BACKGROUND: Through coordination with the Virginia Department of Transportation (VDOT) and the Metropolitan Planning Organization (MPO), this project is funded primarily with RSTP (Regional Surface Transportation Program) funds. These improvements were designed by CH2M HILL Consulting Engineers as construction plans noted as DPW Drawing No. O-28396.

Project improvements consist of two travel lanes with a grass median. A continuous 5 ft sidewalk on the south side of the project corridor, and an 8 ft shared use path along the north side of the corridor that extends from Newell Road to the CSX rail crossing, to the existing sidewalk that continues to Forest Hill Avenue. A green space for landscaping is provided on both sides of the project corridor. The green space is 6 ft adjacent to the sidewalk and 8 ft adjacent to the shared use path.

These improvements require additional right-of-way, temporary easements, permanent easements, and utility easements for eighty-four (84) parcels, as part of the project. In order to prepare for the construction of the project, it will be necessary for the City of Richmond to acquire permanent easement (935 sq. ft.) and permanent utility easement (1677 sq. ft.) from the property at 1056 Boroughbridge Road, Parcel 080. The Department of Public Works has made several attempts to negotiate with the property owner. Barbara M. Bowles has decided to hire private counsel. Based on assessment information, the permanent easement and permanent utility easement are estimated to have a combined value of \$4,128, which is budgeted in the City CIP and will be reimbursed with Federal funds.

FISCAL IMPACT: None

COST TO THE CITY: \$4,128 is the cost to acquire the permanent easements and permanent utility easements which are budgeted in Jahnke Road Project account number 29101-0601-1219-SV1503-100570, which will be paid through Federal reimbursable funds.
