**Acknowledgement of Responsibility**

**Compliance:** If granted, you agree to comply with all conditions of the certificate of appropriateness (COA). Revisions to approved work require staff review and may require a new application and approval from the Commission of Architectural Review (CAR). Failure to comply with the conditions of the COA may result in project delays or legal action. The COA is valid for one (1) year and may be extended for an additional year, upon written request and payment of associated fee.

**Requirements:** A complete application includes all applicable information requested on checklists available on the CAR website to provide a complete and accurate description of existing and proposed conditions, as well as payments of the application fee. Applications proposing major new construction, including additions, should meet with staff to review the application and requirements prior to submitting. Owner contact information and signature is required. Late or incomplete applications will not be considered.

**Zoning Requirements:** Prior to Commission review, it is the responsibility of the applicant to determine if zoning approval is required. Application materials should be prepared in compliance with zoning.

## Before You Submit

In advance of the application deadline, please contact staff to discuss your project, application requirements, and if necessary, to make an appointment to meet with staff for a project consultation. The CAR website has additional project guidance and required checklists: [www.rva.gov/planning-development-review/commission-architectural-review](http://www.rva.gov/planning-development-review/commission-architectural-review).

**Application deadlines are firm.** All materials must be submitted by the deadline to be considered at the following Commission meeting. Designs must be final at the time of application; revisions will not be accepted after the deadline. Incomplete and/or late applications will not be placed on that month's agenda.

## Submission Requirements

Please submit applications to staff via email with the project address in the subject line. Submit the following items via email to staff:

- One (1) signed and completed application (PDF) – property owner signature required.
- Supporting documentation, as indicated on the [checklist](#), which can be found under the 'Application Information' tab on the website.
- Payment of application fee, if required. Payment of the fee must be received before the application will be scheduled. An invoice will be sent via the City's Online Permit Portal. Please see [fee schedule](#) available on the CAR website for additional information.

A complete application includes a signed application form, legible plans, drawings, elevations, material specifications, and payment of the required fee as described in the City Code of Ordinances Sec. 30-930.6(b). The Commission will not accept new materials, revisions, or redesigns at the meeting. Deferral until the following month's meeting may be necessary in such cases to allow for adequate review by staff, Commissioners, and public notice, if required.

## Meeting Information and Application Due Dates

- The Commission meets on the fourth Tuesday of each month, except for December when it meets on the third Tuesday.
- Application hearings start at 4:00pm. Meetings are held in person at City Hall in the 5<sup>th</sup> floor conference room. Participation via Microsoft Teams is available. It is strongly recommended that at least one person, either the owner or applicant, attend the meeting in person.
- All applications are due at 12 noon the Friday after the monthly CAR meeting, except in December, when applications are due the following Monday. For a list of meeting dates and submission deadline dates for each meeting please visit [www.rva.gov/planning-development-review/commission-architectural-review](http://www.rva.gov/planning-development-review/commission-architectural-review) or contact staff.
- Revisions to applications that have been deferred or conceptually reviewed at a CAR meeting can be submitted nine (9) business days after that meeting in order to be reviewed at the following meeting. Please contact staff to confirm this date.
- New construction will be required to go through a conceptual review. The conceptual review is non-binding.
- Applicants are encouraged to reach out to any relevant civic associations and immediate neighbors for new construction or large-scale projects prior to submitting to the Commission of Architectural Review.

**RE: Certificate of Appropriateness at 810 & 812 N 22<sup>nd</sup> Street**

Members of the Commission,

This memorandum shall serve as the applicant's statement for an application to be reviewed by the Commission of Architectural Review (the "CAR") for the proposed construction of four new single-family attached dwellings, configured as two pairs, on the properties known as 810 and 812 N 22<sup>n</sup> Street (the "Property").

The Property is located on the western line of N 22<sup>nd</sup> Street between Burton and Cedar Streets and lies in Richmond's Union Hill City Old and Historic District. Existing structures in the district are noted as being known for a variety of architectural styles and materials as well as a range of land uses. The Property is currently developed with a paved accessory parking area associated with the Greater Hope Baptist Church who is selling the Property.

The Property owner is proposing to construct four single-family attached dwellings, configured as two pairs, on the Property. The dwellings would front N 22<sup>nd</sup> Street and are three stories in height with a setback third floor for an east-facing terrace. The dwellings take design cues from existing dwellings nearby with a second-story false mansard roof. The dwelling located at the corner of N 22<sup>nd</sup> and Burton Streets would include a porch and terrace which wrap around the house to address Burton Street.

03 | N. 22ND ST. CONTEXT ELEVATION  
1/8" = 1'

Each of these dwellings would each contain 3 bedrooms and 2 ½ bathrooms in roughly 1,878 to 2,028 square feet of finished floor area. The dwellings have been designed with a floorplan which offers a living area and kitchen on the first floor. Two bedrooms will be located on the second floor while the third floor would consist of a primary bedroom with walk-in closet and en suite bathroom.

Along with the subject parcel, the property owner has also submitted application for a Certificate of Appropriateness (the “COA”) for the adjacent property to the north across Burton Street at 2111-2119 Venable Street. These two applications represent an appropriate development of the currently vacant parcels that is modern but also respectful to the historic Union Hill neighborhood.

**Siting:**

The Property, along with 2101 to 2119 Venable Street, is one of twelve total parcels currently owned by the Great Hope Baptist Church. Sanborn maps show the parcels were previously occupied with dwellings which were later removed to create the parking lot. The siting of the proposed dwellings is consistent with the historic use of the Property and the development pattern in the area. Current and historic dwellings front in this block front N 22<sup>nd</sup> Street and the dwellings will be set back from the street roughly 11.95' which recognizes the siting of the existing dwellings in the block along N 22<sup>nd</sup> Street in order to create a unified street wall.

**Form:**

The proposed designs were created to meet the CAR Guidelines underlying zoning requirements and recognize similar designs which have been approved elsewhere in the Union Hill and other City Old and Historic Districts.

Attached dwellings can be found throughout the Union Hill district. The proposed dwellings features a design which appeals to the current homebuyer along with details which reflect the historic nature of the neighborhood. Each dwelling would include traditional details

which can be found in the neighborhood such as transom windows above the front door and front stoops or porches with hip roofs. The proposed dwellings are not only consistent with the Union Hill neighborhood which is noted as being distinct for its “wide variety of architectural styles” within the Old and Historic District guidelines but is also consistent with the new Richmond 300 Master Plan which recommends the city “allow and encourage a variety of architectural styles.”

**Scale:**

The proposed construction of the new dwelling is consistent with the scale and character of the proposed site layout and existing neighborhood and will appear appropriate from street level. Dwellings in the area are of a range of heights with three story dwellings located in the subject block at 2116 Cedar Street and also at 2117, 2119, and 2121 Cedar Street. A dwelling similar to what is proposed, three-stories with a setback third floor, was also approved in 2021 nearby at 803 Jessamine Street.

**Height, Width, Proportion, & Massing**

At three stories, the proposed dwellings are comparable in height and massing with other structures on the block. The setback third floor reduce the visibility of the third floor of the dwellings from the street.

**Exterior Cladding/Doors and Windows/Materials**

Exterior cladding, doors and windows, foundation, and roofing are as noted on the attached plans. Cementitious siding was chosen for its durability and desirable aesthetics. A standing seam metal porch roof provides low maintenance, weather resistance, and compatibility with other. These items were selected to be consistent with CAR requirements and other dwellings within the Union Hill Old and Historic District. A finish schedule including doors and windows is provided for the proposed dwellings.

The proposed design is compatible with the historical fabric of the block as it recognizes the siting, scale, form, and massing of the contributing structures on the block. As noted by the *CAR's Handbook and Design Review Guidelines*, the Union Hill City Old and Historic District is characterized by a wide variety of architectural styles. The proposed dwellings provide modern architectural style offering new and desirable housing opportunities within the area while remaining consistent with the fabric of the historic district. Furthermore, many of the design elements of the proposed dwellings can be found on historically significant dwellings throughout the Union Hill district. The proposed single-family attached dwellings address the unique considerations of the lot size, shape, and underlying zoning while also acknowledging the historical characteristics of the Union Hill Neighborhood.

We thank you for the care and assistance in reviewing our application. Should you have any questions after reviewing this request, please feel free to contact me at [will@bakerdevelopmentresources.com](mailto:will@bakerdevelopmentresources.com) or (864) 377-9140.
