I have been working to make this city a safer, prettier, fun place to live. I started Save the Trash in 2006 to do litter rescues and make advances in recycling, finding uses for the materials we waste. I would hope that we could work together, pushing citizens toward making better decisions with our enormous waste stream. I have a passion for this city and want to make a difference in its future

I hold two Bachelors (BA in Music, BS in Business) from Florida State University and a Masters in Nonprofit Management and Arts Administration from the University of Kentucky. For the last 7 years I have worked in education management as a project manager across several operational areas. My work focuses on managing large, complex projects that require tact, expert communication, and a high level of detail-oriented organization. In those projects, I've worked and collaborated with public and private entities, government agencies, state authorizers, and directly with enrolled families - sometimes all concurrently.

In addition to my experience in education management, I also co-founded and co-ran the Green Vibes Project (GVP), a nonprofit whose focus surrounded sustainability in musical creation and performance. While with GVP, we utilized crowd funding and local grants to commission over 16 musical works. Additionally, I

While I have not served in another group in Richmond or elsewhere, my experience in nonprofit management and Board relations has given me experience in Robert's Rules of Order, compliance with regulations and rules, and a foundational understanding on public service.

Other Community Involvement:

After a quick weekend trip to look at houses, my husband and I decided to move to Richmond's Northside Hiland Park (District 3) in September 2022, after a host of moves across the U.S.. We were immediately drawn to the strength of the community here and chose to call this our home. Since then, I have performed with the Commonwealth Winds, volunteered with the local chapter of Classical Revolution for an Earth Day celebration, and joined the James River Association as a James Changer. I look forward to getting more involved!

PROFILE:

- Successful career of highly diversified environmental consulting experience assisting a broad range of public and private sector clients.
- Extensive history of completing environmental site and remediation assessments and preparing corresponding technical documents in accordance with applicable regulatory policies.
- A collaborative team member with proven management skills.
- Strong problem solving and research abilities with excellent written and oral communication skills.

EXPERIENCE:

Timmons Group - Richmond, VA

September 2022 – Present

Environmental Risk and Remediation Group Leader

- Established and grew the Environmental Risk and Remediation Group out of the overall Environmental Services practice as a self-sustaining marketable business unit.
- Group lead in providing due diligence, remediation planning, and NEPA services throughout the company to public and private sector clients for acquiring and (re)developing environmentally impaired properties nationwide, with focus on the Mid-Atlantic Region.
- Supervise junior staff of six employees between two offices and provide mentorship in developing site strategies and preparing deliverables; serve as final QA/QC of deliverables to ensure reporting consistency and the minimization of corporate and client liability.
- Develop annual strategic business plan, establish operating budget, oversee monthly invoicing, track individual project costs, and ensure appropriate levels of staff utilization to achieve targeted corporate goals.

Timmons Group - Richmond, VA

November 2006 – September 2022

Senior Project Manager

- Collaborated with senior corporate staff while directly interacting with clients and regulators to address perceived and realized environmental risks throughout project implementation and offer real time mitigation solutions, in accordance with federal/state/local environmental regulations to maintain project schedules.
- Developed, executed, and documented environmental strategies to address risk concerns to human health and/or the environment associated with commercial and residential projects and interacted with clients and their lawyers in joint communications with lenders and third-party consultants to satisfy liability concerns.
- Facilitated a successful release of EPA brownfield funding for Stone Brewing's East Coast facility by supervising, coordinating, and preparing a series of due diligence investigations in accordance with ASTM standards and EPA brownfield protocols. The results of investigation identified a need for incorporating engineering controls into the building design to mitigate potential environmental hazards.
- Prepared a Documented Categorical Exclusion (DCE) in accordance with NEPA policies, on behalf of the City of Richmond, in support of the proposed rehabilitation of Main Street Station as a multimodal transportation center. Following completion, the DCE was submitted to the U.S. Department of Transportation – Federal Transit Administration for review and consideration which resulted in the successful release of funds.
- Authored a NEPA Environmental Assessment (EA) for the relocation of the off-post NEXCOM service station onto the Pentagon Reservation. The conclusions of the EA identified potential conflicts with National Capital Planning Commission policies which resulted in the “no-build” alternative being exercised.
- Under contract with AECOM, served as a team member tasked with co-authoring a NEPA EA to complement the revised Pentagon Master Plan, in which potential environmental impacts and appropriate mitigation measures associated with proposed construction projects were presented and evaluated.
- Led a project team and was the principal author of a NEPA EA to support the construction of the Virginia Public Safety Memorial on Capitol Square in Richmond, Virginia. The EA was submitted through the Office of the Virginia Attorney General to the U.S. Treasury Department for review which yielded a concurrence in the finding of no significant impact and the triggering of a release of funds.
- Co-authored an EA for the construction of a regional hospital per the regional master plan for which construction funding was directed from the U.S. Department of Agriculture through Mecklenburg County, Virginia.

- Sole author an EA for acreage within and for the City of Hopewell in association with a property exchange with the National Park Service. The report was completed in accordance with the NPS DO-12 Handbook per CEQ Regulations (Part 1502) in compliance with NEPA requirements. The EA resulted in the completion of the land exchange.

ECS Mid-Atlantic, LLC - Richmond, VA
Senior Project Geologist

March 2005 – November 2006

- Interfaced with clients to complete due diligence assessments for property transactions. Responsibilities included preparing proposals, completing site inspections, collecting soil and groundwater samples, and preparing technical reports.
- Conducted site inspections and prepared Spill Prevention Control and Countermeasures Plans and Virginia DEQ Oil Discharge Contingency Plans for clients maintaining bulk fuel storage facilities.
- Conducted wastewater sampling events and prepared corresponding reports for Industrial User Pretreatment Permits.
- Conducted geologic/hydrogeologic analysis for commercial development projects to evaluate potential site planning conflicts with the underlying conditions and thereafter monitor the effects of construction.

IMS Environmental Services – Washington, DC/Fredericksburg, VA
Account Manager/Project Manager

August 1998 – March 2005

- Served as the primary contact with regional ExxonMobil Corporation representatives to develop and implement site specific remediation workplans and strategies in accordance with local, state and/or federal regulations.
- Prepared, negotiated, and managed operating budgets for ExxonMobil account of up to \$1MM annually while maintaining and updating a financial database to track budgetary spending and project future costs. Supervised and adjusted budgetary spending for the purpose of meeting annual/lifecycle budgetary targets.
- Supervised a staff of ten junior professionals in establishing goals for completing time sensitive and project specific worksopes at UST sites; developed and ensured the maintenance of standards for deliverables.
- Managed an individual caseload of UST projects and conducted regulatory driven environmental investigations; served as the primary contact with regulatory case managers.

IMS Environmental Services - Chesapeake, VA
Account Manager/Project Manager

September 1991 – August 1998

- Served as the account manager at and throughout the beginning of a partnership with ExxonMobil Corporation.
- Supervised the financial and workscope transition of over one hundred groundwater remediation projects from previous consultants with combined budgets totaling approximately \$2.5MM; remained the principal client contact.
- Supervised the introduction of IMS into additional ExxonMobil service markets including site assessments for property acquisition, divestments, and environmental service support for ExxonMobil construction projects.

I am enthusiastic about the transparency that this public utility commission will bring to utility operations. As a member of Beyond Methane RVA, I have spent over a hundred hours reviewing Richmond's DPU gas utility budgets, planning documents, as well as city codes and state municipal utility legislation.

I am also part of DPU's Public Stakeholder Group. We have been educated on the scope of the problem of the city's combined sewer system that dumps wastewater into the James River. We have also regularly reviewed proposed engineering solutions to this problem.

My background in local planning is one of the strengths I can bring to this utility commission. I reviewed large commercial and residential projects and made recommendations in presentations to the planning commission and elected board in a fast growing locality. This work required coordinating review with several departments, including utilities. After outreach and research, I wrote the community's housing element of its comprehensive plan.

I gained considerable experience staffing committees of stakeholders from across the region on environmental and transportation issues (including a meeting of local utilities considerin

I have lived in Richmond as a homeowner for almost two months now. As soon as I saw this Commission was being created I had to apply. My professional experience revolves around infrastructure issues and I find great interest in them. I want to be a part of this Commission because I have a drive for public service, some knowledge as to the issues the City is facing and as a 26 year old City homeowner, I believe I can bring a unique perspective to the Commission. The creation of this Commission is a good thing as the hard working people in this city deserve quality, reliable utilities that allow them to thrive in this marvelous place.

Please List Your Educational Background and/or Other Expertise or Qualifications You Will Bring to This Authority, Board, Commission or Task Force:

I am semi-retired, still working part-time as a project manager. But most importantly, I am a concerned citizen very interested in our public works. Despite having lived in Richmond for only 1 year, I have already been through the Citizens Academy with DPU because I wanted to better understand how all of the systems worked. My initial experiences with DPU were not good ones and I wanted to see the inner workings. I feel there is a great deal that can be done to create a better system.

I am a researcher, data analyst, and technology expert with extensive experience in clean energy and utilities. In addition to analyzing data and managing teams at Freddie Mac, Microsoft, and UnitedHealth Group, I have five years experience working with utilities at Opower, an energy efficiency company that works directly with utilities. At Opower I measured the effectiveness of our programs, built tools to show users how they use energy, and conducted research on energy use that led to the award of several patents. I am familiar with how utilities operate, the challenges they face, and how they can innovate to meet new regulatory and market opportunities.

I currently work for Rewiring America, a national nonprofit focused on helping homeowners, renters, and businesses understand the costs and risks of continued fossil fuel use and the benefits of switching to clean,

Kevin Cianfarini is a climate and environmental advocate looking to make positive change for customers of Richmond's Department of Public Utilities. He currently works for a renewable energy utility, Octopus Energy, as a software engineer with a degree in Computer Science from Virginia Tech. Octopus Energy does business in Texas, Europe, Japan, Australia, and New Zealand. He is passionate about clean energy and facilitating a just energy transition.

Customers are the focal point of Kevin's work with Octopus Energy. He routinely undertakes projects intended to communicate energy and pricing to customers more effectively, and strives for transparency in doing so. Kevin's choice to work with Octopus Energy hinged on their commitment to the clean transition. He currently works to support customers that purchase natural gas through Octopus Energy, though explicitly intends to reduce their gas consumption or terminate their gas connection altogether with the help of various clean energy initiatives led by Octopus Energy.

In his personal time, Kevin works with the Sierra Club, Beyond Methane RVA, and Electrify RVA to educate the Richmond community about the financial, climate, and safety dangers of our natural gas distribution system. He has walked many streets of Richmond looking for and reporting gas leaks using specialized methane detecting equipment. He has educated the community members in close proximity to those leaks by handing out pamphlets and answering questions. Additionally, Kevin has presented at civic association meetings about 'Richmond's Methane Problem' in an effort to raise awareness about this issue.

Additionally, Kevin has researched Richmond's gas utility and published guest columns in the local news.

Kevin has also been interviewed in multiple pieces related to Richmond Gas Works:

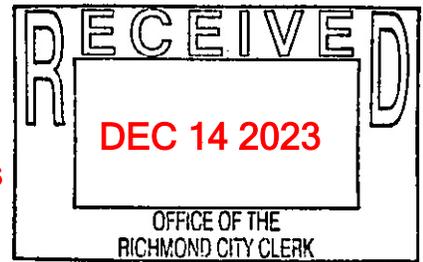

- <https://www.vpm.org/news/2023-11-14/public-utilities-services-commission-oversight-richmond-city-council>
- https://richmond.com/news/local/climate-richmond-gas-methane-leaks/article_3e47a766-f0c8-11ed-8262-236e52f13eac.html

Kevin helped advocate for the PUSC and is now interested in becoming a commissioner. His passion for clean energy and research into Richmond Gas Works makes him the perfect candidate to "increase public engagement", "create transparency", "ensure the fiscal integrity" and "facilitate the transition of the gas utility in accordance with the City's climate and ecological emergency declaration" in accordance with ORD. 2023-315.

My educational background and professional experience makes me strong candidate for the new Public Utilities and Services Commission. I was employed by Henrico County's Department of Community Revitalization and Planning Department from 2008 until 2013. I gained valuable local government experience during the five years I was employed by Henrico County. I joined the James River Association, a local 501(c)(3) nonprofit organization, in 2013 and have over ten years of employment with the organization. As the James River Association's Director of Community Conservation, I promote conservation and responsible stewardship of our natural resources across the James River basin. I am knowledgeable in natural resources issues and have experience managing gray and green infrastructure projects that manage stormwater in the City of Richmond and other localities. I have professional relationships with Department of Public Utilities staff members and have been supporting the city in its efforts to manage stormwater and improve its combined sewer system.
