

To all our neighbors and friends in Highland Park:

We are hopeful that we can have a change to our home at 3211 Delaware Avenue from single family to a rental situation that will enable us to keep this home affordable for people who need this as they deal with issues in their lives. In order to do this, we need to be permitted to have locks on each bedroom door for privacy and protection for each tenant. This need would change the coding from single family to rooming house if the city of Richmond approves. We feel this arrangement is helpful to the tenants, does not cause any issues within the neighborhood and doesn't create overcrowding or parking problems. We do need the support of the neighborhood in writing, so we can present this to the city, and they will know we are acting in good faith and with your cooperation. Thank you for your help.
