

As a Richmond community member, the inadequate funding for RPS staff in the budget is deeply concerning.

The Mayor must respect the hard work of our educators and the collective bargaining agreements that they won. Our schools are under attack by the Trump administration, and if you care about our students, you need to do everything in your power to ensure our students are getting a high quality education from extremely qualified staff.

Our kids deserve better than this budget.

*Orshel Mann*

As a worker in Richmond Public Schools, I am asking you to fight for us.

Make sure that we are getting the respect that we both deserve and fought for at the bargaining table. We fought hard for our CBAs, and they must be honored.

Our students deserve a better budget than this.
