**FISCAL IMPACT:** Administration is already in the process of procuring and adopting a new Freedom of Information Act (FOIA) software. This ordinance is meant to codify its existence and so should not incur additional expenses above those already budgeted. That said, administration estimates total annual cost of \$300,000 to \$350,000 plus ongoing data storage costs for this legislation. Please see attached FIS memo for more detail.

**DESIRED EFFECTIVE DATE:** Upon adoption

**CITY COUNCIL PUBLIC HEARING DATE:** September 24, 2025

**REQUESTED AGENDA:** Consent

**RECOMMENDED COUNCIL COMMITTEE:** Government Operations Standing Committee

# Fiscal Impact Statement

**Total annual cost: \$300,000 – \$350,000 plus ongoing data storage costs**

**Technology Infrastructure: Ongoing and increasing as the amount of data increases.**

- There is the potential for significant quantity of hosted data over time. Making this data available — in perpetuity — in a secure, resilient environment will require an expansion of the City's current capabilities.

**Staffing Requirements: \$300,000-\$350,000**

- Three FTE positions needed minimum (three FOIA Librarians). FOIA Librarians review each proposed response for potential disclosure of sensitive or personally identifiable information.
- Potential FOIA Officers overtime costs.

**Revenue Impact:** Minimal positive offset from fees associated with the additional expected FOIA requests.

**Context:**

- Current FOIA volume: The city processes approximately 5,500 requests annually.
- Each request requires an estimated 0.5 and 1 hour of additional processing for web publication.
- Risk mitigation costs for potential inadvertent disclosure claims have not been quantified.
