

December 1, 2023

Greetings Councilwoman Robertson,

We the residents (neighbors) of the South Barton Heights Community are petitioning to have speed humps installed in the 1600 and 1800 blocks of Monteiro Street. This petition serves as a request for an ordinance to be written by you to facilitate this request.

For over 20 years, our community has experienced several vehicle crashes that have resulted in the loss of vehicles (parked) and extensive property damage. The last vehicle crash happened two years ago when a homeowner's porch was completely demolished and then 9 months later another the same home was impacted again demolishing their brick pillars to the walkway entrance.

Last December 2022, you, the City of Richmond DPU, and Police officials met with our community to address our concern about the speeding issue. We were to meet again in January 2023 to discuss the findings and recommendations, but that meeting never happen. Here it is a year later, and we have not been updated on the City's findings or recommendations to make our community feel safe.

We believe the humps will encourage drivers to drive the posted speed limit as they approach the curve off First Street bridge. We believe the humps would give our community a feeling of comfort/peace to enjoy sitting on our porches and feelings of safety for our children and grandchildren to play in their yards and crossing the street to wait for the school bus.

We humbly ask you to adhere to our request.

Sincerely,

Marilynn Joyner, Resident
1609 Monteiro Street
Richmond, Virginia 23222

We the Neighbors/Residents of 1600-1800 Monteiro Street, hereby petition the City of Richmond to install a minimum of two speed humps along the Monteiro Street corridor.

We believe this will encourage drivers to drive at the safe posted speed limit. Also, we hope to be able to enjoy the comfort of sitting on our porch watching our children and grandchildren play.
