RE: Designating the 1.508-acre site at 1021 East 4th Street, as a Revitalization Area pursuant to Virginia Code §36-55.30:2.A to secure VHDA (Virginia Housing) financing for the 127 multifamily development serving low-income individuals and families.

ORD. OR RES. No.

PURPOSE: To request a resolution from the City Council designating the 1.508-acre site at 1021 East 4th Street as a Revitalization Area pursuant to Virginia Code §36-55.30:2.A to secure VHDA (Virginia Housing) financing for the development of a 127 multifamily development serving low-income individuals and families.

REASON: Lynx Ventures, Inc. is seeking 4% housing tax credits to finance the development of 127 high-quality newly constructed units.

RECOMMENDATION: Approval is recommended.

BACKGROUND: The proposed development at 1021 East 4th Street is another phase of the New Manchester Flats mixed-use, mixed-income redevelopment complex located in a former industrial area. The development will be constructed under the conditions and requirements outlined in the Plan of Development (POD) as required by the zoning ordinance, to allow the development of the 127 multifamily residential units and accessory uses.

The development will provide 127 multifamily units, all of which are restricted to persons earning 60% of the area median income (AMI). The site includes one four-story building at the corner of East 4th Street and Gordon Avenue with the off-street parking tucked behind the building and visible from East 4th Street. Walter Park Architects designed the architectural façade of the building to feature brick,

metal, and fiber cement panels. The multifamily development will also be constructed to meet the EarthCraft Gold Standards.

The development will include an on-site leasing office, a market-rate level design that features stainless appliances, stone countertops, and an in-unit washer and dryer. This phase will also have a mail room for regular mail as well as a package delivery and pick-up area and a locking bike shelter. The residents will have access to the amenities provided in the New Manchester Flats existing complex, including a pool, courtyard, fitness room, and Electric Vehicle (EV) chargers.

The estimated project cost is 32 million dollars and will be financed with tax credit investments, deferred fees, and grants to close the gap. Drucker and Falk are anticipated to be the third-party property management company to provide professional property management and maintenance services. This will be a 30-year affordable development with all the units set aside for renters earning at 60% of the area median income (AMI). The development will provide the following unit mix:

Unit Mix

Bedroom(s)	Bathroom(s)	# of Units	Floors
1	1	27	First
		28	Second
		28	Third
		28	Fourth
Total		111	
2	2	4	First
		4	Second
		4	Third
		4	Fourth
Total		16	
Total Units		127	

This proposed development only includes a residential (housing) building and no nonhousing buildings.

The planned development at 1021 East 4th Street will be in a Revitalization Area in the City of Richmond, Virginia. The revitalization area currently meets the following conditions (i) (2) the industrial, commercial, or other economic development of such area will benefit the city but such area lacks the housing needed to induce manufacturing, industrial, commercial, governmental, educational, entertainment, community development, healthcare or nonprofit enterprises or undertakings to locate or remain in such area; and (ii) private enterprise and investment are not reasonably expected, without assistance, to produce the construction or rehabilitation of decent, safe and sanitary housing and supporting facilities that will meet the needs of low and moderate-income persons and families in such area and will induce other persons and families to live within such area and thereby create a desirable economic mix of residents in such area.

Letter of support

Robertson, Ellen F. - City Council <Ellen.Robertson@rva.gov>

To: John Gregory <jgregory@lynxventures.com>

To Whom it May Concern:

As the 6th District Council Representative, I am writing in support of “New Manchester Flats VI”, the proposed multifamily development at 1021 East 4th Street with 127 dwelling units.

The proposed multifamily development would provide greatly needed high-quality housing options for residents in Manchester. As the final phase of the larger mixed-use-mixed-income “New Manchester Flats” development, this project would create more homes at affordable rates with access to amenities, jobs, and medical services for residents.

I urge you to also support of this effort to bring affordable housing that complements the neighborhood to this currently underutilized property in Manchester.

Thanks in advance

Ellen F. Robertson

City Council
