

# Mike Wyche, District 5

I'm formally asking my council to stop funding Flock Safety. As well as suspend, discontinue, and cancel any current or future plans with Flock Surveillance. I ask this over privacy concerns as a free citizen being tracked. A free citizen concerned that these cameras are densely put in Black neighborhoods. A free citizen concerned that my freedom of autonomy is constantly being data collected by a 3rd party company for its own interests. A free citizen who doesn't want to lose their freedom of privacy that many Ancestor's and soldiers died to give and protect. The Vice President of Flock Surveillance Bob Carter as well as employee Randy Gluck were found using Flock to watch children at MJCC in gymnastics class, the pool, the fitness aerobics room, and the preschool area. Children & Women were secretly watched by these men while they should of been safe. These two men were not the only ones to access the cameras. It's for these reasons and many more similar examples of misuse that I ask all funding for Flock stop. I appreciate you taking the time to read this, and grateful for taking this issue seriously. We are Virginian's as my Mom would tell you the only thing you should Flock to is the Lord. Let us not be lead as lambs to a slaughter.
