Baker Development Resources

To those concerned

At the June 4th meeting of the Uptown Association, at “Cary Street Station” we were presented a plan to create, short term rental spaces, in and by the owner of those properties at 2615, 2617, 2619 West Cary Street. Parking is existing in the rear of the properties. Having a quorum present the Uptown board voted to support this application.

We, suggested at that time that some refurbishing on the street fronts would be helpful. This work has in fact taken place.
