RE: Virginia Community Flood Preparedness Fund Grant

ORD. OR RES. No. _____

PURPOSE: To Authorize the Chief Administrative Officer to accept funds in the amount not exceed 75% of the demonstrated total cost of the planning and capacity building project (the "Local Project") or \$19,394, whichever is lesser, from the Virginia Resources Authority, as administrator of the Virginia Community Flood Preparedness Fund ("CFPF"), and to amend the FY2022 Stormwater Utility Budget by increasing the amount appropriated to the Stormwater Utility Budget by \$19,394 for the purpose of a planning and capacity building project for levee surveying, reporting, and engineering review of the survey report by a third party consultant.

REASON: To accept a grant to aid the development of a planning and capacity building project for levee surveying at the City of Richmond's water treatment plant, reporting, and engineering review of the survey report by a third party consultant. **The City must execute the attached Grant Agreement and return it to the Virginia Resources Authority no later than May 26, 2022 in order to receive the CFPF Grant to obtain up to \$19,394 in reimbursement funds for the Local Project.**

RECOMMENDATION: Authorize the Chief Administrative Officer to execute this Grant Agreement.

BACKGROUND: In the early 1990s, a flood project and levee system were constructed around the City of Richmond Water Filtration Plant. The flood project is situated on the north side of the James River and in the western part of the City approximately 1.8 miles downstream of the Westham river gauge. The flood project provides protection from the occurrence of an estimated discharge event of 467,000 cubic feet per second. The protected area of the levee system covers approximately 13.4 acres which includes 12 buildings and a combined property value of \$200 million. The flood project includes 150 feet of earthen levees, 2,200 feet of reinforced concrete floodwall, 5 closure structures, channel modifications to the historic Kanawha Canal, utility relocations, and modifications to the plant.

Since the 1990s when the flood project was completed, the flood project's facilities have been continuously maintained and operated. Maintenance and operation of the flood project's facilities has included routine benchmarking data taken for the levee system. Nevertheless, since the construction of the flood project, a comprehensive survey has never been performed for the entirety of the levee and there is no digital drawing information for the overall system.

As a part of the City's strategy to successfully operate the levee system, it is essential to establish a digital baseline to capture the system's current condition. Data collected through this process will allow the City to comprehensively understand the state of the levee and will help the City to organize for future needs and update emergency flooding response plans. This data will also allow for the development of education and engagement strategies for communities protected by the levees and will help the City meet FEMA regulatory needs to maintain the levee system's accreditation.

FISCAL IMPACT / COST: By accepting this grant, the Stormwater Utility will receive up to \$19,394 to mitigate the financial impact to their ratepayers.

FISCAL IMPLICATIONS: An up to \$19,394 increase in estimated revenues to the Stormwater Utility.

BUDGET AMENDMENT NECESSARY: Yes, to increase the FY2022 Stormwater Utility Budget account 0810-91002-70123-1409-SV1405-00-000000-000000-000000-000000 by \$19,394.

REVENUE TO CITY: Up to 75% of the Local Project cost or \$19,394, whichever is lesser.

DESIRED EFFECTIVE DATE: On adoption.

Pursuant to Article 1.3, Chapter 6, Title 10.1 of the Code of Virginia of 1950, as amended (the “Act”), the General Assembly created a fund known as the “Virginia Community Flood Preparedness Fund” (the “Fund”). The Grantee has requested a grant from the Fund and such grant has been approved by the Department, as evidenced by Exhibit A to this Agreement. The Grantee will use the grant monies from the Fund to finance that portion of the Project Costs not being paid from other sources as set forth in the Project Budget.

The Grantee shall make a request for reimbursement no later than ninety (90) days following the passage of the Local Project’s authorized completion date unless an extension is granted pursuant to Section 4.3 below.

ARTICLE IV

GRANT FUNDS

Section 4.1. Amount of Grant. The Grantee shall be reimbursed grant funds for the payment of Project Costs, in an amount not to exceed 75% of the demonstrated total cost of the Local Project or \$19,394, whichever is lesser, for the purposes set forth in the Project Description. Disbursement of grant funds will be in accordance with payment provisions set forth in Section 4.2. Grantee acknowledges and agrees that while grant funds awarded from the Fund may be used as match for other sources of funding, grant funds awarded from the Fund may not be utilized as match funds for other monies from the Fund. Monies used to match grants from the Fund may not be used as match for other grants.

Section 4.2. Application of Grant Funds. The Grantee agrees to apply the grant funds solely and exclusively to the reimbursement of the Grantee for payment of Project Costs. The Authority, at the direction of the Department, shall disburse grant funds from the Fund to the Grantee upon receipt by the Authority and the Department of the following:

(a) A Requisition, along with a Certificate of Approval by Certified Floodplain Manager, in the form set forth in Exhibit D and Financial Report Reimbursement Form, in the form set forth in Exhibit E, approved by the Department (upon which the Authority shall rely), signed by the Authorized Representative and containing all receipts, vouchers, statements, invoices or other evidence of the actual payment of Project Costs to this Agreement, and all other information required by, and otherwise being in the form of, Exhibit D to this Agreement, including a Certificate of Approval by Certified Floodplain Manager where work is being performed under the “Project” category of the Grant Manual.

(e) If the Local Project will be carried out in concert with a federal agency, evidence satisfactory to the Authority and the Department that the Grantee has authorization to enter into any necessary written agreement with the federal agency, including any provisions for cost-sharing; and

(f) To the extent the Local Project encompasses activities that include the development of flood protection facilities, acquisition of land, restoration of natural features, or other activities that involve design (including such design necessary to ensure the Local Project meets its intended purpose), construction or installation of facilities, a completed Resilience Plan satisfactory to the Authority and the Department was obtained as of the date of the delivery of this Agreement.

Upon receipt of the forgoing, the Authority shall disburse the grant funds hereunder to the Grantee in accordance with the submitted Requisition to the extent approved by the Department. The Department shall have no obligation to approve any Requisition, and the Authority shall have no obligation to disburse any such grant funds, if the Grantee is not in compliance with any of the terms of this Agreement.

Grantee is solely responsible for ensuring funds allocated and certified as match during the application process are appropriated, if applicable, and spent according to the approved project. consultation with the Chief Resilience Office, and the Special Assistant to the Governor for Coastal Adaptation and Protection.

In addition, the Authority may give written notice to the Grantee specifying the manner in which this Agreement has been breached and providing the Grantee thirty (30) days within which to cure the breach. Matching contributions, if applicable, must reflect expenses directly related to the implementation of this project and incurred only during the time of performance listed in this Agreement. The decision of the Department with respect to approval of matching funds shall be final. Matching funds must be tracked and reported to the Department in the quarterly reports described below, both in narrative summary and on **Exhibit E**.

Incomplete or inaccurate reports may result in reimbursement delays. These reports shall be certified by an authorized agent of the Grantee as being true and accurate to the best of the Grantee's knowledge, as indicated by their signature on **Exhibit F**.

(b) Final deliverables defined in the approved Scope of Work for the Local Project are due to the Department within 30 days following the Local Project end date, unless another date is approved in writing by the Department, upon submission by Grantee of an Extension Request, the form of which is attached hereto as **Exhibit G**. All requests for disbursement shall be delivered to DCR for approval according to the reimbursement terms of the grant manual, using the form provided, and as outlined in the Grant Agreement. DCR shall forward the approved request to VRA for payment to the applicant. VRA will not disburse funds prior to receipt of a fully executed Grant Agreement.

Final reimbursement requests must be submitted within 90 days following passage of the authorized project completion date; this request must include completed and signed Reimbursement Request Form, signed Form of Requisition along with the signed Certificate of Approval Floodplain Management, proof of payment (canceled checks, bank statements, accounting system reports, etc.) and invoices to cfpf@dcr.virginia.gov or other depository as determined by DCR.

6. If a project, study, capacity building or planning activity does not commence in a timely fashion to allow completion within the agreement period, funding will be withdrawn and the applicant may reapply during the next grant round, should funds be available.
7. An extension may be granted at the discretion of the Department; however, all extension requests must be received no later than 90 days prior to the expiration of the original agreement, and the approved activity must have commenced within the first nine months of the original agreement period.
