

!! Save Byrd Park's Historic Shields Grove !!

We, the undersigned, respectfully petition the Maymont Park Foundation, the Urban Design Committee, and the City Planning Commissioners to preserve the green space known as Shields Grove in Byrd Park near Hampton St & Colorado Ave. This wooded area, acquired by the City of Richmond in 1888, has been left mainly undisturbed since that time. This irreplaceable legacy, including one of the last remaining scenic views of Maymont Park, is being threatened by a plan to build two 100' long maintenance and horticultural buildings, a diesel and gas fueling station, and paved roads, along the border between these two beautiful and historic city parks. We ask that the plans for this short-sighted development be discontinued immediately and that this scenic view of Maymont Park and the natural heritage of Byrd Park be preserved for generations to come.
