Comments

We welcome the idea of having a driveway installed at 3607 Moss Side. It will assist our neighbors with small children and enhance the overall property value of our community.

In addition, our residential street has a high volume of traffic (people and vehicles) and this will support VISION ZERO with fewer cars on the street obstructing the view of pedestrians and children as other cars rarely park on the street.

I am in full support for 3607 Moss Side Ave to install a circular driveway as we are next door neighbors to this upgrade.

Thank you in advance for approving this Special Permit.
