I am interested in being a part of the community criminal justice board because I want to learn. The last year I have been learning more about our justice system from the infrastructure that exists, the evolution of the system throughout our history, systemic issues that feed into it, the mindblowing difference between our justice system and the criminal justice system in Germany, so much. It's been eye-opening as well as devastating. I would really love to learn from other council members and as a team member learn how I can be a support. I think architecture has provided me the education of perspective and the power of design. I know that there are organizations and firms that exist that focus on re-designing the justice system and the experience. I would like to learn more about it through the lens of the city I am apart of to begin.
