the city for their approval or disapproval. If a majority of those voting thereon at such election approve the proposed amendment, such result shall be communicated by the clerk of the Circuit Court of the City of Richmond to the representatives of the city in the General Assembly with the same effect as if the council had adopted a resolution requesting the General Assembly to adopt the amendment.

§ 6.06. The budget message.

The budget message shall contain the recommendations of the mayor concerning the fiscal policy of the city, a description of the important features of the budget plan, an explanation of all salient changes in each budget submitted, as to estimated receipts and recommended expenditures as compared with the current fiscal year and the last preceding fiscal year, and a summary of the proposed budgets showing comparisons similar to those required by § 6.04 above.

(Acts 2004, Ch. 877, § 1; Acts 2004, Ch. 898, § 1; Acts 2006, Ch. 650, § 1; Acts 2006, Ch. 712, § 1)

§ 6.07. Appropriation and additional tax ordinances.

At the same time that he/she submits the budget, the mayor shall introduce in the council any appropriation ordinance required. The appropriation ordinance shall be based on the budget but need not be itemized further than by departments unless required by the council. At the same time, the mayor shall also introduce any ordinance or ordinances altering the tax rate on real estate and tangible personal property or levying a new tax or altering the rate of any other tax necessary to balance the budget as hereinbefore provided. The hearing on the budget plan as a whole, as provided in § 6.09, shall constitute the hearing on all ordinances referred to in this section, and the appropriation ordinances for each utility.

§ 6.09. Public hearings on budget plan.

A public hearing on the budget plan as a whole shall be held by the Council within the time and after the notice provided for hearings on ordinances by § 4.10 of this charter, except that the notice of such hearing shall be printed in a newspaper published or in general circulation in the city.

(Acts 1993, Ch. 613, § 1; Acts 1998, Ch. 711)

§ 6.10. Action by council on budget generally.

After the conclusion of the public hearing, the council may insert new items of expenditure or may increase, decrease or strike out items of expenditure in the budget, except that no item of expenditure for debt service or required to be included by this charter or other provision of law shall be reduced or stricken out. The council shall not alter the estimates of receipts contained in the said budget except to correct omissions or mathematical errors, and it shall not cause the total of expenditures as recommended by the mayor to be increased without a public hearing on such increase, which shall be held not less than five days after notice thereof has been printed in a

newspaper published or in general circulation in the city. The council shall in no event adopt a budget in which the total of expenditures exceeds the receipts, estimated as provided in § 6.04, unless at the same time it adopts measures for providing additional revenue in the ensuing fiscal year sufficient to make up this difference.

(Acts 1982, Ch. 658, § 1; Acts 1998, Ch. 711; Acts 2006, Ch. 650, § 1; Acts 2006, Ch. 712, § 1)

§ 6.11. Adoption of budget, appropriation ordinance and ordinances for additional revenue; mayor's veto.

Not later than the thirty-first day of May in each year the council shall adopt the budget, the appropriation ordinances and such ordinances providing for additional revenue as may be necessary to put the budget in balance. If for any reason the council fails to adopt the budget on or before such day, the budget as submitted by the mayor shall be the budget for the ensuing year and the appropriation ordinance and the ordinances providing additional revenue, if any, as recommended by the mayor shall have full force and effect to the same extent as if the same had been adopted by the council, notwithstanding anything to the contrary in this charter.

The mayor shall have the power to veto any particular item or items of any city budget ordinance, by written notice of veto delivered to the city clerk within 14 calendar days of council's action. Council may thereafter override the mayor's veto with a vote of six or more of the currently filled seats on council at any regular or special meeting held within 14 calendar days of the city clerk's receipt of the notice of veto. Vetoes of any one or more items shall not affect other items not vetoed.

(Acts 1958, Ch. 185, § 2; Acts 1998, Ch. 711; Acts 2004, Ch. 877, § 1; Acts 2004, Ch. 898, § 1; Acts 2005, Ch. 844, § 1; Acts 2006, Ch. 650, § 1; Acts 2006, Ch. 712, § 1)

§ 6.12. Effective date of budget; certification and availability of copies thereof.

Upon final adoption, the budget shall be in effect for the ensuing fiscal year. A copy of such budget as finally adopted shall be certified by the city clerk. Copies of the budget, capital program and appropriation and revenue ordinances shall be public records and shall be made available to the public at suitable places in the city.

§ 6.13. Utility budgets and related ordinances.

Separate budget estimates for each of the utilities as defined in Chapter 13 of this charter shall be submitted to the mayor at the same time as the budgets of other departments and in the form prescribed by the mayor, subject, however, to the provisions of Chapter 13 which shall also control the action of the mayor and council thereon. The mayor shall submit with the budget of each utility an ordinance making appropriations for the operation of such utility during the ensuing fiscal year. He/she shall also at the same time submit any ordinance changing the rates to be charged by the utility, used in estimating receipts. The council shall have the same powers and be subject to the same limitations with regard to the adoption of such utility budgets and accompanying appropriation and rate ordinances, subject to the provisions of the said Chapter 13, as are conferred or imposed on it by § 6.10 with regard to the budget and its accompanying appropriation and revenue ordinances. If for any reason the council fails to adopt the utility budgets or any of them before the expiration of the time set for the adoption of the budget, such budget or budgets and the accompanying appropriation ordinance or ordinances and the ordinances changing rates, if any, shall have full force and effect to the same extent as if the same had been adopted by the council, notwithstanding anything to the contrary in this charter.

It shall be the duty of the school board to submit its budget estimates to the mayor at the same time as other departments and in the form prescribed by the mayor. The mayor and council may take any action on the school budget permitted by § 22.1-94 of the Code of Virginia [Code of Virginia, § 22.1-94] or any other provision of general law not in conflict with this charter. The school board shall before the beginning of the fiscal year file with the director of finance its budget as finally revised and its appropriations based thereon. It shall have power to order during the course of the fiscal year transfers from one item of appropriation to another, notice of which shall be immediately transmitted to the director of finance. The director of finance shall have the same authority to require expenditures to be made by school officers in accordance with the school budget as he/she is given by this charter

to require expenditures by other city officers to be made in accordance with the general fund or utility budgets.

(b) Such fully funded plan required in subsection (a) shall not be based on the passage of new or increased taxes for that purpose.

(c) Nothing herein shall alter powers previously given to the school board.

(d) Once the mayor has complied with subsection (a), the city council shall have 90 days to take such action as it deems appropriate.

(Acts 2018, Ch. 664, § 1)

§ 6.16. Amendments after adoption.

(a) At any time within the fiscal year, upon the recommendation of the mayor and certification of the director of finance that there remain sufficient funds not theretofore allotted for a specific purpose, the council may, by not less than six affirmative votes, allot all or part of the funds appropriated to an account designated "Reserve for Contingencies" as authorized in § 15.2-2505 of the Code of Virginia [Code of Virginia, § 15.2-2505] for a designated program or project and authorize expenditure of the funds so allotted.

(b) If at any time during the fiscal year the mayor certifies that there are available for appropriation revenues in excess of those estimated in the budget, the city council may by not less than six affirmative votes, and only upon the recommendation of the mayor, make supplemental appropriations for the year up to the amount of such excess.

(c) If at any time during the fiscal year it appears probable to the mayor that the revenue or fund balances available will be insufficient to finance the expenditures for which appropriations have been authorized, the mayor shall report to the city council without delay, indicating the estimated amount of the deficit, any remedial action taken by the mayor and recommendations as to any other steps to be taken. The council shall then take such further action as it deems necessary to prevent or reduce any deficit, and for that purpose it may by ordinance reduce one or more appropriations.

(d) At any time during the fiscal year, at the request of the mayor, the city council may by ordinance adopted by not less than six affirmative votes transfer part of or all of the unencumbered appropriation balance from one department or major organizational unit to the appropriation for other departments or major organizational units.

(e) No appropriation for debt service may be reduced or transferred, and no appropriation may be reduced below any amount required by law to be appropriated or by more than the amount of the unencumbered balance thereof. The supplemental and emergency appropriations and reduction or transfer of appropriations authorized by this section may be made effective immediately upon adoption.

§ 6.18. Lapsing of appropriations.

Every appropriation, except an appropriation designated for special revenue or for a capital expenditure, shall lapse at the close of the fiscal year to the extent that it has not been expended or encumbered. Appropriations designated special revenue (funding provided beyond 12 months or extends beyond the end of the city's fiscal year) shall not lapse at the close of the fiscal year but shall remain in force for the life of the multiyear project, until expended, revised, or repealed. The purpose of any such multiyear appropriation should be restricted based on grant award instructions.

An appropriation for a capital expenditure shall continue in force until expended, revised or repealed; the purpose of any such appropriation shall be deemed abandoned if three years pass without any disbursement from or encumbrance of the appropriation.

(Acts 1998, Ch. 711; Acts 2004, Ch. 514, § 1)

§ 6.19. Capital budget.

At the same time he/she submits the current expense budgets, the mayor shall submit to the council a program which he/she shall previously have submitted to the city planning commission of proposed capital improvement projects for the ensuing fiscal year and for the four fiscal years thereafter, with his/her recommendations as to the means of financing the improvements proposed for the ensuing fiscal year. The council shall have power to accept with or without amendments or reject the proposed program and proposed means of financing for the ensuing fiscal year; and may from time to time during the fiscal year amend by ordinance adopted by at least six affirmative votes the program previously adopted by it or the means of financing the whole or any part thereof or both, provided that the amendment shall have been recommended by the mayor and shall have been submitted to the city planning commission for review and such additional funds as may be required to finance the cost of the improvements are available. The council shall adopt a capital budget prior to the beginning of the fiscal year in which the budget is to take effect. No appropriation provided for a capital improvement purpose defined in the capital budget shall lapse until the purpose for which the appropriation was made shall have been accomplished or abandoned, provided the council shall have the power to transfer at any time any appropriation or any unencumbered part thereof from one purpose to another on the recommendation of the mayor. The mayor may transfer the balance remaining to the credit of any completed project to an incompleted project for the purpose of completing such project, provided the projects have been approved in the adoption of a capital budget or budgets. If no such transfers are made, the balances remaining to the credit of completed or abandoned purposes and projects shall be available for appropriation and allocation in a subsequent capital budget or budgets. Any project shall be deemed to have been abandoned if three fiscal years elapse without any expenditure from or encumbrance of the funds provided therefor. The council shall have the power at any time to abandon or to reduce the scope of any project in a capital budget to the extent that funds appropriated therefor are unexpended and unencumbered.

Except as otherwise provided in § 13.06 of this charter, no payment shall be made and no obligation incurred by or on behalf of the city or the school board except in accordance with an appropriation duly made and no payment shall be made from or obligation incurred against any allotment or appropriation unless the director of finance or his designee shall first certify that there is a sufficient unexpended and unencumbered balance in such allotment or appropriation to meet the same. Every expenditure or obligation authorized or incurred in violation of the provisions of this charter shall be void. Every payment made in violation of the provisions of this charter shall be deemed illegal and every official who shall knowingly authorize or make such payment or knowingly take part therein and every person who shall knowingly receive such payment or any part thereof shall be jointly and severally liable to the city for the full amount so paid or received. If any officer, member of a board or commission, or employee of the city or of the school board, shall knowingly incur any obligation or shall authorize or make any expenditure in violation of the provisions of this charter or knowingly take part therein such action may be cause for his/her removal. Nothing in this section contained, however, shall prevent the making of contracts of lease or for services providing for the payment of funds at a time beyond the fiscal year in which such contracts are made, provided the nature of such transactions will reasonably require, in the opinion of the council, the making of such contracts.

§ 13.01. Department of public utilities; created; composition.

There shall be a department of public utilities which shall consist of the director of public utilities and such other officers and employees organized into such bureaus, divisions and other units as may be provided by ordinance or by the orders of the director consistent therewith. The director shall have power to make rules and regulations consistent with this charter and the ordinances of the city for the conduct of its business.

(Acts 1998, Ch. 711)

§ 13.02. Functions.

The department of public utilities shall be responsible for:

(a) The operation of the water, wastewater, stormwater, gas and electric utilities of the city, including street lighting;

(b) The collection of all charges for the services of such utilities; and

(c) Such other powers and duties as may be assigned to the department by ordinance.

(Acts 1982, Ch. 658, § 1; Acts 1994, Ch. 215, § 1)

§§ 13.03, 13.04. Reserved.

Editor's note—Sections 13.03 and 13.04, pertaining to the qualifications, powers and duties of the director of public utilities, and derived from Acts 1948, Ch. 116 and Acts 1988, Ch. 269, § 1, were repealed by Acts 1998, Ch. 711.

§ 13.05. Collection of bills.

The collection of unpaid bills may be enforced in the manner now or hereafter prescribed by law or ordinance, and water service may be disconnected for nonpayment of landfill refuse fees.

(Acts 1982, Ch. 658, § 1; Acts 1988, Ch. 269, § 1; Acts 1993, Ch. 613, § 1; Acts 1998, Ch. 711)

§ 13.06. Each utility a separate enterprise.

The water, wastewater, stormwater, gas and electric utilities shall each be conducted as a separate enterprise, provided that nothing herein shall prevent the transfer of employees from one utility to another or the division of the time of any officer or employee between two or more of such utilities. To facilitate accurate analysis of the financial results of the operation of each utility:

(a) The customer service division shall, as directed by ordinance, bill for and collect on behalf of each utility not only the charges due from domestic, commercial and industrial users of its services but similar charges against the city and each department, board, commission, office and agency thereof, including the school board and each other utility. The rates to be charged for street lighting and for electric current furnished to the city and its departments, boards, commissions, offices and agencies, as well as any political subdivision, shall be fixed by the director of public utilities to generate such revenue as shall enable the utility to make a reasonable return on investment and meet retirement schedules and other debt service requirements in accordance with the provisions of any bond ordinance pursuant to which bonds have been issued to finance capital improvements of such utility and to comply with the terms and conditions of any documents securing any such bonds.

(b) Separate budgets shall be prepared for each utility annually at the time and in the manner prescribed in Chapter 6 of this charter, which shall include estimates of revenue and expense for the ensuing fiscal year. After the budget of a utility has been adopted, should it appear that substantial sales of the unit product of the utility can be made in excess of the sales of the unit product contemplated by the budget which were not reasonably foreseen at the time the estimates of revenue and expense were made, additional expenditures may be authorized by the chief administrative officer from the funds of the utility in an amount not exceeding the estimated cost of producing or purchasing additional units of the product of the utility to be sold upon the justification of such expenditure by and recommendation of the director of public utilities. The chief administrative officer shall report to the council as soon as practicable any such additional expenditures authorized by him/her and shall also report any such additional expenditures to the director of finance, who shall adjust the appropriation accounts accordingly. The expenditure of any other funds of any utility shall be authorized only when an additional appropriation thereof is made in accordance with § 6.16 of this charter. The budget estimates of each department of the city shall include items for gas, water, wastewater, stormwater, and electric current to be used by them. An item for street lighting shall be included in the general fund budget and shall be disbursed by the director of finance on the basis of bills rendered by the customer service division.

(c) The accounting system of each utility shall conform to generally accepted principles of public utility accounting and shall be kept on an accrual basis. Expenditures shall be authorized and made in accordance with appropriations made by the council and in accordance with the provisions of Chapters 6, 8 and 13 of this charter. The records of revenues of each utility shall be kept so that the services rendered to each class of customer according to the rate schedules adopted by the council for each utility can be obtained. After the close of each fiscal year there shall be submitted to the chief administrative officer and the council a report as to the operation of each utility containing at least the following financial statements: (1) a comparative balance sheet showing the financial condition of the utility as of the beginning and close of the fiscal year and an analysis of the surplus account showing the factors of change in the account as reflected by the comparative balance sheet; and (2) a comparative profit and loss statement of the last two fiscal years; and a comparative detailed analysis of operating expense for the last two fiscal years according to functional grouping. The expense of operating each utility shall

include: (1) taxes, if any, lawfully accruing during the fiscal year; and (2) except for the stormwater utility, taxes not actually accruing but which would have accrued had the utility not been municipally owned, and such taxes shall be paid annually into the general fund. For the purposes of this chapter all indebtedness of the city incurred on account of each utility shall be considered as the indebtedness of such utility.

(Acts 1954, Ch. 64, § 1; Acts 1982, Ch. 658, § 1; Acts 1988, Ch. 269, § 1; Acts 1993, Ch. 613, § 1; Acts 1994, Ch. 215, § 1; Acts 1998, Ch. 711; Acts 2006, Ch. 650, § 1; Acts 2006, Ch. 712, § 1)

§ 13.06.1. Payments by utilities for city services.

The amount charged to and to be paid for any city services provided to a city utility by any other department or agency of the city shall be computed upon and limited to the actual cost incurred by such city department or agency in providing such service.

(Acts 1989, Ch. 349, § 1)

§ 13.06.2. Investment of utility funds.

The cash of any utility may be invested for the utility with other city funds, provided, however, that the investment earnings from such cash be credited to the utility. The excess cash not required as working capital for any such utility, for renewal fund transfer, or for other legal obligations of a utility may be utilized for capital projects in accordance with industry standards as determined by and directed by the director of public utilities.

(Acts 1989, Ch. 349, § 1)

§ 13.07. Utility renewal funds.

A renewal fund for each utility shall be established to be known as the "water utility renewal fund", the "wastewater utility renewal fund", the "stormwater utility renewal fund", the "gas utility renewal fund" and the "electric utility renewal fund", respectively. Simultaneously with the introduction of budgets for each city owned and operated utility there shall be introduced renewal fund budgets for each of the utilities utilizing operating cash of the respective utilities for appropriations to finance such budgets. Funds received from the federal and state governments, representing grants in aid of construction, shall be deposited into the respective utility renewal funds. Appropriations may be made by the council from the renewal fund of any utility, on the recommendation of the mayor, only for renewing, rebuilding or extending the plant and distribution system of such utility.

(Acts 1954, Ch. 64, § 1; Acts 1973, Ch. 348, § 1; Acts 1989, Ch. 349, § 1; Acts 1994, Ch. 215, § 1; Acts 2006, Ch. 650, § 1; Acts 2006, Ch. 712, § 1)

§ 13.07.1. Transfer of utility retained earnings.

Transfers of retained earnings of any utility of the city shall be made only after retention of sufficient funds to meet all bond covenant requirements, working capital requirements, and other legal requirements, and any such transfer shall be limited to 30 percent of any year's net income of such utility with such transfer to be made in the second succeeding fiscal year and provided further that in no case shall cash transfers be made to the general fund if a utility does not have a minimum of 45 days working capital requirements.

(Acts 1954, Ch. 64, § 1; Acts 1960, Ch. 7, § 1; Acts 1973, Ch. 348, § 1; Acts 1989, Ch. 349, § 1)

§ 13.07.2. Amendment of the capital budget adopted pursuant to provisions of § 6.19 of the charter; increase in appropriation for utility purposes.

The capital budget ordinance for a fiscal year adopted by the city council pursuant to § 6.19 of the charter may be amended to allow for an increase in a public utility capital budget within the fiscal year if such additional appropriation is a result of and warranted by a demand for new services, changes in conditions, including emergencies and acts of God occurring after the capital budget goes into effect, necessity for complying with regulatory requirements, or the capital budget needs could not have been reasonably anticipated and estimated at the time of adoption of the capital budget.

(Acts 1989, Ch. 349, § 1)

§ 13.08. Valuation of utilities.

At such times as it shall determine, the council shall cause to be made a valuation of each of the utilities, in accordance with accepted valuation principles, by a competent firm of engineers to be selected by the council on the recommendation of the chief administrative officer, showing in the case of the water utility the proportion of its valuation properly allocable to fire protection.

(Acts 1994, Ch. 215, § 1; Acts 1998, Ch. 711; Acts 2006, Ch. 650, § 1; Acts 2006, Ch. 712, § 1)

§ 13.09. Changes in rates.

The rates to be charged for the respective services of the water, wastewater, stormwater, and gas utilities and for the sale of any excess of electric current beyond the needs of the city and its departments, boards, commissions and agencies, as well as any political subdivisions, shall be fixed from time to time by the council on the recommendation of the director of public utilities and the mayor. If for any fiscal year any utility other than the stormwater utility shall operate at a net loss as shown by its annual statement of profit and loss, it shall be the duty of the director of public utilities and the mayor to recommend and the council to adopt for that utility a schedule of rates which in its judgment will produce revenue at least equal to expense.

(Acts 1954, Ch. 64, § 1; Acts 1982, Ch. 658, § 10; Acts 1994, Ch. 215; Acts 2006, Ch. 650, § 1; Acts 2006, Ch. 712, § 1)

§ 13.10. No sale or lease of utilities except when approved by referendum.

There shall be no sale or lease of the water, wastewater, gas or electric utilities unless the proposal for such sale or lease shall first be submitted to the qualified voters of the city at a general election and be approved by a majority of all votes cast at such election.

(Acts 1998, Ch. 711)

§ 13.11. Implementation of stormwater utility.

The stormwater utility shall be implemented by ordinance, and shall be effective as of the effective date of that ordinance. Notwithstanding other provisions of this charter, the stormwater utility program may be administered by either the Department of Public Works or the Department of Public Utilities. Stormwater utility charges shall be assessed to all property owners and shall be based upon their contributions to stormwater runoff. Procedures and guidelines may be established to provide for full or partial waivers of charges to any person who develops, redevelops, or retrofits outfalls, discharges or property so that there is a permanent reduction in post-development stormwater flow and pollutant loading. Federal and state government agencies shall receive a full waiver of stormwater utility charges when the agency owns and provides for maintenance of storm drainage and stormwater control facilities. If stormwater utility charges are not paid when due, interest thereon shall at that time accrue at the rate determined by council, not to exceed any maximum allowed by law. The city may collect charges and interest by action at law or suit in equity, and such unpaid charges and interest shall constitute a lien against the property, of equal stature with liens for unpaid real estate taxes.

§ 17.10. Zoning powers.

In addition to the powers granted elsewhere in this charter the council shall have the power to adopt by ordinance a comprehensive zoning plan designed to lessen congestion in streets, secure safety from fire, panic and other danger, promote health, sanitation and general welfare, provide adequate light and air, prevent the overcrowding of land, avoid undue concentration of population, facilitate public and private transportation and the supplying of public utility services and sewage disposal, and facilitate provision for schools, parks, playgrounds, and other improvements and requirements. The comprehensive zoning plan shall include the division of the city into districts with such boundaries as the council deems necessary to carry out the purposes of this charter and shall provide for the regulation and restriction of the use of land, buildings and structures in the respective districts and may include but shall not be limited to the following:

(a) It may permit specified uses of land, buildings and structures in the districts and prohibit all other uses.

(b) It may restrict the height, area and bulk of buildings and structures in the districts.

(c) It may establish setback building lines and prescribe the area of land that may be used as front, rear and side yards and courts and open spaces.

(d) It may restrict the portion of the area of lots that may be occupied by buildings and structures.

(e) It may prescribe the area of lots and the space in buildings that may be occupied by families.

(f) It may require that spaces and facilities deemed adequate by the council shall be provided on lots for parking of vehicles in conjunction with permitted uses of land and that spaces and facilities deemed adequate by the council shall be provided on lots for off-street loading or unloading of vehicles.

(g) It may permit the use and development of land not less than ten acres in extent in a manner that does not conform in all respects with the regulations and restrictions prescribed for the district or districts in which

such land is situated; provided, that such use shall be approved by the city planning commission and the council.

(h) It may provide that land, buildings and structures and the uses thereof which do not conform to the regulations and restrictions prescribed for the district in which they are situated may be continued so long as the then existing or more restricted use continues and so long as the buildings or structures are maintained in their then structural condition; and may require that such buildings or structures and the use thereof shall conform to the regulations and restrictions prescribed for the district or districts in which they are situated whenever they are enlarged, extended, reconstructed or structurally altered; and may require that such buildings or structures and the use thereof shall conform to the regulations and restrictions prescribed for the district or districts in which they are situated, in any event within a reasonable period of time to be specified in the ordinance.

State law reference—Zoning, Code of Virginia, § 15.2-2280 et seq.

§ 17.11. Uniformity of regulations within a district; special use permits.

(a) The regulations and restrictions shall be uniform and shall apply equally to all land, buildings, and structures and to the use and to each class or kind thereof throughout each district; however, the regulations and restrictions applicable in one district may differ from those provided for other districts.

(a1) The council may, by ordinance adopted after holding one or more public hearings concerning same, establish design overlay districts, providing for such design overlay districts, a design review process applicable to exterior changes within view from public rights-of-way in order to protect developed areas of the city which are characterized by uniqueness of established neighborhood character, architectural coherence and harmony, or vulnerability to deterioration, and council may assess a reasonable fee, not exceeding the actual cost of the review process, for a determination if proposed new construction, alterations, rehabilitation, or demolition conforms to general guidelines for a particular design overlay district established by the planning commission and urban design committee after holding a public hearing.

(b) The council shall have the power to authorize by ordinance adopted by not less than six affirmative votes the use of land, buildings, and structures in a district that does not conform to the regulations and restrictions prescribed for that district and to authorize the issuance of special use permits therefor, whenever it is made to appear that such special use will not be detrimental to the safety, health, morals and general welfare of the community involved, will not tend to create congestion in streets, roads, alleys and other public ways and places in the area involved, will not create hazards from fire, panic or other dangers, will not tend to overcrowding of land and cause an undue concentration of population, will not adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements, and will not interfere with adequate light and air. No such special use permit shall be adopted until (1) the city planning commission has conducted a public hearing to investigate the circumstances and conditions upon which the council is empowered to authorize such use and until the commission has reported to the council the results of such public hearing and investigation and its recommendations with respect thereto, and (2) the council has conducted a public hearing on an ordinance to authorize such special use permit at which the person in interest and all other persons shall have an opportunity to be heard. Notice of the time and place of such public hearings shall be given in accordance with general law. The council shall have the power to require greater notice as it may deem expedient. The city planning commission may recommend and the council may impose such conditions upon the use of the land, buildings and structures as will, in its opinion, protect the community and area involved and the public from adverse effects and detriments that may result therefrom.

(Acts 1960, Ch. 7, § 1; Acts 1968, Ch. 644, § 1; Acts 1987, Ch. 230, § 1; Acts 1998, Ch. 711)

State law reference—Zoning, Code of Virginia, § 15.2-2280 et seq.

§ 17.12. Considerations to be observed in adoption and alteration of zoning regulations.

The regulations and restrictions shall be enacted with reasonable consideration, among other things, of the character of each district and its peculiar suitability for particular uses and with a view of conserving the value of land, buildings and structures and encouraging the most appropriate use thereof throughout the city. Upon the enactment of the ordinance dividing the city into districts and regulating and restricting the use of land, buildings

and structures therein in accordance with a comprehensive zoning plan no land, building or structure shall be changed from one district to another unless the change is in accord with the interest and purpose of this section and will not be contrary to the comprehensive zoning plan and the enumerated factors upon which it is based and the regulations and restrictions applicable to the districts involved in the change.

§ 17.13. Duties of planning commission with relation to zoning.

It shall be the duty of the city planning commission to prepare and submit to the council a comprehensive zoning plan as referred to in § 17.10 and from time to time prepare and submit such changes in or revisions of the said plan as changing conditions may make necessary.

State law reference—Zoning, Code of Virginia, § 15.2-2280 et seq.

§ 17.14. Adoption and amendment of zoning regulations and restrictions and establishment of district boundaries.

Subject to the other provisions of this chapter and general law, the council shall have power by ordinance to adopt the regulations and restrictions hereinbefore described and establish the boundaries of the districts in which they shall apply, provide for their enforcement, and from time to time amend, supplement or repeal the same. The council shall also have authority to provide for the collection of fees to cover costs involved in the consideration of any request for amendment, supplement or repeal of any such regulation, restriction or establishment of boundaries, to be paid to the department of planning and community development by the applicant upon filing such request. No such regulation, restriction or establishment of boundaries shall be adopted until:

(a) The city planning commission has conducted a public hearing to investigate the circumstances and conditions upon which the council is empowered to authorize such regulation, restriction or establishment of boundaries, and until the commission has reported to the council the results of such public hearing and investigation and its recommendations with respect thereto; and

(b) The council has conducted a public hearing on an ordinance to authorize such regulation, restriction or establishment of boundaries at which the person in interest and other persons shall have an opportunity to be heard.

Notice of the time and place of such public hearings shall be given in accordance with general law.

The procedures set forth in this section shall also apply to the adoption, amendment and repeal of historic district boundaries. § 17.16. Board of zoning appeals; composition.

(a) There shall be a board of zoning appeals which shall consist of five regular members and two alternates. (b) The city may by ordinance create a separate division of the board which shall be empowered only to hear appeals concerning interpretations of sections of the zoning ordinance dealing expressly with preservation of the Chesapeake Bay. This division shall consist of five regular members and two alternates appointed as provided in paragraph (a) of this section and subject to the same conditions of office. Editor's note—Acts 1998, Ch. 711 repealed §§ 17.17 and 17.18, which pertained to the organization and meetings, etc., of the board of zoning appeals, and which derived from Acts 1948, Ch. 116 and Acts 1960, Ch. 7, § 1.

§ 17.19. Appeals to board of zoning appeals.

Appeals to the board may be taken by any person aggrieved, or by any officer, department, board, commission or agency of the city affected, by any decision of the administrative officer designated by the council to administer and enforce the ordinance dividing the city into districts and regulating and restricting the use of land, buildings and structures therein. Appeals shall be taken within such reasonable time as shall be prescribed by the board by general rule, by filing with the said administrative officer and with the board a notice of appeal specifying the grounds thereof. The administrative officer shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken. An appeal stays all proceedings in furtherance of the action appealed from unless the administrative officer from whose decision the appeal is taken certifies to the board that by reason of the facts stated in the certificate a stay would in his/her opinion cause imminent peril to life or property. In such case proceedings shall not be stayed otherwise than by a restraining order which may be granted by the board or by a court of record on application and on notice to the administrative officer and on due cause shown.

The board shall fix a reasonable time for the hearing of the appeal, give public notice thereof as well as due notice to the parties in interest and decide the issue within a reasonable time. At the hearing, any party may appear in person, by agent or by attorney and shall be given an opportunity to be heard. The board may prescribe a fee to be paid whenever an appeal is taken which shall be paid into the city treasury.

§ 17.20. Powers of board of zoning appeals.

The board shall have the following powers and it shall be its duty:

(a) To hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination by the administrative officer in the administration and enforcement of the provisions of the ordinance.

(b) To grant variations in the regulations when a property owner can show that his property was acquired in good faith and where by reason of the exceptional narrowness, shallowness or shape of a specific piece of property at the time of the effective date of the ordinance or where by reason of the exceptional topographical conditions or other extraordinary or exceptional situation the strict application of the terms of the ordinance actually prohibit or unreasonably restrict the use of the property, or where the board is satisfied, upon the evidence heard by it, the granting of such variations will alleviate a clearly demonstrable hardship approaching confiscation as distinguished from a special privilege or convenience sought by the owner, provided, however, that all variations granted shall be in harmony with the intended spirit and purpose of this chapter and the ordinance.

(c) To permit, when reasonably necessary in the public interest, the use of land, or the construction or use

of buildings or structures, in any district in which they are prohibited by the ordinance, by any agency of the city, county or Commonwealth or the United States, provided such construction or use shall adequately safeguard the health, safety and welfare of the occupants of the adjoining and surrounding property, shall not unreasonably impair an adequate supply of light and air to adjacent property, shall not increase congestion in streets and shall not increase public danger from fire or otherwise affect public safety.

(d) To permit the following exceptions to the district regulations and restrictions, provided such exceptions shall by their design, construction and operation adequately safeguard the health, safety and welfare of the occupants of the adjoining and surrounding property, shall not unreasonably impair an adequate supply of light and air to adjacent property, shall not increase congestion in streets and shall not increase public danger from fire or otherwise unreasonably affect public safety and shall not diminish or impair the established property values in surrounding areas:

(1) Use of land or erection or use of a building or structure by a public service corporation for public utility purposes exclusively which the board finds to be reasonably necessary for the public convenience and welfare.

(2) Use of land or construction or use of buildings and structures in any district in which they are prohibited by the ordinance, for cemetery purposes, airports or landing fields, greenhouses and nurseries and the extraction of raw materials from land, such as rock, gravel, sand and similar products.

(3) Use of land in dwelling districts immediately adjoining or separated from business, commercial or industrial districts by alleys, or widths to be specified in the ordinance, for parking of vehicles of customers of business, commercial or industrial establishments, provided such use shall not extend more than the distance specified in the ordinance from the business, commercial or industrial district.

(4) Use of buildings for dwelling purposes in districts specified in the ordinance for use for other purposes, where it can be shown that conditions in the specified districts are not detrimental to the health, safety, or welfare of the inhabitants of such buildings and on condition that the buildings will be removed within a time specified in the ordinance.

(5) Reconstruction of buildings or structures that do not conform to the comprehensive zoning plan and regulations and restrictions prescribed for the district in which they are located, which have been damaged by explosion, fire, act of God or the public enemy, to the extent of more than 60 percent of their assessed taxable value, when the board finds some compelling public necessity for a continuance of the use and such continuance is not primarily to continue a monopoly, provided that nothing herein shall relieve the owner of any such building or structure from obtaining the approval of such reconstruction by the council or any department or officer of the city when such approval is required by any law or ordinance.

(e) To modify the interpretation and application of the provisions of the ordinance where the street layout actually on the ground varies from the street layout as shown on the map fixing the districts and their boundaries adopted with and as a part of the ordinance.

(Acts 1954, Ch. 64, § 1; Acts 1962, Ch. 65, § 1; Acts 1981, Ch. 199, § 1; Acts 1998, Ch. 711)

§ 17.21. Form and scope of decisions by board of zoning appeals.

In exercising the powers conferred upon it the board may reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed from, and may make such order, requirement, decision or determination as should be made, and to that end shall have all the powers of the administrative officer charged by the ordinance with enforcement. The concurring affirmative vote of three members of the board shall be necessary to reverse any order, requirement, decision or determination of the administrative officer or to decide in favor of the applicant in any matter of which it has jurisdiction. The board shall act by formal resolution which shall set forth the reason for its decision and the vote of each member participating therein which shall be spread upon

its records and shall be open to public inspection. The board may, upon the affirmative vote of three members, reconsider any decision made and, upon such consideration, render a decision by formal resolution. Every decision of the board shall be based upon a finding of fact based on sworn testimony which finding of fact shall be reduced to writing and preserved among its records.

State law reference—Board of zoning appeals, Code of Virginia, § 15.2-2308 et seq.

§ 17.22. Appeals from boards.

Any person, firm or corporation, jointly or severally aggrieved or in fact affected by any decision of the board of zoning appeals, or any officer, department, board or agency of the city government charged with the enforcement of any order, requirement or decision of said board, may appeal from such decision by filing a petition in the Circuit Court of the City of Richmond, Division I, verified by affidavit, setting forth the alleged illegality of the action of the board and the grounds thereof. The petition shall be filed within 30 days from the date of the decision of the board. No appeal from the decision of the board shall be allowed in any case involving the same petitioner, principles, property and conditions previously passed upon by such court.

State law reference—Board of zoning appeals, Code of Virginia, § 15.2-2308 et seq.

§ 17.23. Procedure on appeal.

Upon filing of the petition the court may cause a writ of certiorari to issue directed to the board, ordering it to produce within the time prescribed by the court, not less than ten days, the record of its action and documents considered by it in making the decision appealed from, which writ shall be served upon any member of the board. The issuance of the writ shall not stay proceedings upon the decision appealed from but the court may, on application, notice to the board and due cause shown, issue a restraining order. The board shall not be required to produce the original record and documents but it shall be sufficient to produce certified or sworn copies thereof or of such portions thereof as may be required by the writ. With the record and documents the board may concisely set forth in writing such other facts as may be pertinent and material to show the grounds of the decision appealed from, verified by affidavit.

State law reference—Board of zoning appeals, Code of Virginia, § 15.2-2308 et seq.

§ 17.24. Powers and duties of the court.

The court shall review the record, documents and other matters produced by the board pursuant to the issuance of the writ and may reverse or modify the decision reviewed, in whole or in part, when it is satisfied that the decision of the board is contrary to law or that its decision is arbitrary and constitutes an abuse of discretion. Unless it is made to appear that the decision is contrary to law or is arbitrary and constitutes an abuse of discretion the court shall affirm the decision. If the court finds that the testimony of witnesses is necessary for a proper disposition of the matter it may hear evidence.

§ 17.26. Penalties for violation of zoning ordinance.

The council may in such ordinance provide that fines and jail sentences, either or both, shall be imposed for violations of the ordinance by owners of land, buildings or structures, their agents having possession or control of such property, lessees, tenants, architects, builders, contractors or any other persons, firm or corporations who take part in or assist in any such violations or who maintain any land, building or structure in which such violations exist, which penalties shall not exceed those prescribed in § 2.06 of this charter.

Chapter 18. Acquisition of Property for Public Purposes

§ 18.01. Acquisition, ownership and use of property.

The city shall have, for the purpose of carrying out any of its powers and duties, power to acquire by gift, bequest, purchase or lease, and to own and make use of, within and without the city, lands, buildings, other structures and personal property, including any interest, right, easement or estate therein, and in acquiring such property to exercise, within and without the city, the right of eminent domain as hereinafter provided in this chapter.

§ 18.02. Eminent domain.

The city is hereby authorized to acquire by condemnation proceedings lands, buildings, structures and personal property or any interest, right, easement or estate therein, of any person or corporation, whenever in the opinion of the council a public necessity exists therefor, which shall be expressed in the resolution or ordinance directing such acquisition, whether or not any corporation owning the same be authorized to exercise the power of eminent domain or whether or not such lands, buildings, structures or personal property or interest, right, easement or estate has already been devoted to a public use, and whenever the city cannot agree on terms of purchase or settlement with the owners of the subject of such acquisition because of incapacity of such owner, or because of the inability to agree on the compensation to be paid or other terms of settlement or purchase, or because the owner or some one of the owners is a nonresident of the Commonwealth and cannot with reasonable diligence be found in the Commonwealth or is unknown.

Such proceedings may be instituted in the Circuit Court of the City of Richmond, Divisions I or II, if the subject to be acquired is located within the city, or, if it is not located within the city, in the circuit court of the county in which it is located. If the subject is situated partly within the city and partly within any county the circuit court of such county shall have concurrent jurisdiction in such condemnation proceedings with the circuit court of the city. The judge or the court exercising such concurrent jurisdiction shall appoint five disinterested freeholders any or all of whom reside either in the county or city, any three of whom may act as commissioners, as provided by law.

(Acts 1975, Ch. 112, § 1)

§ 18.03. Alternative procedures in condemnation.

The city may, in exercising the right of eminent domain conferred by the preceding section, make use of the procedure prescribed by the general law as modified by said section or may elect to proceed as hereinafter provided. In the latter event the resolution or ordinance directing acquisition of any property, as set forth in the preceding section, shall provide therein in a lump sum the total funds necessary to compensate the owners thereof for such property to be acquired or damaged. Upon the adoption of such resolution or ordinance the city may file a petition in the clerk's office of a court enumerated in the preceding section, having jurisdiction of the subject, which shall be signed by the chief administrative officer and set forth the interest or estate to be taken in the property and the uses and purposes for which the property or the interest or estate therein is wanted, or when property is not to be taken but is likely to be damaged, the necessity for the work or improvement which will cause or is likely to cause such damage. There shall also be filed with the petition a plat of a survey of the property with a profile showing cuts and fills, trestles and bridges, if any, and a description of the property which, or an interest or estate in which, is sought to be taken or likely to be damaged and a memorandum showing names and residences of the owners of the property, if known, and showing also the quantity of property which, or an interest or estate in which, is sought to be taken or which will be or is likely to be damaged. There shall be filed also with said petition a notice directed to the owners of the property, if known, copies of which shall be served on such owners or tenants of the freehold of such property, if known. If the owner or tenant of the freehold be unknown or a nonresident of the Commonwealth or cannot with reasonable diligence be found in the Commonwealth, or if the residence of the owner or tenant be unknown, he/she may be proceeded against by order of publication which order, however, need not be published more than once a week for two successive weeks and shall be posted at a main entrance to the courthouse. The publication shall in all other respects conform to §§ 8.01-316, 8.01-317 and 8.01-319 of the Code of Virginia [Code of Virginia, §§ 8.01-316, 8.01-317 and 8.01-319].

Upon the filing of said petition and the deposit of the funds provided by the council for the purpose in a bank to the credit of the court in such proceedings and the filing of a certificate of deposit therefor the interest or estate

of the owner of such property shall terminate and the title to such property or the interest or estate to be taken in such property shall be vested absolutely in the city and such owner shall have such interest or estate in the funds so deposited as he/she had in the property taken or damaged and all liens by deed of trust, judgment or otherwise upon said property or estate shall be transferred to such funds and the city shall have the right to enter upon and take possession of such property for its uses and purposes and to construct its works or improvements. The clerk of the court in which such proceeding is instituted shall make and certify a copy of the petition, exhibits filed therewith, and orders, and deliver or transmit the same to the clerk of the court in which deeds are admitted to record, who shall record the same in his/her deed book and index them in the name of the person or persons who had the property before and in the name of the city, for which he/she shall receive the same fees prescribed for recording a deed, which shall be paid by the city.

If the city and the owner of property so taken or damaged agree upon compensation therefor, upon filing such agreement in writing in the clerk's office of such court, the court shall make such distribution of such funds as to it may seem right, having due regard to the interest of all persons therein whether such interest be vested, contingent or otherwise, and to enable the court or judge to make a proper distribution of such money it may in its discretion direct inquiries to be taken by a special commissioner in order to ascertain what persons are entitled to such funds and in what proportions and may direct what notice shall be given to the making of such inquiries by such special commissioner.

If the city and the owner cannot agree upon the compensation for the property taken or damaged, if any, upon the filing of a memorandum in the clerk's office of said court to that effect, signed by either the city or the owner, the court shall appoint commissioners provided for in §§ 25.1-220 and 25.1-226-25.1-230 of the Code of Virginia [Code of Virginia, §§ 25.1-220 and 25.1-226--25.1-230] or as provided for in § 18.02, and all proceedings thereafter shall be had as provided in Chapter 2 (§ 25.1-200 et seq.) of Title 25.1 of the Code of Virginia [Code of Virginia, § 25.1-200 et seq.] insofar as they are then applicable and are not inconsistent with the provisions of this and the preceding section, and the court shall order the deposit in bank to the credit of the court of such additional funds as appear to be necessary to cover the award of the commissioners or shall order the return to the city of such funds deposited that are not necessary to compensate such owners for property taken or damaged. The commissioners so appointed shall not consider improvements placed upon the property by the city subsequent to its taking nor the value thereof nor the enhancement of the value of said property by said improvements in making their award.

(Acts 1968, Ch. 644, § 1; Acts 1998, Ch. 711; Acts 2004, Ch. 877, § 1; Acts 2004, Ch. 898, § 1)

Editor's note—Acts 2006, Ch. 586, § 2 repealed Code of Virginia, §§ 25.1-226 and 25.1-227, and Acts 2010, Ch. 835 added Code of Virginia, §§ 25.1-227.1 and 25.1-227.2.

§ 18.04. Enhancement in value when considered.

In all cases under the provisions of §[§] 18.02 and 18.03, the enhancement, if any, in value of the remaining property of the owner by reason of the construction or improvement contemplated or made by the city, shall be offset against the damage, if any, resulting to such remaining property of such owner by reason of such construction or improvement; provided, such enhancement in value shall not be offset against the value of the property taken, and provided further, that if such enhancement in value shall exceed the damage there shall be no recovery over against the owner for such excess.

§ 18.05. Unclaimed funds in condemnation cases.

Whenever any money shall have remained for five years in the custody or under the control of any of the courts enumerated in § 18.02, in any condemnation proceeding instituted therein by the city, without any claim having been asserted thereto such court shall direct the same to be paid into the treasury of the city, and a proper receipt for the payment taken and filed among the records of the proceeding. The director of finance shall, in a book provided for the purpose, keep an account of all money thus paid into the city treasury, showing the amount thereof, when, by whom, and under what order it was paid, and the name of the court and, as far as practicable, a description of the suit or proceeding in which the order was made and, as far as known, the names of the parties entitled to said funds. Money thus paid into the treasury of the city shall be paid out on the order of the court having jurisdiction of the proceeding, to any person entitled thereto who had not asserted a claim therefor in the proceeding in which it was held, upon satisfactory proof that he/she is entitled to such money. If such claim is established the net amount thereof, after deducting costs and other proper charges, shall be paid to the claimant out of the treasury of the city

on the warrant of the director of finance. No claim to such money shall be asserted after ten years from the time when such court obtained control thereof; provided, however, if the person having such claim was an infant, insane, or imprisoned at the time the claim might have been presented or asserted by such person, claim to such money may be asserted within five years after the removal of such disability.

(1) The Council and the members thereof;

(2) The members, trustees and employees of boards, commissions and committees of the City who are not specifically excluded in this section; and

(3) Volunteers who are registered with and specifically requested or authorized to perform services for and on behalf of departments or agencies of the City.

(b) In addition to the other duties prescribed by law, the City Attorney shall represent, without charge, all City officers and employees with respect to any claim or cause of action arising from the conduct of such officers and employees and other designated persons in the discharge of their official duties undertaken during their term of office or employment or in their capacity as volunteers performing services for the City. Those persons entitled to the benefits and coverage provided in this section shall include any former officers or employees or their estates or personal representatives. Such conduct is hereby deemed to include administrative and professional malpractice, as well as acts committed or alleged to have been committed that result in or are alleged to result in deprivations of rights, privileges, and immunities guaranteed by the United States Constitution or the State Constitution or of any statute affording a cause of action for damages or injunctive relief for such deprivations.

(c) If an actual or potential conflict of interest occurs involving the City Attorney's representation of the City and any of its officers or employees or volunteers on any claim, action at law, suit in equity or combination of claims, actions and suits and if any such conflict of interest or other ethical considerations might impede effective representation and legal defense by the City Attorney, the City Attorney shall be authorized and shall have sole discretion to retain independent counsel to represent any officers or employees or volunteers who, in the opinion of the City Attorney, are entitled to and require such counsel. The costs and expenses of such representation, including attorney's fees, shall be paid out of the funds appropriated by the City for insurance and self-insurance, except when otherwise provided by ordinance.

(d) All officers and employees and volunteers performing services as authorized in this section who become legally obligated to pay any claims, including, but not limited to, settlements, defense of actions or suits, satisfaction of judgments, costs or awards of attorney's fees, arising from the conduct of such officers and employees in the discharge of their official duties in serving the City shall only be entitled to payment therefor by the City where the claim shall have been determined by the Chief Administrative Officer, upon the recommendation of the City Attorney, to have resulted from actions that:

(1) Were done in good faith;

(2) Were done in the reasonable belief that such activities were in the best interests of the City;

(3) Were within the scope of authority of the person so acting;

(4) Were done within the course of employment of the person so acting or within the scope of services which a person is performing voluntarily and pursuant to authorization; and

(5) Did not involve actual fraud, corruption, actual malice or a violation of criminal laws on the part of the officer, employee or volunteer.

(e) The Chief Administrative Officer is authorized to continue in effect or procure replacement thereof insofar as practicable liability insurance policies for City officers and employees or other persons authorized to act for and on behalf of the City, with legal defense of claims thereunder to be provided in accordance with the terms of the policies of insurance. The City Attorney shall represent City officers and employees and volunteers as encompassed in this section to the extent deemed necessary to supplement legal services provided under such liability insurance policies. The protection afforded under this subsection shall expressly be deemed to be contingent upon the absence of, or to be a supplement to the limits of, any valid collectible insurance covering the risks subject to this section.

(f) Notwithstanding subsection (b) of this section, no legal fees shall be paid on behalf of officers and employees and volunteers or legal representation provided by the City Attorney for the defense of acts alleged to have been committed by officers or employees and volunteers in violation of criminal laws, including the penal ordinances of the City, nor shall any fines or penalties be paid by or reimbursed by the City.

(g) The duty to defend or pay any judgment or settlement amounts, costs and expenses, including attorney's fees, shall be conditioned upon the following:

(1) Delivery by the officer or employee or volunteer to the City Attorney of a written request to provide for a defense, together with the original or a copy of any summons, complaint, process, notice, demand or pleading within ten days after such officer or employee or volunteer is served with such document; and

(j) Nothing contained in this section shall be construed to abrogate or waive any defense of governmental immunity on behalf of the City or of its officers or employees or its volunteers.

Sec. 2-160. Purpose and applicability; policy.

(a) This division sets forth the policy of the City concerning employee disclosure of misconduct and the protection of employees from retaliation for disclosing what the employee believes evidences certain unlawful, wasteful or hazardous practices. This policy is applicable to all employees of the City.

(b) The City is committed to operating legally and ethically at all times. Therefore, employees are required to report violations of laws, regulations, and policies that they either observe or reasonably suspect. Failure to report a known violation shall result in disciplinary action.

(c) It is the policy of the City that common sense and sound business judgment is the key to determining whether conduct complies with ethical and legal standards. All City employees encountering a situation that may involve fraud, misuse of property or theft such that they feel uncomfortable or unsure, are required to ask:

(1) Whether the conduct is legal;

(2) Whether the parties are being fair and honest; and

(3) Whether the conduct is in the best interest of the City or its citizens.

If the answer to any of the preceding questions is in the negative, the employees have a duty to report the potentially unlawful or wrongful conduct or to request additional information.

(d) It is also the policy of the City that any employee shall be free without fear of retaliation to make known allegations of alleged misconduct existing within the City that he reasonably believes evidences:

(1) An abuse of authority, gross misconduct, or gross waste of money;

(2) Embezzlement of or fraud involving City funds;

(3) A substantial and specific danger to public health or safety; or

(4) A violation of law.

No retaliation of any kind shall be tolerated against an employee who makes a good faith report of any known or suspected violation, even if further investigation finds the report to be erroneous. In particular, no officer or

employee of the City shall take or refuse to take any personnel action as retaliation against an employee who discloses information regarding misconduct under this policy or who, following such disclosure, seeks a remedy provided under this policy or any other law, rule or regulation.

(e) To the extent possible, reports of misconduct shall be kept anonymous when requested by the reporting individual. Every effort shall be made to preserve the confidentiality of the report of misconduct.

(f) Alleged acts of retaliation shall be investigated by the Chief Administrative Officer or his designee.

(g) Any employee found to have known of misconduct but failed to report shall be subject to disciplinary action.

(h) Any employee who purposely makes a false report of an alleged violation shall be subject to disciplinary action and may be subject to other legal action.

(3) The Chief Administrative Officer;

(4) Any City Council member; or

(5) Any constitutional officer;

the Inspector General shall refer the disclosure to the Auditor of Public Accounts and the Virginia State Police as required by State law.

(e) Any person other than a City employee may disclose relevant information regarding evidence of misconduct to the Inspector General or the designee thereof within one month of the day on which the person knew or learned of the misconduct. The person may disclose relevant information by way of the audit hot line or through the Inspector General's website, in writing or in person. The Inspector General or the designee thereof may use his discretion to consider the validity and merit of the disclosure and take whatever action he determines to be appropriate under the law and circumstances of the disclosure.

This requirement shall apply regardless of whether identical or similar provisions appear in any appropriation ordinance or any agreement pursuant to which such monies are provided to such person or other legal entity.

(d) *Penalty.* Any person or other legal entity subject to this section that denies the City Auditor the right to conduct periodic audits of its finances and expenditures of City-provided monies on demand and without notice, or causes or permits such denial, shall be guilty of a Class 3 misdemeanor and shall be deemed ineligible to receive grants or other direct appropriations of City monies for a period of five years.

If no applications for relief are received by such date, the Board of Equalization shall be deemed to have discharged its duties. If any such application is mailed by the applicant, the postmark date shall be considered the date of receipt by the City Assessor. A hearing for relief before the Board regarding an assessment on residential property shall not be denied on the basis of a lack of information on the application for relief, as long as the application includes the address, the parcel number, and the property owner's proposed assessed value for the property. Sec. 2-1129. Conduct of proceedings before the Board.

(a) In all cases brought before the Board, there shall be a presumption that the valuation determined by the City Assessor is correct. The burden of proof on appeal to the Board shall be on the property owner to rebut the presumption and show by a preponderance of the evidence that the property in question is valued at more than its fair market value or that the assessment is not uniform in its application and that it was not arrived at in accordance with generally accepted appraisal practices, procedures, rules, and standards as prescribed by nationally recognized professional appraisal organizations such as the International Association of Assessing Officers and applicable Virginia law relating to valuation of property. Mistakes of fact, including computation, that affect the assessment shall be deemed not to be in accordance with generally accepted appraisal practice. However, in any appeal of the assessment of residential property filed by a property owner as an owner of real property containing less than four residential units, the City Assessor shall give the required written notice to the property owner, or the duly

authorized representative thereof, under Code of Virginia, § 58.1-3331(E), and, upon written request, shall provide the property owner or the duly authorized representative thereof copies of the assessment records set out in Code of Virginia, § 58.1-3331(A), (B) and (C) pertaining to the City Assessor's determination of fair market value of the property under appeal. The City Assessor shall provide such records within 15 days of a written request by the taxpayer or the duly authorized representative thereof. If the City Assessor fails to do so, the City Assessor shall present the following into evidence prior to the presentation of evidence by the taxpayer at the hearing:

(1) Copies of the assessment records maintained by the assessing officer under Code of Virginia, § 58.1-3331;

(2) Testimony that explains the methodologies employed by the assessing officer to determine the assessed value of the property; and

(3) Testimony that states that the assessed value was arrived at in accordance with generally accepted appraisal practices, procedures, rules, and standards as prescribed by nationally recognized professional appraisal organizations such as the International Association of Assessing Officers and applicable Virginia law regarding the valuation of property.

Upon the conclusion of the presentation of the evidence of the City Assessor, the property owner shall have the burden of proof by a preponderance of the evidence to rebut such evidence presented by the assessing officer as otherwise provided in this section.

(b) In considering complaints, nothing shall be construed to prohibit consideration of any statement of income and expense or market sales that occurred through December 31, prior to the effective date of the assessment, so long as such information is submitted to the Board no later than the deadline prescribed in Section 2-1128 for the submission of an application for relief. No studies or analyses published after December 31 immediately preceding the effective date of the assessment shall be considered in an appeal filed relating to that assessment.

(c) In any case before the Board concerning a property owner's complaint in which the City Assessor requests the Board to increase the assessment after the property owner files an appeal to the Board on a commercial, multifamily residential, or industrial property, the City Assessor shall provide the property owner notice of the request not less than 14 days prior to the hearing of the Board. Except as provided herein, if the property owner contests the requested increase, the City Assessor shall either withdraw the request or shall provide the Board an appraisal performed by an independent contractor who is licensed and certified by the Virginia Real Estate Appraiser Board to serve as a general real estate appraiser, which appraisal affirms that such increase in value represents the property's fair market value as of the date of the assessment in dispute. The provisions of this subsection that require that the City Assessor provide the Board with an appraisal shall not apply if:

(1) The requested increase is based on mistakes of fact, including computation errors; or

(2) The information on which the City Assessor bases the requested increase was available to, but not provided by, the property owner in response to a request for information made by the City Assessor at the time the challenged assessment was made.

(d) The City Assessor shall, when requested, attend the meetings of the Board, without additional compensation, and shall call the attention of the Board to such inequalities in real estate assessments in the City of Richmond as may be known to the City Assessor.

(e) The Board may go upon and inspect any real estate subject to adjustment or equalization by it.

(Code 2004, § 2-1074; Code 2015, § 2-1129; Ord. No. 2014-107-81, § 1, 5-27-2014)

DIVISION 4. CHICKENS

Sec. 4-123. Administrative regulations.

The Director shall administer the permit process and enforce the requirements for the keeping, placement or

maintenance of female chickens on parcels of real property in residential zoning districts of the City for which this division provides and establish such rules, regulations, and any amendments thereto, not inconsistent with the provisions of this Code and other applicable laws, as the Director deems necessary for the effective administration of the permit process and the enforcement of the requirements for which this division provides. Such rules and regulations shall prescribe timeframes within which applications for permits shall be filed in accordance with Section 4-124. In addition, the Director shall establish such rules and regulations, and any amendments thereto, not inconsistent with the provisions of this Code and other applicable laws, as the Director deems necessary concerning the handling of female chickens in the City. The Director shall also prescribe standards for the approval of permits and the appropriate forms for the submission of permits by persons keeping, placing or maintaining female chickens in the City in accordance with this chapter.

(Code 2004, § 10-94; Code 2015, § 4-123; Ord. No. 2013-17-35, § 2, 3-11-2013)

Sec. 4-124. Permit requirements.

(a) *Permit required; initial and annual renewal fee.* The Director may issue permits to persons for the keeping, placement or maintenance of female chickens on any parcel or real property in residential zoning districts of the City. Roosters shall not be permitted. No person shall keep, place or maintain female chickens in the City unless, in accordance with this section or Section 4-128, if applicable, such person has filed an application for a permit, obtained a permit from the Director and has complied with the applicable provisions of this chapter and other applicable provisions of this Code and state law. Any person requesting permission to keep, place or maintain female chickens in the City shall complete an application, on a form provided by the Director, and shall submit such application to the Director within the applicable time frames prescribed in this section or as otherwise prescribed in the regulations established in accordance with this division. The Director shall review any applications submitted in accordance with this section and may issue a permit, deny the applicant's request for a permit or lawfully require further information from the applicant as may be necessary to process the application. Any initial application shall be accompanied by the payment of a permit fee of $60.00. Any permit issued in accordance with this division shall expire within 12 months from the date on which such permit was last issued and may be renewed annually upon submission of a new permit application and payment of a new permit fee of $60.00 within the time frame prescribed in the regulations established in accordance with this division. Any failure to submit a new permit application or payment of the permit fee provided for in this section within the time frame prescribed in the regulations established in accordance with this division shall result in revocation of any permission to keep, place or maintain female chickens in the City upon the day after the date on which the last permit that was issued is to expire. However, in the case of an applicant whose permit expires during the Director's processing of such applicant's application for a new permit that has been filed within the time frames prescribed in the regulations established in accordance with this division and who has complied with the provisions of this division and other applicable provisions of this Code and state law, such applicant shall not be deemed to be in violation of this division due solely to the expiration of the permit that was last issued in accordance with this section. No permit issued in accordance with this division shall permit the keeping, placement or maintenance of any more than six female chickens on any parcel of real property in residential zoning districts of the City within the 12-month period to which such permit applies. No permit shall be issued to any person having more than six female chickens on any parcel to which any such permit applies.

(b) *Filing deadline for first year after effective date of the ordinance from which this division is derived.* For the first year after the enactment date of this division, all applications for a permit in accordance with this section shall be filed within 90 days after the enactment date of this division. For the second year after the enactment date of this division and all subsequent years, unless otherwise provided by law, all applications for permits in accordance with this section shall be filed within the applicable time frames prescribed in the regulations established in accordance with this division.

(c) *Persons eligible for a permit.* Any person who owns residential real property in a residential zoning district of the City at which female chickens are to be kept, placed or maintained or who has received written approval from a person who owns residential real property in a residential zoning district of the City to keep, place or maintain female chickens on such property may apply for a permit in accordance with this section.

(d) *Background investigation.* Upon the submission of an application for a permit in accordance with this section, the Director shall conduct a background check and investigation of the applicant to determine if the

applicant has been convicted of or has any pending charges for or complaints of animal cruelty or neglect. Prior to the issuance of a permit, the Director shall also conduct a site inspection of the area in which the applicant purports to keep, place or maintain any female chickens. If, after completing the background investigation and site inspection for which this subsection provides, the Director determines that the applicant has been convicted of or has pending charges for or complaints of animal cruelty or neglect or determines that the area in which the applicant purports to keep, place or maintain any female chicken does not meet the applicable requirements of this Code or state law, the Director shall deny the permit application. Notwithstanding the requirements of this subsection, the Director may otherwise deny any permit application if any person requesting permission to keep, place or maintain female chickens has not complied with the applicable provisions of this chapter and other applicable provisions of this Code and state law.

(e) *Revocation of permit for noncompliance.* Any permit issued in accordance with this section is subject to revocation by the Director upon the failure of any person to whom the Director has issued a permit to comply with relevant provisions of this Code or state law or with any rules or regulations established in accordance with this division.

(f) *Applicant obligations*. Any person applying for a permit in accordance with this section shall sign a written statement, on a form provided by the Director, confirming that such person has read and reviewed the provisions of this division and other applicable provisions of this Code and State law concerning the keeping, placement or maintenance of female chickens and any rules or regulations established in accordance with this division.

(Code 2004, § 10-95; Code 2015, § 4-124; Ord. No. 2013-17-35, §§ 2, 3, 3-11-2013; Ord. No. 2018-294, § 1, 1-28-2019)

Sec. 4-125. Inspections.

Such inspections shall take place at a time reasonable under the circumstances. Any failure or refusal of the applicant or permittee to allow the Director to inspect the area in which any female chickens are kept, placed or maintained or the area in which any applicant or permittee proposes that any female chickens be kept, placed or maintained, either or both, shall, as applicable, result in the denial or revocation of a permit.

(b) If the owner or custodian of a hybrid canine fails or refuses to obtain or renew any required permit or violates a provision of this division or any other law pertaining to the responsible ownership of the hybrid canine, then the Department may take such hybrid canine into its custody pending correction of the violation within seven days of the date on which the hybrid canine is taken into the custody of the Department. DIVISION 4. CONTROL REGULATIONS

Sec. 4-241. Dangerous dogs.

(a) An animal control officer who has reason to believe that a dog within the animal control officer's jurisdiction is a dangerous dog shall apply to a magistrate of the jurisdiction for the issuance of a summons requiring the owner or custodian, if known, to appear before a General District Court at a specified time. The summons shall advise the owner of the nature of the proceeding and the matters at issue. The animal control officer or owner shall confine the animal until such time as evidence shall be heard and a verdict rendered. The court, through its contempt powers, may compel the owner, custodian or harborer of the animal to produce the animal. If, after hearing the evidence, the court finds that the animal is a dangerous dog, the court shall order the animal's owner to comply with this section. If, after hearing the evidence, the court finds that the animal is a dangerous dog, the court may order the owner, custodian or harborer thereof to pay restitution for actual damages to any person injured by the animal or whose companion animal was injured or killed by the animal. The court, in its discretion, may also order the owner to pay all reasonable expenses incurred in caring and providing for such dangerous dog from the time the animal is taken into custody until such time as the animal is disposed of or returned to the owner. The procedure for appeal and trial shall be the same as provided by law for misdemeanors. Trial by jury shall be as provided in Code of Virginia, Title 19.2, Ch. 15, Art. 4 (Code of Virginia, § 18.2-260 et seq.). The City shall be required to prove its case beyond a reasonable doubt.

(b) No dog shall be found to be a dangerous dog solely because it is a particular breed, nor is the ownership of a particular breed of dog prohibited. No animal shall be found to be a dangerous dog if the threat, injury or damage was sustained by a person who was:

(1) Committing, at the time, a crime upon the premises occupied by the animal's owner or custodian;

(2) Committing, at the time, a willful trespass or other tort upon the premises occupied by the animal's owner or custodian; or

(3) Provoking, tormenting, or physically abusing the animal or can be shown to have repeatedly provoked, tormented, abused, or assaulted the animal at other times.

No police dog which was engaged in the performance of its duties as such at the time of the acts complained of shall be found to be a dangerous dog. No animal which, at the time of the acts complained of, was responding to pain or injury or was protecting itself, its kennel, its offspring, or its owner or owner's property shall be found to be a dangerous dog.

(c) The owner of any animal found by a court to be a dangerous dog shall, within 45 days of such finding, obtain a dangerous dog registration certificate from the animal control officer for a fee of $150.00 for the initial certificate in addition to other fees that may be authorized by law. The animal control officer shall also provide the owner with a uniformly designed tag which identifies the animal as a dangerous dog. The owner shall affix the tag to the animal's collar and shall ensure that the animal wears the collar and tag at all times. All certificates obtained pursuant to this subsection shall be renewed annually for a fee of $85.00.

(d) (1) All certificates or renewals thereof required to be obtained under this section shall only be issued to persons 18 years of age or older who present satisfactory evidence:

a. Of the animal's current rabies vaccination, if applicable;

b. That the animal has been neutered or spayed;

c. That the animal is and will be confined in a proper enclosure or is and will be confined inside the owner's residence or is and will be muzzled and confined in the owner's fenced-in yard until the proper enclosure is constructed; and

d. That the owner has liability insurance coverage to the value of at least $100,000.00 that covers animal bites. However, the owner may obtain and maintain a bond in surety, in lieu of liability insurance, to the value of at least $100,000.00.

(2) In addition, any owner who applies for a certificate or renewal thereof under this section shall not be issued a certificate or renewal thereof unless the owner presents satisfactory evidence that:

a. The owner's residence is and will continue to be posted with clearly visible signs warning both minors and adults of the presence of a dangerous dog on the property; and

b. The animal has been permanently identified by means of electronic implantation.

(e) While on the property of its owner, an animal found by a court to be a dangerous dog shall be confined indoors or in a securely enclosed and locked structure of sufficient height and design to prevent its escape or direct contact with or entry by minors, adults, or other animals. While so confined within the structure, the animal shall be provided for according to Code of Virginia, § 3.2-6503. When off its owner's property, an animal found by a court to be a dangerous dog shall be kept on a leash and muzzled in such manner as not to cause injury to the animal or interfere with the animal's vision or respiration, but to prevent it from biting a person or another animal.

(f) If the owner of an animal found by a court to be a dangerous dog is a minor, the custodial parent or legal guardian shall be responsible for complying with all requirements of this section.

(g) After an animal has been found by a court to be a dangerous dog, the animal's owner shall immediately, upon learning of such finding, notify the animal control officer if the animal:

(1) Is loose or unconfined;

(2) Bites a person or attacks another animal; or

(3) Is sold, given away, or dies.

Any owner of a dangerous dog who relocates to a new address shall, within ten days of relocating, provide written notice to the appropriate local animal control authority for the old address from which the animal has moved and the new address to which the animal has been moved.

(h) The owner shall cause the local animal control officer to be promptly notified of:

(1) The names, addresses, and telephone numbers of all owners;

(2) All of the means necessary to locate the owner and the dog at any time;

(3) Any complaints or incidents of attack by the dog upon any person or cat or dog;

(4) Any claims made or lawsuits brought as a result of any attack;

(5) Chip identification or other electronic implantation information;

(6) Proof of insurance or surety bond; and

(7) The death of the dog.

(i) The owner of any animal which has been found by a court to be a dangerous dog who willfully fails to comply with the requirements of this section shall, upon conviction, be guilty of a Class 1 misdemeanor.

(j) Any owner or custodian of a dog or other animal is guilty of a:

(1) Class 2 misdemeanor if the dog previously declared a dangerous dog pursuant to this section, when such declaration arose out of a separate and distinct incident, attacks and injures or kills a cat or dog that is a companion animal belonging to another person;

(2) Class 1 misdemeanor if the dog previously declared a dangerous dog pursuant to this section, when such declaration arose out of a separate and distinct incident, bites a human being or attacks a human being causing bodily injury; or

(3) Class 1 misdemeanor if any owner or custodian whose willful act or omission in the care, control, or containment of a dog or other animal is so gross, wanton, and culpable as to show a reckless disregard for human life, and is the proximate cause of such dog or other animal attacking and causing serious bodily injury to any person.

(k) All fees collected pursuant to this section, less the costs incurred by the animal control officer in producing and distributing the certificates and tags required by this chapter, shall be paid into a special dedicated fund in the City treasury for the purpose of paying the expense of any training course required under Code of Virginia, § 3.2-6556.

Sec. 4-242. Vicious dogs.

(a) An animal control officer who has reason to believe that a canine or canine crossbreed within the City is a vicious dog shall apply to a magistrate serving the City for the issuance of a summons requiring the owner or custodian, if known, to appear before a General District Court at a specified time. The summons shall advise the owner of the nature of the proceeding and the matters at issue. The animal control officer shall confine the dog until such time as evidence shall be heard and a verdict rendered. The court, through its contempt powers, may compel the owner, custodian, or harborer of the animal to produce the animal. If, after hearing the evidence, the court finds that the animal is a vicious dog, the court shall order the animal euthanized in accordance with the provisions of Code of Virginia, § 3.2-6562. The court, upon finding the animal to be a vicious dog, may order the owner, custodian, or harborer thereof to pay restitution for actual damages to any person injured by the animal or to the estate of any person killed by the animal. The court, in its discretion, may also order the owner to pay all reasonable expenses incurred in caring and providing for such vicious dog from the time the animal is taken into custody until such time as the animal is disposed of. The procedure for appeal and trial shall be the same as provided by law for misdemeanors. Trial by jury shall be as provided in Code of Virginia, Title 19.2, Ch. 15, Art. 4 (Code of Virginia, § 19.2-260 et seq.). The City shall be required to prove its case beyond a reasonable doubt.

(b) No canine or canine crossbreed shall be found to be a vicious dog solely because it is a particular breed, nor is the ownership of a particular breed of dog prohibited. No animal shall be found to be a vicious dog if the threat, injury, or damage was sustained by a person who was:

(1) Committing, at the time, a crime upon the premises occupied by the animal's owner or custodian;

(2) Committing, at the time, a willful trespass upon the premises occupied by the animal's owner or custodian; or

(3) Provoking, tormenting, or physically abusing the animal, or can be shown to have repeatedly provoked, tormented, abused, or assaulted the animal at other times.

No police dog that was engaged in the performance of its duties as such at the time of the acts complained of shall be found to be a vicious dog. No animal that, at the time of the acts complained of, was responding to pain or injury or was protecting itself, its kennel, its offspring, a person, or its owner's or custodian's property, shall be found to be a vicious dog.

(c) Any owner or custodian of a canine or canine crossbreed or other animal whose willful act or omission in the care, control, or containment of a canine, canine crossbreed, or other animal is so gross, wanton, and culpable as to show a reckless disregard for human life and is the proximate cause of such dog or other animal attacking and causing serious injury to any person is guilty of a Class 1 misdemeanor. The provisions of this subsection shall not apply to any animal that, at the time of the acts complained of, was responding to pain or injury or was protecting itself, its kennel, its offspring, a person, or its owner's or custodian's property, or when the animal is a police dog that is engaged in the performance of its duties at the time of the attack.

The term "immediate control," for purposes of this section, means confinement of the dog by a fence, tether, or leash. (b) Every female dog and cat in heat shall be confined in a building or secure enclosure in such a manner that such female dog or cat cannot come into contact with a male dog or cat except for breeding planned by the owner.

(c) Any person owning or having within such person's possession or control any domestic, companion, wild, or exotic animal suspected of constituting a public nuisance may be proceeded against by warrant or summoned before the General District Court of the City to provide evidence why such domestic, companion, wild, or exotic animal should not be confined, euthanized, or removed or the public nuisance otherwise abated. The animal control officer or owner or custodian of the animal suspected of constituting a public nuisance shall confine the animal until such time as the court has made a final decision in the case. Upon proof that such domestic, companion, wild, or exotic animal constitutes a public nuisance, the domestic, companion, wild, or exotic animal shall, by order of the judge of the General District Court of the City, be confined, euthanized, or removed or the nuisance shall be otherwise abated, as such judge shall order. No person shall fail to comply with such an order.

In addition to any other penalties for a conviction of a violation of subsection (a) or (b) of this section, the owner of any dog or cat that has not been spayed or that has not been neutered and has been determined by the Director to have caused the violation may be ordered by the court to cause such dog or cat to be surgically sterilized within 60 days of said conviction. DIVISION 5. IMPOUNDMENT AND DISPOSITION*

***State law reference—**Animal shelters and impoundment, Code of Virginia, §§ 3.2-6545 et seq., 3.2-6564 et seq., 3.2-6574 et seq.

Sec. 4-275. Impoundment and violation notice; fee for board and care.

(a) Unrestrained dogs of unknown ownership shall be taken by the animal control officer and confined in a

humane manner, as shall dogs of known ownership the owners of which cannot be found at the time of apprehension of the unrestrained dog. In lieu of impounding a dog, if the owner is known and can be found when such unrestrained dog is taken into custody, the officer shall release such dog to its owner and shall then and there issue and serve upon the owner a summons to appear in court for violation of the restraint law. Such owner may, in lieu of appearing in court on the return date of such summons, within five working days of the date of receipt of the summons, pay a fine of $15.00 if such summons is for a first offense or a fine of $25.00 if it is for a second or subsequent offense.

(b) If by a license tag the owner of an impounded dog or cat can be identified, the animal control officer shall, immediately following impoundment, seek to notify the owner of the fact of impoundment by the best means reasonably available to that officer.

(c) An owner reclaiming an impounded dog or cat shall pay a fee of $25.00 plus $5.00 for each day or portion of a day the dog or cat has been impounded. Also, whenever a dog or cat is impounded and the owner reclaims the dog or cat, at the time the owner reclaims the dog or cat an officer shall then and there issue and serve upon such owner a summons to appear in court for violation of the restraint or license law. Such owner may, in lieu of appearing in court on the return date of such summons, within five working days of the date of receipt of the summons, pay a fine of $15.00 if such summons is for a first offense or a fine of $25.00 if it is for a second or subsequent offense.

(d) Any animal not reclaimed by its owner within five days shall be deemed the property of the City and shall be disposed of as provided by State laws or placed with a new owner, subject to Section 4-278 and State laws. The fee for the adoption of dogs, cats, puppies and kittens shall be $100.00.

(Code 1993, § 4-71; Code 2004, § 10-201; Code 2015, § 4-275; Ord. No. 2012-109-127, § 1, 7-23-2012)

Sec. 4-276. Impoundment of unlicensed dogs and cats generally.

Any person may make complaint to the Department of a person having, keeping or maintaining any unlicensed dog or cat. It shall be the duty of the animal control officer to immediately investigate the complaint. If the complaint is verified, the dog or cat may be apprehended and impounded and shall thereafter be disposed of in the same manner as an unrestrained dog which has been impounded.

(Code 1993, § 4-72; Code 2004, § 10-202; Code 2015, § 4-276; Ord. No. 2008-28-48, § 2, 3-10-2008; Ord. No. 2010-21-67, § 2, 4-26-2010)

Sec. 4-277. Disposition of unlicensed dogs and cats found at large.

It shall be the duty of the animal control officer or any other officer to capture for proper disposition any dog or cat of unknown ownership found running at large on which a license required by Chapter 26, Article XIII, has not been paid. However, the animal control officer or other officer may deliver such dog or cat to any person in the City who will pay the required license tax on such dog or cat, with the understanding that, should the legal owner thereafter claim the dog or cat and prove ownership, the legal owner may recover such dog or cat by paying to the person to whom it was delivered by the animal control officer the amount of the license tax paid and a reasonable charge for the keeping of the dog or cat while in such person's possession. Any person, animal control officer or other officer euthanizing a dog or cat under this article shall cremate, bury or sanitarily dispose of the dog or cat; provided, however, that, prior to disposition by euthanasia or otherwise, all the applicable requirements under State law and under this chapter have been satisfied. Upon request by an owner, the City animal shelter will euthanize an animal for a fee comparably charged by the Richmond Society for the Prevention of Cruelty to Animals.

(Code 1993, § 4-73; Code 2004, § 10-203; Code 2015, § 4-277)

Sec. 4-278. Conditions for release from animal shelter; conditions for adoption.

(a) In order for a dog or cat to be released from the City animal shelter, the following conditions must be met:

(1) If the dog or cat is being released to its current owner, the owner must:

a. Have the dog or cat initially vaccinated against rabies or revaccinated as scheduled or produce a valid vaccination tag or certificate.

b. Purchase a City license or produce a valid City license tag or certificate.

c. Purchase a valid breeding permit or produce proof of sterilization.

(2) If the dog or cat is being released to a new owner for adoption, the new owner must:

a. Have the dog or cat initially vaccinated against rabies or revaccinated as scheduled, unless there is evidence making such vaccination unnecessary; and

b. Purchase a City license if the dog or cat is unlicensed.

(3) If the dog or cat is being transferred to a Humane Society, animal welfare society, or other nonprofit organization devoted to the welfare, protection and humane treatment of animals, such receiving organization must:

a. Have the dog or cat initially vaccinated against rabies or revaccinated as scheduled, unless there is evidence making such vaccination unnecessary.

b. Sign an agreement to either have the dog or cat sterilized by a licensed veterinarian within 30 days after the transfer if the dog or cat is sexually mature, or have the dog or cat sterilized within 30 days after the dog or cat reaches six months of age if the dog or cat is not sexually mature at the time of the transfer. In extreme cases where the life or health of the dog or cat may be jeopardized or endangered by sterilization, the licensed veterinarian may request from the Director an extension of the date by which the dog or cat must be sterilized.

c. Provide the City animal shelter with a copy of the rabies vaccination certificate within seven days after the release of the dog or cat.

d. Provide the City animal shelter with written confirmation of sterilization signed by a licensed veterinarian to include the dog's or cat's shelter identification number, a description of the dog or cat, and the date of sterilization.

e. Maintain records of all the dogs or cats transferred.

If a copy of the rabies vaccination certificate is not provided to the City animal shelter by the transferring organization within seven days of the release of the dog or cat, the transferring organization will be charged a civil penalty in the amount of $50.00. If written confirmation signed by the licensed veterinarian certifying the sterilization is not provided to the City animal shelter within seven days after the expiration of the time specified in the transfer agreement, the transferring organization will be charged a civil penalty in the amount of $50.00 for failure to confirm the sterilization of the dog or cat as required. The failure to provide verification of vaccination and sterilization within specified time periods shall result in a suspension of transferring privileges until such time as the Division of Animal Control receives the required verifications in the format detailed in subsections (a)(3)c and d of this section. Two or more violations of this subsection (a)(3) may result in termination of transferring privileges. The Director shall have full authority to terminate and reinstate transferring privileges.

(b) If a copy of the vaccination certificate is not provided to the City by the owner, or new owner in the case of an adoption, within seven days after the release of the dog or cat, such owner or new owner will be charged a civil penalty in the amount of $50.00 for failure to have the dog or cat vaccinated against rabies. If written confirmation signed by the licensed veterinarian certifying the sterilization of the dog or cat is not provided to the City within seven days after the expiration of the time specified in the sterilization agreement, the new owner will be charged a civil penalty in the amount of $50.00 for failure to confirm the sterilization of the dog or cat as required. The written confirmation shall:

(1) Briefly describe the dog or cat;

(2) Include the new owner's name and address;

(3) Certify that the sterilization was performed; and

(4) Specify the date of the procedure.

(c) If an adopted dog or cat is lost, stolen or dies before being sterilized and prior to the date by which the dog or cat is required to be sterilized, the new owner shall notify the City of the dog's or cat's disappearance or death within seven days of the dog's or cat's disappearance or death. Failure to notify the City of the disappearance or

death of the dog or cat prior to its required sterilization will result in a civil penalty of $25.00 to the new owner.

(d) Payment of a civil penalty for failure to have a dog or cat vaccinated against rabies or sterilized does not relieve the owner, or new owner in the case of an adoption, of the responsibility to have the dog or cat vaccinated against rabies or sterilized. The conditions and stipulations required in this section for the release of dogs or cats are in addition to the impound-related charges for dogs or cats at the City animal shelter. An adoption fee is also charged if the dog or cat is being adopted from the City animal shelter.

(b) No person shall own, harbor or keep an unspayed or unneutered dog or cat in the City that is over the age of four months without obtaining a breeding permit as provided in this section.

(c) Each breeding permit shall be valid for one year from the date of issuance and may be renewed annually before its expiration date. Each applicant for such a permit shall pay an annual fee of $100.00 per dog or cat. A separate permit must be obtained for each owned dog or cat which is allowed to breed.

(d) The Division of Animal Control shall administer an animal breeding permit program to allow the breeding of dogs and cats that are not sterilized consistent with criteria and according to procedures established by the Director. Under no circumstances shall such a permit be issued to a person who has been convicted of animal cruelty or neglect. In addition to the criteria and procedures established by the Director pursuant to this subsection, all breeding permits shall contain the following terms and conditions:

(1) The owner of a female dog or cat that is not sterilized shall not allow the whelping of more than one litter per animal in any household within the permit year. Notwithstanding this requirement, the Director is hereby authorized, upon application of a permittee, to allow on a one-time basis the whelping of up to two dog or cat litters per breeding animal within any domestic household within a permit year, if the permittee establishes, according to regulations promulgated by the Director, that such breeding is required to protect the health of the animal or to avert a substantial economic loss to the permittee. If a permittee is forced to euthanize a litter of dogs or cats for medical reasons, the Director may authorize the whelping of one additional litter of dogs or cats within the same permit year by the permittee without penalty;

(2) No offspring may be sold, adopted, bartered, or otherwise transferred, whether for compensation or otherwise, until it has reached the age of at least seven weeks;

(3) No offspring may be sold, adopted, bartered or otherwise transferred until immunized against common diseases. The sale, adoption, bartering or transfer of a dog or cat shall include a statement signed by the seller or adopter attesting to the signatory's knowledge of the animal's health and the animal's immunization history;

(4) Any holder of a breeding permit who advertises to the public the availability of any dog or cat for sale, adoption, or transfer, whether for compensation or otherwise, must prominently display the permit number in any such advertisement. Further, the breeding permit holder must provide the permit number to any person who purchases, adopts or receives any animal from the permit holder and include the permit number on any receipt of sale or transfer document;

(5) Commercial establishments that sell dogs or cats bred within the City shall prominently display the breeding permit number of the breeder whose dogs and cats are sold in such establishments and any other pertinent information required by the Director. Commercial establishments that sell dogs and cats which were not bred within the City shall prominently display the name and address of the breeder of such dogs and cats and any other pertinent information required by the Director;

(6) Any breeding permit holder selling or otherwise transferring a dog or a cat, whether for compensation or otherwise, shall submit to the Department the name, address and telephone number of the animal's new owner within five days from the sale or other transfer, on a City-approved form; and

(7) Any breeding permit holder or commercial establishment which sells or otherwise transfers a dog or cat, whether for compensation or otherwise, shall provide to the new animal owner the City application for a license and breeder's permit as well as written information regarding the license and permit requirements of the City applicable to such animal.

(a) Any cat or dog owner found by the Department to be in violation of the breeding permit requirements of Section 4-307 may correct the violation by providing conclusive proof to the Department that the dog or cat has been sterilized; by authorizing the Department to have the animal sterilized, at the owner's expense, prior to the animal's release; or by obtaining a breeding permit as required by Section 4-307 prior to the animal's release. If the owner fails to correct the violation as provided in this subsection, the Department shall impose a civil penalty of $150.00 on such dog or cat owner. Notice of this penalty shall be served by the Department on the dog or cat owner in person or via certified letter. This penalty shall not be waived by the Department upon the transfer or abandonment of the animal by the noncompliant owner.

Sec. 6-153. Advertising former or comparative price of merchandise.

(a) *Definitions.* In addition to the definitions listed in Code of Virginia, § 59.1-198, as used in this section, the following terms shall have the following meanings:

Former price or *comparison price* means the direct or indirect comparison in any advertisement, whether or not expressed wholly or in part in dollars, cents, fractions, or percentages, and whether or not such price is actually stated in the advertisement.

Substantial sales means a substantial aggregate volume of sales of identical or comparable goods or services at or above the advertised comparison price in the supplier's trade area.

(b) *Advertising former price of goods or services.* No supplier shall in any manner knowingly advertise a former price of any goods or services unless:

(1) Such former price is the price at or above which substantial sales were made in the recent regular course of business;

(2) Such former price was the price at which such goods or services or goods or services of substantially the same kind, quality, or quantity and with substantially the same service were openly and actively offered for sale for a reasonably substantial period of time in the recent regular course of business honestly, in good faith and not for the purpose of establishing a fictitious higher price on which a deceptive comparison might be based;

(3) Such former price is based on a markup that does not exceed the supplier's cost plus the usual and customary markup used by the supplier in the actual sale of such goods or services or goods or services of substantially the same kind, quality, or quantity and with substantially the same service, in the recent regular course of business; or

(4) The date on which substantial sales were made, or the goods or services were openly and actively offered for sale for a reasonably substantial period of time at the former price is advertised in a clear and conspicuous manner.

(c) *Advertising comparison price of goods or services.* No supplier shall in any manner knowingly advertise a comparison price which is based on another supplier's price unless:

(1) The supplier can substantiate that the comparison price is the price offered for sale by another supplier in the regular course of business for goods or services of substantially the same kind and quality, and with substantially the same service in the defined trade area;

(2) The trade area to which the advertisement refers is clearly defined and disclosed; and

(3) A clear and conspicuous disclosure is made in the advertisement that the price used as a basis of comparison is another supplier's price, and not the supplier's own price.

(d) *Use of certain terms in advertising former or comparison prices.*

(1) No supplier shall advertise a former or comparison price in terms of "market value," "valued at" or words of similar import unless such price is the price at which the goods or services, or goods or services of substantially the same kind, quality or quantity, are offered for sale by a reasonable number of suppliers in the supplier's trade area.

(2) A supplier may advertise a former or comparison price in terms of "manufacturer's suggested price," "suggested retail price," "list price," or words of similar import, provided that, with regard to such advertising, the use of the former or comparison price complies with 15 USC 45(a)(1) and the regulations of the Federal Trade Commission adopted thereunder.

(e) *Enforcement; penalty.* It shall be the responsibility of any supplier who uses a comparison price to be able to substantiate the basis for any price comparisons made by the supplier. Upon the request of the City Attorney, a supplier shall provide documentation to substantiate the basis for any comparison price utilized by the supplier in any advertisement governed by this section. No provision of this section shall be construed to apply to any supplier whose advertising practices are governed by Code of Virginia, § 46.2-1581. Willful violations of this section are subject to a civil penalty of not more than $2,500.00 per violation.

commodity or thing uses the word "wholesale" or "wholesaler" to represent or describe the nature of such person's business shall, upon conviction, be guilty of a Class 1 misdemeanor, unless such person is actually engaged in selling at wholesale the merchandise, goods, commodity or thing advertised or offered for sale.

ARTICLE I. IN GENERAL

Sec. 8-1. Report and recommendations on acquisition of real estate.

The Chief Administrative Officer shall prepare and submit to the Mayor and the City Council a report of all of the transactions relating to the acquisition of real estate by the City during the six months preceding January 1 and July 1 of each year.

(Code 1993, § 8-1; Code 2004, § 26-1; Code 2015, § 8-1; Ord. No. 2004-360-330, § 1, 12-13-2004; Ord. No. 2005-282-270, § 3, 12-12-2005)

Sec. 8-2. Authority of Chief Administrative Officer to lease real estate; terms and conditions of lease.

(a) No City-owned real estate shall be leased, whether at-will or otherwise, for a period of longer than 90 calendar days unless the terms of such lease have first been approved by an ordinance adopted by the Council. The Mayor may introduce an ordinance to direct the Chief Administrative Officer to execute such a lease for specific City-owned real estate. The Chief Administrative Officer is hereby authorized to lease, for a period of no longer than 90 calendar days, real estate owned by the City or any part thereof not devoted to and not immediately needed for public use, upon the following terms and conditions:

(1) The tenants shall pay rent to the City for the use and occupancy of each parcel at an annual rate commensurate with the fair rental value of the parcel or otherwise as determined by the Chief Administrative Officer, which shall be due and payable monthly in advance.

(2) The tenants shall have exclusive possession of the real estate, except that the Chief Administrative Officer, or a designee thereof, shall have the right to enter such real estate at any time for the inspection thereof or for making such repairs to or alterations of any buildings or structures on the real estate, as the Chief Administrative Officer may deem advisable. However, the City shall not be obligated to maintain, repair or replace any building or structure or any fixture, equipment or facility which may be on or used in connection with the use of the real estate or any part thereof.

(3) The tenants shall maintain the real estate in good order and state of repair and shall make such repairs thereto as shall from time to time be required by the Chief Administrative Officer or an authorized representative.

(4) The tenants shall provide at their cost and expense all services required for their use and occupancy of the real estate, and the City shall not be obligated to provide for such services. However, where a single parcel of real estate is being leased to two or more tenants and such real estate has only one water, gas or electric meter or only one heating system, the Chief Administrative Officer is authorized to pay for the services where there is only one water, gas or electric meter or only one heating system and then to

prorate the costs of the services between the tenants involved and add the net costs of the services to the fair rental value of the parcel as determined by the Chief Administrative Officer under subsection (a)(1) of this section.

(5) The tenants shall remove all of their property from the real estate, including that attached to the freehold, upon the termination of the lease. Upon the tenants' failure, refusal or neglect to do so, the Chief Administrative Officer, or a designee thereof, may remove such property from the real estate at the cost and expense of the tenants, without liability to the tenants for damages that may directly or indirectly result therefrom, or may allow such property to remain on the real estate, and fee simple title to the property shall vest in the City.

(6) The tenants shall not transfer or assign the lease nor sublet the real estate or any part thereof without the approval of the Chief Administrative Officer.

(7) The tenants shall surrender possession of the real estate to the City upon termination of the lease and shall leave the premises in the same or as good condition as when entered upon, damage beyond the control of the tenants and reasonable wear and tear excepted.

(8) The tenants shall indemnify, keep and hold the City free and harmless from liability on account of injury or damage to themselves and others in person or property growing out of the making of the lease and their use and occupancy of the real estate. If suit shall be brought against the City, either independently or jointly with the tenants on account thereof, the tenants will defend the City in any such suit; if a final judgment is obtained against the City, either independently or jointly with the tenants, the tenants will pay such judgments with all costs and hold the City harmless therefrom.

(9) The tenants shall waive the benefit of the homestead exemption laws of the State as to all obligations created under the lease and shall agree to pay all expenses incurred in collecting the obligations, including 20 percent attorney's fees if the obligations shall not be paid when due.

(10) The use and occupancy of the premises by the tenants shall be at the will of either of the parties to the lease and may be terminated by the Chief Administrative Officer or an authorized representative or by the tenants at any time upon due notice. Upon the termination of the lease by the City, the tenants shall be refunded the rent paid for the remainder of the month from the day such termination becomes effective.

(11) Whenever any building or structure which is a part of the real estate is rendered untenable by reason of force majeure, the lease shall terminate.

(b) For each lease entered into pursuant to the provisions of subsection (a) of this section for which the terms of such lease have not first been approved by an ordinance adopted by the Council, the following conditions shall apply:

(1) Within five working days after the execution by the Chief Administrative Officer of such a lease, the Chief Administrative Officer shall cause a complete copy of such executed lease to be delivered to each member of the council, which delivery may be by electronic means.

(2) No such lease shall be extended for a total of more than 30 additional calendar days until the Council has adopted a resolution approving the extension, which resolution must contain the location of the leased premises, the name of the tenant, the original duration of the lease, the duration of the extension, and the amount of rent.

(3) Once such a lease has terminated, the tenant shall not be deemed to hold over, and no lease for the same premises to the same tenant may have a term commencing less than 90 calendar days after such termination unless the terms of such lease have first been approved by an ordinance adopted by the Council.

(4) Whenever the Council determines that real estate leased by the Chief Administrative Officer pursuant to subsection (a) of this section where the terms of such lease have not first been approved by an ordinance adopted by the Council or real estate leased pursuant to an at-will lease is needed for public use, the Chief Administrative Officer shall cause such lease to be terminated and the real estate devoted to that

public use for which the council has determined it is needed. The Council's determination shall be expressed by the adoption of a resolution.

(c) Notwithstanding any other provision of law to the contrary, Bandy Field Park, Lewis G. Larus Park, Crooked Branch Ravine Park and City-owned real estate that has been designated as part of the James River Park System shall not be leased for any purpose that would result in or involve any development of any part of these public parklands.

The petition must bear the signatures of the owners of at least 51 percent of the lots, tracts, or parcels of property (excluding Federal, State, public utilities and municipal lands), which abut the street to be renamed. The percentage of owners shall be expressed in terms of both number of properties and land area.

(5) The City Council, upon receipt of the staff report, shall conduct a public hearing to review recommendations, suggestions and obtain public comments from affected parties prior to any final action on a naming resolution.

(6) The City Council may, at its sole discretion, approve or disapprove any and all proposals for naming or renaming a City facility.

(7) The Chief Administrative Officer shall notify those who requested the name or name change as well as appropriate offices, departments and agencies of the Council's action on a proposed resolution. (Code 2004, § 26-78; Code 2015, § 8-57; Ord. No. 2005-282-270, § 2, 12-12-2005)

Sec. 8-58. Disposition of unsolicited offer.

(a) *Receipt of offer*. The Chief Administrative Officer shall prepare policies and procedures, and from time to time, as necessary, any modifications thereto, for the submission of unsolicited offers to purchase City-owned real estate in accordance with this article. The Chief Administrative Officer shall publish such policies and procedures, and any modifications thereto, on the City's website. If an unsolicited offer is made to purchase City-owned real estate in compliance with the policies and procedures published by the Chief Administrative Officer in accordance with this section, the Chief Administrative Officer shall immediately bring such offer to the attention of the Mayor and the members of the Council.

(b) *Requiring deposit from offeror*. Upon the introduction of an ordinance to direct the sale of real estate to an offeror, the Chief Administrative Officer shall require a deposit from the offeror in accordance with Section 8-59 and shall require the offeror to execute a purchase agreement.

(c) *Council action on offer*. No ordinance to direct the sale of real estate to an offeror who has submitted an unsolicited offer may be introduced until the Council has adopted a resolution declaring such real estate to be surplus as described in Section 8-60. The Council shall not act upon an unsolicited offer in accordance with Section 8-65 and other applicable provisions of this article until the Chief Administrative Officer first has proceeded in accordance with either Section 8-61 or Sections 8-62 and 8-63.

Sec. 8-59. Deposit.

No ordinance directing the sale of City-owned real estate to a purchaser pursuant to any offer, bid or proposal under this article shall be adopted unless and until the purchaser has furnished the Chief Administrative Officer with a deposit in the form of a certified or cashier's check in an amount equal to ten percent of the proposed purchase price or $100.00, whichever is greater, at the time such offer, bid or proposal is made. The proceeds of the certified or cashier's check shall be applied to the purchase price of the City-owned real estate if the Council accepts the offer, bid or proposal. The City may retain the proceeds of the check if the offer, bid or proposal is withdrawn before the evaluation of bids or proposals or the final action of the Council on the ordinance to direct the sale of the real estate to the purchaser. However, the City shall not forfeit or waive any other remedies or rights the City may have otherwise by retaining the proceeds of the check. At the time the Council either accepts an offer, bid or proposal or rejects all offers, bids or proposals, the check submitted by each unsuccessful offeror, bidder or proposer shall be returned to that offeror, bidder or proposer.

(Code 2004, § 26-80; Code 2015, § 8-59; Ord. No. 2005-282-270, § 2, 12-12-2005)

No offer, bid or proposal for the purchase of City-owned real estate shall be sought by solicitation, whether by invitation for bids or request for proposals, or auction unless and until the Council shall first have adopted a resolution declaring such real estate to be surplus real estate and authorizing the seeking of offers, bids or proposals therefor by solicitation or auction.

(Code 2004, § 26-81; Code 2015, § 8-60; Ord. No. 2005-282-270, § 2, 12-12-2005)

Sec. 8-61. Solicitation of offers by invitation for bids.

(a) *Invitation for bids.* If the Council, or the Chief Administrative Officer when authorized by resolution of the Council or upon receipt of an unsolicited offer to purchase City-owned real estate, determines that it is in the best interests of the City to sell surplus real estate with regard to price only, the Chief Administrative Officer shall invite bids for such real estate. All invitations for bids shall:

(c) *Acceptance or rejection of bids.* Once the date and hour for the receipt of bids has passed and the bids have been evaluated, the Mayor may introduce an ordinance directing the sale of the real estate to the bidder whose bid complies with the conditions of this section and offers the highest price for the City-owned real estate. No other criteria shall be considered in evaluating bids solicited under this section. In the alternative, the Mayor may introduce a resolution rejecting all of the bids received.

(Code 2004, § 26-82; Code 2015, § 8-61; Ord. No. 2005-282-270, § 2, 12-12-2005; Ord. No. 2017-069, § 1, 11-13-2017)

Sec. 8-62. Solicitation of offers by request for proposals—Generally.

(a) *Request for proposals.* If the Council, or the Chief Administrative Officer when authorized by resolution of the Council or upon receipt of an unsolicited offer to purchase City-owned real estate, determines that it is in the best interests of the City to sell surplus real estate with regard to factors other than price, but which may include price, the Chief Administrative Officer shall request proposals for the real estate. All requests for proposals shall:

(1) Be expressly conditioned on Council approval of the sale of the real estate to the successful proposer in accordance with Section 8-65;

(2) Set forth in detail the specific evaluation factors upon which the proposals received pursuant to that request will be evaluated;

(3) Require that each proposal be received by the Chief Administrative Officer no later than a specifically stated date and hour;

(4) Require that each proposal be accompanied by a deposit in accordance with Section 8-59;

(1) The proposed use of the real estate;

(2) The financial ability of the proposer to provide for the proposed use of the real estate;

(3) The past experience of the proposer in the development and use of properties for uses similar to the proposed use;

(4) The effect of the proposed use of the real estate on other properties;

(5) The compatibility of the proposed use of the real estate with the City's master plan;

(6) The price the proposer offers to pay for the real estate; and

(7) Such other evaluation factors as the Land Use, Housing and Transportation Standing Committee of the Council or its successor Committee may deem appropriate and as the Chief Administrative Officer may deem appropriate when evaluation factors deemed appropriate by the Chief Administrative Officer do not conflict with evaluation factors deemed appropriate by the Land Use, Housing and Transportation Standing Committee of the Council or its successor committee.

(b) *Evaluation process.* The Chief Administrative Officer shall evaluate all proposals based solely upon all of the specific criteria enumerated in the request for proposals. The Chief Administrative Officer shall complete this evaluation within a reasonable period of time following receipt of all of the proposals and report the results of his evaluation both to the Mayor and to the Council at the same time.

(c) *Acceptance or rejection of proposals.* Once the date and hour for the receipt of proposals has passed and the proposals have been evaluated, the Mayor may introduce an ordinance directing the sale of the real estate to the proposer whose proposal complies with the conditions set forth in Section 8-62 and is determined based on the evaluation factors stated in the request for proposals to be in the best interests of the City. In the alternative, the Mayor may introduce a resolution rejecting all of the proposals received.

The Chief Administrative Officer shall ensure that notice of such public auction is given by:

(1) Publication on the City's website; and

(2) Such other means as to provide reasonable notice of the public auction to the maximum number of persons that can be reasonably anticipated to participate in such public auction.

(Code 2004, § 26-85; Code 2015, § 8-64; Ord. No. 2005-282-270, § 2, 12-12-2005)

If a final judgment or decree is obtained against the City, either independently or jointly with the concessionaire, the concessionaire shall pay such judgment or comply with such decree with all costs and expenses of whatever nature and hold the City harmless therefrom.

(14) The concessionaire shall insure its liability under subsection (a)(13) of this section and its liability for injury or death or damage to or loss of property in connection with the operation of the concession, the sale or offering for sale of commodities and the use of City property for such purposes in an amount of not less than $1,000,000.00 to cover the injury to or death of one person in any one occurrence and not less than $1,000,000.00 to cover the injury or death of more than one person in any one occurrence, together with property damage of not less than $1,000,000.00. The bond shall be approved as to form by the City Attorney. The concessionaire shall pay the cost of such bond, which bond shall be kept in full force and effect during the permit term, and the bond shall contain a provision that it shall not be permitted to terminate nor expire during the permit term and that it shall not be canceled during the permit term without 90 days' prior notice in writing furnished to the Director and to the City Attorney.

(c) Before issuing any permit under this section, the Director shall, whenever practicable, give opportunity for competitive bidding. The issuance of the permit, whenever practicable, shall be based on competitive bids, which may be informal, after public notice thereof given by publication of the notice in a daily newspaper of general circulation published in the City at least once or by posting the notice on a bulletin board in the Department of Parks, Recreation and Community Facilities from the time bids are invited until they are opened or by mail or any other means as in the opinion of the Director is desirable in the public interest. The Director shall have the authority to reject any or all bids, to readvertise for bids, or to issue the permit to any concessionaire who is ready, willing and able to provide the service in accordance with the terms and conditions of this section. Whenever a permit is issued upon competitive bids, it shall be granted to the highest and most responsible bidder. The Director, whenever it is in the public interest to do so, may issue permits without resort to competitive bidding and without the payment

of any fee or charge for the sale of merchandise by athletic leagues or athletic associations at playgrounds equipped for playing sports and for the sale of merchandise by civic associations on special occasions and by civic clubs, associations or organizations. In issuing permits to athletic leagues and associations, civic associations and civic clubs, associations or organizations, the Director may waive the furnishing of indemnity and insurance provided for in subsections (a)(13) and (a)(14) of this section.

Sec. 8-275. Concession for commercial inflatable craft tours.

(a) The Director of Parks, Recreation and Community Facilities shall have the power to grant concessions for the operation of commercial inflatable craft tours from designated areas of the James River Park.

(b) Before any such concession is granted, the Director shall give opportunity for competitive bidding therefor and shall grant the concession to the best qualified responsible bidder. However, the Director shall have the power to reject any or all bids and to order new bidding or to grant the concession to any person, whether a former bidder or not, without further bidding and, if no bids are received, to grant the concession to any person who can and will operate the concession in an efficient manner and in accordance with the terms and conditions of this section. The Director shall adopt rules and regulations for the operation of the concession.

(c) Each concession granted by the Director of Parks, Recreation and Community Facilities under this section shall be upon the following terms and conditions:

(1) The concessionaire shall pay to the City on an annual basis all rental income and all guarantees or percentages due. These payments shall be due, with a detailed report of such income, on or before the 30th calendar day following the end of each lease year. Instructions given in canoe and kayak handling shall be allowed, and no fee shall be paid to the City for this service.

(2) The concessionaire shall operate the concession in an efficient manner for the convenience and safety of the public and in accordance with such rules and regulations as are prescribed by the Director of Parks, Recreation and Community Facilities.

(3) The concessionaire will provide all of the equipment necessary and required by the Director for the efficient operation of the concession.

(4) The concessionaire will pay all license taxes assessed or assessable for the operation of the concession.

(5) Every person, whether a concessionaire or the agent or employee of a concessionaire, actually engaged in the operation of the concession will provide the Director with sufficient proof as may be required at any time of such person's fitness in terms of qualifications and experience to operate the concession. Whenever it appears to the Director that such person is unfit to do so, if such person is the concessionaire, the permit shall be revoked upon notice to that effect given the concessionaire by the Director; if the person is the agent or employee of the concessionaire, such person's services shall be dispensed with upon notice to that effect given the concessionaire by the Director.

(6) The permit issued shall be valid for a period not to exceed four years ten months and shall be consistent with City procurement laws, rules and regulations. However, it may be terminated by either the Director or the concessionaire at any time upon either the Director's giving to the concessionaire or the concessionaire's giving to the Director written notice of intention to terminate such permit and giving the reason therefor. The operation of the concession shall be unlawful and shall constitute a violation of this section after the termination date of such permit.

(7) The concessionaire shall indemnify, keep and hold the City free and harmless from liability on account of injury, damage or loss to persons and property growing out of or directly or indirectly resulting from the grant of the concession for commercial inflatable craft tours and the use of the City property for such purposes. If any suit or proceeding shall be brought against the City, at law or in equity, either independently or jointly with the City on account thereof, the concessionaire shall defend the City in any such suit or proceeding at the cost of the concessionaire. If a final judgment or decree is obtained against the City, either independently or jointly with the concessionaire, the concessionaire shall pay such judgment or comply with such decree with all costs and expenses of whatever nature and hold the City

harmless therefrom.

(8) The concessionaire shall insure its liability under subsection (c)(7) of this section and its liability for injury or death or damage to or loss of property in connection with the operation of the concession for commercial inflatable craft tours and the use of City property for such purposes by an insurance contract issued by an insurance company which has agreed to subject itself to the jurisdiction of the Circuit Court of the City, covering bodily injury and property damage combined in an amount of not less than $1,000,000.00 for each occurrence with an aggregate of $1,000,000.00. A deductible clause of not more than $500.00 will be permitted. The City shall be named as an additional insured under the insurance contract. Premiums chargeable for the insurance shall be paid by the concessionaire, and it shall be kept in full force and effect for the term or duration of the concession. It shall contain a provision that it shall not be canceled or terminated or otherwise allowed to expire prior to 30 days' notice in writing to that effect given to the Director. The insurance contract shall be approved by the City Attorney. The permit issued shall automatically terminate at any time the aggregate of $1,000,000.00 shall be reduced by claims to not less than $500,000.00. Further, failure by the concessionaire to obtain the bodily injury and property damage liability insurance required by this subsection or to fail to maintain such insurance coverages at all times during the full term of the concession shall cause the permit for such concession to automatically terminate, and all rights of the concessionaire under the permit shall come to an end in the absence of or upon expiration or termination of any of the required coverages without further notice from the City. Any further use of the designated areas of James River Park for the purpose of conducting commercial inflatable craft tours and canoe and kayak handling will be unauthorized.

The bond shall be approved as to form by the City Attorney. The concessionaire shall pay the cost of such bond, which bond shall be kept in full force and effect during the permit term. The bond shall contain a provision that it shall not be permitted to terminate or expire during the permit term and that it shall not be canceled during the permit term without 90 days' prior notice in writing furnished to the Director and to the City Attorney. Failure to keep in force the required insurance or surety bond, or both, shall constitute a default of the contract and shall result in termination upon notice of such failure.

(10) It shall be unlawful and shall constitute a violation of this section for any concessionaire to fail, refuse or neglect to comply in all respects with the terms and conditions of this section or rule or regulation promulgated pursuant to this section. Upon such violation, the concessionaire shall be subject to a fine of not less than $50.00 nor more than $150.00. The alarm user shall immediately notify the alarm company of any changes in the names, addresses or telephone numbers of the persons to be notified for such deactivation.

Sec. 10-54. Administrative appeal process.

(a) An alarm user who believes that a false alarm charge or other enforcement decision set out in Section 10-53 has been wrongfully assessed against such person may appeal such assessment by submitting a letter to the alarm administrator within ten days of receiving the invoice for the false alarm charge. The letter shall contain the alarm user's name filing the appeal, alarm permit number, complete address and telephone number; the reasons for disputing the false alarm charge or other enforcement decision; and any other written evidence which might justify a change in the assessment. The submission of the letter will toll the 30-day time period for payment of a false alarm charge until a decision has been rendered by the alarm administrator. The alarm administrator shall render a decision or schedule a hearing with the appealing party within ten business days of receipt of the appeal request, unless an extension has been agreed upon by both parties.

(b) If necessary, the alarm administrator may schedule a hearing with the person making the appeal to obtain additional information related to the appeal. At such hearing, there shall be no formal rules of procedure, and the alarm administrator shall not have the power to compel the attendance of witnesses or the production of other evidence.

(c) After obtaining all necessary information, the alarm administrator shall determine, by a preponderance of the evidence, whether the sections of this article have been applied fairly and impartially. In accordance with subsection (d) of this section, the alarm administrator may reduce or waive all or any portion of a false alarm charge and reverse any other enforcement decision under Section 10-53.

(d) The alarm administrator may consider the following factors in reaching a determination on the appropriateness of an assessed false alarm charge or other enforcement decision:

(1) Evidence of attempts by the person against whom the false alarm charge is assessed to eliminate the cause of false alarms such as:

a. Installation of new equipment.

b. Replacement of defective equipment.

c. Inspection and repair of the system by an alarm system technician.

d. Specific formal training of alarm users.

(2) Evidence that the false alarm was caused by unusually severe weather conditions or other causes which are identified and determined by the alarm administrator, after consultation with the Chief of Police, as applicable, to be beyond the control of the owner or the user of the alarm system.

(3) Evidence that the false alarm was caused by the disruption of telephone or electrical circuits beyond the control of the alarm user or the user's monitoring company and the cause of such disruption has been corrected.

(4) Evidence that the alarm system which caused the false alarm has been disconnected and removed from the protected premises.

(5) Evidence that the payment of the assessed false alarm charge will create a financial hardship on the person against whom it is assessed.

(e) Nothing in this section shall be interpreted to require the waiver or rescission of a false alarm charge or the reversal of any other enforcement decision in appeals which meet any or all of the factors in subsection (d) of this section.

(Code 2015, § 10-54; Ord. No. 2016-049, § 2, 5-13-2016)

Sec. 10-55. Governmental immunity.

An alarm permit is neither intended to nor will create a contract, duty or obligation, either expressed or implied, of response by the City. Any and all liability and consequential damage resulting from the failure to respond to a notification is hereby disclaimed and governmental immunity as provided by law is retained. By applying for an alarm permit, the alarm user acknowledges that a response by the Department of Police may be influenced by factors such as the availability of police units, priority of calls, weather conditions, traffic conditions, emergency conditions, staffing levels and prior response history.

ARTICLE IV. EMERGENCY MEDICAL SERVICES*

***State law reference—**Statewide emergency medical systems and services, Code of Virginia, § 21.1-111.1 et seq.

Sec. 10-78. Operation of vehicles not holding City franchise or permit.

(a) The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Emergency medical services vehicle means any privately or publicly owned vehicle, vessel or aircraft that is specially designed, constructed, or modified and equipped and is intended to be used for and is maintained or operated to provide immediate medical care to or to transport in a reclining position or on a stretcher or gurney persons who are sick, injured, wounded or otherwise incapacitated or helpless. However, the term shall not mean any vehicle used as a taxicab or any vehicle used to transport persons who are permanently disabled but not acutely ill or persons who use a wheelchair.

(b) It shall be unlawful for any person to transport a patient in an emergency medical services vehicle without holding a City franchise or permit. Any volunteer rescue squad in established operation in the City as of January 1, 1990, shall be deemed to have a permit for operation, subject to such public health, safety, and general welfare requirements as the City may impose under this article. This section shall not apply to the following:

(1) Any transport of patients originating outside the City and terminating in the City;

(2) Any volunteer rescue squad established in any county, city or town pursuant to Code of Virginia, § 15.2-955 while making a nonemergency transport from a medical facility located within the City to a location outside of the City;

(3) Any ambulance transport originating within the City and terminating at a location beyond the Richmond-Petersburg Metropolitan Statistical Area;

(4) Any transport that results from the rendering of assistance at the request of the centralized EMS dispatch center in a disaster or major emergency or in response to the request by the EMS dispatch center for mutual aid; and

(5) Any transport of patients who are being returned to the point of origination outside the City, provided that such a return transport occurs within 24 hours of the initial transport into the City. Any ambulance firm that makes such return transports back to the point of origination shall file with the Chief Administrative Officer on a quarterly basis copies of the firm's dispatch records as documentation of such transports. For the purposes of enforcing this subsection only, the City shall have access to the dispatch records of any ambulance firm that makes transports pursuant to this subsection as they relate to such transports.

(c) Any City police officer may issue a warrant, citation or summons charging a person driving an emergency medical services vehicle in the City in violation of this section or, if such person is not known, charging the registered owner of an emergency medical services vehicle used in violation of this section.

(d) In any prosecution charging a violation of this section where the driver is unknown, proof that the emergency medical services vehicle described in the complaint, summons, ticket, citation or warrant transported a person from a location within the corporate City limits, together with proof that the defendant was at the time of transport the registered owner of the vehicle, as required in Code of Virginia, Title 46.2, Ch. 6 (Code of Virginia, § 46.2-600 et seq.), shall constitute a prima facie presumption in evidence that the registered owner was the person who committed the violation.

(e) A violation of this section shall be a Class 1 misdemeanor punishable as provided in Section 1-16. In lieu of the criminal sanctions authorized in this subsection, this section may, at the option of the City, be enforced by equitable relief.

(Code 1993, § 10-58; Code 2004, § 34-101; Code 2015, § 10-78; Ord. No. 2004-360-330, § 1, 12-13-2004)

Sec. 10-79. Awarding of franchises and permits.

It is in the best interest of the City to create and to regulate a unified emergency medical services system. It is the policy of the City to promote the provision of adequate and continuing ambulance service to transport sick or injured persons in the metropolitan area in order to preserve, protect and promote the public health, safety and general welfare of the public residing in this area. In furtherance of this policy, the City may, from time to time, award or revoke by ordinance franchises or permits for the operation of emergency medical service (EMS) vehicles, subject to such public health, safety, and general welfare requirements as it may impose under this article. The holder of a franchise or permit shall be referred to in this article as an "authorized provider." Any franchise or permit, other than any franchise granted to the Richmond Ambulance Authority, shall be for a period of two years; however, an authorized provider may apply for a new franchise or permit to replace an expiring franchise or permit. No franchise or permit may be transferred by any means, direct or indirect, including, without limitation, change of ownership or control, trusteeship, and sale of assets. The award of a franchise or permit may be conditioned upon the attainment of norms for quality of care and response times that the City establishes for its emergency medical services system generally.

(Code 1993, § 10-59; Code 2004, § 34-102; Code 2015, § 10-79; Ord. No. 2020-167, § 1(10-79), 9-14-2020)

Sec. 10-80. Centralized EMS dispatch.

All authorized providers under this article shall be dispatched from the emergency medical services dispatch center designated by the City. No authorized provider shall publish or advertise any telephone number for the purpose of receiving requests for emergency medical services except the emergency number (911) of the emergency medical services dispatch center. All authorized providers shall, at all times, obey the directions of the emergency medical services dispatch center, including, by way of illustration and without limitation, location of units, positioning movements, and run responses. However, neither any authorized provider that is exempted by Section 10-81 from advanced life support equipment and staffing requirements nor any authorized provider of aeromedical services shall in normal operations be subject to the requirements of this section, provided that any such authorized

provider may be required to comply with centralized dispatch instructions in a disaster.

(Code 1993, § 10-62; Code 2004, § 34-103; Code 2015, § 10-80; Ord. No. 2020-167, § 1(10-80), 9-14-2020)

Sec. 10-81. Advanced life support services.

(1) Nonambulance vehicles used solely for wheelchair transport.

(2) Vehicles owned by a partnership of hospitals that was in existence and engaging regularly in emergency medical services transports as of January 1, 1991, while such vehicles are engaging in transports originating from a member hospital.

(Code 1993, § 10-63; Code 2004, § 34-104; Code 2015, § 10-81)

Sec. 10-82. Refusal to transport.

No authorized provider shall fail to respond to a call, to transport, or to render first aid treatment, as may be reasonably necessary, or otherwise refuse or fail to provide services originating within the City because of the patient's inability to pay for such services, because of the patient being located at a particular accessible location within the City or because the provider's emergency medical services vehicles are unavailable without reasonable cause.

(Code 1993, § 10-64; Code 2004, § 34-105; Code 2015, § 10-82)

Sec. 10-83. Suspension of authorization to operate.

The Chief of Fire and Emergency Services may summarily suspend any franchise or permit, except for a franchise or permit granted to the Richmond Ambulance Authority, issued pursuant to this article for any reason involving a danger to public health, safety or welfare, including bankruptcy or insolvency. Such a suspension shall not exceed two weeks in length, and any provider so suspended shall have a right to a hearing before the Chief Administrative Officer, who may (i) reinstate the franchise or permit immediately, (ii) take no action to modify the duration of the suspension pursuant to this section, or (iii) extend the suspension for a period of up to 90 days and impose additional conditions on the authorized provider, either or both. The hearing shall be de novo. It shall comply with due process requirements but shall not be governed by strict rules of evidence or procedure.

(Code 1993, § 10-65; Code 2004, § 34-106; Code 2015, § 10-83; Ord. No. 2004-360-330, § 1, 12-13-2004; Ord. No. 2020-167, § 1(10-89), 9-14-2020)

Graffiti means the unauthorized application of any writing, painting, drawing, etching, scratching or marking of an inscription, word, figure, or design of any type on any public or private building or other real or personal property owned, operated or maintained by a governmental entity or an agency or instrumentality thereof or by a private person.

(Code 1993, § 19-70; Code 2004, § 38-191; Code 2015, § 11-132)

Cross reference—Definitions generally, § 1-2.

Sec. 11-133. Graffiti prohibited; criminal penalty.

(a) It shall be unlawful for any person to deface or otherwise damage private or public property, by or through the application of graffiti.

(b) Any person violating this section shall be guilty of a Class 1 misdemeanor.

(Code 1993, § 19-71; Code 2004, § 38-192; Code 2015, § 11-133)

Sec. 11-134. Parental responsibility for damage to public property.

If graffiti is applied to any property of the City by a minor who is living with either or both parents, the City may institute an action and recover from the parents of the minor or either of them for the damages suffered by reason of the willful or malicious destruction of or damage to public property by the minor. The action by the City shall be subject to any limitation on the amount of recovery set forth in Code of Virginia, § 8.01-43 or other applicable provision of State law.

(Code 1993, § 19-72; Code 2004, § 38-193; Code 2015, § 11-134)

Sec. 11-135. Authority for City to remove or repair defacement of buildings, walls, fences and other structures.

(a) The Chief Administrative Officer is authorized to undertake or contract for the removal or repair of the defacement, by or through the application of graffiti, of any public building, wall, fence or other structure or any private building, wall, fence or other structure where such graffiti is visible from any public right-of-way.

(b) Prior to such removal, the Chief Administrative Officer shall provide the property owner with 30 days' notice by at least first class mail, together with such other means as may be legally required, of the Chief Administrative Officer's intent to undertake or contract for the removal or repair of the defacement and shall simultaneously with such notice seek the written permission of the property owner. Should the property owner fail to provide such permission or remove or repair the defacement within 30 days of the date of the notice, the Chief Administrative Officer may have such defacement removed or repaired by agents or employees of the City. Such agents or employees shall have any and all immunity normally provided to an employee of the City.

(c) The removal or repair work may be undertaken by volunteers or individuals required to perform community service by order of any court, under appropriate City supervision. If the defacement occurs on a public

or private building, wall, fence or other structure located on unoccupied property, and the City, through its own agents or employees, removes or repairs the defacement after complying with the notice provisions of this section, the actual cost or expense thereof shall be chargeable to and paid by the owners of such property and may be collected by the City as taxes are collected. Any charge authorized by this section with which the owner of such property shall have been assessed and that remains unpaid shall constitute a lien against such property, ranking on a parity with liens for unpaid local taxes and enforceable in the same manner as provided in Code of Virginia, Title 58.1, Ch. 39, Arts. 3 (Code of Virginia, § 58.1-3940 et seq.) and 4 (Code of Virginia, § 58.1-3965 et seq.). The Chief Administrative Officer may waive and release such liens in order to facilitate the sale of the property, provided that no waiver or release of such a lien shall be deemed to be a waiver of the personal obligation of the property owner at the time the lien was imposed. Such liens may be waived only as to a purchaser who is unrelated by blood or marriage to the owner and who has no business association with the owner. No lien shall be chargeable to the owners of such property unless the City shall have given a minimum of 15 days' notice to the property owner prior to the removal of the defacement.

ARTICLE VI. BUILDINGS AND OTHER STRUCTURES HARBORING ILLEGAL DRUG USE*

***Cross reference—**Offenses against public morals, § 19-206 et seq.

State law reference—Authority, Code of Virginia, § 15.2-907.

Sec. 11-154. Findings.

(a) The City Council finds that there is an increasing use of real property within the City for the purpose of flagrant violations of the penal laws relating to dangerous drugs. The City Council also finds that such use continues even after the interdiction by police authorities, with repeated offenses being committed at the same properties.

(b) The City Council finds that this situation seriously interferes with the interest of the general public in the areas of quality of neighborhood life and environment, diminution of property values, safety of the public upon the streets and sidewalks, and increasing costs of law enforcement as a result of these illegal activities.

(c) The City Council, therefore, finds it in the public interest to authorize and empower the appropriate City officials to take corrective action to abate drug blight on real property where the owner fails to take corrective action within the prescribed time period. Such corrective action is in response to the apparent proliferation of these illegal activities without prejudice to the use of any other procedures and remedies available under any other law.

(Code 1993, § 5-80; Code 2004, § 14-116; Code 2015, § 11-154)

Sec. 11-155. Definitions.

Controlled substance means illegally obtained controlled substances or marijuana, as defined in Code of Virginia, § 54.1-3401.

Corrective action means the taking of steps which are reasonably expected to be effective to abate drug blight on real property, such as the removal, repair or securing of any building, wall or other structure.

Drug blight means a condition existing on real property which tends to endanger the public health or safety of residents of the City and which is caused by the regular presence on the property of persons under the influence of controlled substances or the regular use of the property for the purpose of illegally possessing, manufacturing or distributing controlled substances.

Owner means the record owner of real property.

Property means real property and includes, but is not limited to, any room, building, structure, inhabitable structure, vacant or occupied, and any portion thereof.

(Code 1993, § 5-81; Code 2004, § 14-117; Code 2015, § 11-155)

Cross reference—Definitions generally, § 1-2.

Sec. 11-156. Additional enforcement procedures.

(a) In addition to enforcement procedures established elsewhere, the Chief of Police is authorized to undertake corrective action with respect to drug blight on real property in accordance with the following procedures:

(1) The Chief of Police shall execute an affidavit, citing Code of Virginia, § 15.2-907, and affirming that:

a. Drug blight exists on the property;

b. The City has used diligence without effect to abate the drug blight; and

c. The drug blight constitutes a present threat to the public's health, safety or welfare.

(2) The Chief of Police shall submit the affidavit to the Commissioner of Buildings requesting that the last known owner of the property be notified by regular mail sent to the last known address as it appears in the assessment records of the City. The notice and a copy of the affidavit shall advise the owner that:

a. The owner has up to 30 days from the date thereof to undertake corrective action to abate the drug blight described in the affidavit; and

b. If requested to do so, the City will assist the owner in determining and coordinating the appropriate corrective action to abate the drug blight described in the affidavit.

If the owner notifies the City in writing within the 30-day period that additional time to complete the corrective action is needed, the City shall allow such owner an extension for an additional 30-day period to take such corrective action.

(b) The owner shall be advised by the notice that, if no corrective action is undertaken during such 30-day period, or during the extension if such extension is granted by the City, the City will send by regular mail an additional notice to the owner stating (i) the date certain on which the City may commence corrective action to abate the drug blight on the property or (ii) the date on which the City may commence legal action in a court of competent jurisdiction to obtain a court order to require that the owner take such corrective action or, if the owner does not take corrective action, a court order to revoke the certificate of occupancy for such property. The date of such action shall be no earlier than 15 days after the date of mailing of the second notice. The second notice shall also reasonably describe the corrective action contemplated to be taken by the City.

(c) Upon receipt of the final notice, the owner shall have a right to seek equitable relief in the Circuit Court and shall be responsible for providing reasonable notice to the City as to any intention to seek equitable relief. The City shall initiate no corrective action while a proper petition for relief is pending before the Circuit Court. The owner shall provide such notice of intent within 15 days of receipt of the mailing of the second notice.

(d) If the City undertakes corrective action with respect to the property after complying with this section, the costs and expenses thereof shall be chargeable to and paid by the owner of such property and may be collected by the City as taxes and levies are collected.

(e) Every charge authorized by this section with which the owner of any such property has been assessed and which remains unpaid shall constitute a lien against such property with the same priority as liens for unpaid local taxes and enforceable in the same manner as provided in Code of Virginia, Title 58.1, Ch. 39, Arts. 3 (Code of Virginia, § 58.1-3940 et seq.) and 4 (Code of Virginia, § 58.1-3695 et seq.).

(f) If the owner of such property takes timely corrective action pursuant to this section and the City determines that the drug blight is properly abated as verified by a final written report prepared by the Commissioner of Buildings and approved by the Chief of Police, the proceedings shall promptly be terminated and there shall be no charge or cost to the owner. The owner shall immediately be notified by written notice that the proceeding has been terminated satisfactorily. The closing of a proceeding shall not bar the City from initiating a subsequent proceeding if the drug blight recurs.

(g) Nothing in this section shall be construed to abridge, diminish, limit, or waive any rights or remedies of an owner of property at law or any permits or nonconforming rights the owner may have under Code of Virginia, Title 15.2, Ch. 22 (Code of Virginia, § 15.2-2200 et seq.) or under ordinance of the City. If an owner in good faith takes corrective action, and despite having taken such action, the specific drug blight identified in the affidavit of the City persists, such owner shall be deemed in compliance with this section. Further, if a tenant in a rental dwelling unit, or a tenant on a manufactured home lot, is the cause of drug blight on such property and the owner in good faith initiates legal action and pursues the same by requesting a final order by a court of competent jurisdiction, as otherwise authorized by this Code, against such tenant to remedy such noncompliance or to terminate the tenancy, such owner shall be deemed in compliance with this section.

ARTICLE VIII. COMMERCIAL PROPERTY ASSESSED CLEAN ENERGY FINANCING PROGRAM*

***Editor's note—**Ord. No. 2020-129, § 3, provides that Ord. No. 2020-129 (which amends this article) takes effect on March 1, 2021.

Cross reference—Finance, Ch. 12.

Sec. 11-190. Commercial property assessed clean energy financing program; established; purpose.

(a) There is hereby established the commercial property assessed clean energy financing program in accordance with Code of Virginia, § 15.2-958.3. Pursuant to this article, the City may authorize contracts to provide loans for the initial acquisition and installation of clean energy improvements with free and willing property owners

of both existing properties and new construction. In addition, private lending institutions shall be provided the opportunity to participate in such contracts.

(b) The purpose of the program for which this article provides is to promote the renovation and construction of commercial, nonprofit and multifamily buildings and structures by incorporating renewable energy production and distribution facilities, energy usage efficiency improvements, or water usage efficiency improvements. The City finds that this will promote the general health and welfare of the community. Water usage efficiency improvements, in particular, benefit the public water supply and wastewater treatment services provided by the City.

(c) In establishing the program for which this article provides, the City finds that the City of Richmond has numerous older buildings with many years of remaining life, and that the renovation, retrofit, or rehabilitation of these buildings with qualifying clean energy improvements would make them more efficient and reduce their greenhouse gas emissions. The rehabilitation of commercial and industrial buildings and structures that are at least 40 years old, in particular, supports the same public purposes advanced by the real estate tax exemption provided for this activity.

(d) The City further finds that the promotion and development of new buildings and structures with energy efficient or water efficient features that exceed current building code requirements, or which use renewable energy, will enhance the real property tax base of the City, make these buildings, if rented, more attractive to tenants, and thereby promote employment and economic growth in the City.

(Code 2015, § 11-190; Ord. No. 2019-274, § 1(11-190), 11-12-2019; Ord. No. 2020-129, § 1, 6-22-2020)

(c) Water usage efficiency improvements, such as recovery, purification, recycling and other forms of water conservation. For new construction, these improvements qualify for program financing only if they exceed the minimum water usage efficiency requirements of then-applicable law, ordinance, regulation, or code.

(d) Construction, renovation, or retrofitting of eligible property directly related to the accomplishment of any purpose listed in subsection (a), (b), or (c) of this section, whether such qualifying improvement was erected or installed in or on a building or on the ground, it being the express intention of the City to allow qualifying improvements that constitute, or are part of, the construction of a new structure or building to be financed with a program loan.

(a) The capital providers for the program may be private lending institutions. Public funds may be the source of program funding to the extent appropriated for that purpose by the City Council.

(b) The time period during which borrowers shall repay the program loan shall not exceed the weighted average useful life of the qualifying improvements or 30 years, whichever is less.

(c) Loans shall be repaid by the borrower through loan payments. The capital provider shall record the program memorandum at closing.

(b) The voluntary special assessment lien shall have the same priority status as a property tax lien against real property so long as (i) a written subordination agreement, in a form and substance acceptable to each prior lien holder in its sole and exclusive discretion, is executed by the holder of each mortgage or deed of trust lien on the property and recorded with the special assessment lien, and (ii) a borrower certificate is submitted to the City prior to recording the program memorandum.

Recordation of the assignment shall constitute an assumption by the new capital provider of the rights and obligations contained in the program loan documents.

(d) The voluntary special assessment lien shall run with the land. That portion of the assessment that has not yet become due shall not be eliminated by foreclosure of a property tax lien.

(e) Delinquent payments shall be subject to all fees and collection methods permitted under the laws of the Commonwealth of Virginia for the collection of delinquent taxes.

The costs and expenses recovered by the City shall be in addition to any costs, expenses, interest, or other amounts due and owing to the capital provider in accordance with the program loan documents. For the purposes of enforcement of the voluntary special assessment lien herein, any eligible property which has an outstanding voluntary special assessment imposed pursuant to this article shall be enforceable after June 30 following the first anniversary of either the real estate tax or the special assessment having become due under the authority of Code of Virginia, § 58.1-3965.1.

Sec. 11-197. Role of City; limitation of liability.

Borrowers and capital providers participate in the program at their own risk. The City makes no representation or warranty as to the validity, enforceability, priority, or any other character of any program loan agreement or voluntary special assessment lien and borrowers and capital providers agree to release and hold the City harmless from and against any and all liabilities, claims, suits, liens, judgments, damages, losses, and expenses, including, without limitation, reasonable legal fees and costs arising in whole or in part from acts, omissions, breach or default of borrowers or capital providers in relation to or under the performance of any program loan agreement.

ARTICLE III. CITY BONDS*

***Charter reference—**City bonds generally, Ch. 7B.

State law reference—Public Finance Act of 1991, Code of Virginia, § 15.2-2600 et seq.

Sec. 12-61. Registration and transfer; duties of registrar and Director of Finance.

(a) The Director of Finance will provide for the establishment of books for the registration and transfer of each issue of City bonds. The Director of Finance may enter into an agreement with a bank that is acting as paying agent for a particular issue of bonds to provide the registration and transfer services for that issue. When such an agreement exists, the Director of Finance will cause books for the registration and transfer of that particular issue of bonds to be kept at the principal office of the fiscal agent and registrar. The person responsible for the registration and transfer of each issue of bonds is referred to as the "registrar therefor."

(b) On presentation to the registrar therefor for such purposes by any bearer of a particular issue of coupon bonds, with registration provisions, the Director of Finance will cause such registrar therefor to register in such books, in the name of the bearer or nominee, the ownership, as to principal or as to principal and interest, of any such presented coupon bonds, and such registration shall be noted on the bond. After such registration and notation, no transfer of any such coupon bond registered otherwise and as payable to the bearer shall be valid unless evidenced by a written instrument of transfer, in a form satisfactory to the registrar therefor, duly executed by the registered owner in person or by duly authorized agents, but any such coupon bonds that are registered may be discharged from registration and transferability by delivery, may be restored by a transfer to the bearer similarly registered and noted, and after such transfer to the bearer such bond shall be a bearer bond. Any such coupon bond may again,

from time to time, in like manner, be registered as to principal or as to principal and interest or be transferred to the bearer.

(c) The bearer of any coupon bond which at the time is not registered or is registered as payable to the bearer and the registered owner of any registered bond or any coupon bond registered as to principal otherwise than to bearer may, at any time, surrender the bond at the office of the registrar therefor; in the case of coupon bonds with all unmatured coupons attached, and in case of registered bonds or coupon bonds registered as to principal, with instruments of transfer satisfactory to such registrar therefor. Such bearer shall be entitled to receive in exchange therefor an equal aggregate principal amount of bonds of the same series, interest rate and maturity, of any one or more of the forms, the issuance of which have been provided for in this section, and the Director of Finance will issue and deliver at the office of such registrar the bonds necessary to make such an exchange. Any registered bond may be transferred pursuant to its provisions at the principal office of the registrar therefor by surrender of such bonds for cancellation, accompanied by a written instrument of transfer, in a form satisfactory to such registrar therefor, duly executed by the registered owner in person or by duly authorized agent, and thereupon the Director of Finance will issue and deliver at the office of the registrar therefor, in the name of the transferee, a new registered bond of the same series, when such forms are available, or the same bond registered in the name of the transferee duly noted thereon. When a new registered bond form is used, it shall be of the same series, form, interest rate, principal and maturity, dated so there shall result no gain or loss of interest as a result of such transfer.

(d) In every case of an exchange of bonds and of a transfer of any registered bond or coupon bond registered as to principal, the surrendered bond or coupon, if any, shall be held by the registrar therefor. On an issue where there are provided blank registered bonds, all registered bonds surrendered for exchange or transfer shall be canceled. Coupon bonds or coupon sheets, which have been removed from coupon bonds registered as to principal and interest, shall be held by the registrar therefor, who shall make provisions satisfactory to the Director of Finance for the safekeeping of such coupon bonds or coupon sheets.

(e) Upon making a request for an exchange of bonds as authorized in this section, tender of the estimated cost of effecting such exchange shall be made by the person making the request. Upon delivery of the bonds so exchanged, any surplusage shall be returned to the bond owner or agent, or any additional costs of making such exchange shall be paid by the bond owner or agent.

The fee or service charge shall be collected from the owner or from the party in possession of the real estate for which such services are provided. Such service charge shall be fixed by dividing the expenditures

made by the City during the preceding year for such services by the assessed fair market value of all of the real estate within the City, including nontaxable property and including real estate assessed by the State Corporation Commission, which fair market value shall be expressed in hundreds of dollars.

(Code 1993, § 11-123; Code 2004, § 42-123; Code 2015, § 12-102)

Sec. 12-103. Police and fire protection; collection and disposal of refuse—Service charge upon certain properties exempt from taxation.

(a) *Service charges generally.* As authorized in Code of Virginia, §§ 58.1-3400 and 58.1-3403, a fee or service charge is hereby imposed upon and shall be collected from the owners of faculty and staff housing of educational institutions and real property owned by the Commonwealth within the City. The service charge shall not be applicable to public roadways or property held for future construction of such roadways. For purposes of calculating the service charge, the cost of public school education shall be included in such amount in determining the service charge imposed on faculty and staff housing of an educational institution. The expenditures shall exclude any amount received from Federal or State grants specifically designated for furnishing police and fire protection and for collection and disposal of refuse and assistance provided to localities pursuant to Code of Virginia, Title 9.1, Ch. 1, Art. 8 (Code of Virginia, § 9.1-165 et seq.). The expenditures for services not provided for certain real estate shall not be considered in the calculations of the service charge for such real estate, nor shall such expenditures be applicable when a service is currently funded by another service charge. For purposes of this section, the valuation of exempt real estate shall not take into account artistic and historical significance.

(b) *Buildings with land occupied by faculty and staff housing of educational institutions.* Buildings with land actually occupied by faculty and staff housing of educational institutions, together with the additional adjacent land reasonably necessary for the convenient use of any such building located within the City, shall be exempt from the service charge provided in this section if the buildings are:

(1) Lawfully owned and held by churches or religious bodies and wholly and exclusively used for religious worship or for the residence of the minister of any church or religious body or for use as a religious convent, nunnery, monastery, cloister or abbey; or

(2) Used or operated exclusively for nonprofit private educational or charitable purposes, other than faculty and staff housing of any such educational institution.

(c) *Calculation of service charge for faculty and staff housing of educational institutions.* In the case of faculty and staff housing, the service charge shall be based on the assessed value of the tax exempt real estate and the amount which the City shall have expended in the year preceding the year of the assessment of such charge, for the purpose of furnishing police and fire protection, and for the collection and disposal of refuse. The service charge shall not exceed 50 percent of the real estate tax rate and shall be fixed by dividing the expenditures as calculated in this subsection by the assessed fair market value of all of the real estate within the City, except real estate owned by the United States government or any of its instrumentalities, expressed in hundreds of dollars, including nontaxable property as listed in the land book of the City by the City Assessor. The resulting rate shall then be applied to the assessed value of the tax exempt property.

(d) *Calculation of service charge for property owned by the Commonwealth.* In the case of property owned by the Commonwealth, the service charge shall be based on the assessed value of the State-owned tax exempt real estate and the amount which the City shall have expended in the year preceding the year of the assessment of such charge, for the purpose of furnishing police and fire protection, and for the collection and disposal of refuse. The service charge rate for State-owned property shall be determined by dividing the expenditures as calculated in this subsection by the assessed fair market value of all real estate within the City, except real estate owned by the United States government or any of its instrumentalities, expressed in hundreds of dollars, including nontaxable property as listed in the land book of the City by the City Assessor. The resulting rate shall then be applied to the assessed value of the tax exempt property. For purposes of this subsection, the term "property owned by the Commonwealth" shall not include hospitals or educational institutions. As authorized by Code of Virginia, § 58.1-3403, a service charge shall be levied on faculty and staff housing of State educational institutions, regardless of the portion of State-owned property located within the City.

The fee or service charge imposed in Sections 12-102 and 12-103 shall be apportioned as to the amounts budgeted for the furnishing of fire protection and police protection and for the collection and disposal of refuse. Any real estate exempted from taxation under State law but subject to the imposition of a fee or service charge imposed in this article as authorized under Code of Virginia, §§ 58.1-3400 and 58.1-3403 from or for which the City does not collect and does not dispose of refuse shall be exempt from the payment of such proportion of the service charge imposed in Sections 12-102 and 12-103 as represents the proportionate amount of the expenditure used for computing such fee or service charge attributable to the collection and disposal of refuse. Real estate from which the City does not collect refuse but for which it does provide disposal services and for which the City imposes and collects a disposal fee shall not be assessed the portion of the fee or service charge imposed in Sections 12-102 and 12-103 attributable to collection and disposal of refuse.

The fee shall be assessed and prorated in 15-minute increments.

(b) Community service options shall be offered as an alternative to payment of the fee for care of the juvenile, for any adult who is unable to pay the fee or who otherwise requests to be allowed to perform community service in lieu of payment of the fee. All community service options shall require that the adult and the minor who violated the curfew restrictions perform the community service together. The number of hours of community service to be performed shall be set in reasonable proportion to the total fee owed, with a minimum community service obligation of four hours. If the adult and the minor fail to perform the community service assignment, the adult shall be responsible for payment of the fee in the amount established pursuant to subsection (a) of this section.

ARTICLE II. FLOODPLAIN MANAGEMENT*

***State law reference**—Flood protection and dam safety, Code of Virginia, § 10.1-600 et seq.

DIVISION 1. GENERALLY

Sec. 14-19. Purpose.

In accordance with Code of Virginia, Title 10.1, Ch. 6 (Code of Virginia, § 10.1-600 et seq.), and the National Flood Insurance Act of 1968, 42 USC 4001—4129, the purpose of this article is to promote the public health, safety and general welfare through the establishment of comprehensive floodplain management regulations designed to:

(1) Minimize loss of life and property due to flooding conditions;

(2) Prevent unnecessary disruption of commerce and public services in times of flooding;

(3) Avoid unnecessary and extraordinary expenditure of public funds for flood protection and relief; and

(4) Contribute to the maintenance of a stable tax base.

(Code 1993, § 13-21; Code 2004, § 50-31; Code 2015, § 14-19; Ord. No. 2014-95-66, § 3, 4-28-2014)

Sec. 14-20. Methodology.

In order to accomplish its purpose, this article establishes requirements and procedures for review of proposed development and land-disturbing activity within designated floodplain districts and includes provisions for:

(1) Prohibiting development and land-disturbing activity which, acting alone or in combination with other development or activity, will cause unacceptable increases in flood heights or velocities;

(2) Restricting or prohibiting certain development and land-disturbing activity within areas subject to flooding;

(3) Requiring that development permitted in floodplain districts be protected or floodproofed against flooding and flood damage in accordance with applicable sections of the Virginia Uniform Statewide Building Code;

(4) Controlling the alteration or relocation of watercourses, channels and floodplains and controlling filling, grading and other land-disturbing activity within floodplain areas in accordance with State and local requirements and procedures;

(5) Ensuring that those who develop land subject to flooding are aware of potential flood hazards and assume responsibility for their actions; and

(6) Ensuring that development in Chesapeake Bay Preservation Areas meets the requirements of this chapter.

(Code 1993, § 13-22; Code 2004, § 50-32; Code 2015, § 14-20; Ord. No. 2004-330-320, § 1, 12-13-2004)

Sec. 14-21. Definitions.

Words and terms not specifically defined in this section shall be interpreted in accordance with such normal dictionary meaning or customary usage as is appropriate to the context. The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly

indicates a different meaning:

100-year flood means the base flood (i.e., the flood having a one percent chance of being equaled or exceeded in any given year).

Accessory structure means a structure used for purposes incident and subordinate to another structure on the same property and that does not exceed 200 square feet in area.

Base flood means the flood having a one percent chance of being equaled or exceeded in any given year (i.e., the 100-year flood).

Base flood elevation means the elevation computed by the Federal Emergency Management Agency to which floodwater is anticipated to rise during the base flood, as reflected in the City's flood insurance rate map.

Basement means any area of the building having its floor sub-grade (below ground level) on all sides.

Chesapeake Bay Preservation Areas means those areas so designated in Article IV of this chapter.

Conditional letter of map revision means an official Federal Emergency Management Agency determination by letter that is a formal review as to whether a proposed flood protection project or other project complies with the minimum National Flood Insurance Program requirements for such projects with respect to delineation of special flood hazard areas. A conditional letter of map revision does not revise the effective floodplain insurance rate map or flood insurance study.

Development means any manmade change to improved or unimproved real estate, including, but not limited to, buildings or other structures for which a building permit must be obtained under the requirements of the Virginia Uniform Statewide Building Code and this article, mining, dredging, filling, grading, paving, excavation or drilling operations, or the storage of equipment or materials.

Digital flood insurance rate map means a flood insurance rate map that has been made available digitally.

Director means the Director of Public Utilities or a designee thereof.

Elevated structure means a non-basement structure built to have the lowest floor elevated above the ground level by means of solid foundation perimeter walls, pilings, columns, posts or piers.

Elevation certificate means an official record or document that shows new structures and substantial improvements in all identified special flood hazard areas are properly elevated.

Encroachment means the advance or infringement of uses, plant growth, fill excavation, permanent structures or development into a floodplain, which may impede or alter the flow capacity of a floodplain.

Existing construction and *existing structure* mean, for the purpose of determining rates, structures for which the start of construction commenced before June 15, 1979, which is the effective date of the City's initial flood insurance rate map.

Flood or *flooding* means:

(1) A general and temporary condition of partial or complete inundation of normally dry land areas from:

   a. Overflow of inland or tidal waters;

   b. Unusual and rapid accumulation of runoff of surface waters from any source; or

   c. Mudflow; or

(2) The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, by an unanticipated force of nature, such as a flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event that results in flooding as defined in subsection (1) of this definition.

Flood fringe district means any normally dry land area susceptible to partial or complete inundation during the 100-year flood and lying outside of the floodway district. The outermost boundary of the flood fringe district shall be the elevation of the 100-year flood contained in the flood profiles of the flood insurance study and shown on the flood boundary and floodway map.

Flood insurance rate map means an official map of the City on which the Federal Emergency Management Agency has delineated both the special hazard areas and the risk premium zones applicable to the City.

Flood insurance study means a report by the Federal Emergency Management Agency that examines, evaluates and determines flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudflow or flood-related erosion hazards.

Floodplain means the area, including watercourse, susceptible to partial or complete inundation during the 100-year flood.

Floodplain districts means those areas subject to partial or complete inundation by waters of the 100-year flood, including floodway districts, flood fringe districts and approximate floodplain districts.

Floodproofing means any combination of structural and nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

Floodway district means the channel of the river, creek or other watercourse and the adjacent land areas that must be reserved in order to discharge the 100-year flood without cumulatively increasing the water surface elevation more than one foot. Areas included in the floodway district are defined in Table 2 of the flood insurance study prepared by the Federal Emergency Management Agency dated December 15, 1978, and as revised, effective July 20, 1998, April 2, 2009, and July 16, 2014.

Freeboard means a factor of safety usually expressed in feet above a flood level for purposes of floodplain management.

Frequency flood means a flood at a certain magnitude that will occur for a water body or drainage area over a certain period of time.

Highest adjacent grade means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

Historic structure means any structure that is:

(1) Listed individually in the National Register of Historic Places (a listing maintained by the United States Department of the Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

(2) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;

(3) Individually listed in the Virginia Landmarks Register; or

(4) Individually listed on a local inventory of historic places certified by the Virginia Landmarks Register.

Hydrologic and hydraulic engineering analysis means an analysis performed by a licensed professional engineer, in accordance with standard engineering practices that are accepted by the Virginia Department of Conservation and Recreation and the Federal Emergency Management Agency, and used to determine the base flood, other frequency floods, flood elevations, floodway information and boundaries, and flood profiles.

Land-disturbing activity means any land change, including, but not limited to, clearing, grading, excavating, transporting and filling of land, or other construction activities which would disturb the natural vegetation or the existing contours of the land, which may result in soil erosion from water or wind and the movement of sediments into public or private storm drainage facilities.

Letter of map amendment means an official written determination from the Federal Emergency Management Agency based on technical data showing that a property was incorrectly included in a designated special flood hazard area that amends the current effective flood insurance rate map and establishes that a property as defined by metes and bounds, or a structure, is not located in a special flood hazard area.

Letter of map change means an official written determination from the Federal Emergency Management Agency that amends or revises an effective flood insurance rate map or flood insurance study, including a letter of

map amendment, a letter of map revision, a letter of map revision based on fill or a conditional letter of map revision.

Letter of map revision means an official written determination from the Federal Emergency Management Agency that revises an effective flood insurance rate map or flood insurance study, based on technical data that might show changes to flood zones, flood elevations, floodplain and floodway delineations, and planimetric features.

Letter of map revision based on fill means an official Federal Emergency Management Agency determination by letter that a structure or parcel of land has been elevated by fill above the base flood elevation and, therefore, is no longer exposed to flooding associated with the base flood. In order to qualify for the letter of map revision based on fill, the fill must have been permitted and placed in accordance with all applicable City legal requirements.

Lowest floor means the lowest floor of the lowest enclosed area of a structure, including basements. An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor, provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of 44 CFR 60.3.

Manufactured home means a structure subject to Federal regulations which:

(1) Is transportable in one or more sections;

(2) Is eight body feet or more in width and 40 body feet or more in length in the traveling mode or is 320 or more square feet when erected on-site;

(3) Is built on a permanent chassis;

(4) Is designed to be used as a single-family dwelling, with or without a permanent foundation, when connected to the required facilities; and

(5) Includes the plumbing, heating, air conditioning, and electrical systems contained in the structure.

Mudflow means a river of liquid and flowing mud on the surfaces of normally dry land areas, as when earth is carried by a current of water. The term "mudflow" does not include landslides, slope failures, or a saturated soil mass moving by liquidity down a slope.

New construction means, for the purposes of determining insurance rates, structures for which the start of construction commenced on or after June 15, 1979, which is the effective date of the City's initial flood insurance rate map, and includes any subsequent improvements to such structures. For floodplain management purposes, the term "new construction" means structures for which the start of construction commenced on or after May 29, 1979, which is the effective date of the City's original floodplain management ordinance, and includes any subsequent improvements to such structures.

Post-flood insurance rate map structure means a structure for which construction or substantial improvement occurred after June 15, 1979.

Pre-flood insurance rate map structure means a structure for which construction or substantial improvement occurred on or before June 15, 1979.

Recreational vehicle means a vehicle which is built on a single chassis; is 400 square feet or less when measured at the largest horizontal projections; is designed to be self-propelled or permanently towable by a light-duty truck; and is designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

Repetitive loss structure means a building, covered by a contract for flood insurance, that has incurred flood-related damages on at least two occasions during a ten-year period ending on the date of the event for which a second claim is made, in which the cost of repairing the flood damage, on the average, equaled or exceeded 25 percent of the market value of the building at the time of each flood event.

Shallow flooding area means a special flood hazard area with base flood depths from one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate, where velocity flow might be evident, and where such flooding is characterized by ponding or sheet flow.

Special flood hazard area means the land on the floodplain subject to a one percent or greater chance of being

flooded in any given year as determined in Section 14-59.

Start of construction includes "substantial improvement" and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Storm drainage facility means any sewer, ditch, creek, river, lake, swale, watercourse or any other natural or manmade facility through which stormwater or storm runoff may pass regularly or intermittently in a concentrated fashion.

Structure means a walled and roofed building, including, but not limited to, a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

Substantial damage means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

Substantial improvement means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the start of construction of the improvement. This term includes structures which have incurred substantial damage, regardless of the actual repair work performed. The term does not, however, include:

(1) Any project for improvement of a structure to correct existing violations of State or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to ensure safe living conditions; or

(2) Any alteration of a historic structure, provided that:

a. The alteration will not preclude the structure's continued designation as a historic structure;

b. A historic structure undergoing repair or rehabilitation that otherwise would constitute a substantial improvement as defined in this section must comply with all applicable provisions of this Code that do not preclude the structure's continued designation as a historic structure;

c. Documentation that a specific provision of this Code will cause removal of the structure from the National Register of Historic Places or the Virginia Landmark Register must be obtained from the Secretary of the Interior or the Virginia Historic Preservation Officer, and a copy of such documentation must be provided to the City; and

d. Any exemption from otherwise applicable provisions of this Code will be the minimum necessary to preserve the historic character and design of the structure.

Watercourse means any natural or manmade channel, lake, river, creek, stream, wash or other topographic feature on or over which waters flow at least periodically. The term "watercourse" includes, but is not limited to, specifically designated areas in which substantial flood damage may occur.

This article shall apply to all lands within the City located within designated floodplain districts.

(Code 1993, § 13-24; Code 2004, § 50-34; Code 2015, § 14-22)

Sec. 14-23. Compliance.

No land shall be developed; no structure shall be located, constructed, reconstructed, enlarged or structurally altered; and no land-disturbing activity shall take place within any floodplain district or Chesapeake Bay Preservation Area except in full compliance with this article, Chapter 30 and other applicable legal requirements.

(Code 1993, § 13-25; Code 2004, § 50-35; Code 2015, § 14-23; Ord. No. 2014-95-66, § 3, 4-28-2014)

Sec. 14-24. Related codes and ordinances; abrogation and greater restrictions.

The sections of this article supersede other land development-related codes and ordinances that may apply within designated floodplain districts, except that the sections of this article shall not be deemed to abrogate any provision of another code or ordinance which imposes additional or more stringent restrictions, including the Chesapeake Bay Preservation Area legal requirements set forth in Article IV of this chapter.

(Code 1993, § 13-26; Code 2004, § 50-36; Code 2015, § 14-24; Ord. No. 2004-330-320, § 1, 12-13-2004; Ord. No. 2014-95-66, § 3, 4-28-2014)

Sec. 14-25. Degree of protection; disclaimer of liability.

The degree of flood protection required by this article is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Floods more severe than the regulatory (100-year) flood can and will occur on rare occasions, as flood heights may be increased by natural and manmade causes. The sections of this article are not intended to imply that lands outside the designated floodplain districts or development permitted within such districts will be free from flooding or flood damage. This article shall not create liability on the part of the City or any officer or employee thereof for any flood damages that may result under compliance with this article or any administrative decision lawfully made pursuant to this article.

(2) Interpret the floodplain boundaries and provide available base flood elevation and flood hazard information.

(3) Review applications to determine whether proposed activities will be reasonably safe from flooding and require new construction and substantial improvements to meet the requirements of these regulations.

(4) Review applications to determine whether all necessary permits have been obtained from the Federal, State, and local agencies from which prior or concurrent approval is required, including, in particular, permits from State agencies for any construction, reconstruction, repair, or alteration of a dam, reservoir, or waterway obstruction, including bridges, culverts, and structures; any alteration of a watercourse, or any change of the course, current, or cross section of a stream or body of water, including any change to the 100-year frequency floodplain of free-flowing nontidal waters of the State.

(5) Verify that applicants proposing an alteration of a watercourse have notified adjacent communities, the Division of Dam Safety and Floodplain Management of the Virginia Department of Conservation and Recreation, and any other appropriate agencies, including, but not limited to, the Virginia Department of Environmental Quality, the Virginia Marine Resources Commission, and the United States Army Corps of Engineers, and have submitted copies of such notifications to the Federal Emergency Management Agency.

(6) Approve applications and issue permits to develop in flood hazard areas if the provisions of the requirements of this article have been met or disapprove applications if the requirements of this article

have not been met.

(7) Inspect, or cause to be inspected, buildings, structures, and other development for which permits have been issued to determine whether such buildings, structures, and other development comply with this article, whether such buildings, structures, and other development do not comply with this article, or whether such buildings, structures, and other development violate this article.

(8) Review elevation certificates and require incomplete or deficient certificates to be corrected.

(9) Submit to the Federal Emergency Management Agency, or require applicants to submit to the Federal Emergency Management Agency, data and information necessary to maintain flood insurance rate maps, including hydrologic and hydraulic engineering analyses prepared by or for the City, within six months after such data and information becomes available if the analyses indicate changes in base flood elevations.

(10) Maintain and permanently keep records that are necessary for the administration of this chapter, including:

a. Flood insurance studies, flood insurance rate maps, including historic studies and maps, and current effective studies and maps, and letters of map change; and

b. Documentation supporting issuance and denial of permits, elevation certificates, documentation of the elevation, in relation to the data on the flood insurance rate map, to which structures have been floodproofed, records of lowest floor and floodproofing elevations for new construction and substantial improvements, where base flood elevation data is utilized, other required design certifications, variances, and records of enforcement actions taken to correct violations of these regulations.

(11) Enforce the provisions of this article, investigate violations, issue notices of violations or stop work orders, and require permit holders to take corrective action.

(12) Advise the Board of Zoning Appeals concerning the intent of this article and, for each application for a variance, prepare a staff report and recommendation.

(13) Administer the requirements related to proposed work on existing buildings, including:

a. Making determinations as to whether buildings and structures that are located in flood hazard areas, and that are damaged by any cause, have been substantially damaged.

b. Making reasonable efforts to notify owners of substantially damaged structures of the need to obtain a permit to repair, rehabilitate or reconstruct any such structure, and prohibit the noncompliant repair of substantially damaged structures, except for temporary emergency protective measures necessary to secure or to stabilize a structure to prevent additional damage.

(14) Undertake, as the Director determines is appropriate due to the circumstances, other actions, which may include, but are not limited to:

a. Issuing press releases, public service announcements and other public information materials related to permit requests and repair of damaged structures;

b. Coordinating with other Federal, State, and local agencies to assist with substantial damage determinations;

c. Providing owners of damaged structures information related to the proper repair of damaged structures in special flood hazard areas; and

d. Assisting property owners with documentation necessary to file claims for increased cost of compliance coverage under National Flood Insurance Program flood insurance policies.

(15) Notify the Federal Emergency Management Agency when the corporate boundaries of the City have been modified, and:

a. Provide a map that clearly delineates the new corporate boundaries or the new area for which the authority to regulate pursuant to this article has either been assumed or relinquished through

annexation; and

b. If the flood insurance rate map for any annexed area includes special flood hazard areas that have flood zones subject to requirements that are not set forth in this article:

1. Prepare proposed amendments to this article to adopt the flood insurance rate map and appropriate requirements;

2. Request that the Mayor submit the proposed amendments to City Council for consideration at the same time as or prior to the date of annexation; and

3. Provide the Division of Dam Safety and Floodplain Management of the Virginia Department of Conservation and Recreation and the Federal Emergency Management Agency with copies of amendments to this article.

(16) Upon the request of the Federal Emergency Management Agency, complete and submit a report concerning participation in the National Flood Insurance Program. The Federal Emergency Management Agency may request information regarding the number of buildings in the special flood hazard area, the number of permits issued for development in the special flood hazard area, and the number of variances issued for development in the special flood hazard area.

(17) Take into account flood, mudslide, and flood-related erosion hazards, to the extent that they are known, in all official actions relating to land management and use throughout the entire City, whether or not such hazards have been specifically delineated geographically by mapping, surveying or other appropriate methodology.

(18) To the extent not otherwise specified herein, be responsible for the City's compliance with 44 CFR 59.22, as may be applicable.

(Code 2004, § 50-39; Code 2015, § 14-55; Ord. No. 2014-95-66, § 2, 4-28-2014)

Sec. 14-56. Use and interpretation of flood insurance rate maps.

The Director shall make interpretations, where needed, as to the exact location of special flood hazard areas, floodplain boundaries, and floodway boundaries. The following shall apply to the use and interpretation of flood insurance rate maps:

(1) Where field surveyed topography indicates that adjacent ground elevations:

a. Are below the base flood elevation, even in areas not delineated as a special flood hazard area on a flood insurance rate map, the area shall be considered as a special flood hazard area and subject to the requirements of this article; and

b. Are above the base flood elevation, the area shall be regulated as a special flood hazard area, unless the applicant obtains a letter of map change that removes the area from the special flood hazard area.

(2) In special flood hazard areas identified by the Federal Emergency Management Agency where base flood elevation and floodway data have not been identified and in areas where the Federal Emergency Management Agency has not identified special flood hazard areas, any other flood hazard data available from a Federal, State, or other source shall be reviewed and reasonably used.

(3) Base flood elevations and designated floodway boundaries on flood insurance rate maps and in flood insurance studies shall take precedence over base flood elevations and floodway boundaries by any other sources if such other sources show reduced floodway widths or lower base flood elevations.

(4) Other sources of data shall be reasonably used if such sources show increased base flood elevations or larger floodway areas than are shown on flood insurance rate maps and in flood insurance studies.

(5) If a preliminary flood insurance rate map or a preliminary flood insurance study has been provided by the Federal Emergency Management Agency:

a. Upon the issuance of a letter of final determination by the Federal Emergency Management Agency, the preliminary flood hazard data shall be used and shall replace the flood hazard data

previously provided from the Federal Emergency Management Agency for the purposes of administering this article.

b. Prior to the issuance of a letter of final determination by the Federal Emergency Management Agency, the use of preliminary flood hazard data shall be deemed the best available data and used where no base flood elevations or floodway areas are provided on the effective flood insurance rate map.

c. Prior to issuance of a letter of final determination by the Federal Emergency Management Agency, the use of preliminary flood hazard data is permitted where the preliminary base flood elevations or floodway areas exceed the base flood elevations or designated floodway widths in existing flood hazard data provided by the Federal Emergency Management Agency. Such preliminary data may be subject to change and to appeal to the Federal Emergency Management Agency.

Sec. 14-57. Establishment of floodplain districts.

In order to accomplish the purposes of this division, floodplain districts are hereby established and shall include those areas of the City subject to inundation by waters of the 100-year flood. The basis for delineation of such districts shall be the flood insurance study for the City prepared by the Federal Emergency Management Agency, dated December 15, 1978, as revised, effective July 20, 1998, April 2, 2009, and July 16, 2014, and any subsequent revisions or amendments thereto.

(Code 2004, § 50-41; Code 2015, § 14-57; Ord. No. 2014-95-66, § 2, 4-28-2014)

Sec. 14-58. District boundaries; official floodplain map.

The boundaries of the floodplain districts are established as shown on the flood insurance rate maps, flood boundary maps, and floodway maps, prepared by the Federal Emergency Management Agency, dated June 15, 1979, as revised, effective July 20, 1998, April 2, 2009, and July 16, 2014, and any subsequent revisions or amendments thereto, which maps are incorporated by reference into this division. The flood insurance rate maps, flood boundary maps, and floodway maps, together with the flood insurance study for the City, shall be kept on file in the Office of the Director.

(Code 2004, § 50-42; Code 2015, § 14-58; Ord. No. 2014-95-66, § 2, 4-28-2014)

Sec. 14-59. Types of floodplain districts.

(a) *Basis of districts.* The various floodplain districts shall include special flood hazard areas. The basis for the delineation of these districts shall be the City's flood insurance study and the flood insurance rate maps for the City prepared by the Federal Insurance Administration of the Federal Emergency Management Agency, dated June 15, 1979, as revised, effective July 20, 1998, April 2, 2009, and July 16, 2014, and any subsequent revisions or amendments thereto. The Director may identify and regulate local flood hazard or ponding areas that are not delineated on the flood insurance rate maps. Such areas may be delineated on a local flood hazard map using the best available topographic data and locally derived information, such as flood of record, historic high water marks or approximate study methodologies. The boundaries of the special flood hazard area districts are established as shown on the flood insurance rate map which are incorporated by reference into this article and which shall be kept on file by the Director. The floodplain districts shall be as follows:

(1) The floodway district shall be those areas within the floodplain that are capable of carrying the waters of the 100-year flood without increasing the water surface elevation of that flood more than one foot at any point. The areas included in the floodway district are specifically defined in the flood insurance study and shown on the accompanying flood boundary and floodway map or flood insurance rate map. Within any floodway area of the floodway district of an AE Zone, no encroachments, including infill, new construction, substantial improvements or other development shall be permitted, unless the party requesting the encroachment has demonstrated through hydrologic and hydraulic analysis performed in accordance with standard engineering practice that the proposed encroachment will not result in any increase in flood levels within the community during the occurrence of the base flood discharge. Hydrologic and hydraulic analyses shall be undertaken only by professional engineers or others of

demonstrated qualifications, who shall certify that the technical methods used correctly reflect currently accepted technical concepts. Studies, analyses and computations shall be submitted in sufficient detail to allow a thorough review by the Director.

(2) The flood fringe district shall be that area of the 100-year floodplain not included in the floodway district. The basis for the outermost boundary of the flood fringe district shall be the 100-year flood elevations contained in the flood profiles of the flood insurance study and as shown on the accompanying flood boundary and floodway map or flood insurance rate map.

(3) The approximated floodplain district shall be those areas identified as an A or A Zone on the maps accompanying the flood insurance study. In these zones, no detailed flood profiles or elevations are provided, but the 100-year floodplain boundary has been approximated.

(b) *Overlay concept.*

(1) The floodplain districts described in subsection (a) of this section shall be overlays to the existing underlying districts as shown on the official zoning map referred to in Section 30-200, and the provisions of this article concerning floodplain districts shall supplement the underlying zoning regulations set forth in Chapter 30.

(2) If there is any conflict between the provisions or requirements of this division and the provisions or requirements of Chapter 30, the provisions or requirements of this division shall apply.

(Code 2004, § 50-43; Code 2015, § 14-59; Ord. No. 2014-95-66, § 2, 4-28-2014)

Sec. 14-60. Interpretation of district boundaries.

Any person questioning or contesting the interpretation of any district boundary shall be afforded reasonable opportunity to present supporting evidence and technical data to the Director for review and consideration. Following any such review and consideration, the Director shall be responsible for the interpretation of the boundaries of the floodplain districts and the Director's interpretation of the boundaries of the floodplain districts shall apply for purposes of this article.

(Code 2004, § 50-44; Code 2015, § 14-60; Ord. No. 2014-95-66, § 2, 4-28-2014)

Sec. 14-61. Determination of flood elevations for approximate floodplain districts.

Where the specific 100-year flood elevation and floodway area for an approximate floodplain district cannot be determined from such sources of data as the United States Army Corps of Engineers Floodplain Information Reports, the United States Geological Survey Flood-Prone Quadrangle or such other source acceptable to the Director, the applicant for the proposed development or land-disturbing activity shall determine the elevation in accordance with hydrologic and hydraulic engineering techniques. Such analyses shall be undertaken only by a licensed professional engineer, who shall certify that the technical methods used reflect currently accepted engineering concepts. Studies, analyses and computations shall be submitted in sufficient detail to allow thorough review by the Director, who shall accept or reject the applicant's determination of the elevation for purposes of implementing this article. The accuracy of data submitted for such determination shall be the responsibility of the applicant.

(Code 2004, § 50-45; Code 2015, § 14-61; Ord. No. 2014-95-66, § 2, 4-28-2014)

Sec. 14-62. District boundary changes; overlay concept.

The delineation of any floodplain district boundary may be revised by an ordinance adopted by the City Council where natural or manmade changes have occurred so as to alter the floodway or the area subject to inundation by waters of the 100-year flood or more detailed studies conducted or undertaken by the United States Army Corps of Engineers or other qualified agency, firm or individual documents the need for such revision. Prior to any such revision, approval shall be obtained in writing from the Federal Insurance Administration of the Federal Emergency Management Agency.

DIVISION 3. DISTRICT REGULATIONS

Sec. 14-83. Floodplain districts generally.

(a) *Permits required.* No development or land-disturbing activity within a designated floodplain district shall be undertaken until after issuance of a building permit or land-disturbing activity permit as required by Article III of this chapter. For the purpose of issuance of a permit, the 100-year flood elevation shall be the base floodwater surface elevation, with floodway, as shown in Table 2, floodway data of the flood insurance study dated December 15, 1978, and as revised effective July 20, 1998, April 2, 2009, July 16, 2014, and any subsequent revisions or amendments thereto.

(b) *Compliance with building code.* No development shall be permitted within any floodplain district except in strict compliance with the applicable sections of the Virginia Uniform Statewide Building Code.

(c) *Effect on capacity of floodways and watercourses.* No development or land-disturbing activity shall be permitted which would adversely affect the capacity of any floodway or watercourse subject to this article.

(d) *Alteration or relocation of watercourses.* Prior to any alteration or relocation of any watercourse, approval shall be obtained from the United States Army Corps of Engineers, the State Water Control Board, and the Virginia Marine Resources Commission; a joint permit application is available from any of these organizations. Furthermore, notification of such proposal shall be given by the applicant to all affected adjacent jurisdictions, the Division of Soil and Water Conservation of the Virginia Department of Conservation and Recreation, and the Federal Emergency Management Agency. The applicant shall be responsible for obtaining such approval and providing required notices. Proof of approval by the United States Army Corps of Engineers, the State Water Control Board, and the Virginia Marine Resources Commission as well as required notification shall be furnished to the Director prior to issuance of any land-disturbing activity permit.

(e) *Chesapeake Bay Site Plan approval required.* No development or land-disturbing activity shall be undertaken in a Chesapeake Bay Preservation Area until after a Chesapeake Bay Site Plan has been approved in accordance with the requirements of Article IV of this chapter.

(f) *Provision of vehicular access.* No new residential construction, with start of construction on or after December 9, 1991, shall be permitted without the provision of adequate vehicular access to the site at all times prior to and during the 100-year flood. Adequacy of access shall be as determined by the Director, after consultation with and approval by the Fire Marshal.

(Code 1993, § 13-61; Code 2004, § 50-91; Code 2015, § 14-83; Ord. No. 2004-330-320, § 1, 12-13-2004; Ord. No. 2009-12-31, § 1, 2-23-2009; Ord. No. 2014-95-66, § 3, 4-28-2014)

Sec. 14-84. Design criteria for utilities and facilities.

(a) *Design criteria generally.* The design criteria established by the most recent version of the Virginia Uniform Statewide Building Code and the Virginia Residential Code shall be applicable to utilities and facilities proposed to be installed within any floodplain district. For privately installed sanitary sewer or water facilities which are subject to approval by the District Health Director, the Director shall be satisfied, after conferring with the District Health Director and Commissioner of Buildings, that the applicable sections of the Uniform Statewide Building Code are met. In addition, the following particular design criteria shall be applicable:

(1) *Drainage facilities.* All storm drainage facilities shall be designed to convey the flow of surface waters so as to minimize or eliminate damage to persons or property. The system shall ensure drainage away from buildings and on-site waste disposal sites. The Director may require a primarily underground system to accommodate frequent floods and a secondary surface system to accommodate larger, less frequent floods. Drainage plans shall be consistent with and coordinated with local and regional drainage plans. The facilities shall be designed such that the quantity of runoff from a developed site during a ten-year storm event shall not exceed the quantity of runoff from the same site, pre-development, during a ten-year storm event.

(2) *Streets and sidewalks.* Streets and sidewalks shall be designed to minimize potential for increasing or aggravating flood levels. Drainage openings shall be provided to sufficiently discharge floodwaters without unduly increasing flood heights from the ten-year storm event.

(3) *On-site waste disposal systems.* On-site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.

(b) *Standards for flood fringe and approximated floodplain.*

(1) When base flood elevation data or floodway data have not been provided, the Director shall obtain, review, and reasonably utilize any base flood elevation and floodway data available from a Federal, State, or any other source, in order to administer the provisions of this article. When such base flood elevation data is utilized, the Director shall obtain:

a. The elevation (in relation to the mean sea level) of the lowest floor (including the basement) of all new and substantially improved structures; and

b. If the structure has been floodproofed in accordance with Federal Emergency Management Agency requirements, the elevation in relation to the mean sea level to which the structure has been floodproofed.

(2) When the data is not available from any source, the lowest floor of the structure shall be elevated to no lower than the highest adjacent grade.

(c) *Standards for the floodway district.* The following provisions shall apply within the floodway district:

(1) Encroachments, including fill, new construction, substantial improvements and other developments are prohibited, unless certification (with supporting technical data) by a registered professional engineer is provided demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood.

(2) Development activities which increase the water surface elevation of the base flood may be allowed, provided that the property owner or designated representative first applies, with the City's endorsement, for a conditional flood insurance rate map and floodway revision, and receives the approval of the Federal Emergency Management Agency.

(3) All new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions of this article.

(4) The placement of manufactured homes (mobile homes) is prohibited, except in an existing manufactured homes (mobile homes) park or subdivision. A replacement manufactured home may be placed on a lot in an existing manufactured home park or subdivision, provided the anchoring, elevation, and encroachment standards are met.

(Code 1993, § 13-63; Code 2004, § 50-93; Code 2015, § 14-84; Ord. No. 2009-12-31, § 1, 2-23-2009; Ord. No. 2014-95-66, § 3, 4-28-2014)

Cross reference—Utilities, Ch. 28.

Sec. 14-85. Subdivision requirements.

In addition to those requirements set forth elsewhere in this Code relative to the subdivision of land, the following requirements shall apply to any proposed subdivision and any portion of a proposed subdivision that lies within a floodplain district:

(1) The 100-year floodplain shall be delineated on tentative and final subdivision plats.

(2) Residential building lots shall be provided with adequate buildable area outside of the 100-year floodplain.

(3) The design criteria for utilities and facilities set forth in this article shall be met.

(Code 1993, § 13-64; Code 2004, § 50-94; Code 2015, § 14-85; Ord. No. 2009-12-31, § 1, 2-23-2009)

Cross reference—Subdivision of land, Ch. 25.

Sec. 14-86. Existing structures.

Structures and uses of structures that lawfully existed at the effective date of the ordinance from which this article is derived or of subsequent amendment of this article, and that do not conform with this article or any

amendment hereto may be continued subject to the following conditions:

(1) Existing structures and uses located within a floodway district shall not be expanded or enlarged, unless the effect of proposed expansion or enlargement on flood heights is fully offset by accompanying improvements.

(2) Any repair, reconstruction or improvement of an existing structure within a floodplain district to an extent so as to constitute substantial improvement as defined in this article shall be undertaken only in full compliance with the Uniform Statewide Building Code.

(Code 1993, § 13-65; Code 2004, § 50-95; Code 2015, § 14-86; Ord. No. 2014-95-66, § 3, 4-28-2014)

Sec. 14-87. Manufactured homes and recreational vehicles.

(a) *Manufactured homes.* Manufactured homes that are placed or substantially improved on-site shall be elevated on a permanent foundation such that the lowest floor of the manufactured home is elevated to at least one foot above the base flood elevation and at least three feet above grade; the chassis shall be securely anchored to an adequately anchored foundation system of reinforced piers or other foundation elements of at least equivalent strength to resist flotation, collapse, and lateral movement.

(b) *Recreational vehicles.* Recreational vehicles placed on sites shall either:

(1) Be on-site for fewer than 180 consecutive days;

(2) Be fully licensed and ready for highway use (i.e., be on their wheels or jacking system, be attached to the site by quick-disconnect-type utilities and security devices, and have no permanently attached additions); or

(3) Meet the permit requirements for placement and the elevation and anchoring requirements for manufactured homes in subsection (a) of this section.

(Code 1993, § 13-66; Code 2004, § 50-96; Code 2015, § 14-87; Ord. No. 2009-12-31, § 1, 2-23-2009; Ord. No. 2014-95-66, § 3, 4-28-2014)

Sec. 14-88. New construction and substantial improvements.

(a) All substantial improvements to existing structures or new construction within any floodplain district shall conform to the applicable sections of the Virginia Uniform Statewide Building Code.

(b) New construction or substantial improvement of any existing commercial, industrial, or nonresidential building (or manufactured home) shall have the lowest floor, including basement, elevated to no lower than one foot above the base flood elevation. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied.

(c) For historic structures as defined in this article, where elevation is not preferable, floodproofing may be allowed instead of elevation one foot above the base flood elevation. A registered professional engineer or architect shall certify on the certificate plans and floodproofing certificate that the construction design and methods meet the applicable requirements and shall submit such certificate to the Director.

(d) Fully enclosed areas below the lowest floor shall be used solely for parking of vehicles, building access or storage and shall have permanent openings designed to allow the entry and exit of floodwaters in accordance with specifications as set forth at 44 CFR 60.3(c)(5).

(Code 1993, § 13-67; Code 2004, § 50-97; Code 2015, § 14-88; Ord. No. 2009-12-31, § 1, 2-23-2009; Ord. No. 2014-95-66, § 3, 4-28-2014)

Secs. 14-89—14-119. Reserved.

DIVISION 4. ADMINISTRATION AND ENFORCEMENT

Sec. 14-120. Required permits.

(a) *Building permits.* For the purposes of this article, building permits shall be obtained as follows:

(1) A building permit to erect, construct, reconstruct, enlarge, extend or structurally alter any building or

structure within a floodplain district shall be required as set forth in the Virginia Uniform Statewide Building Code. Applications for building permits shall be filed with the Commissioner of Buildings, and no such permit shall be issued until the applicant has furnished satisfactory evidence that all necessary permits have been received from those governmental agencies from which approval is required by State and Federal law.

(2) In addition to information required by the Virginia Uniform Statewide Building Code to be provided in conjunction with building permit applications, the following shall be included when the property involved is located within a floodplain district:

a. The elevation of the 100-year flood and delineation of the 100-year floodplain;

b. The elevation of the lowest floor, including basement; and

c. The elevation to which a nonresidential structure is to be floodproofed.

(b) *Permits for land-disturbing activities.* Permits for land-disturbing activities shall be obtained as follows:

(1) A permit for any land-disturbing activity within a floodplain district shall be required as set forth in Article III of this chapter which pertains to site control, erosion and drainage, provided that the exceptions contained therein shall not be applicable within floodplain districts.

(2) For land-disturbing activity proposed in conjunction with construction for which a building permit application has been filed, a site grading and drainage plan shall be approved by the Director prior to issuance of the building permit, and a separate land-disturbing activity permit shall be required.

(3) Application for land-disturbing activity permits shall be made to the Director, and no such permit shall be issued nor shall any site grading and drainage plan be approved until the applicant has furnished satisfactory evidence that all necessary permits have been received from those governmental agencies from which approval is required by State and Federal law, and until the Director is satisfied that the applicable sections of this article and the site control, erosion and drainage regulations are met.

(4) The 100-year floodplain shall be delineated on all plans submitted for approval of land-disturbing activity and site grading and drainage.

(c) *Chesapeake Bay Site Plan.* A Chesapeake Bay Site Plan shall be required for any property located within a Chesapeake Bay Preservation Area in accordance with Article IV of this chapter.

(Code 1993, § 13-82; Code 2004, § 50-122; Code 2015, § 14-120; Ord. No. 2004-330-320, § 1, 12-13-2004; Ord. No. 2014-95-66, § 3, 4-28-2014)

Sec. 14-121. Modifications to requirements of building code.

(a) *Notification of cost of flood insurance.* Upon granting a modification to construct a structure below the 100-year flood level, the Building Code Board of Appeals shall notify the applicant in writing that the cost of flood insurance will be commensurate with the increased risk resulting from such construction.

(b) *Records of modifications granted.* Records shall be maintained by the Building Code Board of Appeals of all modifications granted, including the justification for each, and shall be included in any reports required by and submitted to the Federal Emergency Management Agency (FEMA).

(Code 1993, § 13-83; Code 2004, § 50-123; Code 2015, § 14-121)

Cross reference—Building code, § 5-1.

Sec. 14-122. Special exceptions.

(a) *Conditions.* The Director shall have the authority set forth in 44 CFR 60.6 to grant special exceptions to the sections of this article, other than such sections as pertain to the requirements of the Virginia Statewide Uniform Building Code and to the Chesapeake Bay Preservation Act set forth in Article IV of this chapter, provided that the applicant shall furnish sufficient information and documentation to satisfy the Director as to the following factors:

(1) There will be no increased danger to life and property due to increased flood heights or velocities caused by encroachments;

(2) Proposed development or activity within a floodway district will not cause any increase in flood levels during the 100-year flood;

(3) There will be no danger that materials may be swept downstream or onto other properties to the injury of others;

(4) The ability of proposed water supply and sanitation systems to avoid contamination and unsanitary conditions;

(5) The susceptibility of the proposed development and its contents to flood damage will be minimal;

(6) The expected heights, velocity, duration, rate of rise and sediment transport of floodwaters at the site will be acceptable in view of the purposes of this article;

(7) The availability of necessary access to the facility prior to and during periods of flooding;

(8) The requirements of the proposed development or activity for a waterfront location and the lack of availability of suitable alternative locations not subject to flooding or not requiring the issuance of a special exception;

(9) The appropriateness of the proposed development or activity with regard to the City's master plan;

(10) The proposed development or activity will not result in any conflict with the purposes of this article or with other codes and ordinances that may be applicable;

(11) The repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and that the special exception is the minimum necessary to preserve the historic character and design of the structure; and

(12) The exception shall be the minimum required to provide relief from the exceptional hardship to the applicant.

(b) *Notification of cost of flood insurance.* Upon issuance of a special exception for any development or activity below the 100-year flood level, the Director shall notify the applicant in writing that the cost of flood insurance will be commensurate with the increased risk resulting from such development or activity.

(c) *Records of special exceptions issued.* The Director shall maintain records of all special exceptions granted, including the justification for each, and shall include any applicable records in reports required by and submitted to the Federal Insurance Administrator.

Sec. 14-149. Local erosion and sediment control plan.

(a) The City hereby adopts by reference the regulations, references, guidelines, standards and specifications promulgated by the State Water Control Board and the City's Chesapeake Bay Public Information Manual for those

projects located within a Chesapeake Bay Preservation Area for the effective control of soil erosion and sediment deposition to prevent the unreasonable degradation of properties, stream channels, waters and other natural resources. Such regulations, references, guidelines, standards and specifications for erosion and sediment control and any amendments thereto also shall include, but not be limited to, the Virginia Erosion and Sediment Control Regulations (9VAC25-840-10 et seq.) and the Virginia Erosion and Sediment Control Handbook published by the Virginia Department of Conservation and Recreation, as amended.

(b) In accordance with Code of Virginia, § 62.1-44.15:52, for any plan approved prior to July 1, 2014, stream restoration and relocation projects that incorporate natural channel design concepts are not manmade channels and shall be exempt from any flow rate capacity and velocity requirements for natural or manmade channels.

(c) In accordance with Code of Virginia, § 62.1-44.15:52, for any plan approved prior to July 1, 2014, any land-disturbing activity that provides for stormwater management intended to address any flow rate capacity and velocity requirements for natural or manmade channels shall satisfy the flow rate capacity and velocity requirements for natural or manmade channels if the practices are designed to:

(1) Detain the water quality volume and to release it over 48 hours;

(2) Detain and release over a 24-hour period the expected rainfall resulting from the one year, 24-hour storm; and

(3) Reduce the allowable peak flow rate resulting from the 1 1/2-year, two-year, and ten-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site, assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition, and shall be exempt from any flow rate capacity and velocity requirements for natural or manmade channels.

For plans approved on and after July 1, 2014, the flow rate capacity and velocity requirements of this subsection shall be satisfied by compliance with water quantity requirements in the Stormwater Management Act (Code of Virginia, § 62.1-44.15:24 et seq.) and attendant regulations, unless such land-disturbing activities are in accordance with 9VAC25-870-48 of the Virginia Stormwater Management Program Permit Regulations.

(d) Pursuant to Code of Virginia, § 62.1-44.15:52, for any plan approved prior to July 1, 2014, an erosion and sediment control plan shall not be approved until it is reviewed by a certified plan reviewer. Inspections of land-disturbing activities shall be conducted by a certified inspector. The City's erosion control program shall contain a certified program administrator, a certified plan reviewer, and a certified inspector, who may be the same person.

(e) The program and regulations provided for in this article shall be made available for public inspection at the Office of the Department of Public Utilities.

(Code 2004, § 50-193; Code 2015, § 14-149; Ord. No. 2014-116-89, § 1, 5-27-2014)

Sec. 14-150. Submission and approval of plans; content of plans.

(a) Except as provided herein, no person may engage in any land-disturbing activity until he or she has submitted to the Administrator an erosion and sediment control plan for the land-disturbing activity, and the Administrator has issued one of the following permits:

(1) A Richmond Stormwater Program Permit pursuant to Article V of this chapter;

(2) A land-disturbing permit if the land-disturbing activity will occur within the City's combined sewer system service area; or

(3) A land-disturbing permit if the land-disturbing activity will occur within the City's municipal separate storm sewer system service area and compliance is required under this article, but not under Article V of this chapter.

No person shall conduct land-disturbing activity unless and until the Administrator has issued a Richmond Stormwater Management Program Permit, or a land-disturbing permit for the land-disturbing activity. If the land-disturbing activity results from the construction of a detached, separately built single-family residence, an agreement in lieu of a plan may be substituted for an erosion and sediment control plan if executed by the plan-

approving authority.

(b) The applicant shall adhere to the standards contained within the Virginia Erosion and Sediment Control Regulations (9VAC25-840-10 et seq.) and the Virginia Erosion and Sediment Control Handbook when making a submittal under the provisions of this article and in the preparation of an erosion and sediment control plan. The Administrator, in considering the adequacy of a submitted plan, shall be guided by the same standards, regulations, and guidelines. When the standards vary between the publications, the restrictive standards shall take precedence.

(c) The Administrator shall review submitted conservation plans and grant written approval within 60 days of the receipt of the erosion and sediment control plan if the Administrator determines that the plan meets the requirements of the State Water Control Board's regulations and if the person responsible for carrying out the plan certifies that he or she will properly perform the conservation measures included in the plan and will conform to the provisions of this article. In addition, as a prerequisite to plan approval, the person responsible for carrying out the plan shall provide the City with the name of an individual who holds a certificate of competence, as provided by Code of Virginia, § 62.1-44.15:55, and who will be in charge of, and responsible for, carrying out the land-disturbing activity. Failure to provide the name of an individual responsible land disturber holding a certificate of competence prior to engaging in land-disturbing activities may result in revocation of the approval of the plan and the person responsible for carrying out the plan shall be subject to the penalties set forth in this article.

(d) The Administrator shall act on the erosion and sediment control plan within 60 days from receipt of a complete application by either approving said plan in writing or by disapproving said plan in writing and giving specific reasons for its disapproval.

(e) When the erosion and sediment control plan is determined to be inadequate, the Administrator shall specify such modifications, terms, and conditions that will permit approval of the plan. If no action is taken within 45 days, the plan shall be deemed approved, and the person shall be authorized to proceed with the proposed activity.

(f) The Administrator may modify an approved erosion and sediment control plan if:

(1) An inspection reveals that the plan is inadequate to satisfy applicable regulations; or

(2) The person responsible for carrying out the plan finds that because of changed circumstances or for other reasons the approved plan cannot be effectively carried out, and proposed amendments to the plan, consistent with the requirements of this article, are agreed to by the Administrator and the person responsible for carrying out the plans.

(g) In order to prevent further erosion, the City may require approval of a plan for any land identified in the local program as an erosion impact area.

(h) When land-disturbing activity will be required of a contractor performing construction work pursuant to a construction contract, the preparation, submission, and approval of an erosion and sediment control plan shall be the responsibility of the owner.

(i) State agency projects are exempt from the provisions of this article, except as provided for in Code of Virginia, § 62.1-44.15:56.

(Code 2004, § 50-194; Code 2015, § 14-150; Ord. No. 2014-116-89, § 1, 5-27-2014)

Sec. 14-151. Variances.

The Administrator may waive or modify any of the requirements that are deemed to be too restrictive for site conditions by granting a variance. A variance may be granted when all of the following conditions are satisfied:

(1) At the time of plan submission, an applicant may request a variance to become part of the approved erosion and sediment control plan. The applicant shall explain the reasons for any requested variance in writing. The Administrator shall document any granted variances in the plan.

(2) During construction, the person responsible for implementing the approved plan may request a variance in writing from the Administrator. The Administrator shall respond in writing either approving or disapproving such a request. If the Administrator does not approve a variance within ten days of receipt of the request, the request shall be considered to be disapproved. Following disapproval, the applicant may resubmit a variance request with additional documentation.

(Code 2004, § 50-195; Code 2015, § 14-151; Ord. No. 2014-116-89, § 1, 5-27-2014)

Sec. 14-152. Permits and fees.

(a) No person may engage in any land-disturbing activity until such person has obtained a Richmond Stormwater Management Program Permit issued under Article V of this chapter, or, for land-disturbing activities that will occur within the City's combined sewer system service area, or for land-disturbing activities that will occur within the City's separate storm sewer system service area that require compliance with this article but not with Article V of this chapter, until such person has obtained a land-disturbing permit from the Administrator.

(b) Prior to the issuance of a Richmond Stormwater Management Program Permit issued pursuant to Article V of this chapter or a land-disturbing permit, a building permit or a demolition permit, the Administrator must have approved the erosion and sediment control plan as conforming to this article.

(c) An administrative fee shall be paid to the City at the time of submission of the erosion and sediment control application if land-disturbing activities will occur within the combined sewer system service area or within the City's separate storm sewer system service area pursuant to this article. If land-disturbing activity will occur such that a Richmond Stormwater Management Program Permit must be obtained pursuant to Article V of this chapter, the applicant shall pay the fee for the Richmond Stormwater Management Program Permit approval. The permit fee shall be $300.00 for the first acre or fraction thereof, and $100.00 for each additional acre or fractional part of an acre in excess of one acre. The maximum allowable fee shall be $1,000.00. Any person who has obtained a land-disturbing permit issued in accordance with subsection (a) of Section 14-150 and whose erosion and sediment control plans are revised after any such permit is issued shall pay a revised plans fee in the amount of ten percent of the initial permit fee or $50.00, whichever is greater.

(d) No Richmond Stormwater Management Program Permit issued pursuant to Article V of this chapter shall be issued unless and until the applicant submits with his or her application an approved erosion and sediment control plan and certification that the plan will be followed.

(e) The Administrator may require any applicant for a land-disturbing permit to allow land-disturbing activities within the combined sewer system service area or within the City's separate storm sewer system service area to provide the City with a performance bond, a cash escrow, or an irrevocable letter of credit acceptable to the Administrator, to ensure that the City can take measures at the applicant's expense if the applicant fails, after proper notice, and within the time specified to initiate or maintain appropriate conservation measures required of him by the approved plan as a result of his land-disturbing activity.

(f) The amount of the bond or other security for performance provided by subsection (e) of this section shall not exceed the total of the estimated cost to initiate and maintain appropriate conservation action based on unit price for new public or private sector construction in the City and a reasonable allowance for estimated administrative costs and inflation, which such allowance shall not exceed 25 percent of the cost of the conservation action. Should it be necessary for the City to take such conservation action, the City may collect from the applicant any costs in excess of the amount of the surety held.

(g) Within 60 days of adequate stabilization of a project governed by subsection (e) of this section, as determined by the Administrator, in any project or section of a project, the Administrator shall either refund or terminate such bond, cash escrow, or letter of credit, or the unexpended or un-obligated portion thereof, based upon the percentage of stabilization accomplished in the project or project section. These requirements are in addition to all other provisions relating to the issuance of permits and are not intended to otherwise affect the requirements for such permits.

(Code 2004, § 50-196; Code 2015, § 14-152; Ord. No. 2008-106-85, § 3, 5-12-2008; Ord. No. 2014-116-89, §§ 1, 4, 5-27-2014; Ord. No. 2019-066, § 1, 5-13-2019)

Sec. 14-153. Monitoring, reports and inspections.

(a) The Administrator shall, as a part of approving an erosion and sediment control plan, require that an individual holding a responsible land disturber certificate, be subject to monitoring and reports by a certified inspector or the Administrator, or both. The person responsible for carrying out the erosion and sediment control plan shall maintain records of the inspections and maintenance, to ensure compliance with the approved plan and to determine whether the measures required in the plan are effective in controlling erosion and sedimentation.

(b) The Administrator shall periodically inspect the land-disturbing activity in accordance with section 9VAC25-840-60 of the Virginia Erosion and Sediment Control Regulations to ensure compliance with the approved plan and to determine whether the measures required in the plan are effective in controlling erosion and sedimentation. The owner, permittee, or person responsible for carrying out the plan shall be given notice of the inspection.

(c) If the Administrator determines that there is a failure to comply with the erosion and sediment control plan, the Administrator is authorized to pursue any and all methods of enforcement set forth in Section 14-154 or Section 14-335, or both. Additionally, if the Administrator determines that there is a failure to comply with the erosion and sediment control plan, a notice to comply shall be served upon the permittee or person responsible for carrying out the plan by registered or certified mail to the address specified in the permit application or in the plan certification, or by delivery at the site of the land-disturbing activities to the agent or employee supervising such activities.

(d) The notice to comply shall specify the measures needed to comply with the plan and shall specify the time within which such measures shall be completed. Upon failure to comply within the specified time, the permit may be revoked and the permittee or person responsible for carrying out the plan shall be deemed to be in violation of this article, and the City may pursue legal action against the permittee or person responsible.

(e) Upon determination of a violation of this article, the Administrator may, in conjunction with or subsequent to a notice to comply as specified in this article, issue an order requiring that all or part of the land-disturbing activities permitted on the site be stopped until the specified corrective measures have been taken.

(f) If land-disturbing activities have commenced without an approved plan, the Administrator may, in conjunction with or subsequent to a notice to comply as specified in this article, issue an order requiring that all of the land-disturbing activities be stopped until an approved plan or any required permits are obtained.

(g) Where the alleged noncompliance is causing or is in imminent danger of causing harmful erosion of lands or sediment deposition in waters within the watersheds of the Commonwealth, or where the land-disturbing activities have commenced without an approved plan or any required permits, such an order may be issued without regard to whether the permittee has been issued a notice to comply as specified in this article. Otherwise, such an order may be issued only after the permittee has failed to comply with such a notice to comply.

(h) The order shall be served in the same manner as a notice to comply, and shall remain in effect until rescinded by the Administrator.

(i) If the alleged violator has not obtained an approved plan or any required permits within seven days from the date of service of the order, the plan-approving authority may issue an order to the owner requiring that all construction and other work on the site, other than corrective measures, be stopped until an approved plan and any required permits have been obtained. Such an order shall be served upon the owner by registered or certified mail to the address specified in the permit application or the land records of the Office of the City Assessor.

(j) Any person violating or failing, neglecting or refusing to timely obey an order issued by the plan-approving authority may be compelled in a proceeding instituted in the Circuit Court of the City of Richmond to obey same and to comply therewith by injunction, mandamus or other appropriate remedy.

(k) Nothing in this section shall prevent the plan-approving authority from taking any other action authorized by this article.

(Code 2004, § 50-197; Code 2015, § 14-153; Ord. No. 2014-116-89, § 1, 5-27-2014)

Sec. 14-154. Penalties, injunctions and other legal actions.

(a) Violators of this article shall be guilty of a Class 1 misdemeanor.

(b) The City, or the owner of property which has sustained damage or which is in imminent danger of being damaged, may petition the Circuit Court of the City of Richmond to enjoin a violation or threatened violation of this article without the necessity of showing that an adequate remedy at law does not exist. However, an owner of property shall not apply for injunctive relief unless:

(1) Such owner has notified, in writing, the person who has violated the local program and the program authority that a violation of the local program has caused, or creates a probability of causing, damage to

his property; and

(2) Neither the person who has violated the local program nor the program authority has taken corrective action within 15 days to eliminate the conditions which have caused, or create the probability of causing, damage to such owner's property.

(c) Without limiting the remedies that may be obtained in this section, any person who violates or fails, neglects, or refuses to obey any injunction, mandamus, or other remedy obtain pursuant to this section shall be subject, in the discretion of the court, to a civil penalty not to exceed $2,000.00 for each violation. A civil action for such violation or failure may be brought by the City where the land lies. Any civil penalties assessed by a court shall be paid into the City's treasury.

(d) Any person who has violated or failed, neglected, or refused to obey any order, notice or requirement of the plan-approving authority, the Administrator, or the City, any condition of a permit, or any provision of this article or associated regulation shall, upon the finding of an appropriate court, be assessed a civil penalty. The civil penalty for any one violation shall be not less than $100.00 nor more than $1,000.00. Each day during which the violation is found to have existing shall constitute a separate offense. In no event shall a series of specified violations arising from the same operative set of facts result in civil penalties which exceed a total of $10,000.00, except that a series of violations arising from the commencement of land-disturbing activities without an approved plan for any site shall not result in civil penalties which exceed a total of $10,000.00.

(e) If the City pursues a civil penalty, it shall do so by issuing a summons for collection of the civil penalty. In any trial for a scheduled violation, it shall be the City's burden to show the liability of the violator by a preponderance of the evidence. An admission or finding of liability shall not be a criminal conviction for any purpose.

(f) With the consent of any person who has violated or failed, neglected, or refused to obey any order, notice or requirement of the City, any condition of a permit, or any provision of this article, the City may provide, in an order issued against such person, for the payment of civil charges for violations in specific sums, not to exceed the limit specified in subsection (c) of this section. Such civil charges shall be instead of any appropriate civil penalty that could be imposed under subsection (c) or (d) of this section.

(g) In addition to any criminal penalties provided under this article, any person who violates any provision of this article may be liable to the City in a civil action for damages.

(h) The City Attorney shall, upon request of the Administrator, take legal action to enforce the provisions of this article.

(i) Compliance with the provisions of this article shall be prima facie evidence in any legal or equitable proceeding for damages caused by erosion, siltation, or sedimentation that all requirements of law have been met, and the complaining party must show negligence in order to recover any damages.

(j) Appeals by alleged violators shall be governed by the Act.

(Code 2004, § 50-198; Code 2015, § 14-154; Ord. No. 2014-116-89, § 1, 5-27-2014)

(a) *Right of appeal.* Any applicant who is aggrieved by any action of the plan-approving authority in disapproving plans submitted pursuant to this article shall have the right to file an appeal of such action with the Director. Such appeal shall be filed within 30 days from the date of the action appealed.

(b) *Scheduling of hearing.* Within 15 days of the date on which the applicant files the appeal in the Office of the Director, the Director shall schedule a hearing thereon at which both the applicant and the plan-approving authority representative may be heard. Such hearing shall be scheduled no sooner than 30 days after the Director furnishes the applicant and the plan-approving authority representative with written notice of the date, time and location of the hearing.

(c) *Review and decision.* The Director shall review the evidence and arguments by both the applicant and

the plan-approving authority representative. Such evidence and arguments may be submitted in writing prior to the hearing or presented during the hearing. No later than 15 days after the hearing described in subsection (b) of this section, the Director shall issue to the applicant and the plan-approving authority representative a written decision affirming, reversing or modifying the action of the plan-approving authority.

(d) *Judicial review.* The decision of the Director shall be final, unless the applicant appeals such decision to the Circuit Court of the City of Richmond within 30 days of the date on which the Director issues such decision.

(e) *Administrative procedures.* The Administrator shall develop procedures not inconsistent with this section for the administration of the appeals process set forth in this section.

DIVISION 3. CHESAPEAKE BAY PRESERVATION AREA DESIGNATION CRITERIA

Sec. 14-230. Purpose.

The criteria in this division provide direction for the designation of the ecological and geographic extent of Chesapeake Bay Preservation Areas. Chesapeake Bay Preservation Areas are divided into resource protection areas and resource management areas that are subject to the criteria in Division 4 (Section 14-262 et seq.) of this article. In addition, the criteria in this division provide guidance for the identification of areas suitable for redevelopment that are subject to the redevelopment criteria in Division 4 (Section 14-262 et seq.) of this article.

(Code 2004, § 50-320; Code 2015, § 14-230; Ord. No. 2014-116-89, § 2, 5-27-2014)

Sec. 14-231. Resource protection areas.

(a) At a minimum, resource protection areas shall consist of lands adjacent to water bodies with perennial flow that have an intrinsic water quality value due to the ecological and biological processes they perform or are sensitive to impacts which may cause significant degradation to the quality of State waters. In their natural condition, these lands provide for the removal, reduction or assimilation of sediments, nutrients and potentially harmful or toxic substances in runoff entering the Bay and its tributaries, and minimize the adverse effects of human activities on State waters and aquatic resources.

(b) The resource protection area shall include:

(1) Tidal wetlands;

(2) Nontidal wetlands connected by surface flow and contiguous to tidal wetlands or water bodies with perennial flow;

(3) Tidal shores;

(4) Such other lands considered by the City to meet the provisions of subsection (a) of this section and to be necessary to protect the quality of State waters and lands delineated on the Chesapeake Bay Preservation Areas Map; and

(5) A buffer area not less than 100 feet in width located adjacent to and landward of the components listed in subsections (b)(1) through (4) of this section, and along both sides of any water body with perennial flow. The full buffer area shall be designated as the landward component of the resource protection area notwithstanding the presence of permitted uses, encroachments, and permitted vegetation clearing in compliance with Division 4 (Section 14-262 et seq.) of this article.

(c) Designation of the components listed in subsections (b)(1) through (4) of this section shall not be subject to modification by the City, unless based on reliable, site-specific information as provided for in Section 14-234 and Section 14-263(6).

(d) For the purpose of generally determining whether water bodies have perennial flow, the City may use either the designation of water bodies depicted as perennial on the most recent United States Geological Survey 7 1/2-minute topographic quadrangle map (scale 1:24,000) or a reliable, site-specific determination conducted pursuant to Section 14-234.

(Code 2004, § 50-321; Code 2015, § 14-231; Ord. No. 2014-116-89, § 2, 5-27-2014; Ord. No. 2018-025, § 1, 2-26-2018)

Sec. 14-232. Resource management areas.

(a) Resource management areas shall include land types that, if improperly used or developed, have a potential for causing significant water quality degradation or for diminishing the functional value of the resource protection area.

(b) A resource management area shall be provided contiguous to the entire inland boundary of the resource protection area. The following land categories shall be considered for inclusion in the resource management area and, where mapping resources indicate the presence of these land types contiguous to the resource protection area, should be included in designations of resource management areas:

(1) 100-year floodplains;

(2) Highly erodible soils, including steep slopes;

(3) Highly permeable soils;

(4) Nontidal wetlands not included in the resource protection area; and

(5) Such other lands considered by the City to meet the provisions of subsection (a) of this section and to be necessary to protect the quality of State waters and lands delineated on the Chesapeake Bay Preservation Areas Map.

(c) Resource management areas shall encompass a land area large enough to provide significant water quality protection through the employment of the criteria in Title 9, Agency 25, Chapter 830, Part IV (9VAC25-830-120 et seq.) and the requirements in Title 9, Agency 25, Chapter 830, Parts II (9VAC25-830-50 et seq.) and V (9VAC25-830-160 et seq.) of the Virginia Administrative Code. For the purpose of mapping those resource management areas, so designated because they buffer designated resource protection areas, the map shall include, at a minimum, a 500-foot buffer around any designated resource protection area and the limits of any land categories listed in subsection (b) of this section which extend beyond this 500-foot buffer. In areas where the resource management area buffers a stream, shown as a blue line on the Chesapeake Bay Preservation Areas Map, or a water body contiguous to such stream and where the site-specific evaluation has yet to be done, the City Council may amend the Chesapeake Bay Preservation Areas Map to include any area within a 600-foot buffer outward from the center of such stream or water body as a resource management area.

(Code 2004, § 50-322; Code 2015, § 14-232; Ord. No. 2014-116-89, § 2, 5-27-2014; Ord. No. 2018-025, § 1, 2-26-2018)

Sec. 14-233. Intensely developed areas.

(a) The City may designate intensely developed areas as an overlay of Chesapeake Bay Preservation Areas within its jurisdiction. For the purposes of this article, intensely developed areas shall serve as redevelopment areas in which development is concentrated as of November 11, 1991. Areas so designated shall comply with the performance criteria for redevelopment in Division 4 (Section 14-262 et seq.) of this article.

(b) The City shall examine the pattern of residential, commercial, industrial and institutional development within Chesapeake Bay Preservation Areas and areas of existing development and infill sites where little of the natural environment remains may be designated as intensely developed areas, provided at least one of the following conditions existed at the time the City's program was originally adopted:

(1) Development has severely altered the natural state of the area such that it has more than 50 percent impervious surface.

(2) Public sewer and water systems, or a constructed stormwater drainage system, or both, have been constructed and served the area by November 11, 1991. This condition does not include areas planned for public sewer and water or constructed stormwater drainage systems.

(3) Housing density is equal to or greater than four dwelling units per acre.

(Code 2004, § 50-323; Code 2015, § 14-233; Ord. No. 2014-116-89, § 2, 5-27-2014)

Sec. 14-234. Site-specific refinement of Chesapeake Bay Preservation Area boundaries.

(a) The City shall, on all properties located within a designated Chesapeake Bay Preservation Area, as part of the Chesapeake Bay Site Plan review process pursuant to Section 14-263(10) or during the review of a water quality impact assessment pursuant to Section 14-264(6), ensure or confirm that:

(1) A reliable, site-specific evaluation is conducted to determine whether water bodies on or adjacent to the development site have perennial flow; and

(2) Chesapeake Bay Preservation Area boundaries are to be adjusted, as necessary, on the site, based on this evaluation of the site.

(b) Where no existing evaluation has been confirmed, the City shall ensure that a reliable, site-specific evaluation is conducted by either conducting the site evaluation or requiring the person applying to use or develop the site to conduct the evaluation and submit the resulting findings for review. When required by the City, site-specific evaluations shall be performed using one of the protocols acceptable to the Virginia Department of Environmental Quality, which include the North Carolina and Fairfax County field indicator protocols referred to in the document adopted by the Commonwealth of Virginia entitled "Determinations of Water Bodies with Perennial Flow, Guidance on the Chesapeake Bay Preservation Area Designation and Management Regulations" and any other protocol either set forth in written guidance issued by the Virginia Department of Environmental Quality or for which the Administrator has received written confirmation from an authorized representative of the Virginia Department of Environmental Quality that such protocol is acceptable to the Virginia Department of Environmental Quality. Each site-specific evaluation must be performed, and certified as complete and accurate, by a qualified professional. To be qualified, a professional must (i) work or be certified in a related field such as stream ecology, hydrology, or hydrogeology, (ii) have secondary education, post-secondary education, or technical training in a related field such as stream ecology, hydrology, or hydrogeology, and (iii) have field experience performing or substantially assisting with the performance of a site-specific evaluation using the protocol employed. The City may, at its sole discretion, conduct a site-specific evaluation using a professional qualified pursuant to this section for any purpose.

(Code 2004, § 50-324; Code 2015, § 14-234; Ord. No. 2014-116-89, § 2, 5-27-2014; Ord. No. 2018-025, § 1, 2-26-2018)

DIVISION 4. LAND USE AND DEVELOPMENT PERFORMANCE CRITERIA

Sec. 14-262. Purpose.

(a) The purpose of this division is to achieve the goals of the Act and Section 14-201 by establishing criteria to implement the following objectives: prevent a net increase in nonpoint source pollution from new development and development on previously developed land where the runoff was treated by a water quality protection best management practice, achieve a ten-percent reduction in nonpoint source pollution from development on previously developed land where the runoff was not treated by one or more water quality best management practices, and achieve a 40-percent reduction in nonpoint source pollution from agricultural and silvicultural uses.

(b) In order to achieve these goals and objectives, the criteria in this division establishes performance standards to minimize erosion and sedimentation potential, reduce land application of nutrients and toxins, maximize rainwater infiltration, and ensure the long-term performance of the measures employed.

(c) The criteria in this division became mandatory on January 1, 2005. They are supplemental to the various planning and zoning concepts employed by the City in granting, denying, or modifying requests to rezone, subdivide, or to use and develop land in Chesapeake Bay Preservation Areas.

(d) The City has incorporated the criteria in this division into its comprehensive plan and subdivision ordinance and may incorporate the criteria in this division into such other ordinances and regulations as may be appropriate, in accordance with Code of Virginia, § 62.1-44.15:74 and Title 9, Agency 25, Chapter 830, Parts V (9VAC25-830-160 et seq.), VI (9VAC25-830-180 et seq.), and VII (9VAC25-830-200 et seq.) of the Virginia Administrative Code. The criteria may be employed in conjunction with other planning and zoning concepts to protect the quality of State waters.

(Code 2004, § 50-330; Code 2015, § 14-262; Ord. No. 2014-116-89, § 2, 5-27-2014)

Sec. 14-263. General performance criteria.

Through its applicable land use ordinances, regulations and enforcement mechanisms, the City shall require that any use, development or redevelopment of land in Chesapeake Bay Preservation Areas meet the following performance criteria:

(1) No more land shall be disturbed than is necessary to provide for the proposed use or development.

(2) Indigenous vegetation shall be preserved to the maximum extent practicable, consistent with the use or development proposed. Indigenous vegetation may be replaced with other vegetation that is equally effective in retarding runoff, preventing erosion and filtering nonpoint source pollution.

(3) Where the best management practices are utilized that require regular or periodic maintenance to continue their functions, such maintenance shall be ensured through a maintenance agreement with the owner or developer or some other mechanism approved by the City that achieves an equivalent objective. Maintenance agreements submitted for best management practices installed or used in areas of the City served by the municipal separate storm sewer system pursuant to Section 14-331 will be accepted if consistent with the requirements above.

(4) All development exceeding 2,500 square feet of land disturbance shall be accomplished through a plan of development review process consistent with Code of Virginia, § 15.2-2286(A)(8) and subdivision (1)(e) of 9VAC25-830-240 of the Virginia Administrative Code.

(5) Land development shall minimize impervious cover consistent with the proposed use or development.

(6) Any land-disturbing activity that exceeds an area of 2,500 square feet (including construction of all single-family houses, septic tanks and drain fields, but otherwise as defined in Code of Virginia, § 62.1-44.15:51) shall comply with the requirements of Article III of this chapter.

(7) Where applicable, stormwater management criteria consistent with the water quality protection provisions of the Virginia Stormwater Management Program Regulations shall be satisfied.

a. Subject to the foregoing, the following stormwater management options shall be considered to comply with this subsection:

1. Incorporation on the site of best management practices that meet the water quality protection requirements set forth in this subsection. For the purposes of this subsection, the site may include multiple projects or properties that are adjacent to one another or lie within the same drainage area where a single best management practice will be utilized by those projects to satisfy water quality protection requirements;

2. Compliance with a locally adopted Regional Stormwater Management Program, which may include a Virginia Pollution Discharge Elimination System (VPDES) permit issued by the Commonwealth of Virginia to the City for its municipally-owned separate storm sewer system discharges, that is reviewed and found by the Commonwealth to achieve water quality protection equivalent to that required by this subsection; and

3. Compliance with a site-specific VPDES permit issued by the Commonwealth of Virginia, provided that the City specifically determines that the permit requires measures that collectively achieve water quality protection equivalent to that required by this subsection.

b. Any maintenance, alteration, use or improvement to an existing structure that does not degrade the quality of surface water discharge, as determined by the City, may be exempted from the requirements of this subsection.

c. Stormwater management criteria for redevelopment shall apply to any redevelopment, whether or not it is located within an intensely developed area designated by the City.

(8) Silvicultural activities in Chesapeake Bay Preservation Areas are exempt from this article, provided that silvicultural operations adhere to water quality protection procedures prescribed by the Virginia Department of Forestry in the January 1997 edition of "Forestry Best Management Practices for Water Quality in Virginia Technical Guide." The Virginia Department of Forestry will oversee and document

installation of best management practices and will monitor in-stream impacts of forestry operations in Chesapeake Bay Preservation Areas.

(9) The City shall require evidence of all wetlands permits and delineation approvals required by law prior to authorizing grading or other on-site activities to begin.

(10) A Chesapeake Bay Site Plan shall be required for any land disturbance, development or redevelopment within a designated Chesapeake Bay Preservation Area. No Richmond Stormwater Management Program Permit, building permit, or land-disturbing permit issued pursuant to Article III of this chapter shall be issued for any activity until the City has approved a Chesapeake Bay Site Plan in accordance with the requirements of this section and Section 14-264.

(11) On-site sewage treatment systems not requiring a Virginia Pollutant Discharge Elimination System permit shall, for new construction, provide a reserve sewage disposal site with a capacity at least equal to that of the primary sewage disposal site. This reserve sewage disposal site requirement shall not apply to any lot or parcel recorded prior to October 1, 1989, if the lot or parcel is not sufficient in capacity to accommodate a reserve sewage disposal site, as determined by the local Health Department. Building shall be prohibited on the area of all sewage disposal sites until the structure is served by public sewer or an on-site sewage treatment system which operates under a permit issued by the State Water Control Board. All sewage disposal site records shall be administered to provide adequate notice and enforcement.

(12) On-site sewage treatment systems not requiring a Virginia Pollutant Discharge Elimination System permit shall be pumped and maintained at least once every five years. Such pumping and maintenance shall be performed in a manner approved by the District Health Department. Immediately upon having the sewage treatment system pumped and maintained, the owner of a sewage treatment system shall certify on a form approved by the District Health Department or an on-site service professional that such pumping and maintenance was performed. The pumping and maintenance required by this section shall be performed only by an individual or entity approved by the District Health Director or licensed by the Virginia Department of Professional and Occupational Regulation. However, in lieu of the mandatory pump-out, the District Health Department shall, consistent with 9VAC25-830-130(7)(a), allow (i) installation and maintenance of a plastic filter in the sewage treatment system tank outflow pipe or (ii) documentation every five years, certified by an operator or on-site soil evaluator licensed or certified under Code of Virginia, Title 54.1, Ch. 23 (Code of Virginia, § 54.1-2300 et seq.) as being qualified to operate, maintain, or design on-site sewage systems, demonstrating that the sewage treatment system has been inspected and maintained, that the sewage treatment system is functioning properly, and that the tank does not require pumping.

(Code 2004, § 50-331; Code 2015, § 14-263; Ord. No. 2014-116-89, § 2, 5-27-2014; Ord. No. 2018-025, § 1, 2-26-2018)

Sec. 14-264. Development criteria for resource protection areas.

In addition to the general performance criteria set forth in Section 14-263, the criteria in this section are applicable in resource protection areas.

(1) *Approval required.*

a. Land development may be allowed in the resource protection area, subject to approval by the City, only if it:

1. Is water-dependent;

2. Constitutes redevelopment;

3. Constitutes development or redevelopment within a designated intensely developed area;

4. Is a new use established pursuant to subsection (1)e.1 of this section;

5. Is a road or driveway crossing satisfying the conditions set forth in subsection (1)e.4 of this section; or

6. Is a flood control or stormwater management facility satisfying the conditions set forth in

subsection (5) of this section.

b. A water quality impact assessment in accordance with subsection (6) of this section shall be required for any proposed land disturbance.

c. A new or expanded water-dependent facility may be allowed, provided that the following criteria are met:

1. It does not conflict with the comprehensive plan;

2. It complies with the performance criteria set forth in Section 14-263;

3. Any nonwatery-dependent component is located outside of resource protection areas; and

4. Access to the water-dependent facility will be provided with the minimum disturbance necessary. Where practicable, a single point of access will be provided.

d. Redevelopment, outside designated intensely developed areas, shall be permitted in the resource protection area only if there is no increase in the amount of impervious cover and no further encroachment within the resource protection area, and it shall conform to applicable erosion and sediment control and stormwater management criteria set forth in subsections (6) and (7) of this section, respectively, of Section 14-263, as well as all applicable stormwater management requirements of other State and Federal agencies.

e. Roads and driveways not exempt under Section 14-292(b)(1) and which, therefore, must comply with the provisions of this article, may be constructed in or across resource protection areas if each of the following conditions is met:

1. The City makes a finding that there are no reasonable alternatives to aligning the road or driveway in or across the resource protection area;

2. The alignment and design of the road or driveway are optimized, consistent with other applicable requirements, to minimize:

(i) Encroachment in the resource protection area; and

(ii) Adverse effects on water quality;

3. The design and construction of the road or driveway satisfy all applicable criteria of this article, including submission of a water quality impact assessment; and

4. The City reviews the plan for the road or driveway proposed in or across the resource protection area in coordination with the City's site plan, subdivision and plan of development approvals.

f. Flood control and stormwater management facilities that drain or treat water from multiple development projects or from a significant portion of a watershed may be allowed in resource protection areas, provided that:

1. The City has conclusively established that location of the facility within the resource protection area is the optimum location;

2. The size of the facility is the minimum necessary to provide necessary flood control or stormwater treatment, or both;

3. The facility must be consistent with a comprehensive stormwater management plan developed and that has been approved in accordance with 9VAC25-870-92 of the Virginia Stormwater Management Program regulations;

4. All applicable permits for construction in State or Federal waters must be obtained from the appropriate State and Federal agencies, such as the United States Army Corps of Engineers, the Virginia Department of Environmental Quality, and the Virginia Marine Resources Commission;

5. Approval must be received from the City prior to construction; and

6. Routine maintenance is allowed to be performed on such facilities to assure that they continue to function as designed.

It is not the intent of this subsection to allow a best management practice that collects and treats runoff from only an individual lot or some portion of the lot to be located within a resource protection area.

(2) *Exemptions in resource protection areas.*

a. The following land disturbances in resource protection areas may be exempt from the criteria of this division provided that they comply with subsections (2)b and (2)c of this section:

1. Water wells;

2. Passive recreation facilities, such as boardwalks, trails and pathways; and

3. Historic preservation and archaeological activities.

b. The City shall establish administrative procedures to review such exemptions.

c. Any land disturbance exceeding an area of 2,500 square feet shall comply with the erosion and sediment control criteria in Section 14-263(6).

(3) *Buffer area requirements.* The 100-foot-wide buffer area shall be the landward component of the resource protection area as set forth in Section 14-231(b)(5). Notwithstanding permitted uses, encroachments, and vegetation clearing, as set forth in this section, the 100-foot-wide buffer area is not reduced in width. To minimize the adverse effects of human activities on the other components of the resource protection area, State waters, and aquatic life, a 100-foot-wide buffer area of vegetation that is effective in retarding runoff, preventing erosion, and filtering nonpoint source pollution from runoff shall be retained if present and established where it does not exist.

a. The 100-foot-wide buffer area shall be deemed to achieve a 75-percent reduction of sediments and a 40-percent reduction of nutrients.

b. Where land uses such as agriculture or silviculture within the area of the buffer cease and the lands are proposed to be converted to other uses, the full 100-foot-wide buffer shall be reestablished. In reestablishing the buffer, management measures shall be undertaken to provide woody vegetation that assures the buffer functions set forth in this article.

(4) *Permitted encroachments into the buffer area.*

a. When the application of the buffer area would result in the loss of a buildable area on a lot or parcel recorded prior to October 1, 1989, encroachments into the buffer area may be allowed through an administrative process, in accordance with the following criteria:

1. Encroachments into the buffer area shall be the minimum necessary to achieve a reasonable buildable area for a principal structure and necessary utilities.

2. Where practicable, a vegetated area that will maximize water quality protection, mitigate the effects of the buffer encroachment, and is equal to the area of encroachment into the buffer area shall be established elsewhere on the lot or parcel.

3. The encroachment may not extend into the seaward 50 feet of the buffer area.

b. When the application of the buffer area would result in the loss of a buildable area on a lot or parcel recorded between October 1, 1989, and March 1, 2002, encroachments into the buffer area may be allowed through an administrative process in accordance with the following criteria:

1. The lot or parcel was created as a result of a legal process conducted in conformity with the City's subdivision regulations;

2. Conditions or mitigation measures imposed through a previously approved exception shall be met;

3. If the use of a best management practice was previously required, the best management practice shall be evaluated to determine if it continues to function effectively and, if necessary,

the best management practice shall be reestablished or repaired and maintained as required; and

4. The criteria in subsection (4)a of this section shall be met.

(5) *Permitted modifications of the buffer area.* In order to maintain the functional value of the buffer area, existing vegetation may be removed, subject to approval by the City, only to provide for reasonable sight lines, access paths, general woodlot management, and best management practices, including those that prevent upland erosion and concentrated flows of stormwater, as follows:

a. Trees may be pruned or removed as necessary to provide for sight lines and vistas, provided that, where removed, they shall be replaced with other vegetation that is equally effective in retarding runoff, preventing erosion, and filtering nonpoint source pollution from runoff as specified in the Riparian Buffer Modification & Mitigation Guidance Manual, 2003, published by the Chesapeake Bay Local Assistance Division of the Department of Conservation and Recreation and as may be amended by the State from time to time.

b. Any path shall be constructed and surfaced so as to effectively control erosion.

c. Dead, diseased, or dying trees or shrubbery and noxious weeds (such as Johnson grass, kudzu, and multiflora rose) may be removed and thinning of trees may be allowed, pursuant to sound horticultural practices.

d. For shoreline erosion control projects, trees and woody vegetation may be removed, necessary control techniques employed, and appropriate vegetation established to protect or stabilize the shoreline in accordance with the best available technical advice and applicable permit conditions or requirements.

(6) *Water quality impact assessment.* A water quality impact assessment shall be required for any proposed development within the resource protection area consistent with this division and for any other development in Chesapeake Bay Preservation Areas that the Administrator determines may warrant such assessment because of the unique characteristics of the site or intensity of the proposed use or development.

a. The purpose of the water quality impact assessment is to identify the impacts of proposed development on water quality and lands in the resource protection areas consistent with the goals and objectives of the Act, this article, and the City's programs, and to determine specific measures for mitigation of those impacts. An approved water quality impact assessment shall demonstrate the following:

1. The absence of significant adverse impacts of nonpoint source pollution on topography, soils, environmentally sensitive areas, hydrology, and the quality of State waters; or

2. That any such adverse impacts are mitigated. Calculations shall be performed in accordance with guidelines developed by the City pursuant to Section 14-263 or in accordance with generally accepted engineering methods approved by the City.

b. The water quality impact assessment shall be of sufficient specificity to demonstrate compliance with the criteria of the City's program.

(7) *Buffer area requirements for intensely developed areas.* In intensely developed areas, the City may exercise discretion regarding whether to require establishment of vegetation in the 100-foot-wide buffer area. However, while the immediate establishment of vegetation in the buffer area may be impractical, the City shall give consideration to implementing measures that would establish vegetation in the buffer in these areas over time in order to maximize water quality protection, pollutant removal, and water resource conservation. Where buffers are to be established, they shall be designed in accordance with the standards established in the Riparian Buffer Modification & Mitigation Guidance Manual, 2003, prepared by the Chesapeake Bay Local Assistance Division of the Department of Conservation and Recreation and as may be amended by the Commonwealth of Virginia from time to time.

DIVISION 5. ADMINISTRATION AND ENFORCEMENT

Sec. 14-292. Nonconformities, exemptions, and exceptions.

(a) *Nonconforming uses and noncomplying structures.*

(1) The City may permit the continued use, but not necessarily the expansion, of any structure in existence on November 11, 1991, or which exists at the time of any amendment to this article. The City shall use the administrative review procedure to waive or modify the criteria of this article for structures on legal nonconforming lots or parcels, provided that there will be no net increase in nonpoint source pollutant load. Any development or land disturbance exceeding an area of 2,500 square feet shall comply with all erosion and sediment control requirements of this article.

(2) A nonconforming use and development waiver shall become null and void 12 months from the date of issuance if the Administrator documents that no substantial work has commenced. The Administrator shall notify the permittee of the revocation of the waiver.

(3) This article shall not be interpreted or construed to prevent the reconstruction of pre-existing structures within Chesapeake Bay Preservation Areas from occurring as a result of casualty loss unless otherwise restricted by other City ordinances.

(b) *Public utilities, railroads, public roads, and facilities exemptions.*

(1) a. Construction, installation, operation, and maintenance of electric, natural gas, fiber-optic, and telephone transmission lines, railroads, and public roads and their appurtenant structures in accordance with:

1. Regulations promulgated pursuant to the Erosion and Sediment Control Law (Code of Virginia, § 62.1-44.15:51 et seq.) and the Stormwater Management Act (Code of Virginia, § 62.1-44.15:24 et seq.);

2. An erosion and sediment control plan and a stormwater management plan approved by the City or State, where required; or

3. Local water quality protection criteria at least as stringent as the above State requirements;

will be deemed to constitute compliance with this article.

b. The exemption of public roads is further conditioned on the following:

1. Optimization of the road alignment and design, consistent with other applicable requirements, to prevent or otherwise minimize:

(i) Encroachment in the resource protection area; and

(ii) Adverse effects on water quality; and

2. Public roads, as defined in Section 14-181, that are found to be in compliance with this division are deemed to be exempt.

(2) Construction, installation and maintenance of water, sewer, natural gas, and underground telecommunications and cable television lines owned, permitted, or both, by the City or regional service authority shall be exempt from the criteria in this division, provided that:

a. To the degree possible, the location of such utilities and facilities should be outside resource protection areas;

b. No more land shall be disturbed than is necessary to provide for the proposed utility installation;

c. All such construction, installation and maintenance of such utilities and facilities shall be in compliance with all applicable State and Federal permits and designed and conducted in a manner that protects water quality; and

d. Any land disturbance exceeding an area of 2,500 square feet complies with all erosion and sediment

control requirements of this part.

(c) *Exceptions.*

(1) Exceptions to the requirements of Sections 14-263 and 14-264 may be granted, provided that a finding is made that:

a. The requested exception to the criteria is the minimum necessary to afford relief;

b. Granting the exception will not confer upon the applicant any special privileges that are denied by this division to other property owners who are subject to its provisions and who are similarly situated;

c. The exception is in harmony with the purpose and intent of this division and is not of substantial detriment to water quality;

d. The exception request is not based upon conditions or circumstances that are self-created or self-imposed;

e. Reasonable and appropriate conditions are imposed, as warranted, that will prevent the allowed activity from causing a degradation of water quality; and

f. Other findings, as appropriate and required by the City, are met.

(2) The Administrator may approve, deny or approve with conditions individual exception requests to Section 14-263, provided that the applicant meets the criteria of subsection (c)(1) of this section.

(3) The process to be used for exceptions to Section 14-264 shall include, but not be limited to, the following provisions:

a. An exception may be considered and acted upon only by the Planning Commission.

b. No exception shall be authorized except after notice and a hearing, as required by Code of Virginia, § 15.2-2204, except that only one hearing shall be required. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the notice may be given by first class mail rather than by registered or certified mail.

(4) Exceptions to other provisions of this section may be granted, provided that:

a. Exceptions to the criteria shall be the minimum necessary to afford relief; and

b. Reasonable and appropriate conditions upon any exception granted shall be imposed, as necessary, so that the purpose and intent of the Act is preserved.

(5) Notwithstanding the provisions of subsection (c)(3) of this section, additions and modifications to existing legal principal structures may be processed through the administrative review process specified in subsection (c)(2) of this section, as allowed by subsection (a) of this section, subject to the findings required by subsection (c)(1) of this section but without a requirement for a public hearing. This provision shall not apply to accessory structures.

(Code 2004, § 50-340; Code 2015, § 14-292; Ord. No. 2014-116-89, § 2, 5-27-2014)

Sec. 14-293. Procedures.

Procedures for the processing and review of Chesapeake Bay Site Plans and the administrative review process, required by this article, shall be established by the Director. Such procedures shall be in written form and made available to all applicants.

(Code 2004, § 50-341; Code 2015, § 14-293; Ord. No. 2004-331-321, § 1, 12-13-2004)

Sec. 14-294. Appeals of Administrator's decisions.

(a) *Right of appeal.* Any applicant who is aggrieved by any action of the City in disapproving a request for use or development within a Chesapeake Bay Preservation Area as described on the submitted Chesapeake Bay Site Plan shall have the right to file an appeal of such action with the Director. Such appeal must be filed within 30 days

from the date of the action appealed and must be accompanied by a fee of $50.00 to be paid into the City treasury.

(b) *Scheduling of hearing.* Within 15 days of the date on which the applicant files the appeal in the Office of the Director, the Director shall schedule a hearing thereon at which both the applicant and the City representative may be heard. Such hearing shall be scheduled no sooner than 30 days after the Director furnishes the applicant and the City representative with written notice of the date, time and location of the hearing.

(c) *Review and decision.* The Director shall review the evidence and arguments by both the applicant and the City representative. Such evidence and arguments may be submitted in writing prior to the hearing or presented during the hearing. No later than 15 days after the hearing described in subsection (b) of this section, the Director shall issue to the applicant and the Administrator a written decision affirming, reversing or modifying the action of the Administrator.

(d) *Judicial review.* The decision of the Director shall be final, unless the applicant appeals such decision to the Circuit Court of the City of Richmond within 30 days of the date on which the Director issues such decision.

(e) *Administrative procedures.* The Director shall develop procedures not inconsistent with this section for the administration of the appeals process set forth in this section.

(Code 2004, § 50-342; Code 2015, § 14-294; Ord. No. 2014-116-89, § 2, 5-27-2014)

Sec. 14-295. Enforcement.

(a) In order to ensure compliance with this article, the City may elect to pursue any and all enforcement actions in accordance with this article, with Article III and Article V of this chapter, and with Chapters 5, 25, and 30.

(b) Without limiting the remedies available under this article, any person who violates any provision of this article or who violates or fails, neglects, or refuses to obey any variance or permit condition authorized under this article shall, upon such a finding thereof by the Circuit Court of the City of Richmond, be assessed a civil penalty not to exceed $5,000.00 for each day of violation. Such penalties may, at the discretion of the court, be directed to be paid into the treasury of the City for the purpose of abating environmental damage to or restoring Chesapeake Bay Preservation Areas within the City, in such a manner as the court may direct by order, except that, in the event the City or its agent is the violator, the court shall direct the civil penalty to be paid into the treasury of the Commonwealth as provided in Code of Virginia, § 62.1-44.15:74(E).

(c) Without limiting the remedies available under this article, and with the consent of any person who has violated any provision of this article, or who has violated or failed, neglected, or refused to obey any variance or permit condition authorized under this article, the Director may provide for the issuance of an order against such person for the one-time payment of civil charges for each violation in specific sums, not to exceed $10,000.00 for each violation. Such civil charges shall be paid into the treasury of the City for the purpose of abating environmental damage to or restoring Chesapeake Bay Preservation Areas within the City, except that in the event the City or its agent is the violator, the civil charges shall be paid into the treasury of the Commonwealth as provided in Code of Virginia, § 62.1-44.15:74(E). All civil charges shall be in lieu of any civil penalty that could be imposed under subsection (a) of this section. Civil charges shall be in addition to the cost of any restoration required by the Director.

The term "subdivision" shall not include a division of land for agricultural purposes in parcels of one acre or more, the average width of which is not less than 150 feet, when such division:

(1) Does not require the opening of any new street or the use of any new public easement of access;

(2) Does not obstruct, and is not likely to obstruct, natural drainage;

(3) Does not adversely affect, and is not likely to adversely affect, the establishment of any expressway, major street, primary highway, or toll road; and

(4) Does not adversely affect the execution or development of any plat or subdivision approved by the City Planning Commission or otherwise adversely affect the orderly subdivision of contiguous property.

Total maximum daily load (TMDL) means the sum of the individual wasteload allocations for point sources,

load allocations for nonpoint sources, natural background loading and a margin of safety. Total maximum daily loads can be expressed in terms of either mass per time, toxicity, or other appropriate measure. The total maximum daily load process provides for point versus nonpoint source trade-offs.

Virginia Stormwater Best Management Practice Clearinghouse Website means a website that contains detailed design standards and specifications for control measures that may be used in Virginia to comply with the requirements of the Virginia Stormwater Management Act (Code of Virginia, § 62.1-44.15:24 et seq.) and associated regulations.

Virginia Stormwater Management Act or *Act* means Code of Virginia, Title 62, Ch. 3.1, Art. 23 (Code of Virginia, § 62.1-44.15:24 et seq.).

Virginia Stormwater Management Program means a program approved by the State Water Control Board after September 13, 2011, that has been established by a locality to manage the quality and quantity of runoff resulting from land-disturbing activities, and shall include local ordinances, rules and regulations, permit requirements, standards and specifications, policies and guidelines, technical materials, and requirements for plan review, inspection, and enforcement, where authorized by the Act, and evaluation consistent with the requirements of the Act and associated regulations.

Virginia Stormwater Management Program Authority means an authority approved by the State Water Control Board after September 13, 2011, to operate a Virginia Stormwater Management Program. For purposes of this article, the City is the Virginia Stormwater Management Program Authority.

(Code 2004, § 50-402; Code 2015, § 14-323; Ord. No. 2014-116-89, § 3, 5-27-2014)

Sec. 14-324. Permit requirement; exemptions.

(a) Except as provided herein, no person may engage in any land-disturbing activity in the City until the Administrator has issued a Richmond Stormwater Management Program Permit in accordance with this article.

(b) A Chesapeake Bay Preservation Act land-disturbing activity does not require completion of a registration statement or require coverage under the general permit, but shall be subject to the following technical criteria and program and administrative requirements: an erosion and sediment control plan consistent with the requirements of Article III of this chapter; a stormwater management plan consistent with the requirements of Section 14-327; exceptions which may be requested pursuant to 9VAC25-870-57; the technical and administrative requirements of Section 14-330; the long-term maintenance requirements for permanent stormwater facilities in Section 14-331, and the requirements for channel protection and flood protection, the availability of off-site compliance options, and requirements for design storm and hydrologic methods, linear development controls, and criteria associated with stormwater impoundment structures or facilities found at 9VAC25-870-51.

(c) The following exemptions apply to the Richmond Stormwater Management Program Permit requirements set forth in subsection (a) of this section:

(1) Permitted surface or deep mining operations and projects, or oil and gas operations and projects conducted under the provisions Code of Virginia, Title 45.1 (Code of Virginia, § 45.1-161.1 et seq.);

(2) Clearing of lands specifically for agricultural purposes and the management, tilling, planting, or harvesting of agricultural, horticultural, or forest crops, livestock feedlot operations, or as additionally set forth in State regulations, including engineering operations as follows: construction of terraces, terrace outlets, check dams, desilting basins, dikes, ponds, ditches, strip cropping, lister furrowing, contour cultivating, contour furrowing, land drainage, and land irrigation; however, this exception shall not apply to harvesting of forest crops, unless the area on which harvesting occurs is reforested artificially or naturally in accordance with the provisions of Code of Virginia, Title 10.1, Ch. 11 (Code of Virginia, § 10.1-1100 et seq.), or is converted to bona fide agricultural or improved pasture use as described in Code of Virginia, § 10.1-1163(B);

(3) Single-family residences separately built, and additions or modifications to such existing single-family residential structures, disturbing less than one acre, or less than 2,500 square feet if located in an area delineated by the City as a Chesapeake Bay Preservation Area pursuant to Article IV of this chapter, and

not part of a larger common plan of development or sale;

(4) Land-disturbing activities that disturb less than one acre, or less than 2,500 square feet if located in an area delineated by the City as a Chesapeake Bay Preservation Area pursuant to Article IV of this chapter, and not part of a larger common plan of development or sale;

(7) Routine maintenance that is performed to maintain the original line and grade, hydraulic capacity, or original construction of the project. The paving of an existing road with a compacted or impervious surface and reestablishment of existing associated ditches and shoulders shall be deemed routine maintenance if performed in accordance with this subsection; and

(8) Conducting land-disturbing activities in response to a public emergency where the related work requires immediate authorization to avoid imminent endangerment to human health or the environment. In such situations, the Administrator shall be advised of the disturbance within seven days following commencement of the land-disturbing activity. Compliance with the administrative requirements of this chapter is required within 30 days of commencing the land-disturbing activity.

(Code 2004, § 50-403; Code 2015, § 14-324; Ord. No. 2014-116-89, § 3, 5-27-2014)

Sec. 14-325. Plan submission and approval; prohibitions.

Pursuant to Code of Virginia, § 62.1-44.15:27, the City hereby establishes a Richmond Stormwater Management Program for land-disturbing activities and adopts the applicable standards and specifications for Virginia Stormwater Management Programs promulgated by the State Water Control Board for the purposes set out in Section 14-322. The Director of Public Utilities is hereby designated as the Administrator of the Richmond Stormwater Management Program.

(1) Any person who plans to conduct a land-disturbing activity in the City shall first submit the following to the Administrator:

a. An application for a permit on the most current City-approved form, including a general permit registration if required;

b. An erosion and sediment control plan to be reviewed for approval in accordance with Article III of this chapter with certification by the applicant that the plan will be followed;

c. A stormwater management plan that meets the requirements of Section 14-327, or, if authorized by State law, an agreement in lieu of a stormwater management plan; and

d. All applicable fees and a performance bond as required by Sections 14-336 and 14-337.

(2) a. No person shall begin to conduct any land-disturbing activity in the City until the City has received all of the items listed in subsection (1) of this section and has issued a Richmond Stormwater Management Program Permit to the applicant. Additionally, no person shall begin to conduct any land-disturbing activity in the City without first having obtained a General Virginia Pollution Discharge Elimination System Permit for Discharges of Stormwater from Construction Activities as set forth in 9VAC25-880-70, as amended from time to time, for the proposed activity. The Administrator shall not issue a Richmond Stormwater Management Program Permit until after the Administrator has received evidence of such general permit authority from the Virginia Department of Environmental Quality. All land clearing, construction, disturbance, land development and drainage must be performed in accordance with the terms of the Richmond Stormwater Management Program Permit. Failure to comply may result in enforcement by the City pursuant to Section 14-335.

b. Every permit applicant shall furnish, when requested by the Administrator, such application materials, plans, specifications, and other pertinent information as the Administrator may determine necessary to determine the effect of the discharge from the land-disturbing activity on the quality of State waters, or such other information as the Administrator may determine necessary to

accomplish the purposes of this chapter.

(3) Issuance of a Richmond Stormwater Management Program Permit does not relieve the applicant of having to obtain any other permits, including any City-issued permits that are required prior to beginning a land-disturbing activity. The City will not issue any other grading, building, or other local permit until the Administrator has approved a Richmond Stormwater Management Program Permit for the property.

(Code 2004, § 50-404; Code 2015, § 14-325; Ord. No. 2014-116-89, § 3, 5-27-2014; Ord. No. 2015-49-59, § 1, 3-23-2015)

Sec. 14-326. Stormwater pollution prevention plan; contents of plans.

(a) The operator shall maintain a stormwater pollution prevention plan throughout the period of permit coverage that is consistent with the requirements of 9VAC25-870-54 and 9VAC25-880-70. The stormwater pollution prevention plan shall include, but not be limited to, an approved erosion and sediment control plan, an approved stormwater management plan (as approved by the City, or by the State pursuant to the general permit issued July 1, 2009) or an agreement in lieu of a stormwater management plan as provided in Section 14-325, a pollution prevention plan, and a description of any additional control measures necessary to address a total maximum daily load if a specific wasteload allocation for a pollutant has been established in a total maximum daily load and is assigned to stormwater discharges from construction. In addition, the stormwater pollution prevention plan shall include any information required by Section II (stormwater pollution prevention plan) of the general permit.

(b) The stormwater pollution prevention plan shall meet the following requirements:

(1) Control stormwater volume and velocity within the site to minimize soil erosion;

(2) Control stormwater discharges, including both peak flow rates and total stormwater volume, to minimize erosion at outlets and to minimize downstream channel and stream bank erosion;

(3) Minimize the amount of soil exposed during construction;

(4) Minimize the disturbance of steep slopes;

(5) Minimize sediment discharges from the site. The design, installation, and maintenance of erosion and sediment controls must address factors such as the amount, frequency, intensity and duration of precipitation, the nature of resulting stormwater runoff, and soil characteristics, including the range of soil particle sizes expected to be present on the site;

(6) Provide and maintain natural buffers around surface waters, direct stormwater to vegetated areas to increase sediment removal and maximize stormwater infiltration, unless infeasible;

(7) Minimize soil compaction and, unless infeasible, preserve topsoil;

(8) Immediately initiate stabilization of disturbed areas, at a minimum, whenever any clearing, grading, excavating, or other earth disturbing activities have ceased permanently on any portion of the site, or have ceased temporarily on any portion of the site and will not resume for a period exceeding 14 calendar days. The stormwater pollution prevention plan shall require that stabilization be completed within a period of time determined by the City. In arid, semi-arid, and drought-stricken areas where immediately initiating vegetative stabilization measures is infeasible, the stormwater pollution prevention plan shall require that alternative stabilization measures be employed as specified by the City; and

(9) Utilize outlet structures that withdraw water from the surface, unless infeasible, when discharging from basins and impoundments.

(c) The permittee shall maintain the stormwater pollution prevention plan at a central location on the site of the land-disturbing activity for as long as land-disturbing activities are occurring on the site. If an on-site location is unavailable, the operator shall post notice of the stormwater pollution prevention plan's location near the main entrance to the site. The permittee shall make the stormwater pollution prevention plan available for public review in accordance with the terms of the general permit, either electronically or in hard copy.

(d) The permittee's stormwater pollution prevention plan shall be written in compliance with the Regulations, the terms of the general permit, and this article. The permittee shall amend the stormwater pollution prevention plan in a timely fashion to incorporate any change in design, construction, operation, or maintenance

that has a significant effect on the discharge of pollutants to State waters.

(Code 2004, § 50-405; Code 2015, § 14-326; Ord. No. 2014-116-89, § 3, 5-27-2014)

Sec. 14-327. Stormwater management plan; contents of plans.

(a) The permittee's stormwater management plan, referenced at Section 14-325, shall be written in compliance with the stormwater management technical criteria set forth in Section 14-330 for the entire common plan of development or sale, where applicable, and shall consider all sources of surface and subsurface runoff and groundwater flows converted to surface flows. Individual lots in new residential, commercial, or industrial developments shall not be considered separate land-disturbing activities.

(b) The permittee shall include the following items in the stormwater management plan:

(1) Information on the type and location of stormwater discharges; information on the features to which stormwater is being discharged, including surface waters or karst features, if present, and the pre-development and post-development drainage areas;

(2) Contact information, including the name, address, and telephone number of the owner and the tax reference number and parcel number of the property or properties affected;

(3) A narrative that includes a description of current (pre-land disturbance) site conditions and final (post-land disturbance) site conditions;

(4) A general description of the proposed stormwater management facilities and the mechanism through which the facilities will be operated and maintained after construction is complete;

(5) Information on the proposed stormwater management facilities, including:

a. The types of facilities;

b. The location of the facilities, including geographic coordinates;

c. The acreage treated; and

d. The surface water or karst features, if present, into which the facilities will discharge;

(6) Hydrologic and hydraulic computations, including runoff characteristics;

(7) Documentation and calculations verifying compliance with the water quality and water quantity requirements of Section 14-330;

(8) A map or maps of the site that depicts the site topography and includes:

a. All existing contributing drainage areas;

b. Existing streams, ponds, culverts, ditches, wetlands, other water bodies, and floodplains;

c. Soil types, geologic formations if karst features are present in the area, forest cover, and other vegetative areas;

d. Current land use, including existing structures, roads, and locations of known utilities and easements;

e. Sufficient information on adjoining parcels to assess the impacts of stormwater from the site on these parcels;

f. The limits of clearing and grading, and the proposed drainage patterns on the site;

g. Proposed buildings, roads, parking areas, utilities, and stormwater management facilities; and

h. Proposed land use with tabulation of the percentage of surface area to be adapted to various uses, including, but not limited to, planned locations of utilities, roads, and easements.

(c) If a permittee or operator intends to meet the water quality and quantity requirements set forth in this article through the use of off-site compliance options, where applicable and available, then a letter of availability from the off-site provider must be included in the stormwater management plan. Approved off-site options must achieve the necessary nutrient reductions prior to the commencement of land-disturbing activities except as allowed

by State law.

(d) Elements of the stormwater management plan that include activities regulated under Code of Virginia, Title 54.1, Ch. 4 (Code of Virginia, § 54.1-400 et seq.) shall be appropriately sealed and signed by a professional registered in the Commonwealth of Virginia pursuant to Code of Virginia, Title 54.1, Ch. 4, Art. 1 (Code of Virginia, § 54.1-400 et seq.).

(e) A construction record drawing for permanent stormwater management facilities shall be submitted to the Administrator. The construction record drawing shall be appropriately sealed and signed by a professional registered in the Commonwealth of Virginia, certifying that the stormwater management facilities have been constructed in accordance with the approved plan.

(Code 2004, § 50-406; Code 2015, § 14-327; Ord. No. 2014-116-89, § 3, 5-27-2014; Ord. No. 2015-49-59, § 1, 3-23-2015)

Sec. 14-328. Pollution prevention plan; contents of plans.

(a) The permittee shall develop, implement and update, as necessary, a pollution prevention plan detailing the design, installation, implementation, and maintenance of effective pollution prevention measures to minimize the discharge of pollutants. At a minimum, these measures shall be designed, installed, implemented, and maintained to:

(1) Minimize the discharge of pollutants from equipment and vehicle washing, wheel wash water, and other wash waters. Wash waters must be treated in a sediment basin or alternative control that provides equivalent or better treatment prior to discharge;

(2) Minimize the exposure of building materials, building products, construction wastes, trash, landscape materials, fertilizers, pesticides, herbicides, detergents, sanitary waste, and other materials present on the site to precipitation and to stormwater; and

(3) Minimize the discharge of pollutants from spills and leaks and implement chemical spill and leak prevention and response procedures.

(b) The pollution prevention plan shall include effective BMPs to prohibit the following discharges:

(1) Wastewater from washout of concrete, unless managed by an appropriate control;

(2) Wastewater from washout and cleanout of stucco, paint, form release oils, curing compounds, and other construction materials;

(3) Fuels, oils, or other pollutants used in vehicle and equipment operation and maintenance; and

(4) Soaps or solvents used in vehicle and equipment washing.

(c) The pollution prevention plan shall prohibit discharges from dewatering activities, including discharges from dewatering of trenches and excavations, unless managed by appropriate controls.

(Code 2004, § 50-407; Code 2015, § 14-328; Ord. No. 2014-116-89, § 3, 5-27-2014)

Sec. 14-329. Review of stormwater management plan.

(a) The applicant shall submit the stormwater management plan referenced in Section 14-327 a minimum of 75 days prior to the anticipated commencement of a land-disturbing activity to allow for timely review by the Administrator. The following timeframes for review and approval or disapproval shall apply:

(1) The Administrator shall determine the completeness of the stormwater management plan in accordance with Section 14-327, and shall notify the applicant in writing of the determination within 15 calendar days of receipt. If deemed incomplete, the written notification shall explain the reasons the Administrator has deemed the plan incomplete. Where available to the applicant, electronic communication shall be considered communication in writing;

(2) The Administrator shall have an additional 60 calendar days from the date of communicating to the applicant that the plan is complete to review the stormwater management plan, except that if a determination of completeness is not made within the time prescribed in subsection (a)(1) of this section, then the stormwater management plan shall be deemed complete and the Administrator shall have 60 calendar days from the date of submission to review the stormwater management plan.

(b) During the review period, the plan shall be approved or disapproved and the decision communicated in writing to the applicant or his designated agent. If the plan is not approved, the reasons for not approving the plan shall be provided in writing. Approval or denial shall be based on the plan's compliance with the requirements of this article. If a plan meeting all requirements of this article is submitted and no action is taken within the timeframe above, the plan shall be deemed approved.

(c) If the stormwater management plan is disapproved, the Administrator shall review a revised plan within 45 calendar days of the resubmission.

(d) Once the Administrator has approved a plan, the permittee shall modify the plan only under the following terms:

(1) After review and written approval by the Administrator. The Administrator shall have 60 calendar days to respond in writing either approving or disapproving such request.

(2) When required by the Administrator, and within a time prescribed by the Administrator, to address any deficiencies noted during inspection.

(e) The permittee shall submit a construction record drawing for permanent stormwater management facilities, unless waived by the Administrator pursuant to law.

(Code 2004, § 50-408; Code 2015, § 14-329; Ord. No. 2014-116-89, § 3, 5-27-2014; Ord. No. 2015-49-59, § 1, 3-23-2015)

Sec. 14-330. Technical criteria for land-disturbing activities.

(a) To protect the quality and quantity of State water from the potential harm of unmanaged stormwater runoff resulting from land-disturbing activities, the City hereby adopts the technical criteria for regulated land-disturbing activities set forth in Part IIB of the Regulations, as amended, expressly to include 9VAC25-870-62 (applicability); 9VAC25-870-63 (water quality design criteria requirements); 9VAC25-870-65 (water quality compliance); 9VAC25-870-66 (water quantity); 9VAC25-870-69 (off-site compliance options); 9VAC25-870-72 (design storms and hydrologic methods); 9VAC25-870-74 (stormwater harvesting); 9VAC25-870-76 (linear development project); 9VAC25-870-85 (stormwater management impoundment structures or facilities) and 9VAC25-870-92 (comprehensive stormwater management plans), which shall apply to all land-disturbing activities, including all Chesapeake Bay Preservation Act land-disturbing activities, regulated pursuant to this chapter, except as expressly set forth in subsection (b) of this section.

(b) Land-disturbing activities, including all Chesapeake Bay Preservation Act land-disturbing activities, that have obtained initial general permit coverage, or that commence land disturbance, prior to July 1, 2014, shall be conducted in accordance with the technical criteria for regulated land-disturbing activities set forth in Part IIC of the Regulations, as amended, expressly to include 9VAC25-870-93 (definitions); 9VAC25-870-94 (applicability); 9VAC25-870-95 (general); 9VAC25-870-96 (water quality); 9VAC25-870-97 (stream channel erosion); 9VAC25-870-98 (flooding); and 9VAC25-870-99 (regional (watershed-wide) stormwater management plans). Such projects shall remain subject to the Part IIC technical criteria for an additional two general permit cycles. After such time, portions of the project that come under construction shall become subject to any new technical criteria adopted by the Department of Environmental Quality.

(c) Land-disturbing activities that obtain general permit coverage on or after July 1, 2014, shall be conducted in accordance with the Part IIB technical criteria of the Regulations. Such projects shall remain subject to the Part IIB technical criteria for an additional two general permit cycles, except as provided for in subsection D of 9VAC25-870-48. After such time, portions of the project that come under construction shall become subject to any new technical criteria adopted by the Department of Environmental Quality.

(d) Any land-disturbing activity shall be considered grandfathered and shall be subject to the Part IIC technical criteria of the Regulations, provided that:

(1) A proffered or conditional zoning plan, zoning with a plan of development, preliminary or final subdivision plat, preliminary or final site plan, or any document determined by the City to be equivalent thereto:

a. Was approved by the City prior to July 1, 2012;

b. Provided a layout as defined in 9VAC25-870-10;

c. Will comply with the Part IIC technical criteria of the Regulations; and

d. Has not been subsequently modified or amended in a manner resulting in an increase in the amount of phosphorus leaving each point of discharge, and such that there is no increase in the volume or rate of runoff;

(2) State permit coverage has not been obtained prior to July 1, 2014; and

(3) Land disturbance did not commence prior to July 1, 2014.

(e) Local, State, and Federal projects shall be considered grandfathered by the City and shall be subject to Part IIC technical criteria of the Regulations, provided that:

(1) There has been an obligation of local, State, or Federal funding, in whole or in part, prior to July 1, 2012, or the Department of Environmental Quality has approved a stormwater management plan prior to July 1, 2012;

(2) State permit coverage has not been obtained prior to July 1, 2014; and

(3) Land disturbance did not commence prior to July 1, 2014.

(f) Land-disturbing activities grandfathered under subsections (d) and (e) of this section shall remain subject to the Part IIC technical criteria of the Regulations for one additional State permit cycle. After such time, portions of the project coming under construction shall become subject to any new technical criteria adopted by the Department of Environmental Quality.

(g) In cases where governmental bonding or public debt financing has been issued for a project prior to July 1, 2012, such project shall be subject to the technical criteria of Part IIC of the Regulations.

(h) Nothing in this section shall preclude an operator from constructing to a more stringent standard at the operator's discretion.

(i) (1) The Administrator may grant exceptions to the technical requirements of Part IIB or Part IIC of the Regulations, provided that:

a. The exception is the minimum necessary to afford relief;

b. Reasonable and appropriate conditions are imposed so that the intent of the Act, the Regulations, and this article are preserved;

c. Granting the exception will not confer any special privileges that are denied in other similar circumstances; and

d. Exception requests are not based upon conditions or circumstances that are self-imposed or self-created.

(2) Economic hardship alone is not sufficient reason to grant an exception from the requirements of this section.

a. Exceptions to the requirement that the land-disturbing activity obtain a required permit shall not be given by the Administrator, nor shall the Administrator approve the use of a BMP not found on the Virginia Stormwater BMP Clearinghouse Website, except where allowed under Part IIC of the Regulations, or otherwise by State law.

b. Exceptions to requirements for phosphorus reductions shall not be allowed unless off-site options otherwise permitted pursuant to 9VAC25-870-69 have been considered and found not available.

(Code 2004, § 50-409; Code 2015, § 14-330; Ord. No. 2014-116-89, § 3, 5-27-2014)

Sec. 14-331. Long-term maintenance of permanent stormwater facilities.

(a) All stormwater management facilities, including BMPs and other techniques specified to manage the quality and quantity of runoff, shall be maintained for their full lifespan. In order to ensure this result, the permittee shall sign and record in the local land records an instrument obligating the permittee to maintain all stormwater management facilities for their full lifespan. The instrument shall be on the most recent form approved by the Administrator. If the permittee will not be the owner of the stormwater management facilities once they are fully

constructed, the permittee shall obtain the document from the future owner. The Administrator shall not issue a final approval of a stormwater management plan until the recorded document is received and is deemed acceptable to the City. At a minimum, the instrument shall:

(1) Be submitted to the Administrator for review and approval during the review period for the stormwater management plan;

(2) Run with the land;

(3) Provide access to the property for maintenance and regulatory inspection purposes;

(4) Provide for inspections and maintenance and the submission of inspection and maintenance reports to the Administrator; and

(5) Be enforceable by all appropriate governmental parties.

(b) At the Administrator's discretion, such recorded instruments need not be provided for stormwater management facilities, including BMPs and other techniques specified to manage the quality and quantity of runoff, designed to treat stormwater runoff primarily from an individual residential lot, provided future maintenance of such facilities will be addressed through an enforceable mechanism acceptable to the Administrator. Facilities that are exempted from subsection (a) of this section pursuant to this subsection shall not be subject to the requirement for an inspection conducted by the Administrator.

(c) If a recorded instrument is not required pursuant to subsection (b) of this section, the Administrator shall develop a strategy for addressing maintenance of stormwater management facilities designed to treat stormwater runoff primarily from an individual residential lot on which they are located. Such a strategy may include periodic inspections, homeowner outreach and education, or other methods targeted at promoting the long-term maintenance of such facilities. Facilities that are exempted pursuant to subsection (b) of this section must comply with any requirements as required by the Administrator as a part of this overall strategy.

(Code 2004, § 50-410; Code 2015, § 14-331; Ord. No. 2014-116-89, § 3, 5-27-2014)

Sec. 14-332. Monitoring and inspections.

(a) The Administrator is authorized to inspect any land-disturbing activity in the City for:

(1) Compliance with the approved erosion and sediment control plan;

(2) Compliance with the approved stormwater management plan or the agreement in lieu of a stormwater management plan;

(3) Development, updating, and implementation of a pollution prevention plan; and

(4) Development and implementation of any additional control measures necessary to address a TMDL.

The permittee or operator of a land-disturbing activity shall permit the Administrator to conduct such an inspection at reasonable times and under reasonable circumstances.

(b) The Administrator is authorized to enter any establishment or upon any property, public or private, in order to conduct surveys or investigations necessary to ensure that stormwater management facilities are being adequately maintained as designed after completion of land-disturbing activities, to enforce this article or, when permitted by appropriate legal arrangement, including, but not limited to, a performance bond with surety, cash escrow, or letter of credit, for the purpose of taking appropriate corrective actions required by permit when a permittee, after proper notice, has failed to take acceptable action within the time specified. The operator of any such property shall permit the Administrator to conduct such an inspection, survey or investigation at reasonable times and under reasonable circumstances. The terms of the legal documentation referenced above will govern the terms of the Administrator's actions with regard to taking corrective actions.

(c) The Administrator is authorized to require, and a permittee shall furnish, when requested, any application materials, plans, specifications, and other pertinent information as may be necessary to determine the effect of the discharge on the quality of State waters, or such other information as may be necessary to accomplish the purposes of this chapter.

(d) The Administrator is authorized to conduct post-construction inspections of stormwater management

facilities pursuant to the City's approved inspection program. The Administrator shall conduct an inspection of each facility, at a minimum, at least once every five years, except as may otherwise be provided for in Section 14-331.

(Code 2004, § 50-411; Code 2015, § 14-332; Ord. No. 2014-116-89, § 3, 5-27-2014)

Sec. 14-333. Hearings.

To the extent a hearing is required by law, hearings held under this section shall be conducted by the Administrator in accordance with such procedures established by the Administrator by regulation pursuant to Section 28-26, which shall include, at a minimum, an opportunity for the applicant or permittee to be heard on pertinent matters and based upon procedures required by Code of Virginia, §§ 62.1-44.15:44 and 62.1-44.15:45, as applicable.

(Code 2004, § 50-412; Code 2015, § 14-333; Ord. No. 2014-116-89, § 3, 5-27-2014)

Sec. 14-334. Appeals.

Any permit applicant, permittee or any other person subject to the requirements of this article, who is aggrieved by the issuance or non-issuance of a permit or an enforcement decision by the Administrator, may appeal the decision to the Richmond Circuit Court, if allowed by State law.

(Code 2004, § 50-413; Code 2015, § 14-334; Ord. No. 2014-116-89, § 3, 5-27-2014)

Sec. 14-335. Enforcement.

(a) If the Administrator determines that there is a failure to comply with the permit conditions, notice shall be served upon the permittee, operator or other person responsible for carrying out the permit conditions by any of the following: verbal warnings and inspection reports, notices of corrective action, special orders, and notices to comply. Written notices shall be served by registered or certified mail to the address specified in the permit application, or by delivery at the site of the development activities to the agent or employee supervising such activities.

(1) The notice shall specify the measures needed to comply with the permit conditions and shall specify the time within which such measures shall be completed. If the person served with such notice fails to comply or ensure that a responsible party complies within the time specified, the Administrator is authorized to issue a stop work order or to revoke the permit. The Administrator is also authorized to pursue additional enforcement measures listed below.

(2) If the Administrator issues a stop work order, the person to which such order has been issued shall cease or ensure that all land-disturbing activities cease until the Administrator confirms in writing that the permit violation has ceased, and/or that an approved plan and required permits have been obtained, or that specified corrective measures have been completed.

(3) Stop work orders shall be issued in accordance with City-issued procedures, and shall become effective upon service on the permittee or other appropriate person by certified mail, return receipt requested, sent to such person's address specified in the land records of the locality, or by personal delivery by an agent of the Administrator.

(4) The Administrator is authorized if, in the Administrator's discretion, any violation is adversely affecting, or presents an imminent and substantial danger of causing harmful erosion of lands or sediment deposition in waters within, the watersheds of the Commonwealth, or otherwise is causing a substantial adverse impact to water quality, to issue the permittee or other appropriate person, without advance notice or hearing, an emergency order directing such person to cease immediately all land-disturbing activities on the site. The Administrator shall provide an opportunity for a hearing, after reasonable notice, as to the time and place thereof, to a permittee, in order to determine whether to affirm, modify, amend, or cancel such emergency order.

(b) In addition to any other remedy provided by this chapter, if the Administrator determines that there is a failure to comply with the provisions of this chapter, the Administrator may initiate such informal or formal administrative enforcement procedures in a manner authorized by this chapter and any applicable City requirements. Such measures include, but are not limited to:

(1) With the consent of any person subject to a Richmond Stormwater Management Program Permit who has violated the Richmond Stormwater Management Program Permit; who has failed to comply with any decision of the Administrator or City; or who has violated the terms of any order issued by the Administrator or the City, a consent special order issued pursuant to Code of Virginia, § 62.1-44.15:48. A consent special order shall order the person to comply with the terms of the order, as well as any provision of this article or decision by the Administrator or the City. Such special orders shall be issued in accordance with City-issued requirements, including requirements for public notice and comment, unless issued as an emergency order consistent with subsection (a)(4) of this section. Special orders may include a civil charge for violations of the requirements listed above, instead of civil penalties that could be imposed pursuant to this section. The provisions of this subsection notwithstanding, the City, in its discretion, may proceed directly with other enforcement measures authorized by this article.

(2) Any person violating or failing, neglecting, or refusing to obey any rule, regulation, ordinance, order, or any permit condition issued by the Administrator or any provisions of this chapter may be compelled in a proceeding instituted by the City in any appropriate court to obey such rule, regulation, ordinance, order, or permit condition and to comply therewith, by injunction, mandamus or other appropriate remedy.

(3) Any person who violates any provision of this chapter or who fails, neglects or refuses to comply with any order of the Administrator or City, shall be subject to a civil penalty not to exceed $32,500.00 for each violation within the discretion of the court. Each day of violation of each requirement shall constitute a separate offense. The City may issue a summons for the collection of the civil penalty and the action may be prosecuted in the appropriate court. Violations for which a penalty may be imposed shall include, but not be limited to:

   a. No State permit registration;

   b. No stormwater pollution prevention plan;

   c. Incomplete stormwater pollution prevention plan;

   d. Stormwater pollution prevention plan not available for review;

   h. Operational deficiencies;

   i. Failure to conduct required inspections;

   j. Incomplete, improper, or missed inspections; and

   k. Discharges not in compliance with the requirements of the general permit.

(4) Notwithstanding any other civil or equitable remedy provided by this section or otherwise by law, any person who willfully or negligently violates any provision of this article, any order of the Administrator, any condition of a permit, or any order of a court pertaining to this article, shall be guilty of a misdemeanor punishable by confinement in jail for not more than 12 months or a fine of not more than $2,500.00, either or both.

Such action shall be set forth in writing and shall be provided to the owner or applicant, the program administrator and the designee.

(e) *Findings.* Adjustment of program requirements may be approved by the City Council or the designee only after demonstration by the owner or applicant and findings by the City Council or the designee, as the case may be, as to all of the following:

(2) Each program requirement to be adjusted is the most appropriate of the adjustments authorized by this section in consideration of the dwelling unit type involved, the character of the development and the surrounding neighborhood and the extent of the potential economic loss.

In making such determination, the designee shall adhere to the rules and standards established by the Director. The owner of a development containing affordable dwelling units or any other person involved in the sale, rental or re-rental of affordable dwelling units in a development may refer households to the designee for determination of eligibility.

(b) *Certificate of qualification.* A household determined to be eligible to purchase or rent an affordable dwelling unit shall obtain a certificate of qualification from the designee, a copy of which shall be provided by the designee to the program administrator. Before issuing a certificate of qualification, the designee shall verify that all applicable eligibility rules and standards are met. It shall be a violation of this article for any person to sell or rent an affordable dwelling unit to a household that has not been issued a current certificate of qualification by the designee.

(c) *Selection of eligible households.* Upon receiving a notice of availability for sales or rental from the program administrator, the designee shall select the eligible household or households for purchase or rental of the unit or units involved in accordance with the criteria contained in the approved affordable dwelling unit plan for the site and consistent with the method of selecting eligible households established by the Director. The names of selected eligible households shall be reported to the program administrator.

(d) *Underwriting criteria.* The designee shall use standard underwriting criteria in determining that eligible households are qualified to purchase or rent affordable dwelling units.

(1) In the case of purchase, the underwriting criteria shall include an expectation that the purchase will be financed with a conventional 30-year mortgage at prevailing interest rates for borrowers with good credit, that a maximum down payment of five percent will be made by the purchaser, and that condominium and homeowners' association fees will be included in determining mortgage affordability.

(2) In the case of rental, qualification shall be determined based on a review of credit worthiness and the assumption that monthly rental payments should not exceed 35 percent of a household's gross income.

The seller shall provide the program administrator with written notification upon the closing of the re-sale of such unit.

(1) Such affidavit shall include a statement of the renter's annual household income as of the date of the affidavit, together with such other information as may be requested by the owner for the purpose of verifying that the renter continues to meet applicable income eligibility criteria.

(2) Every lease of an affordable dwelling unit shall contain a provision that if the renter of an affordable dwelling unit fails to provide such affidavit to the owner within 30 days after the required date, or if the renter's income makes them ineligible for the program, then it is a material breach of the lease and notice shall be served on the tenant as provided in Code of Virginia, § 55-248.31 advising that the rental agreement shall terminate for noncompliance. With prior approval by the program administrator, the owner may provide for substitution of an affordable dwelling unit by designating an additional comparable unit of the same dwelling unit type on the site as an affordable dwelling unit to be rented under the provision and requirements of this article, in which case such renter may continue to occupy the unit at the market rent under a new lease.

(d) *Failure of renter to occupy a rental unit.* Every lease of an affordable dwelling unit shall contain a provision that the tenant must give notice to the owner of an anticipated extended absence in excess of 60 consecutive days. Unless such absence is approved in writing by the designee, the owner may proceed in conformance with Code of Virginia, § 55-248.33.

(e) *Re-rental of affordable dwelling units in case of vacancy.* The owner shall notify the designee of any vacancy of a rental affordable dwelling unit. The designee shall select an eligible household for re-rental of the unit in accordance with the provisions of Section 16-26 and shall notify the owner and the program administrator of such selection.

(f) *Renting to non-eligible household constitutes violation.* Except as provided in subsection (c)(2) of this section, it shall be a violation of this article for any person to knowingly rent or continue to rent an affordable dwelling unit to a household that does not meet or does not continue to meet applicable income eligibility criteria.

(g) *Required lease provisions for rental units.* Rental affordable dwelling units shall be leased for a period of not less than six months and not more than one year. In addition to any other requirements developed by the program administrator and the requirements specifically set forth in this article, lease agreements for such units shall also include a prohibition against the tenant subleasing the unit.

(b) *Price limitation period for affordable dwelling units for rental.* In the case of an affordable dwelling unit for rental, the rental price shall be limited in accordance with the provisions of this article and the applicable rules and standards for a period of 50 years after the initial rental transaction for such unit.

(a) It shall be an unlawful discriminatory housing practice for any person to:

(1) Refuse to sell or rent after the making of a bona fide offer or refuse to negotiate for the sale or rental of, or otherwise make unavailable or deny, a dwelling to any person because of race, color, religion, national origin, sex, elderliness, source of funds, familial status, sexual orientation, gender identity; or status as a veteran;

The use of words or symbols associated with a particular religion, national origin, sex, or race shall be prima facie evidence of an illegal preference under this article that shall not be overcome by a general disclaimer. However, reference alone to places of worship, including churches, synagogues, temples, or mosques, in any such notice, statement, or advertisement shall not be prima facie evidence of an illegal preference;

(4) Represent to any person because of race, color, religion, national origin, sex, elderliness, familial status, source of funds, sexual orientation, gender identity, status as a veteran, or disability that any dwelling is not available for inspection, sale, or rental when such dwelling is in fact so available;

(6) Include in any transfer, sale, rental, or lease of housing any restrictive covenant that discriminates because of race, color, religion, national origin, sex, elderliness, familial status, source of funds, sexual orientation, gender identity, status as a veteran, or disability or for any person to honor or exercise, or attempt to honor or exercise, any such discriminatory covenant pertaining to housing;

(7) Induce or attempt to induce to sell or rent any dwelling by representations regarding the entry or prospective entry into the neighborhood of a person or persons of a particular race, color, religion, national origin, sex, elderliness, familial status, source of funds, sexual orientation, gender identity, status as a veteran, or disability;

(8) Refuse to sell or rent, or refuse to negotiate for the sale or rental of, or otherwise discriminate or make unavailable or deny a dwelling because of a disability of (i) the buyer or renter; (ii) a person residing in or intending to reside in that dwelling after it is so sold, rented, or made available; or (iii) any person associated with the buyer or renter; or

(9) Discriminate against any person in the terms, conditions, or privileges of sale or rental of a dwelling, or in the provision of services or facilities in connection therewith, because of a disability of (i) that person; (ii) a person residing in or intending to reside in that dwelling after it was so sold, rented, or made available; or (iii) any person associated with that buyer or renter.

(b) For the purposes of this section, discrimination includes (i) a refusal to permit, at the expense of the disabled person, reasonable modifications of existing premises occupied or to be occupied by any person if such modifications may be necessary to afford such person full enjoyment of the premises; except that, in the case of a rental, the landlord may, where it is reasonable to do so, condition permission for a modification on the renter's agreeing to restore the interior of the premises to the condition that existed before the modification, reasonable wear and tear excepted; (ii) a refusal to make reasonable accommodations in rules, practices, policies, or services when such accommodations may be necessary to afford such person equal opportunity to use and enjoy a dwelling; or (iii) in connection with the design and construction of covered multifamily dwellings for first occupancy after March 13, 1991, a failure to design and construct dwellings in such a manner that:

(3) All premises within covered multifamily dwelling units contain an accessible route into and through the dwelling; light switches, electrical outlets, thermostats, and other environmental controls are in accessible locations; there are reinforcements in the bathroom walls to allow later installation of grab bars; and there are usable kitchens and bathrooms such that an individual in a wheelchair can maneuver about the space. As used in this subdivision, the term "covered multifamily dwellings" means buildings consisting of four or more units if such buildings have one or more elevators and ground floor units in other buildings consisting of four or more units.

(c) Compliance with the appropriate requirements of the American National Standards for Building and Facilities (commonly cited as "ANSI A117.1") or with any other standards adopted as part of regulations promulgated by HUD providing accessibility and usability for physically disabled people shall be deemed to satisfy the requirements of subdivision (b)(3).

(d) Nothing in this article shall be construed to invalidate or limit any Virginia law or regulation that requires dwellings to be designed and constructed in a manner that affords disabled persons greater access than is required by this article.

Sec. 17-22. Discrimination in residential real estate-related transactions.

(a) It shall be unlawful for any person, including any lending institution, whose business includes engaging in residential real estate-related transactions, to discriminate against any person in making available such a transaction or in the terms or conditions of such a transaction or in the manner of providing such a transaction, because of race, color, religion, national origin, sex, age, familial status, or disability. It shall not be unlawful, however, for any person whose business includes engaging in residential real estate transactions to require any applicant to qualify financially for the loan for which such person is making application.

(b) As used in this section, the term "residential real estate-related transaction" means any of the following:

(1) The making or purchasing of loans or providing other financial assistance:

a. For purchasing, constructing, improving, repairing, or maintaining a dwelling; or

b. Secured by residential real estate; or

(2) The selling, brokering, insuring or appraising of residential real property. However, nothing in this article shall prohibit a person engaged in the business of furnishing appraisals of real property to take into consideration factors other than race, color, religion, national origin, sex, age, familial status, or disability.

(c) It shall be unlawful for any State, County, City, or Municipal treasurer or governmental official whose responsibility it is to account for, to invest, or manage public funds to deposit or cause to be deposited any public funds in any lending institution provided for in this section which is found to be committing discriminatory practices, where such findings were upheld by any court of competent jurisdiction. Upon such a court's judicial enforcement of any order to restrain a practice of such lending institution or for such institution to cease or desist in a discriminatory practice, the appropriate fiscal officer or treasurer of the City or any political subdivision thereof which has funds deposited in any lending institution which is practicing discrimination, as set forth in this section, shall take immediate steps to have the funds withdrawn and redeposited in another lending institution. If for reasons of sound economic management this action will result in a financial loss to the City, the action may be deferred for a period not longer than one year. If the lending institution in question has corrected its discriminatory practices, any prohibition set forth in this section shall not apply.

State law reference—Similar provisions, Code of Virginia, § 36-96.5.

Sec. 17-24. Certain restrictive covenants void; instruments containing such covenants.

(a) Any restrictive covenant and any related reversionary interest, purporting to restrict occupancy or ownership of property on the basis of race, color, religion, national origin, sex, age, familial status, or disability, whether included in an instrument affecting the title to real or leasehold property, are declared to be void and contrary to the public policy of this Commonwealth.

(b) Any person who is asked to accept a document affecting title to real or leasehold property may decline to accept the document if it includes such a covenant or reversionary interest until the covenant or reversionary interest has been removed from the document. Refusal to accept delivery of an instrument for this reason shall not be deemed a breach of a contract to purchase, lease, mortgage, or otherwise deal with such property.

(c) No person shall solicit or accept compensation of any kind for the release or removal of any covenant or reversionary interest described in subsection (a) of this section. Any person violating this subsection shall be liable to any person injured thereby in an amount equal to the greater of three times the compensation solicited or received or $500.00, plus reasonable attorney's fees and costs incurred.

(d) A family care home, foster home, or group home in which individuals with physical disabilities, mental illness, intellectual disability, or developmental disability reside, with one or more resident counselors or other staff persons, shall be considered for all purposes residential occupancy by a single family when construing any restrictive covenant which purports to restrict occupancy or ownership of real or leasehold property to members of a single family or to residential use or structure.

Sec. 17-25. Familial status protection not applicable to housing for older persons.

(a) As used in this section, the term "housing for older persons" means housing:

(1) Provided under any State or Federal program that is specifically designed and operated to assist elderly persons, as defined in the State or Federal program;

(2) Intended for and solely occupied by persons 62 years of age or older; or

(3) Intended for and solely occupied by at least one person 55 years of age or older per unit. The following criteria shall be met in determining whether housing qualifies as housing for older persons under this subsection (a)(3):

a. At least 80 percent of the occupied units are occupied by at least one person 55 years of age or older per unit; and

b. The publication of and adherence to policies and procedures which demonstrate an intent by the owner or manager to provide housing for persons 55 years of age or older.

(b) Nothing in this article regarding unlawful discrimination because of familial status shall apply to housing for older persons.

(c) Housing shall not fail to meet the requirements for housing for older persons by reason of:

(1) Persons residing in such housing as of September 13, 1988, who do not meet the age requirements of subsections (a)(2) and (a)(3) of this section, provided that new occupants of such housing meet the age requirements of those subsections; or

(2) Unoccupied units, provided that such units are reserved for occupancy by persons who meet the

requirements of subsections (a)(2) and (a)(3) of this section.

(Code 2004, § 58-37; Code 2015, § 17-25)

State law reference—Similar provisions, Code of Virginia, § 36-96.7.

Sec. 17-26. Exemptions.

(a) Except as provided in Section 17-21(a)(3) and Section 17-24(a) through (c), this article shall not apply to any single-family house sold or rented by an owner, provided that such private individual does not own more than three single-family houses at any one time. In the case of the sale of any single-family house by a private individual owner not residing in the house at the time of the sale or who was not the most recent resident of the house prior to sale, the exemption granted shall apply only with respect to one such sale within any 24-month period; provided that such bona fide private individual owner does not own any interest in, nor is there owned or reserved on his behalf, under any express or voluntary agreement, title to or any right to all or a portion of the proceeds from the sale or rental of, more than three such single-family houses at any one time. The sale or rental of any such single-family house shall be exempt from the application of this article only if the house is sold or rented (i) without the use in any manner of the sales or rental facilities or the sales or rental services of any real estate broker, agent, salesperson, or of the facilities or the services of any person in the business of selling or renting dwellings, or of any employee, independent contractor, or agent of any broker, agent, salesperson, or person and (ii) without the publication, posting, or mailing, after notice, of any advertisement or written notice in violation of this article. However, nothing herein shall prohibit the use of attorneys, escrow agents, abstractors, title companies, and other professional assistance as necessary to perfect or transfer the title. This exemption shall not apply to or inure to the benefit of any licensee of the Real Estate Board or regulant of the Fair Housing Board, regardless of whether the licensee is acting in his personal or professional capacity.

(b) Except for Section 17-21(a)(3), this article shall not apply to rooms or units in dwellings containing living quarters occupied or intended to be occupied by no more than four families living independently of each other, if the owner actually maintains and occupies one of such living quarters as his residence.

(c) Nothing in this article shall prohibit a religious organization, association or society, or any nonprofit institution or organization operated, supervised, or controlled by or in conjunction with a religious organization, association or society, from limiting the sale, rental, or occupancy of dwellings that it owns or operates for other than a commercial purpose to persons of the same religion, or from giving preferences to such persons, unless membership in such religion is restricted on account of race, color, national origin, sex, elderliness, familial status, sexual orientation, gender identity, status as a veteran, or disability. Nor shall anything in this article apply to a private membership club not in fact open to the public, which as an incident to its primary purpose or purposes provides lodging that it owns or operates for other than a commercial purpose, from limiting the rental or occupancy of such lodgings to its members or from giving preference to its members. Nor, where matters of personal privacy are involved, shall anything in this article be construed to prohibit any private, State-owned, or State-supported educational institution, hospital, nursing home, or religious or correctional institution from requiring that persons of both sexes not occupy any single-family residence or room or unit of dwellings or other buildings, or restrooms in such room or unit in dwellings or other buildings, which it owns or operates.

(d) Nothing in this article prohibits conduct against a person because such person has been convicted by any court of competent jurisdiction of the illegal manufacture or distribution of a controlled substance as defined in Federal law.

(e) It shall not be unlawful under this article for any owner to deny or limit the rental of housing to persons who pose a clear and present threat of substantial harm to others or to the dwelling itself.

(f) A rental application may require disclosure by the applicant of any criminal convictions and the owner or managing agent may require as a condition of acceptance of the rental application that the applicant consent in writing to a criminal record check to verify the disclosures made by the applicant in the rental application. The owner or managing agent may collect from the applicant moneys to reimburse the owner or managing agent for the exact amount of the out-of-pocket costs for such criminal record checks. Nothing in this article shall require an owner or managing agent to rent a dwelling to an individual who, based on a prior record of criminal convictions involving harm to persons or property, would constitute a clear and present threat to the health or safety of other individuals.

(g) Nothing in this article limits the applicability of any reasonable local, State or Federal restriction regarding the maximum number of occupants permitted to occupy a dwelling. Owners or managing agents of dwellings may develop and implement reasonable occupancy and safety standards based on factors such as the number and size of sleeping areas or bedrooms and overall size of a dwelling unit so long as the standards do not violate local, State or Federal restrictions. Nothing in this article prohibits the rental application or similar document from requiring information concerning the number, ages, sex and familial relationship of the applicants and the dwelling's intended occupants.

(h) Nothing in this article shall prohibit a landlord from considering evidence of an applicant's status as a victim of family abuse, as defined in Code of Virginia, § 16.1-228, to mitigate any adverse effect of an otherwise qualified applicant's application pursuant to Code of Virginia, § 55.1-1203(D).

(i) Nothing in this article shall prohibit an owner or an owner's managing agent from denying or limiting the rental or occupancy of a rental dwelling unit to a person because of such person's source of funds, provided that such owner does not own more than four rental dwelling units in the Commonwealth at the time of the alleged discriminatory housing practice. However, if an owner, whether individually or through a business entity, owns more than a ten percent interest in more than four rental dwelling units in the Commonwealth at the time of the alleged discriminatory housing practice, the exemption provided in this subsection shall not apply.

(j) It shall not be unlawful under this article for an owner or an owner's managing agent to deny or limit a person's rental or occupancy of a rental dwelling unit based on the person's source of funds for that unit if such source is not approved within 15 days of the person's submission of the request for tenancy approval.

Sec. 17-27. Persons adversely affected; filing of civil action or complaint.

Any person adversely affected by the use of a discriminatory practice prohibited under this article may:

(1) Institute an action for injunctive relief and money damages against the person responsible for such discriminatory practice in the Circuit Court of the City. If the court finds that the defendant was responsible for such a practice and that the plaintiff was adversely affected thereby, it shall enjoin the defendant from use of such practice and in its discretion award the plaintiff actual damages with court costs and reasonable attorney's fees.

(2) File a complaint with the Office of Human Services Advocacy. Such a complaint, which shall be in writing and verified by the complainant, shall state the name and address of the complainant and of the person against whom the complaint is made and shall also state the alleged facts surrounding the alleged unlawful housing practice. Such complaint shall be filed within 180 days of the alleged unlawful housing practice.

(Code 1993, § 16-98; Code 2004, § 58-39; Code 2015, § 17-27)

Sec. 17-28. Procedure upon filing of complaint.

(a) Upon the filing of a complaint pursuant to Section 17-27, the Office of Human Services Advocacy shall determine whether there is probable cause to believe that a violation of this article has occurred. If it is determined that no probable cause exists to believe that a violation of this article has occurred, the complaint shall be dismissed. If it is determined that there is probable cause to believe that a violation of this article has occurred, the Office of Human Services Advocacy shall attempt to resolve the complaint by conciliation.

(b) If attempts at conciliation are unsuccessful, the Office of Human Services Advocacy shall, upon the request of the complainant, forward the complaint to the Chief Administrative Officer or his designee. If the Chief Administrative Officer or his designee, following such hearing as it deems appropriate and after giving the person charged with engaging or with having engaged in the unlawful housing practice an opportunity to present such evidence or argument to the Chief Administrative Officer or his designee as such person deems appropriate, determines that there has been a violation of this article, he may issue a cease and desist order, which shall state the nature of the violation and give the person who is in violation a reasonable period of time to take corrective action to remedy such violation. If there is noncompliance with such order, the City Attorney or the complainant may seek

to have such order enforced by filing an action in the Circuit Court for the City.
