gas distribution system. This service is applicable only to customers that take in excess of 120,000 ccf over a consecutive 12-month period at the delivery point set forth in the service agreement for transportation between the City and the customer (referred to as the “service agreement”). The customer must deliver its gas to the receipt point approved by the City and set forth in the service agreement. Once the City has received the customer's gas at the receipt point, the City will transport the gas, minus the lost and unaccounted for adjustment determined under subsection (g)(2) of this section to the delivery point. This service is available only to those customers who execute a service agreement for the service provided in this section.

(2) Daily balancing service is mandatory for all customers under this rate schedule.

Payment will be required prior to initiation of transportation service.

(c) *Character of service.* The City shall be obligated to deliver gas to the delivery point up to the lesser of the customer's transportation maximum daily quantity (TMDQ) and the

daily volume of gas received by the City from the customer at the receipt, point minus the lost and unaccounted for adjustment determined under subsection (g)(2) of this section.

(d) *Service agreement.* A service agreement shall be provided in accordance with the following:

(1) The customer shall execute a service agreement with the City which specifies the TMDQ, the receipt point, the delivery point, and the pressure at the delivery point. The service agreement shall be in the form as attached to this rate schedule on file in the City offices.

(2) The service agreement shall have an initial term of one year and then shall continue in effect for additional terms of one year until terminated by the customer or the City upon at least 30 days' written notice given prior to the end of the initial term or of any additional term.

(3) If a customer takes gas from the City under this rate schedule at more than one delivery point, these delivery points will be included in one service agreement and will be treated as a single delivery point for purposes of the customer charge, the distribution charge, the daily and monthly imbalances and imbalance charges, the TMDQ, and meeting the minimum take requirement to qualify for service under this rate schedule.

(e) *Transportation maximum daily quantity (TMDQ).* After consulting with a customer, the City will assign the customer a TMDQ. This TMDQ will remain in effect for the term of the service agreement unless modified by written agreement of the City and the customer.

(f) *Rates and charges for transportation service.* The customer shall pay the rates and charges each month for gas for transportation service under schedule TS as follows:

(g) *Receipt and delivery.* Receipt and delivery shall be in accordance with the following:

(1) The receipt point shall be at a pipeline City gate station as assigned by the City and as specified in the service agreement.

As of the effective date of this rate schedule, the percentage of volumes retained shall be 2½ percent.

(h) *Load balancing.* Load balancing shall be in accordance with the following:

If enough system supply is not available, the customer shall purchase all gas in excess of the customer's net daily receipts at the sum of the customer's distribution charge, the balancing charge as set forth in subsection (f) of this section, the peak shaving price and the storage capacity price.

(6) When the customer's daily deliveries exceed the actual usage at the delivery point, the City shall purchase these "overtendered" quantities at the lower of the City WACOG or 95 percent of the Transco Zone 6 (non-New York) price for the current month.

(7) If on any day the daily imbalance, as set forth in subsection (h)(3) of this section, exceeds ten percent, the customer shall pay a pro rata share of any upstream gas pipeline penalties incurred based upon the customer's daily imbalance in the same direction as the imbalance for which the penalty was incurred.

(i) *Utility tax.* All bills rendered under this rate schedule shall be subject to any applicable utility tax.

(j) *Force majeure.* If either the City or the customer is rendered unable, either wholly or in part, to carry out its obligations under this section because of a force majeure, the obligations of the party affected by such force majeure, other than the obligation to make payments under this section, shall be suspended during the continuance of any inability so caused, but for no longer period. The term “month,” as used in this subsection, shall be deemed to mean the period between any two consecutive readings of meters by the City, such readings to be made as near as practicable every 30 days.

(2) For customers having gas facilities with a consuming capacity of 3,000,000 Btu per hour and having installed no. 6 oil alternate fuel capability, each monthly bill shall be not less than [~~\$1,060.51~~] \$1,102.93, except in months when the City delivers less than 1,500 ccf as provided in this subsection.
