Artistic Excellence: 12, Enhances garden's aesthetic experience: 7, Number of functional needs incorporated: 2, Budget completeness and accuracy: 10, Installation plan completeness and appropriateness: 10, Easy and cost-effective maintenance: 4, Community engagement plan: 19, Tool shed security plans: 5

"1.tool storage
2.lighting
Proposal seems strong functionally. Also seems big enough to draw attention to the garden"

Artistic Excellence: 7, Enhances garden's aesthetic experience: 4, Number of functional needs incorporated: 5, Budget completeness and accuracy: 6, Installation plan completeness and appropriateness: 5, Easy and cost-effective maintenance: 4, Community engagement plan: 7, Tool shed security plans: 5

"Solar will only be able to power cordless tools. What is the shipping container sitting on? Do they rust and leak into soil? Would be cool to have a maintenance plan or an indication of what to do for damage to the mural."

Artistic Excellence: 25, Enhances garden's aesthetic experience: 10, Number of functional needs incorporated: 10, Budget completeness and accuracy: 10, Installation plan completeness and appropriateness: 10, Easy and cost-effective maintenance: 5, Community engagement plan: 25, Tool shed security plans: 5

"All City Art Club already has a relationship with Broad rock Community garden having installed a mural there before. The concept is simple and effective and meets the needs of the space immediately."

Artistic Excellence: 15, Enhances garden's aesthetic experience: 10, Number of functional needs incorporated: 10, Budget completeness and accuracy: 5, Installation plan completeness and appropriateness: 5, Easy and cost-effective maintenance: 5, Community engagement plan: 15, Tool shed security plans: 5

"There is something appealing about the directness and simplicity of this proposal. Given that it's been prototyped at Sankofa Community Orchard, the project scope and budget is probably reliable and realistic. I wish there were more process details about the community engagement plan. I can easily imagine this storage solution fitting in well and appropriate at Gilpin."

"Favored artist by Broad Rock gardeners"

Community Garden Finalists

1. List your first, second and third choice for the garden you would prefer to work with.

1st: Broad Rock at 404 E Broad Rock Road
2nd: Charles S. Gilpin at 1420 St Peter Street
3rd: Alice Fitz at 1301 Perry Street

2. Describe your project.

A shipping container to serve as a storage unit for tools & materials for the garden. The container will be equipped with solar panels to provide a power source for tools, since there is no electrical source present. The container will also have murals painted on it to increase aesthetic appearance of the garden overall.

3. Describe your strategy for engaging the public.

We will collaborate with garden organizers about the design for the container murals and seek community volunteers to help with the installation process.

4. Attach a detailed budget, not to exceed \$30,000.

File Uploaded
20.2 KB

5. How do you plan to ensure the security of the tool shed component?

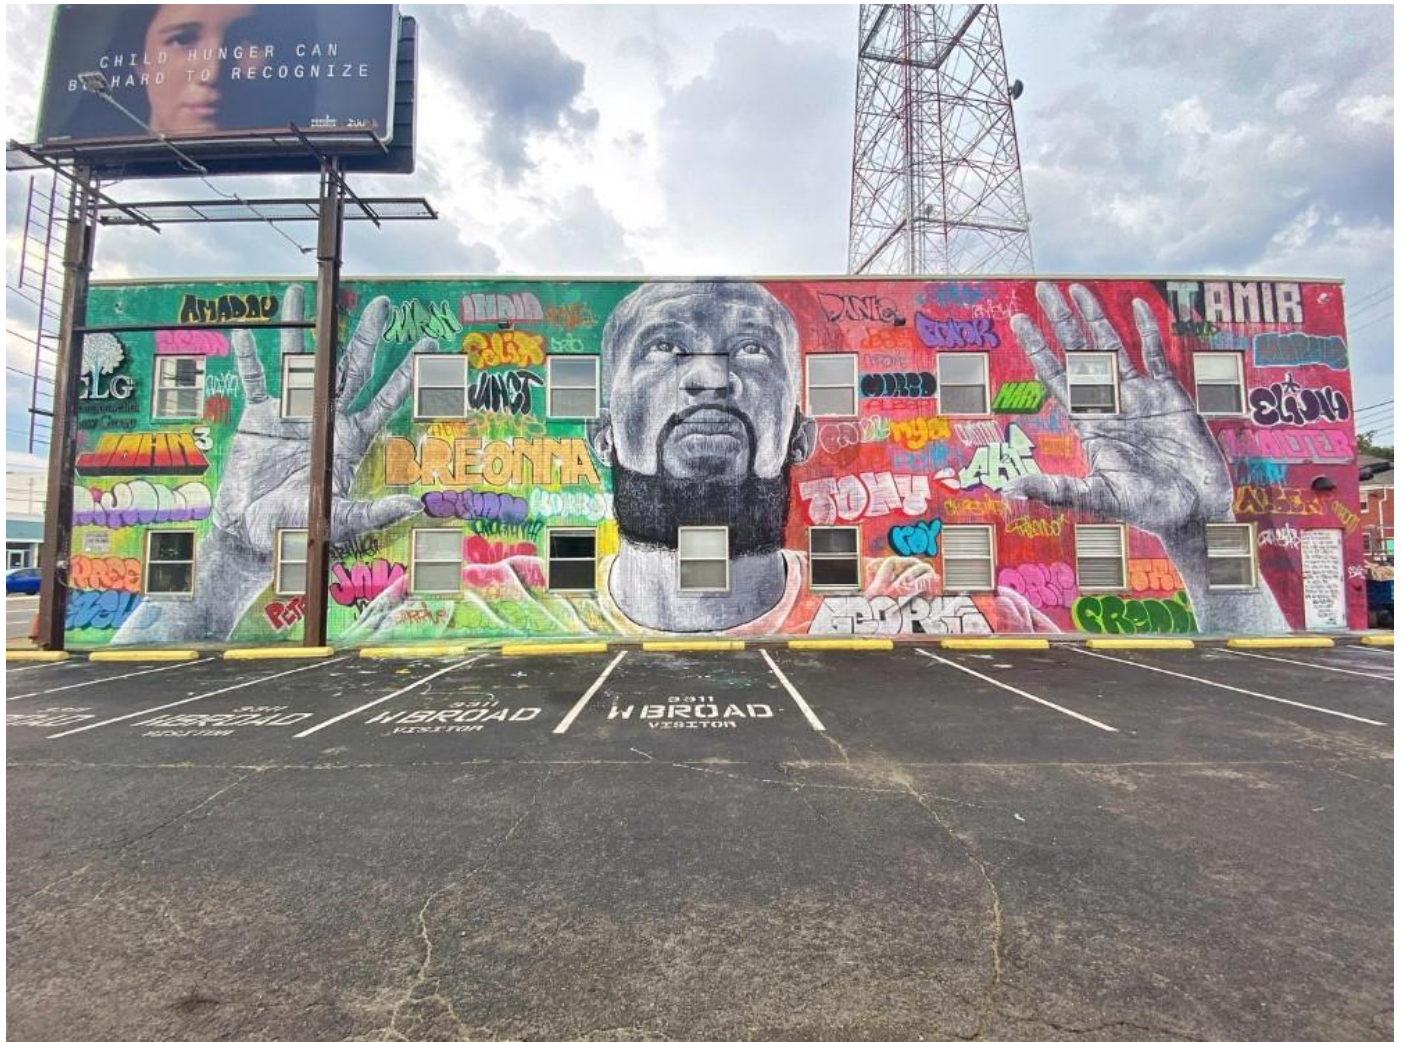

Locks, with keys given to community organization leaders

6. Describe your installation plan.

Shipping container will be delivered to site and stationed. Solar panel kit and lights will be installed by a technician. A ramp for accessibility will be built for the container. After installation is complete, artists will execute artwork on the container.

7. Describe anticipated maintenance requirements.

Installation should not require any maintenance from the City.
