REQUEST FOR CONCEPTUAL REVIEW

I hereby request Conceptual Review under the provisions of Chapter 114, Article IX, Division 4, Section 114-930.6(d) of the Richmond City Code for the proposal outlined below in accordance with materials accompanying this application. I understand that conceptual review is advisory only.

APPLICATION FOR CERTIFICATE OF APPROPRIATENESS

I hereby make application for the issuance of a certificate under the provisions of Chapter 114, Article IX, Division 4 (Old and Historic Districts) of the Richmond City Code for the proposal outlined below in accordance with plans and specifications accompanying this application.

DETAILED DESCRIPTION OF PROPOSED WORK (Required):

STATE HOW THE DESIGN REVIEW GUIDELINES INFORM THE DESIGN OF THE WORK

PROPOSED. (Include additional sheets of description if necessary, and 12 copies of artwork helpful in describing the project. The 12 copies are not required if the project is being reviewed for an administrative approval. See instruction sheet for requirements.)

AS Owner, we temporarily installed a banner (10' x 3') secured in a frame to the side of our bldg, LAVA Lofts. This was done for the purpose of renting vacant apts. The frame is metal, banner is cloth. Both were professionally made and were part of a customized order.

Signature of Owner or Authorized Agent: X [Signature]

Name of Owner or Authorized Agent (please print legibly): Susanould, Mgr. Many Lives, LLC

(Space below for staff use only)

BANNER GRIP™

BANNER STRETCHING FRAME

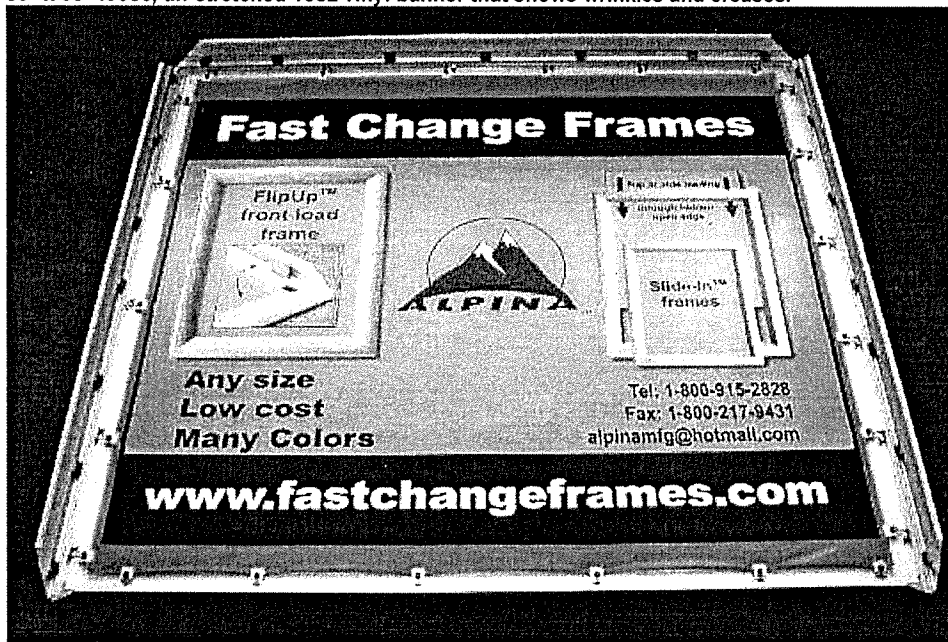

Takes loose banners and makes them drum-tight. Any size made fast, free shipping !

www.bannergrip.com

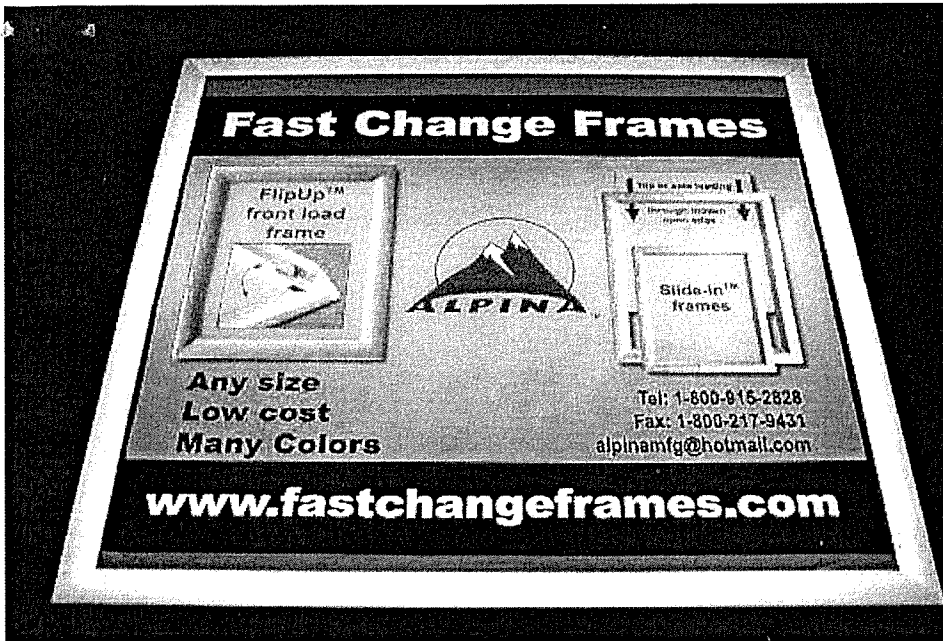

80" x 90" loose, un-stretched 18oz vinyl banner that shows wrinkles and creases.

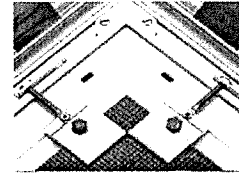

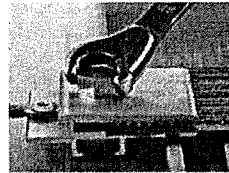

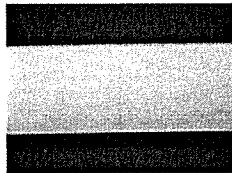

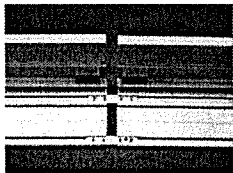

Stretched banner showing Banner Grip's simple clamps doing all the work. Above clamps will stretch out the worst wrinkles and creases. Your graphic will look like it was ironed !

Banner Grip's frame edges flipped down to cover clamps and mounting holes. Banner looks beautiful !

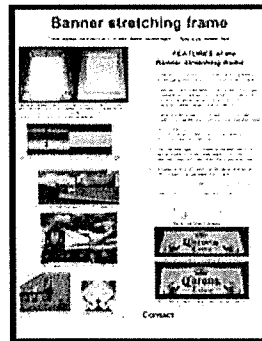

Large frames are sent in 60" to 80" sections and quickly connect with pre-installed joiner straps. Once closed, the seams are practically invisible. Frames are sent by UPS for easy assembly on site.

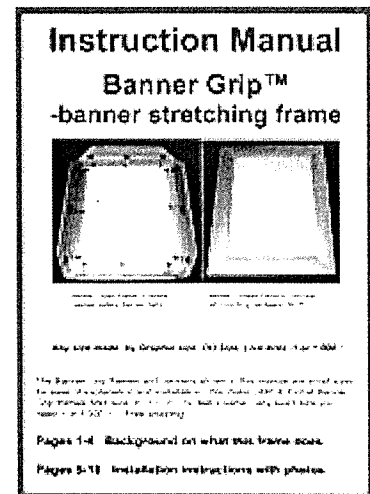

Patented, yet simple, super-strong alloy clamps stretch and hold the banner without tearing or perforating the banner.

Download PDF of Generic Flyer to add your name and contact info.

Above, Instruction Manual, click to download

FEATURES of the Banner Grip™ stretching frame:

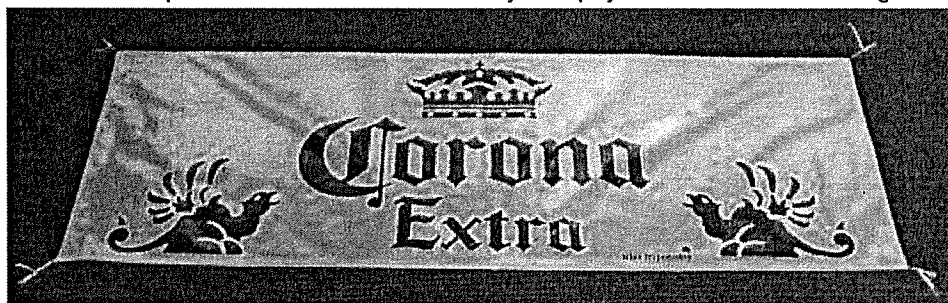

- Easily hang loose banner in frame before tightening, no struggling with precision alignment or sticky tapes.
- Other frames need to be screwed or riveted through the face of the frame to tighten banner. Banner Grip does not need screws or rivets on the face of the frame to achieve the cleanest, most professional look.
- On other frames, corner wrinkles are common and very hard to fix. Banner Grip frame will eliminate 100% of the wrinkles for the BEST look for your graphic.
- Easily add clamps anywhere in rail, at any time-to get a perfectly stretched banner; Clamps are individually adjustable to get the perfect stretch -no sags anywhere. A truly innovative frame. Patents Pending.
- Outside or Inside use, will not rust, drip or corrode -made of high-grade aluminum alloy and stainless steel;
- Our frame holds ANY type of banner: raw edge, or existing banners with grommets, pole sockets or hemmed edges -any thickness banner;
- Will also hold rigid, but flexible substrates like solid plastic sheets or sheet metal signs. Will eliminate "waviness" and make signs perfectly "flat."
- Shipped in 60" to 80" sections (for larger frames) by UPS ground - for easy and fast assembly on-site.
- No minimums: 1 or 1,000. Any size made, sent in sections ! Made in USA -highest quality at the lowest costs.

Close up of mesh banner corner showing ugly pole pocket stretching hardware. Banner Grip can fix this.

Size above: 143" x 120". Banner Grip frames are the most attractive way to display a banner on a nice building.

Above: Typical loose and sloppy banner mount.

Banner Grip frame tightens banner, hides ugly edges and mounting hardware. Nice !

Any size made, 1 minimum !

Banner Grip frame dimensions

Outdoor or indoor use. Made of high grade aluminum alloy stainless steel and zinc plated components, no corrosion; super tough for a long life. Made in the U.S. by us.

Framing of the Mona Lisa

The original Mona Lisa is 30" tall x 20.875" wide. We obtained a high resolution photograph of the original. Maintaining the correct proportions, we enlarged the image to 136" tall x 96" wide. It was digitally printed on vinyl banner material, 4 color process, UV inks. Here we show how beautifully our frame can display this image, on the side of one of our factory buildings. See below.
