Re: Approval of Storm Drain Art Project for 2018

Dear Commission Members,

The City of Richmond's Department of Public Utilities is pleased to submit the final art work for our annual 2018 Storm Drain Art Contest – "You are the Pollution Solution". We are excited to once again collaborate with the best of Richmond's art community to bring pollution prevention awareness to the busy and vibrant Carytown neighborhood.

As we enter our third year of drain art installations, we are honored to bring this award-winning program back to the commission for review and approval. We hope that the Commission members are just as excited about this fun and educational outreach project that continues to gain national recognition.

Please take the time to visit our [RVAH20.org](http://RVAH20.org) website to see how applicants can enter the contest as well as a comprehensive "How to Guide" on how other localities can create a program like this in their own communities.

Thank you again for your consideration.

Sincerely,

A handwritten signature in blue ink that reads "J Hatchett". The signature is written in a cursive, flowing style.

Jennifer Hatchett, Stormwater and Wastewater Administrator  
Department of Public Utilities
