Thank you for the update! I oppose any regulation that does not require parking to be included in any development in the metro area. I'm in the Fan and parking is already a problem. Our parking permit system has helped but we are still getting more pressure because of the number of cars on the street. Developers should be required to provide a parking space for each and every unit they construct. I am Jim Green 804-901-1299.
