RE: Reallocation of Live Fire Training Structure Award to the Capital Projects Fund

ORD. OR RES. No. _____

PURPOSE: To transfer \$480,000.00 in unexpended grant award funds for the reconstruction of the Department of Fire and Emergency Services' live fire training structure (the burn building) from the FY 2022-23 Special Fund to the FY 2026-2027 Capital Projects Fund to conform to the accounting treatment required for capital construction projects.

BACKGROUND: This ordinance authorizes the transfer of \$480,000.00 previously appropriated under Ordinance No. 2022-272 in the Fiscal Year 2022-2023 Special Fund to the Capital Projects Fund for Fiscal Year 2026-2027 and appropriates that sum to the Department of Fire's "Fire Training Facility Burn Tower Replacement" project in the Capital Investment Opportunities category. The funds will support the construction of a new live fire training facility, also known as the burn building, at the City of Richmond's Fire Training Academy.

The burn building will be used by the Department of Fire to conduct live fire training for recruits and incumbent personnel, providing a controlled environment essential to firefighter safety, certification, and operational readiness. Replacement of the existing structure is necessary to maintain the Department's training capacity and to meet current standards for live fire training facilities. The existing structure has been compromised since 2018, and the Virginia Department of Fire Programs ruled that the fire training tower component of the building was unsafe in that year.

The live fire training structure grant award addressed by this ordinance was received in 2022 from the Virginia Department of Fire Programs. The grant's acceptance was approved through Ordinance No. 2022-272 for this purpose, and the award letter signed by then CAO Lincoln

CITY OF RICHMOND

Saunders. That ordinance allocated these funds to the Special Fund. Subsequent review identified that accounting standards reflected in the City's Annual Comprehensive Financial Report (ACFR) require that capital construction funds of this nature be appropriated to the Capital Projects Fund.

This ordinance would relocate the appropriation to the Capital Projects Fund, which is the appropriate accounting vehicle for capital construction projects.

No new funding source is required, and the action is budget-neutral with respect to the General Fund. The grantor does not require a match from other funds. No grant funds have yet been expended. The award is reimbursement-based. Fire has been granted an extension of the period of performance through January 1, 2029 to complete the work once sufficient additional funds become available to allow for construction of the new structure.

COMMUNITY ENGAGEMENT: The Fire Department has not performed additional community engagement for this grant as it funds activities about which the Fire Department already regularly informs the community.

STRATEGIC INITIATIVES AND OTHER GOVERNMENTAL:

FISCAL IMPACT: This ordinance reallocates \$480,000.00 previously appropriated for the rebuild of the live fire training structure from the Special Fund to the Capital Projects Fund.

DESIRED EFFECTIVE DATE: Upon adoption

13 To the extent permitted by law, the Grantee shall retain title to the Project and underlying land, and the Grantee shall not release or transfer title without first receiving written approval from the Board prior to such release, which approval shall not be unreasonably withheld.

14 The Grantee agrees to retain all books, records and other documents relative to expenditures of Grant Funds for five years from the completion date of the Project. The Board, the Department and/or State auditors shall have full access to and the right to audit any of these records during the above-referenced period.
