

Unity Street Project: Martin Luther King Jr. Bridge Project 2

Unity Street Project creates opportunities for youths in Richmond City to participate in artistic endeavors that promote social change in their communities. In this way, the Unity Street Project teaches students the importance of caring for their neighborhood, and empowers these students to bring more equity into their communities. Unity Street Project is partnering with Parks and Recreation in creating a mural on the east end of the MLK Bridge. This mural would serve to honor Dr. Martin Luther King, Jr. and the MLK Middle school (Titans). This mural was designed by the Schools art Club during a 3 week session lead by lead Artist Hamilton Glass and James thorn Hill
