But beyond the plan, Richmond 300 is just the first step in realizing the vision so clearly outlined in this document. The critical next step is implementation, using all of the tools the City has at its disposal, the expertise of those that build the city, and the continued engagement of our stakeholders in realizing that long-term vision. It will take all of us to create a high-quality, livable, and inclusive city that *Richmond 300* establishes.

As we look to implement the plan, please stay involved and connected in the process as we will continue to need your voices.

Let's get started.

Mark A. Olinger  
Director, Dept. of Planning and  
Development Review

Rodney M. Poole  
Chair, City Planning Commission
